A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.20 MultiServ Service (Cont'd)

A112.20.15 Customer Control

A. Description of Service

1. Customer Control is a feature of MultiServ service and MultiServ PLUS service which utilizes a computer-based operations system accessed via a Company Secure Network. Customer Control allows end users to activate and/or deactivate selected features and/or change certain service options and feature configurations on predesignated Multiserv service or MultiServ PLUS service main station lines. These changes can be performed on a per line or a bulk change basis. Subscriber provided terminal equipment is required for the operation of Customer Control.
The Customer Control feature will interface with the DMS-100, 5ESS, 1AESS, and EWSD® central office switching systems where facilities permit.
2. Customer Control subscribers are subject to MultiServ service *Terms and Conditions* as stated in A112.20 or MultiServ PLUS service *terms and conditions* as stated in A112.21 following. (T)
3. All features which are available via MultiServ service may not be available for Customer Control from all central offices.
4. The Company will provision the features contained in the most feature rich feature group on all Non-Electronic Business Telephone Set main station lines which are controllable. Depending on the subscriber's serving central office switch type, all features in the most feature rich feature group may not be controllable via Customer Control.
5. Features which can be controlled by the subscriber may only be assigned/provisioned on like MultiServ service or MultiServ PLUS service Station Link type main station lines.
6. Customer Control allows the subscriber to schedule changes for completion by the next business day or for a future business day. Additional priority changes may be requested and the changes completed the same day subject to *Terms and Conditions* in this *Guidebook*. (T)
7. Customer Control is furnished subject to the availability of facilities and features.
8. This feature will be provided to the subscriber as Customer Control - Basic.
9. Customer Control will consist of the following rate elements:
 - a. Customer Control - Basic, Service Establishment - Initial Setup, Per System
 - b. Customer Control - Per Line
 - (1) Initial setup of a subscriber working in a 1AESS central office
 - (2) Initial setup of a subscriber working in a 5ESS central office
 - (3) Initial setup of a Non-Electronic Business Set subscriber working in a DMS-100 central office
 - (4) Initial setup of a subscriber working in a EWSD® central office
 - (5) Setup of an Electronic Business Set service subscriber working in a DMS-100 central office
 - (6) Setup of any subscriber who converts from ESSX Customer Administration Service (ECAS) or Digital ESSX Customer Administration Service (DECAS), from Section A112. to Customer Control
 - c. Security Card - Per Card
10. The following rate element(s) are optional for Customer Control:
 - a. Processor Connection, Per Additional Termination
 - b. User Identification Codes, Per Additional User Login
 - c. Additional Data Base, Per System
 - d. Activation/Deactivation/Change of a Customer Controllable Feature for an existing MultiServ service or MultiServ PLUS service subscriber by the Company at the subscriber's request subsequent to initial installation
 - Per change, per line
 - Bulk change

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.20 MultiServ Service (Cont'd)

A12.20.15 Customer Control (Cont'd)

A. Description of Service (Cont'd)

10. The following rate element(s) are optional for Customer Control: (Cont'd)
 - e. Activation/Deactivation/Change of a customer controllable feature for an existing MultiServ service or MultiServ PLUS service subscriber by the Company at the subscriber's request on Electronic Business Set Service:
 - Per change, per line
 - f. Completion of TN swap on customer controllable lines at the subscriber's request
 - g. Additional System Manager training
 - h. Subsequent System Manager training

11. For access to Customer Control - Basic, the subscriber will be required to provide a VT100 compatible terminal or a Personal Computer (PC) with the appropriate software to emulate such a terminal, a dial-up modem and a voice grade analog access line at the subscriber's premises. If the subscriber requires the ability to print Customer Control related information, they will be required to establish printing capabilities on their premises, by securing a VT102 or greater terminal and printer.

The dial-up modem must be compatible with one of the following standards - ITU-T (International Telecommunication Union - Telecommunication Standardization Sector, formerly CCITT) standards V.32bis, V.32, V.22bis, and V.22 or industry specifications V.32terbo or Bell 212A. Compression standard V.42bis and error control standard V.42 are supported.

The appropriate Service Establishment, Per Line and Security Card rate elements can be obtained from E. following.

12. The following subscriber directory information may be maintained for all of the subscriber's main station lines via the Customer Control data base:
 - Station Telephone Number
 - Name
 - Organization
 - Location

The information in the Name, Organization and Location fields must be entered and updated by the subscriber.

13. To gain access to the Company's Dial Access network, the subscriber must have one User Identification Code for each System Manager accessing the Customer Control Database. One Security Card will also be required for each System Manager accessing the Customer Control Database. The Security Card may be ordered from E. following. The Security Card rate element will provide for the initial card or for the issuance of multiple cards to different users at the subscriber's premises or for the replacement of lost, stolen or expired cards.

If the subscriber has purchased a Security Card in conjunction with another feature or service offered by the Company, that Security Card may also be used in conjunction with Customer Control. It is up to the subscriber to notify the Company of any existing Security Card so the Company can ensure that the card is validated for multiple features and/or services.

14. Customer Control - Per Line allows the subscriber to activate and/or deactivate any feature which is controllable.

The Company will provision Non-Electronic Business Set subscriber's main station line(s) with the features from the most feature rich Feature Group as described in A112.20.10 preceding when the subscriber orders Customer Control - Per Line as outlined in E. following. The subscriber who orders Customer Control - Per Line from the aforementioned Section will do so in conjunction with ordering MultiServ service or MultiServ PLUS service and will not order a Feature Group from A112.20.10 preceding.

(T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.20 MultiServ Service (Cont'd)

A112.20.15 Customer Control (Cont'd)

A. Description of Service (Cont'd)

15. The initial provisioning of features on an Electronic Business Set Service subscriber's main station line(s) will be done when the subscriber orders the Electronic Business Set Service basic Feature Group and Electronic Business Set Service features associated with MultiServ service from A112.20.10 preceding. Customer Control - Per Line will be ordered from E. following after MultiServ service or MultiServ PLUS service is working and will give the subscriber the ability to manipulate controllable features.

When a subscriber converts from ESSX Customer Administration Service (ECAS) or Digital ESSX Customer Administration Service (DECAS), as outlined in Section A112., MultiServ service or MultiServ PLUS service must be ordered and provisioned prior to ordering Customer Control. The Company will place the requested MultiServ service feature group and any optional features on the subscriber's line(s). Any controllable features that were provisioned on the subscriber's line via MultiServ service will remain on that line. At the time Customer Control is ordered, the Company will make all controllable features available but will not provision any new features on the subscriber's line(s). Any features which are not controllable via Customer Control must be purchased and provisioned from A112.20.13 preceding. Customer Control - Per Line will be ordered from E. following and will give the subscriber the ability to manipulate controllable features.

The subscriber will be responsible for deactivating features they do not want on main station line(s) which are equipped with Customer Control. The subscriber will also be responsible for placing optional features that are controllable on their main station line(s) which are equipped with Customer Control.

16. The subscriber will be provided one Processor Connection in conjunction with the Service Establishment, Initial Setup. Additional Processor Connections can be obtained from E. following.
17. The subscriber will be provided one User Identification Code in conjunction with the Service Establishment, Initial Setup. Additional codes will be needed if multiple System Managers are accessing the data base at the same time. Additional User Identification Codes can be obtained from E. following.
18. The subscriber will be provided one Data Base setup in conjunction with the Service Establishment, Initial Setup. The Data Base setup includes the feature initialization. Additional Data Base setups can be ordered from E. following.
19. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions, as outlined in E. following, for existing MultiServ service or MultiServ PLUS service subscribers:
- Change station features,
 - Delete features from a line or
 - Add new features to a line.
20. At the subscriber's request, the Company may, on a temporary basis, agree to perform Telephone Number (TN) Swaps for existing or new MultiServ service or MultiServ PLUS service as outlined in E. following. TN Swaps can only be performed for like link type main station lines.
21. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions, as outlined in E. following, for existing MultiServ service or MultiServ PLUS service for Electronic Business Set Service subscribers:
- Change station features,
 - Delete features from a line or
 - Add new features to a line.

