ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

For the purposes of Section 13 of the Southwestern Bell Telephone Access Tariff P.S.C. Mo.-No. 36 the terms "Basic Time", "Overtime" and "Premium Time" are defined as follows:

Basic Time - Work related efforts of the Telephone Company performed during normal business day, 8:00 a.m. – 5:00 p.m., Monday through Friday.

Overtime - Work related efforts of the Telephone Company performed outside of a normal business day (Monday through Friday), and on Saturdays.

Premium Time - Work related efforts of the Telephone Company performed on Sundays and/or holidays (i.e., New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving Day and Christmas Day)

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- A. A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.4 and 7.1.6, preceding.
- B. Additional engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service as set forth in 7.2, preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken.

If more than one engineer is involved in the same additional engineering project, the total amount of time for all engineers involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

13.1.1 Charges for Additional Engineering

The charges for additional engineering are as follows:

**P.S.C. Mo. - No. 36

<u>Additional Engineering Periods</u>	<u>USOC</u>	<u>First Half Hour or Fraction Thereof</u>	<u>Each Additional Half Hour or Fraction Thereof</u>
Basic Time, per engineer	AEH	\$75.99	\$21.40
Overtime, per engineer	AEH	79.33	74.24

13.2 Additional Labor

Additional Labor is that labor requested by the customer on a given service and agreed to by the Telephone Company.

The Telephone Company will notify the customer that Additional Labor Charges will apply before any additional labor is undertaken. Additional Labor Charges apply on a first and additional basis for each half hour or fraction thereof. If more than one technician is involved in the same Additional Labor Project, the total amount of time for all technicians involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

A call-out of a Telephone Company employee for Additional Labor at a time not consecutive with the Telephone Company's Business Day is subject to a minimum charge of four hours, i.e., when Overtime and/or Premium Time charges apply.

For Testing and Maintenance Services, if the customer elects not to release a circuit during the Telephone Company's Business Day, the Telephone Company will work with the customer to reach a mutually agreed upon time.

13.2.3 Stand By

Stand by includes all time in excess of one-half (1/2) hour during which Telephone Company personnel stand by to make installation acceptance tests or cooperative tests with an IC to verify facility repair on a given service.

13.2.4 Testing and Maintenance with Other Telephone Companies

Additional testing, maintenance or repair of facilities which connect to facilities of other telephone companies, which is in addition to normal effort required to test, maintain or repair facilities provided solely by the Telephone Company.

13.2.5 Other Labor

Other labor is that additional labor not included in Paragraphs 13.2.1 through 13.2.4, preceding including, but not limited to labor incurred to extend the Point of Termination as set forth in 2.1.4, preceding, and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other section of this tariff.

13.2.6 Charges for Additional Labor

If more than one technician is involved in the same additional labor project, the total amount of time for all technicians involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

13.3.1 Customer Owned Equipment Trouble Isolation Charge

- A. When a customer reports trouble to the Telephone Company for clearance and no trouble is found in the Telephone Company's facilities, the customer shall be responsible for payment of a Customer Owned Equipment Trouble Isolation Charge for the period of time from when Telephone Company personnel are dispatched to the customer's premises to when the work is completed. Failure of Telephone Company personnel to find trouble in Telephone Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.
- B. The customer shall be responsible for payment of a Customer Owned Equipment Trouble Isolation Charge when the Telephone Company dispatches personnel to the customer's premises, and the trouble is in equipment or communications systems provided by other than the Telephone Company or in detariffed CPE provided by the Telephone Company.

In either Paragraphs 13.3.1., A or B preceding, the Customer Owned Equipment Trouble Isolation Charge includes all personnel dispatched, including technicians dispatched to another location(s), when necessary for the purpose of testing with a technician(s) dispatched to the customer's premises.

The charges for Maintenance of Service are deregulated. Terms and conditions are located in the AT&T Interstate Access Guidebook.

13.3.2 Restoration Priority(2)

(2) Restoration Priority has been superseded by Telecommunications Service Priority (TSP) System as set forth in Section 10, Paragraph 10.7.1, C., preceding. Prior to March 10, 1993, RP and TSP will both be in effect, but no new assignments of RP will be allowed. The existing RP services will be honored and maintained during the interim period between the Initial Operating Capability (IOC) and Full Operating Capability (FOC) of TSP. No order for changes to existing RP circuits will be accepted without a TSP Authorization Code or a definitive statement to remove the RP assignment. On March 10, 1993, the Telephone Company will remove all RP assignments that have not been converted to TSP or discontinued free of charge.

