## A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

### A5.1 Construction Charges (Cont'd)

#### A5.1.9 Construction Required For Temporary Service

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber may be required to bear all or a portion of the cost of such construction.

#### A5.1.10 *Engineering Work Preparation Fee*

A one-time Engineering Work Preparation Fee of \$500 will apply for the preparation of a quotation for custom work which may require construction charges. This fee is applicable prior to preparation of an estimate for custom work requiring construction charges and will be applied regardless of whether or not the work is ultimately performed for the customer. The Engineering Work Preparation Fee is nonrefundable; however, should the customer proceed with the custom work the fee will be applied against the special construction charges. If work is determined not to be a custom work order after the field visit by the engineer, the fee will be refunded to the customer. (T)

The Engineering Work Preparation Fee provides for the development and preparation of a detailed estimate of cost including any appropriate engineering costs incurred in the preparation of this quotation. The customer will be advised of this charge and must agree to pay it before development of the quotation will commence. Preparation of the quotation will begin after the Engineering Work Preparation Fee is received by the Company. (N)

Payment of the Engineering Work Preparation Fee does not assign, confer, or transfer title or ownership rights to proposals or equipment, designed or furnished by the Company. Title and ownership rights for any item developed at the customer's request remains with the Company except as specifically provided by an agreement between all parties. (N)

The Company has the right to apply more applicable engineering preparation fees for any large, complex and/or unique projects that will require excessive engineering hours to develop a detailed cost quote. (N)

### A5.2 Reserved For Future Use

(M)

**A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS**

**A5.3 Charges For Unusual Installations**

(M)

**A5.3.1 Reserved for Future Use**

(T)(M)

**A5.3.2 Special Types Of Installation**

When a special type of installation is desired by a subscriber or where the individual requirements of a particular situation make the installation unusually expensive, the subscriber is required to bear the excess cost of such installation.

**A5.3.3 Temporary Installation**

When an installation is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber may be required to bear all or a portion of the cost of such installation, over and above all other regular charges for service and equipment.

**A5.3.4 Reserved For Future Use**

**A5.3.5 Reserved For Future Use**

**A5.3.6 Special Types of Cable**

For ordinary installations, the Company will use a standard type of inside cable of a size required to meet installed equipment requirements. When the specific requirements for a particular installation result in the customer or applicant choosing a type of cable other than this standard, rates and charges will apply as described in the following paragraphs.

**A. Fire Retardant Cable**

1. This type of cable has insulation, core wrap, and jacket made of flame retardant materials, and may be used in air return plenums without conduit where authorized by local codes.
2. The charges for Fire Retardant Cable are in addition to other rates and charges that may apply.
3. Rates and Charges for Fire Retardant Cable per each 25 feet or fraction thereof:

		<b>Nonrecurring</b>	
		<b>Charge</b>	<b>USOC</b>
(a)	2-pair	<b>\$4.85</b>	<b>TEWO2</b>
(b)	4-pair	<b>5.70</b>	<b>TEWO4</b>
(c)	25-pair	<b>39.00</b>	<b>TEW25</b>