The performance of these functions on a Per Key, Per Set, Per Directory Number or Per Key List basis will be determined by the feature(s) that the subscriber has purchased from A112.20.14 preceding.

22. Initial training of the subscriber for up to two System Managers in the use of Customer Control will be provided as the feature is put into service. Any Additional System Managers Training or Subsequent System Manager Training charge will be provided at an hourly rate as outlined in E. following. Prior to receiving this training, the subscriber should attend MultiServ service System Manager training as a prerequisite.
23. Customer Control provides the subscriber with the ability to print standard administrative reports.

(T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.20 MultiServ Service (Cont'd)

A112.20.15 Customer Control (Cont'd)

B. Terms and Conditions

1. Customer Control is furnished subject to the availability of facilities, telephone numbers and the ability of the software to control the requested feature. (T)
2. Limitations and use of Customer Control as stated in Section A2. will apply. (T)
3. Suspension of service as specified in A112.20.2 preceding is not applicable for this feature. Using Customer Control to suspend MultiServ service or MultiServ PLUS service on a station does not affect the billing on the line. The subscriber will continue to pay appropriate rates and charges on the line. (T)
4. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, or its employees, or agents, in connection with this *Guidebook*. (T)
5. To access the Customer Control database, the subscriber must use a voice grade analog line.
6. For main station lines equipped with Customer Control, the subscriber can verify and/or display the assignment of features on a single line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
7. Certain MultiServ service or MultiServ PLUS service main station lines may be specified by the subscriber to be exempt from the Customer Control feature. Additionally, the Company reserves the right to make station lines inaccessible for Customer Control.
8. Features for Customer Control exempt main station lines must be requested via a Service Order and added by the Company. Rates and Charges in E. preceding apply as appropriate. Appropriate Service Charges specified in Section A4. also apply. (T)
9. Customer Control changes must be entered in conjunction with the following:
 - Prior to Company designated schedules, or
 - As priority changes, or
 - As future dated transactions by the subscriber.
10. Subscribers who order an initial set of Customer Control - Per Line as outlined in E.2. following will be required to order Customer Control - Basic at the same time MultiServ service or MultiServ PLUS service is initially ordered. The subscriber will not order a Feature Group as outlined in A112.20.10 preceding. The Company will provision the subscriber's main station line(s) with the features (for their central office switch type) from the most feature rich Feature Group described in A112.20.10.
11. Subscribers who order Customer Control - Per Line as outlined in E.3. following will be required to order Customer Control - Basic after MultiServ service or MultiServ PLUS service is established. The features which are provisioned on the subscriber's main station line in conjunction with MultiServ service or MultiServ PLUS service will remain. The subscriber may use Customer Control to manipulate any controllable feature.
12. The following types of lines will be restricted from TN Swaps rearrangement capability. Service options and feature change capabilities will still be available except on lines assigned to multiline hunt groups.
 - Station lines assigned to multiline hunt groups.
 - Attendant lines
 - Any MultiServ service or MultiServ PLUS service station line which has a special hardware configuration (e.g., ground start lines and lines having signal distribution points)
 - Manual lines (e.g., station lines with full originating and/or terminating restrictions)
13. Changing the status of a station line from accessible to Customer Control to inaccessible or vice versa, must be done by the Company via a Service Order request. For station lines that are ordered without Customer Control, the appropriate rate element associated with the MultiServ service feature package applies. For station lines that are ordered with Customer Control, the Customer Control - Per Line charge applies. Appropriate Service Order Charges specified in Section A4. apply. (T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.20 MultiServ Service (Cont'd)

A112.20.15 Customer Control (Cont'd)

B. *Terms and Conditions* (Cont'd)

14. The subscriber will be responsible for installation, maintenance and testing of customer-provided compatible terminal equipment (CPE). (T)
15. The Company does not assume responsibility for the compatibility or suitability of the subscriber's (CPE) equipment.
16. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Customer Control render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
17. Customer Control supports dial-up access security through the use of a Security Card. Customer Control supports access security by requiring login and password identifiers. The subscriber must have one User Identification Code for each System Manager accessing the Customer Control Database. The User Identification Code includes a password and is used in conjunction with the Security Card. In addition, Customer Control ensures that the user can access only their portion of their database.
18. The subscriber will be required to authenticate with a Security Card before network access is permitted. The network access security system validates the user, and establishes the call across the network to the host computer. Once the subscriber has purchased the Security Card, the Company will provide the subscriber with a login and password in order to maintain secure access and an audit trail. Rates for the Security Card are outlined in E. following.
19. The subscriber must provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
20. The Customer Control subscriber is responsible for initiating a Service Order to correct any information pertaining to the Company's Published Directory Listings that changed as a result of a Customer Control TN Swap. The appropriate Service Charges specified in Section A4. apply. (T)

C. Moves of Service

1. When a subscriber elects to move service from one serving central office to a different switch type serving central office, an additional Database charge as outlined in E. following will apply.
2. Moves of Service *terms and conditions* as outlined in A112.20.7.B. preceding are applicable. (T)

D. Application of Rates

1. Customer Control is available on a per line basis to customers who subscribe to MultiServ service or MultiServ PLUS service. All MultiServ service features which are controllable will be subject to the rates outlined in E. following.
2. The appropriate Service Charge(s) specified in Section A4. applies to the subsequent establishment of Customer Control. (T)
3. If Customer Control is ordered at the same time as MultiServ service or MultiServ PLUS service, only one Service Charge is applicable.
4. Changing the status of a station line from accessible to Customer Control to inaccessible or vice versa, must be done by the Company via a Service Order request. Appropriate Service Charges specified in Section A4. apply. (T)
5. The Service Establishment, Initial Setup - Per System charge for Customer Control - Basic is for the initial establishment of the Customer Control feature.

This charge includes the initial Processor Connection charge, the initial User Identification Codes (Per User Login) charge, the initial Database Establishment (Per System) charge and training for up to two System Managers.

ECAS/DECAS subscribers who convert, during their contract period, from the grandfathered ESSX service or Digital ESSX service to MultiServ service or MultiServ PLUS service will have the Customer Control Service Establishment, Per System Installation Charges waived. Service Charges from Section A4. will not apply. (T)

A112.21 MultiServ PLUS Service

(Obsoleted 6-03-04, Type D) Obsolete service offering. Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service/system or entire moves of existing service to new locations.

A112.21.1 General

- A. Subscribers requesting one (1) or more main station lines in a system may subscribe to MultiServ PLUS service at the rates, *terms and conditions* specified in this *Guidebook*. These subscribers may apply for rates developed and offered via a Contract Service Arrangement as specified in Section A5. and further modified in A112.21.8 and A112.21.9. (T)
- B. *Terms, Conditions* and Rates from A112.20 apply to MultiServ PLUS service unless specifically amended or abridged herein. (T)

A112.21.2 Terms and Conditions (T)

- A. Charges from Section A3. for Network Access Registers (NARs) apply. Each subscriber to MultiServ PLUS service must subscribe to a minimum of one (1) Network Access Register.

- Note 1:** Appropriate Service Charges as specified in Section A4. apply. (T)
- Note 2:** This hourly rate is valid for training performed Monday through Friday, excluding legal holidays and must be performed during the Business Hours of 8 a.m. to 5 p.m. Training outside of the aforementioned days and hours is available via Special Assembly and will be performed at the appropriate time and materials rates.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.22 MultiServ Multi-Account Service (MMAS)

(Obsoleted 6-03-04, Type D) Obsolete service offering. Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service/system or entire moves of existing service to new locations.

A112.22.1 General

- A. MultiServ Multi-Account service is a fully partitioned MultiServ service and/or MultiServ PLUS service for use in an environment serving multiple tenants. The designated area must be wholly within the confines of the serving wire center boundary.
- B. Rates and conditions for MultiServ Multi-Account service as specified following and where applicable are in addition to the rates and conditions specified for MultiServ service and/or MultiServ PLUS service and the other features and services provided.
- C. A subscriber account of MultiServ Multi-Account service may be either a Primary Account or a Secondary Account.
- D. A MultiServ Multi-Account service System consists of a Primary Account with or without Secondary Accounts.
- E. A Primary Account is the subscriber who accepts responsibility for the coordinating role for the MultiServ Multi-Account service System as specified herein.
- F. A Secondary Account is any MultiServ service or MultiServ PLUS service subscriber of a system other than the Primary Account.