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.3 Easy Access Dialing

A. GENERAL DESCRIPTION

Easy Access Dialing is an arrangement whereby an end user customer (herein referred to as customer) of the Telephone Company or a local service provider that resells services of the Telephone Company for Telephone Exchange Service (either lines or trunks), FGA and BSA-A lines, WATS Access Lines and Plexar lines may select and designate to the Telephone Company an Interexchange Carrier (IC) to access, without dialing an access code. These are referred to as the customer's Primary Interexchange Carrier (PIC) for interLATA toll calls and the intraLATA Primary Interexchange Carrier (LPIC) for intraLATA toll calls. The customer may designate an IC for PIC and a different IC for LPIC.

The end user or customer is identified as the person on the account who is responsible for payment of the account or any person contractually or otherwise lawfully authorized to change telecommunications services and/or represent the end user customer.

Each IC will have one or more access codes assigned to it for its various types of service. When a customer or agent selects an IC as its PIC and/or LPIC, only one access code of that IC may be incorporated into the switching system of the Telephone Company permitting access to that IC by the customer or agent without dialing an access code except "1+" or "0+".

Should a customer or agent wish to use other services of the same IC or services of a different IC it will be necessary for the customer or agent to dial the necessary access code(s) to reach that IC's other service(s).

At the time a customer or agent advises the Telephone Company of its PIC and/or LPIC, the Telephone Company will use the IC access code for that IC from the designated carrier list unless the customer at that time directs the Telephone Company to use a different IC access code assigned to the customer's chosen IC. The PIC and LPIC may either be the same IC or a different IC.

Interstate intraLATA toll calls, service between points in different states which are in the same Local Access and Transport Area, will be routed to the LPIC selected by the customer.

ACCESS SERVICES

13. Additional Engineering, Additional Labor And Miscellaneous Services (Continued)

13.3 Miscellaneous Services (Continued)

13.3.3 Easy Access Dialing (Continued)

B. LPIC Assignments

The Telephone Company will make changes in the customer's LPIC assignment pursuant to (1) through (2) following:

1. New Service Requests

New customers will be asked to select a LPIC when they place an order with the Telephone Company for Telephone Exchange Service, FGA, BSA-A, WATS Access Line Service and Plexar Service. LPIC selection made when such orders are placed will incur no additional charges.

For Telephone Exchange service, FGA, BSA-A, and WATS Access Line Service, customers may select a separate LPIC for each line requested.

For Plexar service, customers may select their LPIC for a single Plexar line, multiple Plexar Lines or the Plexar Group. A Plexar Group defines a group of Plexar facilities (i.e., line, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Plexar Groups.

If a new customer fails to make a selection when placing an order for Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service or Plexar Service, the customer will be allowed a six month period from installation of their service to select a LPIC at no charge. Any changes made after the six month period has expired or any change subsequent to the initial LPIC selection during the six month period will incur Easy Access Dialing Change charges as set forth in Section 13.3.3.D following, specific to the line or lines being changed.(1)

(1) The six (6) month period allowing a customer's selection of a LPIC at no charge will be available until January 31, 2007

ACCESS SERVICES

13. Additional Engineering, Additional Labor And Miscellaneous Services (Continued)

13.3 Miscellaneous Services (Continued)

13.3.3 Easy Access Dialing (Continued)

B. LPIC Assignments (Continued)

1. New Service Requests (Cont'd)

New customers may also designate that they do not want a LPIC. This choice (No-LPIC) is considered a valid LPIC selection. Any subsequent changes will incur Easy Access Dialing Change charges as set forth in Section 13.3.3.D following, specific to the line or lines being changed.

On all requests for new service, the Telephone Company will notify the customer of the LPIC assigned to the relevant line(s).

2. Existing Service Requests

- a. Customers of existing Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service and Plexar Service may request changes to their LPIC according to the selection options set forth in B., 1., preceding (e.g., separate LPIC and No-LPIC). For these services, the Telephone Company will make LPIC changes based upon the following:

1. For customer initiated requests, the Telephone Company will make LPIC changes upon notification by the customer of the change desired.
2. For IC initiated changes of customer LPIC assignments, the Telephone Company will make LPIC changes pursuant to an IC-provided list of customers accepted by the Telephone Company under a Limited Blanket Agency Agreement. When an IC relies on a Letter of Authorization (LOA) to make a change it must obtain from the customer a signed LOA authorizing the change. LOAs or other valid forms of authorization based on Missouri and/or Federal regulations must not be more than 45 days old when such changes are submitted to the Telephone Company.

