E126. OBSOLETE SERVICE OFFERING - BELLSOUTH SWA CONTRACT TARIFFS

E126.1 BellSouth SWA Contract Tariff No. MS2002-01 (Cont'd)

E126.1.4 BellSouth SWA Revenue Volume Discounts

A. Each year of BellSouth SWA Contract Tariff No. MS2002-01 is defined as twelve (12) consecutive bill periods. For purposes of calculating the BellSouth SWA volume discounts, month 1 is the bill period after the beginning date of BellSouth SWA Contract Tariff No. MS2002-01. For example, if the beginning date of BellSouth SWA Contract Tariff No. MS2002-01 is June 6, 2002 bill period, then month 1 for purposes of calculating the BellSouth SWA volume discounts will be the July 6, 2002 bill period.

The BellSouth SWA volume discounts provided herein will be determined during the first month after the end of each year of the BellSouth SWA Contract Tariff No. MS2002-01. During the second month following the end of each year of the BellSouth SWA Contract Tariff No. MS2002-01, the BellSouth SWA volume discounts will be applied via a credit to the customer's bill.

True-up provisions will be made during the first quarter after the termination date of BellSouth SWA Contract No. MS2002-

D. The BellSouth SWA volume discounts are applicable to the usage sensitive and recurring revenues of the BellSouth SWA services are as set forth in *E126.1.2.G*. preceding.

E. The BellSouth SWA volume discounts specified in BellSouth SWA Contract Tariff No. MS2002-01 will not be applied to taxes and nonrecurring BellSouth SWA revenues.

The BellSouth SWA services to which the volume discounts provided under BellSouth SWA Contract Tariff No. MS2002-01 apply shall only be subject to service assurance warranty regulations specified in E2.4.4 of this Tariff.

E126.1.5 BellSouth SWA Contract Tariff No. MS2002-01 Volume Discount Plan

A. BellSouth SWA Contract Tariff No. MS2002-01 provides for annual volume discounts based upon annual local switching minutes of use (MOU) above a stated minimum usage. Annual volume discounts will be determined by the local switching usage volume and the year of the contract in which the local switching usage volume is achieved.

The minimum usage and the achievable volume discounts associated with the BellSouth SWA services are shown in the table below. Volume discounts are not applicable to any usage levels outside of the MOU usage ranges stated in table below:

Minimum arom	Usage Ranges (MOU)	Volume Discount Percentages				
Minimum Usage (MOU)		Year 1	Year 2	Year 3	Year 4	Year 5
54,359,940	54,359,940 – 55,447,138	7%	-	-	-	-
	>55,447,139 – 59,795,934	10%	15%	20%	-	-
	>59,795,935 – 70,667,922	15%	20%	25%	30%	35%

- C. The annual local switching usage included in BellSouth SWA Contract Tariff No. MS2002-01 eligible for volume discount is determined by subtracting the minimum usage from the achieved local switching usage for each year.
- D. Dividing the annual local switching usage eligible for volume discount for a given year of BellSouth SWA Contract Tariff No. MS2002-01 by the minimum local switching usage will develop the usage factor.
- E. A usage factor (greater than zero) will be applied to the eligible BellSouth SWA revenue generated by the BellSouth SWA services identified in *E126.1.2.G.* preceding. This calculation produces the annual revenue eligible for discount.
- The discount percent achieved, as set forth in B. preceding, is based upon the minimum usage required, the usage factor achieved and the term year.
- The volume discount received for a given year under BellSouth SWA Contract Tariff No. MS2002-01 is determined by (M) multiplying the eligible BellSouth SWA revenue times the discount factor achieved.