A112.22.2 Terms and Conditions

- A. The provision of MultiServ Multi-Account service is dependent upon the establishment of a Primary Account under the terms and conditions for MultiServ service or MultiServ PLUS service. All other subscribers to a MultiServ Multi-Account service are considered Secondary Accounts. All Secondary Account agreements for MultiServ service or MultiServ PLUS service will be coterminous with the MultiServ service or MultiServ PLUS service of the Primary Account.
- B. The Primary Account accepts responsibility for the training of Secondary Accounts and will provide assistance in the coordination of MultiServ service or MultiServ PLUS service for Secondary Accounts. As a part of the coordinating role, the Primary Account is also responsible for insuring that the minimum system size established for MultiServ service or MultiServ PLUS service is maintained. The Primary Account is responsible for any cancellation charges applicable for the Primary and Secondary Accounts in the MultiServ Multi-Account service System.
- C. MultiServ Multi-Account service will provide partitioned MultiServ service and/or MultiServ PLUS service for each account subscribing to MultiServ Multi-Account service.
- D. Station-to-station calling is limited to MultiServ service or MultiServ PLUS service lines within each MultiServ Multi-Account service. Intercom calling between unaffiliated accounts is not permitted under MultiServ Multi-Account service.
- E. Each subscriber to MultiServ Multi-Account service is subject to all rates, *terms and conditions* of MultiServ service or MultiServ PLUS service as specified and where applicable in A112.20 and A112.21.
- F. Each account will be directly responsible to the Company for all charges associated with its service. The Company will bill each account individually for its service.
- G. Appropriate MultiServ service or MultiServ PLUS service nonrecurring charges will apply as follows:
 1. MultiServ service or MultiServ PLUS service establishment and any installation charges associated with the Primary Account's service for MultiServ service or MultiServ PLUS service will apply to the Primary Account of a MultiServ Multi-Account service System.
 2. MultiServ service or MultiServ PLUS service installation charges will apply to the service associated with the Secondary Account's service.
- H. Appropriate MultiServ service or MultiServ PLUS service recurring rates will apply as follows:
 1. MultiServ service or MultiServ PLUS service establishment and any recurring rates associated with the Primary Account's service for MultiServ service or MultiServ PLUS service will apply to the Primary Account of a MultiServ Multi-Account service System.
 2. MultiServ service or MultiServ PLUS service recurring rates will apply to the service associated with the Secondary Account's service.
- I. The minimum number of main station lines per MultiServ Multi-Account service System will apply as specified for MultiServ service or MultiServ PLUS service in this *Guidebook*.
- J. Each account must designate the preferred carrier for long distance service.

(T)

(T)

(T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.22 MultiServ Multi-Account Service (MMAS) (Cont'd)

A112.22.2 Terms and Conditions (Cont'd)

- K. MultiServ service or MultiServ PLUS service features are provided individually to each account. Where the MultiServ service or MultiServ PLUS service *guidebook* permits, features may be provided on a station basis or a system basis. If provided on a system basis, appropriate system charges apply to each account electing this option. (T)
- L. A mix of flat rate and measured/message rate service subscribers within the same MultiServ Multi-Account service System is not permitted. (T)

A112.22.3 Conversions

- A. For conversion from a stand-alone MultiServ service to MultiServ service under MultiServ Multi-Account service, only a Service Order Charge as specified in Section A4. will apply.
- B. For conversion from a stand-alone MultiServ PLUS service to MultiServ PLUS service under MultiServ Multi-Account service, only a Service Order Charge as specified in Section A4. will apply.
- C. For conversion from a MultiServ service in a MultiServ Multi-Account service system to a stand-alone MultiServ PLUS service, the *terms and conditions* for conversions in A112.21.5 will apply. (T)
- D. For conversion from a MultiServ PLUS service in a MultiServ Multi-Account service system to a stand-alone MultiServ service, the *terms and conditions* for conversion in A112.20.5 will apply. (T)
- E. For conversion of an individual subscriber within a MultiServ Multi-Account service system from MultiServ service to MultiServ PLUS service or vice versa, the *terms and conditions* in A112.20.5 or A112.21.5 will apply, as appropriate. (T)

A112.22.4 Rates and Charges

A. Common Equipment

1. The following rates and charges are for the MultiServ Multi-Account service feature only and are in addition to the appropriate and applicable service charges, monthly rates, and nonrecurring charges for MultiServ service or MultiServ PLUS service and other services to which MultiServ Multi-Account service subscribers may subscribe. Rates and charges for MultiServ Multi-Account service apply only to each Secondary Account.

a. MultiServ service

- (1) Per Secondary Account

	Installation Charge	Rate Stability/ Monthly Rate Maximum	USOC
(a) Each standard common equipment	\$250.00	\$-	M4ASX
(b) Each common equipment customized by the Company at the subscriber's request ¹	325.00	-	M4ACX

b. MultiServ PLUS service

- (1) Per Secondary Account

(a) Each standard common equipment	350.00	-	M4ASX
(b) Each common equipment customized by the Company at the subscriber's request ¹	400.00	-	M4ACX

Note 1: A subscriber requested change from standard common equipment to customized common equipment will incur the difference between the two charges.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II

(Obsoleted 01-15-96, Type D) Service rates and charges in this Section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations.

Obsolescence Rules

1. Inward activity for ESSX service - Vintage II will be allowed.
2. ESSX service - Vintage II subscribers under the month-to-month payment option will be allowed to maintain their service at month-to-month rates.
3. ESSX service - Vintage II subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the Term Payment Plan rates and charges outlined in this Section when the Term Payment Plan associated with the Common Equipment expires. For expired Term Payment Plans, the Company may establish a date in the future to begin conversion of subscriber accounts to the month-to-month rates and charges outlined in this Section. (T)
4. ESSX service - Vintage II subscribers under a Term Payment Plan will be allowed to maintain their ESSX service - Vintage II under the rates and charges outlined in this Section when the Term Payment Plan expires. For expired Term Payment Plans, the Company may establish a date in the future to begin conversion of subscriber accounts to the month-to-month rates and charges outlined in this Section. (T)
5. ESSX service - Vintage II subscribers under a Term Payment Plan will have until 03-15-96 to exercise their recast option as described in A112.26.6 for a Term Payment Plan period of not greater than 36 months in length. ESSX service - Vintage II subscribers under a month-to-month payment option will have until 03-15-96 to convert to a Term Payment Plan period of not greater than 36 months in length.
6. Existing ESSX service - Vintage II subscribers who are under a Term Payment Plan may add a new secondary location (SLA) or move an existing SLA of their existing service.
7. Conversions from Centrex Central Office service or ESSX-1 service to ESSX service - Vintage II will not be allowed under this *Guidebook*. (T)
8. ESSX service - Vintage II subscribers served from a switch from which MultiServ service or BellSouth Centrex service is not provided may retain their existing service at the rates in this Section. (T)

A112.26.1 General

- A. ESSX service is furnished from 1A or selected 2B Electronic Switching System (ESS) Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:
 1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of a subscriber's system.
 2. Intercommunicating calls between stations of the same subscriber's system
 3. Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by the Company will be provided this identification.
 4. Common recorded announcement interception of calls to unassigned station numbers (M)
 5. Trunk answer any station of incoming primary directory listing calls (M)
 6. Basic Station Line Hunting (M)
 7. Touch-Tone Service (M)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.1 General (Cont'd)