ACCESS SERVICES

13.3 Miscellaneous Services-(Continued)

13.3.3 Easy Access Dialing-(Continued)

C. Rate Regulation

1. Unless otherwise specified, Easy Access Dialing Change charges apply to each LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and Plexar lines, including changes to or from a No-LPIC designation.

Easy Access Dialing LPIC Change charges are set forth in Section 13.3.3.D following.

2. A non-recurring charge, as set forth in 13.3.3.D following, to process a change in LPIC applies as follows:
 - (a) A nonrecurring charge applies when the request to change LPIC is submitted through mechanized methods.
 - (b) A nonrecurring charge applies when the request to change LPIC is submitted through manual methods.

As used above, manual methods are (i) personal interaction between a customer, or a person acting on behalf of a customer, and a Telephone Company employee; and (ii) any written submission from a customer, or a person acting on behalf of a customer, to a Telephone Company service center. Mechanized methods shall include all other methods. If a request utilizing a mechanized method results in manual processing, the mechanized nonrecurring charge shall apply upon completion of the request.

13.3 Miscellaneous Services-(Continued)

13.3.3 Easy Access Dialing-(Continued)

C. Rate Regulations-(Continued)

3. Telephone Exchange Service lines, FGA and BSA-A lines, and WATS Access lines

For a single LPIC change, the per LPIC change charge applies. For multiple LPIC changes for a single end user customer requested on a single order, the per LPIC change charge applies to the first LPIC changed and the per supplemental change charge applies to each additional LPIC change. For LPIC changes on multiple access lines on a single order, the per LPIC change charge for a single end user customer applies to the first LPIC changed and the per supplemental change charge applies to each additional LPIC.

4. Plexar lines and Plexar Groups

Easy Access Dialing Change charges are applied for each LPIC change on a per LPIC, per supplemental LPIC, per group and per additional group basis.

For a LPIC change to a single Plexar line, the per LPIC change charge applies. For LPIC changes to multiple Plexar lines on a single order, the per LPIC change charge applies to the first LPIC changed and the supplemental LPIC change charge applies to each additional LPIC changed.

For LPIC changes to a Plexar Group, the per group change charge and the per supplemental group supplemental line change charge apply as follows:

- a. For LPIC changes on only one Plexar Group, the per group change charge applies as well as the per group supplemental line change charge for each line in the Plexar Group that does not have an individual LPIC assigned to it.
- b. When a LPIC changes for multiple Plexar Groups, the per group change charge applies to each group changed and the per group supplemental line change charge applies to each line in the Plexar Group that does not have an individual LPIC assigned to it.

5. Pay Telephone SmartCoinSM Access Lines

If the customer's LPIC elects not to submit an order for its 1+ intraLATA sent paid traffic from SmartCoin Access Lines or fails to select a designated subcontractor (secondary service provider) for such traffic, the 1+ intraLATA carrier sent paid traffic will be routed to the existing default 1+ intraLATA carrier (provided such carrier continues to accept the traffic) until the customers' LPIC is ready to handle the 1+ intraLATA sent paid traffic, or makes arrangements with another IC to handle the traffic, as set forth in Section 21 Coin Services, following.

6. Discontinuance of FGD or BSA-D Service

If an IC discontinues its FGD or BSA-D service in an end office, Easy Access Dialing Change charges as set forth in Section 13.3.3.D following, will apply to the IC discontinuing the FGD or BSA-D service. These charges will be assessed to the IC for each end user that is presubscribed to that IC.

The IC must contact in writing all affected customers for whom it serves as their LPIC. The IC must notify these customers that they must select a new LPIC and the IC will pay all related Easy Access Dialing Change Charges.

7. LPIC Disputes

The alleged unauthorized carrier will be billed the appropriate Easy Access Dialing Change Charge(s) for the alleged unauthorized change and the appropriate Easy Access Dialing Change Charge(s) to change the customer to their preferred IC. For multiple alleged unauthorized LPIC changes, supplemental charges, as set forth in Section 13.3.3.D following will apply.

ACCESS SERVICES

(Continued)**

13.3 Miscellaneous Services-(Continued)

13.3.3 Easy Access Dialing-(Continued)

C. Rate Regulations-(Continued)

9. Interexchange Carrier Pays Billing Option

The Interexchange Carrier Pays (IC Pays) Billing Option is an option that permits an IC to be charged by the Company for their end user's LPIC change charge when the Company changes an end user's IC assignment.