- (M)
- B.** ESSX service will be furnished in four categories, based on the size of the subscriber's system.
1. ESSX service-VS will serve systems with 1-24 main station lines.
 2. ESSX service-200 will be limited to systems with 25 - 200 Main Station Lines.
 3. ESSX service-600 will be limited to systems with 201-600 Main Station Lines.
 4. ESSX service-XL will be limited to systems with more than 600 Main Station Lines.
- C.** A subscriber's system derived from ESSX service may be comprised of the following components.
- Common Equipment¹
 - Network Access¹
 - Main Station Lines¹
 - Terminating Arrangements
 - Features
1. The Common Equipment, Network Access and Terminating Arrangements will be provided at the rates and charges as specified in A112.26.7. and A112.26.12. (T)
 2. Main Station Line rates will consist of the Intercom charge and the appropriate Exchange Circuit charge (or equivalent). These charges are located in A112.26.8., A112.26.9., and A112.26.10. for ESSX service-VS, 200, 600 and XL, respectively. (T)
 3. Line and System Features for ESSX service will be grouped as follows:
 - Group A Line Features
 - Optional Service Features
 - a. Group A Line Features will be offered on a grouped basis to subscribers of ESSX service who have selected a Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the one month payment option will be offered the Group A Line Features on an individual basis only.
 - b. Optional Service Features will be offered to subscribers of ESSX service under all payment plan options subject to the specific requirements within each arrangement.
 - c. An ESSX service-VS or 200 subscriber will select Group A features as indicated in A112.26.8.² (T)
 - d. An ESSX service-600 subscriber will select Group A features as indicated in A112.26.9.² (T)
 - e. An ESSX service-XL subscriber will select Group A features as indicated in A112.26.10.² (T)
 - f. Optional Service Features will be offered to all subscribers of ESSX service and provided as indicated in A112.26.1. (T)(M1)

Note 1: Every system will include these components.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.1 General (Cont'd)

- (M)
- D.** If the subscriber is not completely satisfied with his ESSX service within ninety (90) days of effective billing date, all payments will be handled as indicated in the following paragraphs.
1. The following charges will be refunded:
 - a. Nonrecurring and recurring charges (up to ninety days recurring billing) for rate elements as specified in Section A112. for ESSX service.
 - b. Service connection charges from Section A4. (T)
 2. The following charges will not be refunded:
 - a. Recurring charges for Network Access Registers and Grouping as specified in Section A3. (T)
 - b. End User Common Line Charges as specified in BellSouth Telecommunications, Inc. Tariff FCC No. 1.
 3. Customer provided equipment acquired for use with ESSX service will not be included in this plan.
 4. ESSX service provided under the One Month payment option is not eligible.
 5. Subscribers provided ESSX service via Contract Service arrangements may negotiate a satisfaction plan on an individual case basis.
 6. This guarantee will not apply to transfers of service, moves or conversions.
 7. The subscriber must notify the Company in writing within the guarantee period of intent to exercise this option.
 8. ESSX service will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction.
 9. Subscribers requesting an extension of the 10 day disconnection interval to accommodate installation of a replacement product/service, will be billed the contracted recurring rates for that period, not to exceed six (6) months.
 10. Subscribers must retain continuous service beyond the ninety days via other Local Exchange services as offered in Section A3. (T)

A112.26.2 Terms and Conditions

- (T)
- A.** ESSX service is furnished subject to the availability of facilities and features from a 1A or selected 2B Electronic Switching System located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and or major relocations of a subscriber's system are subject to the same *terms and conditions* as initial installations. (T)
- B.** Certain Auxiliary Services are available on an individual main station line basis and are subject to the capabilities of the serving ESS central office.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.2 Terms and Conditions (Cont'd)

- C. Optional Service features may be offered for use with compatible customer provided terminal equipment.
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- E. All ESSX service main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with ESSX service.
- F. Tie lines for direct connections between a basic subscriber's system and other systems are provided primarily for communication between stations of the two systems. In such cases, tie line mileage and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the subscriber's system to or from another system (ESSX service or non-ESSX service) provided such connections to the exchange or long distance network are only made at one system at a time.
- G. Where completion of incoming and outgoing local and long distance calls through an ESSX service is furnished to or from main station lines of a separate ESSX service in another exchange or a non-ESSX service in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.26.12.J. (T)
 - 1. Rates and Charges specified in the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.26.12.J. (T)
 - 2. Optional feature charges for ESSX service apply for each trunk terminated main station line as appropriate.
- H. Where the lines are arranged to switch calls through the system to or from one or more tie lines or private lines, charges for Dial Cut-through Arrangement shall apply per tie line so equipped. The charge is in addition to the regular charges for the facilities connecting the systems.
- I. A system may not be provided for Intercommunication (stand alone) service only. Access to the exchange network must be provided.
- J. A mixture of Flat Rate and Measured Rate Service will not be allowed within a single customer system or in an ESSX service /Subsidiary System Arrangement situation.
- K. Suspension Of Service
With the exception of Network Access Registers, neither partial nor complete temporary suspension of ESSX service is permitted.
- L. (DELETED)
- M. A twelve month minimum service period shall be required if the subscriber's system is an ESSX service-600 or ESSX service-XL. The normal minimum service period as specified in Section A2. applies for ESSX service-VS and 200. (T)
- N. Touch-Tone service will be furnished subject to the *terms and conditions* specified in Section A13. The rates and charges for ESSX service include the provision of Touch-Tone Service. (T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.2 Terms and Conditions (Cont'd)

- O. Directory listings will be provided subject to the *terms, conditions* and rates in Section A6. (T)
- P. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of a subscriber's system is limited by the number of network access registers subscribed to by the customer. Each network access register may be arranged for Two-way, One-way incoming or One-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the operation of a NAR is requested by the customer, the Secondary Service Charge as specified in Section A4. is applicable. The Line Connection Charge and Line Change Charge in Section A4. are applicable to ESSX service Main Station Lines. (T)
- Q. Where appropriate, the ESSX service installation charges are in addition to regular Premises Work Charges, Service Connection Charges, move, change and installation charges covered in this and other Company *Guidebooks*. (T)
- R. ESSX service installation charges due on an initial installation or subsequent addition may be paid in full at the time of installation or deferred over a predetermined period of time in accordance with existing *guidebook* and/or administration provisions. (T)
- S. If the subscriber of ESSX service elects a Measured Rate Service option, Measured Rate Service usage charges in Section A3. are applicable on calls to locations outside the subscriber's system in addition to the rates and charges as specified in this and other *Guidebook* sections for ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same subscriber's system. (T)
- T. ESSX service main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Local Dial-It[®] Services (e.g. 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX and 101XXXX). InterLATA calls dialed 0- (operator handled) cannot be restricted at this time. The term "Public Announcement Services" as used herein are those services which, in the judgment of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the central office serving the subscriber's systems subscribing to this service arrangement.
 - 1. At the time a code restriction arrangement is installed, the subscriber's ESSX service system will be arranged for the code restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition of code restriction on a main station line, the Secondary Service Charge as specified in Section A4. applies. No such charge applies when the code restriction arrangement is disconnected. (T)
 - 2. Where code restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code. (M)
 - 3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be billed in the normal manner. (M)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.2 Terms and Conditions (Cont'd)

- (M)
- U. Station Dial Code Screening arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances be completed and will be billed in the normal manner.
- V. Each system established per customer must consist of a minimum of one (1) Main Station Line. Systems installed or ordered prior to January 5, 1993 are not subject to this *term and condition*. Small systems installed or ordered prior to January 5, 1993 may have less than 25 main station lines. (T)
- W. Nonrecurring charges are applicable when a Main Station Line with an existing feature package wishes to add feature(s) based upon the particular scenario involved. If a Main Station Line with three existing features currently billed under the ESSX service Term Payment Plan wishes to add an additional four features, it may be accomplished in three ways:
- The four features can be added with the one month recurring rates and the corresponding nonrecurring charges will be applicable.
 - The four features can be added as a group of four under the ESSX service Term Payment Plan and the corresponding nonrecurring charges will be applicable.
 - The feature package of three can be changed to a feature package of seven under the ESSX service Term Payment Plan. The nonrecurring charges for the Feature Package of four will be applicable.
- A second scenario adding only one or two features to the Main Station Line with the three existing features may be accomplished in two ways:
- The one or two features can be added with the one month recurring rates and the corresponding nonrecurring charges will be applicable.
 - The features can be grouped into a Feature Package of four or five applying the nonrecurring charges for the individual features being added.
- X. For purposes of application of End User Access Charges only, as set forth in BellSouth F.C.C. No. 4, ESSX service main station lines for use by residents of dormitory living quarters will be considered residential service. Main station lines terminated in dormitory housing for administrative or other business use will not fall in this classification.
- Y. ESSX service subscribers with rates and charges applicable out of A112.32. may subscribe to features found in A112.26. but not offered in A112.32. (T)
- Z. ESSX service subscribers with rates and charges applicable out of A112.32. wishing to add or change features must apply nonrecurring charges as indicated in Section A112.26. (T)
- AA. Call Block, Call Return, Call Selector, Call Tracing, Preferred Call Forwarding, Repeat Dialing, and Caller ID are Optional Service Features listed in A112.26.12. These features require the implementation of Common Channel Signaling System #7 (CCS7) into the network and may have limited availability. These features will only operate interoffice on local calls originating and terminating within Central Offices equipped with CCS7. These features will operate intraoffice prior to implementation of CCS7. These features will not work on an originating basis with party-line service, Toll Terminals, Trunks, and some Remote Switching Locations. Also, feature screening lists can only contain local telephone numbers of subscribers served out of CCS7 equipped Central Offices.
- The Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-Published Listing Service as described in Section A6. (T)
- AB. ESSX service subscribers ordering Assumed Dial '9' must use station terminal equipment that utilizes dual tone multi-frequency (DTMF) signaling.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.2 Terms and Conditions (Cont'd)

(T)

AC. For every ESSX service main station line extended into a Foreign Exchange the ESSX service subscriber must terminate an ESSX service main station line in the exchange in which their common equipment is located. ESSX service main station lines extended into a Foreign Exchange do not apply toward the four line minimum.

AD. Calling Number Delivery Blocking - Per Call

This feature allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party.

The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name.

Calling Number Delivery Blocking - Per Call is provided subject to availability of facilities where technically feasible. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's CPE to perform satisfactorily with the network feature described herein.

AE. Calling Number Delivery Blocking - Permanent

This feature enables certain customers to prevent the transmission of their Directory Number and/or Directory Name on all outgoing calls placed from the customer's line. Calling Number Delivery Blocking - Permanent is in operation on a continuous basis.

If the preassigned access code for Calling Number Delivery Unblocking is dialed on a line that is provisioned with Calling Number Delivery Blocking - Permanent, the Directory Number and/or Directory Name will be delivered.

Calling Number Delivery Blocking - Permanent is available upon request to domestic violence intervention agencies, state and county departments of human resource shelters and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without blocking.

A112.26.3 Definitions

ACCESS CODE RESTRICTION GROUP (ACRG/CAT CODES)

An ACRG will allow stations (assigned to that ACRG) access to predefined facilities. Station access to facilities is restricted by the station ACRG assignment to the predefined facilities. Up to eight ACRGs can be established by the Company for each ESSX service group.

ACCESS LINES TO CUSTOMER ORIENTED FACILITIES

Allows dial access from ESSX service for connection to customer oriented facilities. (Recorded Telephone Dictation, Dial Code Sending Equipment and Loudspeaker Paging).

ADVANCED PRIVATE LINE TERMINATIONS

See Miscellaneous Line Terminations.

ASSUMED DIAL '9'

Utilizes central office capabilities to allow the main station line equipped to access the network without dialing '9' (provided on all lines in a system).

ATTENDANT ACCESS CIRCUIT

An attendant access circuit connects customer provided attendant terminal equipment to the serving central office. These circuits are used for the completion of calls directed to the attendant, extension of those calls to stations and attendant assistance for stations.

ATTENDANT CALL-THROUGH TEST

This feature provides the large business customer with the ability to select tie trunks, FX trunks, network access facilities, and intermachine groups from a CPE terminal. From one location, the customer attendant can dial up, and test and busy/verify these facilities.

A112.26.3 Definitions (Cont'd)

RING-BACK QUEUE

See Queuing

SELECTED CUSTOMER CONTROL OF FACILITIES

Selected Customer Control of Facilities is an optional feature which allows an ESSX service attendant to control dial access to an individual facility group. The facility group may be real or simulated facilities. Selective Customer Control of Facilities allows an attendant to control access to a particular facility group through activation and deactivation of a customer provided key connected to the Master Scan Point of the facility group. One key is associated with one facility group. All traffic, regardless of source, is denied access to the affected facility group once Selected Customer Control of Facilities is activated. When the facility group is part of an Automatic Route Selection - Basic or ARS - Deluxe route pattern, calls will automatically route to the next facility group in the routing pattern. If there is no alternate route, the call will receive normal reorder treatment.

SIMPLIFIED MESSAGE DESK INTERFACE (SMDI) I

Simplified Message Desk Interface provides customers the ability to route called number identification to a centralized point using a customer provided voice/text messaging system. An ESSX Service station user may have incoming calls forwarded to that centralized point when that person's station is busy or when he is not available to answer the calls. Through the use of an I/O (input/output) channel, call information is transported from the central office to the centralized point at the customer's premises. This information includes the number called, the reason for the forwarding of the call (busy or don't answer), and for intra-central office calls the calling number. That centralized point, using an optional capability, may activate a signal to the called station to give an alert that a message is waiting.

SINGLE DIGIT DIALING OR ABBREVIATED DIALING FOR SERVICES

Provides ESSX service main station lines the ability to dial a one- or two-digit code to reach selected lines within the subscriber's system. Also provides the ability to use variable length codes by means of timing. Abbreviated dialed calls are completed to predesignated main station lines. This feature may also be used to reach particular internal facilities such as dial dictation equipment. Abbreviated dialing is not required where regular "IXX" or "level" access codes are utilized without conflict in the numbering plan.

SPEED CALLING

Lets the main station line user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number. Telephone numbers, including routing codes, are limited to a maximum of sixteen digits. The service is offered in repertory sizes of six and thirty. With the six list, the user will dial a one-digit code; with the thirty number list, the main station line user will dial a two-digit code.

SPLIT SERVICE OFFERING

This feature permits segregation of ESSX service main station lines for a customer into separate groups, thereby enabling each group to have a different set of common features. Typically hotel/motel administrative telephones will utilize consultation hold, add-on and call forwarding features. The guest room telephones usually will not be equipped with these features and a split service offering should be used at appropriate *guidebook* rates. Splitting the service in this manner allows all other No. 1A ESS main station line user features on an optional basis, thus enhancing the versatility of the administrative telephones.

A112.26.3 Definitions (Cont'd)

TRUNK ANSWER ANY STATION

Trunk Answer Any Station is an attendant position night service arrangement whereby, when activated by the attendant, calls to the primary directory listing activate a common alerting signal on the customer's premises. These calls may then be answered by any main station in the system upon dialing a special code.

TRUNK EQUIPMENT

See Miscellaneous Line Terminations

UNIFORM CALL DISTRIBUTION (UCD)

See Station Hunting Arrangements.

A112.26.4 Intercept Of Calls To Unassigned Station Lines

- A. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- B. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all subscribers served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.