The LPIC change may either be requested via an IC provided end user or agent list submitted in the Customer Account Record Exchange format (IC Pays – Carrier Initiated) or by the end user customer directly to the Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the LPIC change charge on a case-by-case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all end user LPIC changes to the IC's CIC (and at the IC's option, changes from the IC's CIC to "No LPIC") initiated through the Telephone Company will be redirected to the IC.

The IC submitting the LPIC change must sign an IC Pays Billing Option agreement with the Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the charge for the LPIC change. The IC participating in the IC Pays Billing Option will be charged the change charge as set forth in Section 13.3.3(D) following.

13.3.4 Standard Jacks - Registration Program

Registered jacks are provided by the Telephone Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. Registered jacks are used to terminate services provided by the Telephone Company. For each service provided by the Telephone Company, a specific registered jack has been selected as the standard for the service. This jack will be provided and installed at no additional charge. Other services or facilities, provided either by the Telephone Company or by others, may also be terminated in any spare capacity of the standard jack. There is no charge for the use of spare capacity of the jack.

The customer may procure an additional jack (or jacks) from either the Telephone Company or another vendor for installation on the customer's side of the demarcation point.

The use of Jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the F.C.C. entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations described in Subpart F of Part 68 of the F.C.C.'s Rules and Regulations".

13.3.5 Testing Services

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.5, C., following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in Paragraphs 6.1.4 and 7.1.7, preceding.

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in 13.3.5, A.5 and B.2, following for a customer to request Telephone Company personnel to perform testing services at the IC terminal location or End User's premises.

The offering of Testing Services under this section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in Paragraphs 13.3.5, A., B. and C., following:

A. Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which performed during the installation of a Switched Access Service and (b) tests which are performed after acceptance of such access services by an IC, i.e., inservice tests. These inservice tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (no

Telephone Company or IC technicians involved), on a cooperative basis [Telephone Company technician(s) involved at Telephone Company office(s) and IC technician(s) involved at IC terminal location(s)], or a manual basis [Telephone Company technician(s) involved at Telephone Company office(s) and at IC terminal location(s)].

Nonscheduled tests are performed by the Telephone Company "on demand," which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at the Telephone Company offices and at the IC's terminal location.

1. Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s), and the IC provides a technician at its terminal location(s) with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for an example, consist of the following tests:

- Impulse Noise
- Phase Jitter
- Signal to C-Notched Noise Ratio
- Intermodulation (Nonlinear) Distortion
- Frequency Shift (Offset)
- Envelope Delay Distortion
- Dial Pulse Percent Break

A. Switched Access Service-(Continued)

2. Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of Switched Access Services (FGB, FGD, BSA-B and BSA-D), where the IC provides remote office test lines and 105 test lines with associated responders or their functional equivalent, will consist of monthly loss and C-message noise tests and annual balance test. However, the IC may specify a more frequent schedule of tests. In addition to the loss/noise/balance tests, the IC may also order, at additional charges, gain-slope and C-notched noise testing.

The Telephone Company will provide a monthly AST report that lists the test results from each trunk tested. Trunk test failures requiring IC participation for trouble resolution will be provided to the IC on an as-occurs basis.

3. Cooperative Scheduled Testing

Cooperative Scheduled Testing (CST) of Switched Access Services (FGB, FGD, BSA-B, BSA-D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s), and the IC provides a technician at its terminal location(s) or with suitable test equipment to perform the required tests, will consist of quarterly loss and C-message noise tests and annual balance tests. However, the IC may specify a more frequent schedule of tests. In addition to the loss/noise/balance measurements, the IC may also order, at additional charges, gain-slope and C-notched noise testing.

The Telephone Company will provide, on a quarterly basis, a CST report that lists the test results for each trunk tested. Trunk test failures requiring IC participation for trouble resolution will be provided to the IC on an as-occurs basis.

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.5 Testing Services-(Continued)

A. Switched Access Service-(Continued)

5. Nonscheduled Testing

Nonscheduled Testing (NST) of Switched Access Services is where:

- the IC provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or
- the Telephone Company provides a technician at its office(s), and the IC provides a technician at its terminal location(s) with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s), at IC terminal location(s) or End User's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled tests may consist of any tests, e.g., loss, noise, slope and envelope delay which the IC may require.

6. Obligations of the IC

- a. The IC shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in Paragraph 13.3.5, A.2., preceding, or NST as set forth in Paragraph 13.3.5, A.5., preceding.
- b. The IC shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.5 Testing Services-(Continued)

B. Special Access Service

The Telephone Company will, at the request of an IC, provide assistance in performing specific tests requested by the IC.