A112.26.5 Conversion

- A. Conversion of No. 1A ESS Centrex C.O. Service to ESSX service
 1. Conditional Requirements - Customers with Centrex C.O. Systems may elect to convert to ESSX service at no charge provided the following conditions are met.
 - a. The Centrex C.O. Service must be provided from No. 1A Electronic Switching Systems (ESS) central offices.
 - b. The customer's system must continue to be served by the same central office equipment.
 - c. There must be no interruption of service, and no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
 - d. Centrex C.O. service converting to ESSX service must elect one of the following options:
 - (1) Month-to-Month Payment Plan (One month option).
 - (2) Term Payment Plan of 36, 60 or 84 months. *Terms and conditions* concerning the Term Payment Plan are specified in Section A2. (T)
- B. Conversion of ESSX-1 service to ESSX service
 1. When a customer whose present ESSX-1 service elects to convert to ESSX service, installation and service connection charges (including Premises Work Charges) do not apply to Common Equipment, in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided that all of the following conditions are met. ESSX-1/Multiline termination charges will not apply if an ESSX-1/Multiline system converting to ESSX service selects a Term Payment Period option of length equal to or greater than the number of months remaining in the subscriber's existing ESSX-1/Multiline payment period.
 - a. The customer's system must continue to be served by the same central office equipment.
 - b. There must be no interruption of service.
 - c. There are no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
 - d. A Service Ordering Charge as specified in Section A4. will apply. (T)

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.5 Conversion (Cont'd)

- B. Conversion of ESSX-1 service to ESSX service (Cont'd)
 - 2. ESSX-1 services converting to ESSX service must elect one of the following options.
 - Month-to-Month Payment Plan (One month option)
 - Term Payment Plan of 36, 60 or 84 months
 - *Terms and conditions* concerning the Term Payment Plan are specified in Section A2. (T)
- C. Replacement of Number 1A or selected 2B ESS Central Office Equipment
 - 1. The rates and charges in this Section and other *Guidebook* sections for ESSX service and the associated features and services will continue to apply to existing ESSX service subscribers served at a location that is converted through no desire or fault of the subscriber to other than Number 1A ESS central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the non-Number 1A ESS equipment, the billing for that customer's system will be converted to charges appropriate for the central office equipment providing his service. (T)
- D. Conversion of ESSX service - Vintaged to ESSX service
 - 1. ESSX service-vintaged consists of those rates and charges moved to A112.32. and applicable to subscribers of ESSX service as of July 29, 1990. (T)
 - 2. Customers with ESSX service under A112.32. may select a payment period under A112.26. providing the following conditions are met. (T)
 - a. The customer's selected payment period under A112.32. has expired, or (T)
 - b. The customer's selected payment period under A112.32. has not expired but the customer desires to select a payment period under A112.26. equal to or exceeding the unexpired portion of his current payment period. (T)
 - (1) Charges as described under Termination Liability in A112.26.6. of this Section will not apply.
 - c. A Service Ordering Charge as specified in Section A4. will apply. (T)

A112.26.6 Payment Plans

- A. General
 - 1. ESSX service is offered as follows.
 - a. The payment periods are:
 - Month to Month Payment Plan (One month option)
 - 36 Month Term Payment Plan
 - 60 Month Term Payment Plan
 - 84 Month Term Payment Plan
 - b. ESSX service subscribers may select variable payment periods under the Term Payment Plan as follows.
 - (1) 36 Month Term Payment Plan - payment periods may be selected from 24 months to 48 months in length at 36 month rates and charges.
 - (2) 60 Month Term Payment Plan - payment periods may be selected from 49 months to 72 months in length at 60 month rates and charges.
 - (3) 84 Month Term Payment Plan - payment periods may be selected from 73 months to 96 months in length at 84 month rates and charges.
- Rate stability for other payment periods will be handled on an individual case basis.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.6 Payment Plans (Cont'd)

A. General (Cont'd)

1. ESSX service is offered as follows. (Cont'd)
 - c. The following items may be placed under the ESSX service Term Payment Plan:
 - Main Station Lines
 - Extension Station Lines
 - Group A Features
 - Optional Service Features
 - System Common Equipment
 - Line Terminating Arrangements
- Terms and conditions* concerning the ESSX service Term Payment Plan are specified in Section A2. (T)
2. The monthly rate for ESSX service is dependent upon the payment period selected by the customer.
 3. The monthly rate for ESSX service under the Term Payment Plan for the periods of 36, 60, or 84 months is not subject to Company initiated rate increases.
 4. ESSX service-VS and 200 will be limited to subscribers having 4-200 main station lines under any of the payment periods offered except as specified in b. following.
 - a. An ESSX service-VS or 200 subscriber may elect a 36, 60 or 84 month payment period for any portion or all of his total system size with the remainder to be under the one month payment option.
 - (1) Group A line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features or Optional Service Features may be added under any of the payment plans subject to the preceding features not being added for a payment period of shorter duration than the payment period associated with the ESSX service Common Equipment.
 - b. An ESSX service-VS subscriber may add station lines up to 30 lines and:
 - (1) Add those lines and associated Group A line features at the one month rate specified for ESSX service-VS or,
 - (2) Resubscribe the entire system under the payment periods as offered for ESSX service-200.
 - (3) There will be no termination liability.
 - c. An ESSX service-200 subscriber may add station lines up to 220 lines, and:
 - (1) Add those lines and associated Group A line features at the one month rate specified for ESSX service-200 or,
 - (2) Resubscribe the entire system under the payment periods as offered for ESSX service-600 or ESSX service-XL.
 - (3) There will be no termination liability.
 - (4) Subscribers will be liable for the difference in Common Equipment installation charges between ESSX service-VS, ESSX service-200, ESSX service-600, or ESSX service-XL.
 5. ESSX service-600 will be limited to subscribers with 201-600 main station lines under one month, 36 month, 60 month or 84 month payment periods except as specified in b. following.
 - a. An ESSX service-600 subscriber may elect a 36, 60 or 84 month payment period for any or all of his total system size with the remainder to be under the one month payment period.
 - (1) Group A line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features or Optional Service Features may be added under any of the payment plans subject to the preceding features not being added for a payment period of shorter duration than the payment period associated with the ESSX service Common Equipment.

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.6 Payment Plans (Cont'd)

A. General (Cont'd)

5. ESSX service-600 will be limited to subscribers with 201-600 main stationlines under one month, 36 month, 60 month or 84 month payment periods except as specified in b. following. (Cont'd)
 - b. An ESSX service-600 subscriber may add station lines up to 660 lines and add those lines and associated Group A line features at the one month rate specified for ESSX service-600, or resubscribe the entire system under the payment periods as offered for ESSX service-XL. There will be no termination liability. Subscribers will be liable for the difference in Common Equipment installation charges between ESSX service-600 or ESSX service-XL.
6. ESSX service-XL will be limited to subscribers with more than 600 main station lines under one month, 36 month, 60 month and 84 month payment periods.
 - a. An ESSX service-XL subscriber may elect a 36, 60 or 84 month payment period for any or all of his total system size with the remainder to be under the one month payment options.
 - (1) Group A line features may be added under any of the payment plan options.
 - (2) Auxiliary Attendant Features or Optional Service Features may be added under any of the payment plans subject to the preceding features not being added for a payment period of shorter duration than the payment period associated with the ESSX service Common Equipment.

B. Expiration Of Payment Period

1. ESSX service-VS, 200, 600 and XL customers must, upon the expiration of their payment period.
 - a. select a new payment period as offered in the current *guidebook* (a Secondary Service Charge as specified in Section A4. will apply), or (T)
 - b. revert to the current rates for the one month payment option if at the request of the customer (a Secondary Service Charge as specified in Section A4. will apply), or (T)
 - c. revert to the current rates for the one month payment option if at the instance of the Company (a Secondary Service Charge as specified in Section A4. will not apply). (T)
2. An ESSX service-VS, 200, 600 or XL customer may at any time during his selected payment period recast for an equal or longer payment period at the current rates subject to the following conditions. (T)
 - a. No credit will be given for payments made during the formerly selected period.
 - b. Nonrecurring charges will not be reapplied.
 - c. The new payment period begins with the date requested.
 - d. No termination charge applies for the former payment period.
 - e. A Secondary Service Charge as specified in Section A4. will apply. (T)
3. An ESSX service-VS, 200, 600 or XL customer may at any time during his selected payment period recast for a payment period shorter in length than the time remaining in the existing service agreement, subject to the following conditions.
 - a. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.
 - b. The new payment period begins with the date requested.
 - c. A termination charge applies to the former payment period.
 - d. A Secondary Service Charge as specified in Section A4. will apply. (T)

C. Disconnects

1. When facilities are disconnected from a system for which the current payment period is longer than one month, the expiration date of the remaining service will not be affected.
2. Facilities disconnected from a system prior to the expiration date of the payment period for such service will require termination charges for premature disconnection if applicable.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.6 Payment Plans (Cont'd)

D. Supersedure (Cont'd)

Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer. The new customer will be subject to all provisions currently in effect for the previous customer. *Terms and conditions* concerning transfer of service between subscribers as stated in Section A2. also apply under the Term Payment Plan. (T)

E. Deferred Payment

1. Payment of nonrecurring charges for ESSX service may be deferred over the length of the customer's Term Payment Plan or a shorter period (in annual increments) subject to the conditions specified in this paragraph.
 - a. The charges to be deferred must be among the following types.
 - Installation
 - Service Establishment
 - b. The customer must select a payment period longer than one month.
 - c. The total amount of nonrecurring charges as defined in a. preceding may be deferred.
 - d. The minimum amount deferrable per subscriber's system is \$1000.00.
 - e. Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement executed by the customer. The interest rate to be charged on deferred payments will be revised periodically by the Company. If, in the judgment of the Company, the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of a lawful interest rate. Suspension of the deferred payment option will not affect customers who have executed a deferred payment agreement prior to the effective date of such suspension.
 - f. The deferred charges (including calculated interest) will be prorated on a monthly basis over the selected deferral period length.
 - g. All deferred charges must be paid in full when the customer
 - (1) selects a payment period with an expiration date prior to the expiration date of the deferral period,
 - (2) disconnects service, for the system, prior to expiration of the selected deferral period, or
 - (3) fails to pay a monthly amount within 30 days of its due date.
 - h. The customer may prepay only the total outstanding deferred charges at any time during the selected deferral period. The customer will be given a credit for the amount of unearned interest. The customer may not prepay less than the total of the outstanding deferred charges.

F. Prepayment

1. For payment periods longer than one month, the customer may prepay the total outstanding recurring monthly rates. The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply.
 - a. Customers who prepay six months or more will have an allowance applied.
 - b. Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid system.
 - c. Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges.
 - d. Customers who prematurely disconnect will have termination charges deducted from the prepaid amount and any balance credited to their bill.

G. Termination Liability (Cont'd)

- 8. (Cont'd)
 - a. Cancellation Charges (Cont'd)
 - (2) Per Medium or Large System (Cont'd)

	Nonrecurring	
	Charge	USOC
(a) Disconnect in months 1 - 48	\$10,000	NRCM1
(b) Disconnect in month 49 and thereafter	7,500	NRCM2

- 9. When a subscriber's ESSX service under a Term Payment Plan is disconnected prior to the expiration of the selected service period as a result of a subscriber requested change to one of the separately *available* services listed following, termination or cancellation charges will not apply when: (T)
 - a. the completed service period is 12 months, and
 - b. the service period of the new arrangement for the separately *available* service equals or exceeds the remaining service period of the disconnected arrangement, and (T)
 - c. the service orders to install the separately *available* service and disconnect the existing service are related together and there is no lapse in service between installation of the separately *available* service and disconnection of the existing service, and (T)
 - d. the service orders are for the same subscriber at the same location.

For the purposes of determining the separately *available* services to which the preceding conditions apply, the following list will be used: (T)

- MegaLink Service
- MegaLink Channel Service
- MegaLink ISDN Service
- LightGate Service

H. Credits and Surcharges

A surcharge that is equivalent to the charge for access to an interexchange carrier over a PBX trunk will apply to each Network Access Register. For each ESSX service line a credit will be applied which, when combined with the preceding surcharge and with charges applied to ESSX service lines for access to interexchange carriers, will provide a monthly net billing equal to the interexchange carrier access charge for a PBX trunk multiplied by the number of the subscriber's Network Access Registers.

A112.26.7 Common Service Items

A. Terms and Conditions (T)

- 1. Station Lines
 - a. The rates and charges specified herein for main stations provide for main station line components.
 - b. The rates and charges specified herein for main station lines are applicable to each main station location to which a customer-provided instrument can be connected.

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.7 Common Service Items (Cont'd)

A. *Terms and Conditions* (Cont'd)

1. Station Lines (Cont'd) (T)
 - c. Rates for the main station lines of ESSX service-VS, 200, 600 and XL customers will be based on three criteria:
 - (1) main station group size,
 - (2) distance from the serving central office, and
 - (3) payment option selected.
 - d. The total main station group size will consist of main station lines and attendant access lines for all locations served by the same system.
 - e. The distance band will be based on airline mileage from the serving central office to the Network Interface Location.
 - (1) Where main stations are in a foreign exchange or foreign central office area the distance band will be calculated from the FX or FCO to the Network Interface Location.
 - (2) Systems with more than one location served by the same ESSX service control group will calculate the distance band per location.
 - f. In A Different Central Office Serving Area
 - (1) The rate of ESSX service in a foreign exchange or foreign central office area is the monthly rate for the ESSX service desired, plus a foreign exchange or foreign central office mileage charges.
 - (2) When ESSX service main station lines are connected by facilities which are routed between two or more central offices in the same exchange the foreign central office mileage charges are calculated separately on an airline basis between the ESS central office from which the subscriber's system is served and the central office from which exchange service normally would be rendered.
2. Rates, charges, liabilities and additional *terms and conditions* if applicable may be developed on an individual basis for main station lines exceeding five (5) airline miles from the serving office. (T)
3. Exchange Access
 - a. Exchange Access is provided by means of Network Access Registers.
 - b. Presubscription of a Carrier of Preference is as specified in Section 13. of the Interstate Access Service Tariff.
4. For a change or a rearrangement in a specific service or feature element, the installation charge specified for that element will be applicable unless otherwise specified.
5. Main Station Line Terminated as a Trunk

Where an ESSX service Main Station Line is terminated as a trunk in customer provided equipment the appropriate recurring charge (A112.26.7.G.) will apply in addition to the appropriate Main Station Line Rate for ESSX service-200, 600, and XL. This charge will not apply to ESSX service-Very Small.
6. Subsequent Training
 - a. After the initial installation of the subscriber's system, subsequent training will be provided at the charges indicated in A12.20.8.D. (T)

- 1. Central office attendant console operation is offered as an auxiliary service with ESSX service.
- 2. The Call Transfer-Attendant feature is furnished with Non-Data Link or Data Link Console operation.
- 3. As an alternative the subscriber may designate a selected station or stations to perform attendant functions. Incoming calls to the listed directory number are connected to the selected station and then completed to the desired party by operation of the Call Transfer feature.

B. Attendant Service - Non-Data Link Console Operation

1. **Terms and Conditions**

- a. Customer provided consoles will be allowed only where the equipment is compatible with the Central Office serving the system.
- b. Control channels are required for various console optional features as indicated and are provided at the appropriate rates and charges.

2. Rates and Charges

	Installation Charge	Term Payment Plan Monthly Rate				USOC
		1 Month	36 Months	60 Months	84 Months	
(a) Attendant access protection circuit (one may be required per attendant access line depending on type of console.), each	\$2.80	\$11.25	\$11.00	\$10.25	\$9.90	EAS
(b) Attendant Access Line, main station line charges apply, each	-	-	-	-	-	EAR+X
(c) Position busy (position busy may not be provided for a one position arrangement) ¹ , per system	23.85	-	-	-	-	NA
(d) Position busy (position busy may not be provided for a one position arrangement) ¹ , per console	-	6.60	6.30	6.20	6.10	CXJPT

D. Attendant Service - NonKey Telephone Set or Key Telephone System Operation

1. **Terms and Conditions**

a. NonKey Telephone Sets or Key Telephone Systems may be used for attendant operations.

b. Attendant Access Loops are required between the No. 1A ESS serving the system and the answering location. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing dial "0" traffic. In addition, Attendant Access Loops have the same capabilities as ESSX service main station lines. Access Loops terminate in the Key System and multiple appearances of an Access Loop may be provided within the limits of the associated Key Telephone System.

c. Recorded intercept is provided utilizing common announcement facilities located within the Central Office.

Note 1: Charges for line hunting arrangements apply as appropriate.

Note 2: Requires compatible customer-provided terminal equipment. Private Line *Guidebook* charges apply for the associated Supervisory Control Channel.