1. Additional Cooperative Acceptance Testing (ACAT)

When an IC provides a technician at its terminal location or at the End User's premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Acceptance Testing. At the IC's request, the Telephone Company will provide a technician at the IC terminal location or at the End User's premises. These tests may, e.g., consist of the following:

- VG1 through VG5: Attenuation Distortion,
C-Message Noise and Echo Control
- VG6 through VG12: Attenuation
Distortion, C-Message Noise, Echo
Control, Impulse Noise, Phase Jitter,
Intermodulation Distortion, Envelope
Delay Distortion and Frequency Shift.

2. Nonscheduled Testing (NST)

When an IC provides a technician at its terminal location or at the End User's premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the IC's request, the Telephone Company will provide a technician at the IC terminal location or at the End User's premises. Nonscheduled tests may consist of any tests, e.g., loss, noise, slope and envelope delay which the IC may require.

13.3.6 Provision of Access Service Billing Information

- A. The customer will receive its monthly bills in a standard paper format or if requested by the customer, on magnetic tape in lieu of paper. Once billing has begun, the Company will accept subsequent customer requests for form changes in the primary billing data (e.g., paper to tape or tape to paper). The Access Billing Change charge set forth in Paragraph 13.3.6.D.1, following, will apply for each form change requested by the customer per billing period per Revenue Accounting Office (RAO).

The period of time to implement the changes will be determined by the Company.

- B. At the option of the customer, and for an additional charge:
1. Billing detail may be sent to the customer's premises by data transmission.
 2. Additional copies of the customer's monthly bill may be provided in standard paper, magnetic tape, floppy disk(1), CD-ROM, DVD or microfiche(1) format.
 3. When additional copies of the customer's bill are ordered by the customer, the Access Billing Change charge will apply per billing period per RAO for each form of the bill ordered. For subsequent changes in bill form or number of additional copies, the Access Billing Change charge set forth in Paragraph 13.3.6.D.1., following, will apply per customer request, per billing period per RAO. The period of time to implement these options or make changes will be determined by the Company.
- C. On an individual case basis, other forms of the billing data or the preparation of the billing data for data transmission will be provided when the Company has determined that these provisions are economically beneficial and the customer is mutually agreeable to the provisions.

- (1) Floppy Disk and Microfiche is grandfathered. The Company will not accept new customers as of August 30, 2003. Existing customers must change to another available media by October 6, 2003.

13.3.6 Provision of Access Service Billing Information:-(Continued)

D. If charges for Access Services Billing exist in the Telephone Company's Intrastate Access Service Tariffs and its Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge. If charges for Access Services Billing exist only in the Telephone Company's Intrastate Access Services Tariff, full intrastate charges will apply.

E. Standard Bill Periods for Switched Access Services and Special Access Services are as follows:

Switched Access FGA/BSA-A	5th of the Month
FGB/BSA-B	5th of the Month
FGD/BSA-D	5th and 15th of the Month
Special Access	25th of the Month

To the extent the Telephone Company can accommodate the customer's request to change an existing bill period, a nonrecurring charge will apply. The Billing Account Number (BAN) Administrative Change Charge as set forth in Section 6 of Tariff FCC No. 1 does not apply when a customer requests a change of an existing bill period. (CT)

The nonrecurring charge for FGA and BSA-A is applied per line. For FGB, FGD, BSA-B and BSA-D, the nonrecurring charge is applied per end office and access tandem.

13.3 Miscellaneous Services-(Continued)

13.3.8 900 Call Restriction

An optional service available, where facilities permit, in Telephone Company electronic end offices. This service provides end office blocking of originating 900 calls by routing such calls to a recorded announcement.

Charges associated with 900 Call Restriction will be waived, on a one-time basis, to subscribers of a new telephone number for a period of 60 days after the new number is effective. For subsequent blocking requests, the Telephone Company will assess a nonrecurring charge to the subscriber on a per line basis. Any request by a subscriber to remove 900 Call Restriction must be submitted in writing to the Telephone Company.

Nonrecurring Charge

(A) FGA/BSA-A (RBVXF)	
Per line - first request	\$25.00
Per line - subsequent request	\$25.00
(B) WATS Access Line Service (RBVXF)	
Per line - first request	\$25.00
Per line - subsequent request	\$25.00

- Any customers of WATS Access Line Service, including end users purchasing WAL Service out of the Telephone Company's general exchange tariff, may be considered a customer of 900 Call Restriction for WAL Service.