G. Automatic Route Selection - Basic (ARS-B)

1. General

- a. Automatic Route Selection - Basic (ARS-B) is an optional feature, available where facilities permit, that allows station users, by dialing a preselected code to automatically select the preferred route subscribed for by a customer for network calls. Alternate routing to other facilities subscribed for by the customer is also provided. This agreement is available for use with Foreign Exchange, WATS, CCSA off-net, tie lines and Other Common Carrier (OCC) access lines which are compatible with ARS and toll facilities.
- b. Automatic Route Selection - Basic is accessed by dialing a single code (1, 2 or 3 digits) which automatically selects the appropriate route (FX, WATS, CCSA off-net, tie line, OCC access line or a toll network) to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four (4) private routes. If no route is available, the call will route to toll or overflow tone (customer option). All patterns accessed by a single access code will have the same final route, either toll or overflow tone.
- c. For calls using FX, WATS, CCSA off-net or OCC access line facilities, the routing may be based on a Number Plan Area (NPA) and limited to specified central office codes within the NPA as designated by the customer. This is referred to as Foreign Area Discrete Translation.
- d. Automatic Route Selection - Basic is a call routing capability and, therefore, all codes must be in a route for selection. Code blocking is not provided by this feature.

2. Terms and Conditions

- a. Automatic Route Selection - Basic is provided only in association with ESSX service furnished from No. 1A Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities, to subscriber systems which are served by the same such equipment.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection - Basic are in addition to the rates and charges for associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to toll may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls over their telephone service.

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.12 Optional Service Features (Cont'd)

G. Automatic Route Selection - Basic (ARS-B) (Cont'd)

2. Terms and Conditions (Cont'd)

- g. Where a route is used in one pattern (pattern reached by one access code) only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes), one translation per pattern may be provided subject to the appropriate charges as specified in 3.a.(2). following. Where central office code translation is required for more than one Numbering Plan Area (NPA) per single facility group or route, rates and charges as specified should be applied for each NPA translated.
- h. A group of patterns may have either toll as a final route or overflow tone. A combination of both within the same pattern group is not permitted. Dial "9" may be used as an access code only if the patterns accessed have toll as a final route.
- i. Where toll restricted main station lines have access to ARS-Basic patterns with final route to toll, apply charge and rate as specified for patterns with overflow to tone in lieu of the charge and rate specified for final route to toll.

H. Station Message Detail Recording Via Revenue Accounting Office (RAO)

1. General

- a. Station Message Detail Recording (SMDR) - RAO is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, FX, WATS, CCSA, Other Common Carrier access lines and/or toll and at the customer's option on certain incoming calls that the attendant extends to a station or tie line within the customer's ESSX service group. SMDR - RAO detail on incoming calls does not include the calling number or the type of facility used.
- b. The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording - RAO.

2. Terms and Conditions

- a. Station Message Detail Recording (SMDR) - RAO may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b. Station Message Detail Recording - RAO is not represented to be a provision of billing detail. Where tie line, Other Common Carrier access line, and foreign exchange facilities are involved, all such call attempts, whether completed or not, will appear in the SMDR - RAO.
- c. Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The format may be changed to serve Company purposes and the customer will be responsible for making the tape compatible with his data processing equipment.
- d. A magnetic tape will be provided by the Company on each occasion Station Message Detail Recording - RAO is furnished to the customer. The tape becomes the property of the customer on a "no exchange" basis and it may not be returned to the Company for reuse.
- e. Station Message details may be provided on all facilities subscribed for by the customer, including toll, but will not include intercom calls originated by station users. The customer may designate the group or groups of facilities on which SMDR - RAO is to be provided. Where the facility designated by the customer is a toll network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g., messages received collect or billed to third number will be on the tape file in addition to toll messages originated by the station user.
- f. Directory Assistance (DA) call detail may be provided on the magnetic tape (customer option).

- I. Reserved For Future Use
- J. Subsidiary System Arrangements

- 1. Subsidiary System
 - a. A Subsidiary System of an ESSX service is a customer-provided equipment system which is furnished PBX trunks from the central office serving the customer's ESSX service and which is connected by tie lines to that ESSX service.
 - b. A Subsidiary System Arrangement provides station numbers which are in sequence with the main station line numbers of the customer's ESSX service to the stations of one or more subsidiary systems.

2. **Terms and Conditions**

- a. Subsidiary System Arrangement (SSA) station numbers are provided by the same central office equipment and facilities which furnish Direct-Inward-Dialing (DID) service and will only be furnished where adequate DID facilities are available in the central office serving the customer's system and where the subsidiary system is properly equipped for DID service.
- b. The PBX trunks of the subsidiary system are provided at the same rates and charges as specified for such trunks furnished from the central office serving the customer's ESSX service. In addition, foreign central office or foreign exchange mileage charges are applicable to those trunks when the subsidiary system is located outside the area of that serving central office.
- c. The same rates and charges as specified for DID service apply for SSA station numbers. Where more than one subsidiary system is involved, each subsidiary system is considered a separate service and the count of station numbers furnished will commence anew at each such system for the purpose of determining the applicable rates and charges.
- d. Tie lines connecting the ESSX service and subsidiary systems are provided at the same rates and charges as specified for ESSX® service tie line terminals, tie lines, and tie line terminals in a customer-provided equipment system.
- e. SSA station numbers are furnished subject to the condition that all inward and outward local and toll network calling by subsidiary system stations be via the central office serving the customer's ESSX service.

A112.26.12 Optional Service Features (Cont'd)

J. Subsidiary System Arrangements (Cont'd)

2. **Terms and Conditions** (Cont'd) (T)

e. (Cont'd)

- (1) Where subsidiary system station's outward local and toll network calls are placed via tie lines and the network access registers of the ESSX service, the charges for such calls are identified and billed as primary directory listing calls of the ESSX service.
 - (2) Where subsidiary system station's outward local and toll network calls are placed via PBX trunks, the charges for such calls are identified as primary directory listing calls of the subsidiary system except as specified in f. following.
- f. At the option of the customer, identification of outgoing toll network calls by SSA station number will be provided at the same rates and charges as specified for Identified-Outward-Dialing (IOD) service subject to the following conditions.
- (1) The identification of outgoing toll calls by SSA station number will only be provided on calls routed via PBX trunks.
 - (2) Where more than one subsidiary system is arranged for the identification of outgoing toll calls by SSA station number, each system shall be considered a separate service and the count of connecting channels which serve as IOD trunks will commence anew at each system for the purpose of determining the applicable rates and charges.
- g. The ESSX service subsidiary system arrangement is provided solely for the furnishing of SSA station numbers to subsidiary systems for local and toll network and intercommunication calling and does not provide any of the basic or optional service features of ESSX service to stations of the subsidiary systems.

P. Station Message Detail Recording - Premises (Obsolated, See Section A112.)⁵

- Note 1:** Requires customer provided terminal equipment.
- Note 2:** Appropriate Private Line charges also apply. Rate includes I/O Port, wiring, modem and Network Interface in the central office.
- Note 3:** This feature is provided subject to the availability of facilities.
- Note 4:** This feature is only offered to certain customers as outlined in A112.26.2 preceding.
- Note 5:** Material previously found in this Section has been obsolated. A new SMDR feature is available in A112.26.12. (T)

A112. OBSOLETE SERVICE OFFERINGS - CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A112.26 ESSX Service - Vintage II (Cont'd)

A112.26.12 Optional Service Features (Cont'd)

Q. Station Message Detail Recording

1. General

- a. Station Message Detail Recording (SMDR) is a feature that provides a record, by main station line number, of originating traffic routing over local lines, tie lines, WATS, Interexchange Carrier access lines and/or the toll network. The SMDR content may vary depending upon the switching technology from which the call record is generated.
- b. The station message detail may include, but is not limited to, the calling main station line number, the called number, connect time and date, call duration, facility used, disconnect time, digits outpulsed by switch, and end of dialing. SMDR data provided to customers using the ETS feature may include, but is not limited to, incoming call identification, outgoing facility used, midnight passed, prefix digits, interLATA carrier, and call event code where these features are offered.
- c. Station Message Detail Recording (SMDR) is designed for either an ETS or non-ETS ESSX service customer.
- d. For SMDR data delivery rates and charges, see Network Usage Information Service in Section A32.
- e. SMDR as shown in this section is required for the activation of SMDR for ESSX service.
