PURPOSE: TDM to IP Transition - Tupelo, MSC d/b/a AT&T Mississippi (AT&T Mississippi) intends to retire copper facilities serving distribution area (DAs) 1106 and 1203 in the Tupelo Wire Center (TUPLMSMA) due to the impact of the planned Mississippi Department of Transportation (MDOT) project. This road-widening underground project consists of improving traffic flow and accommodating turn lanes and new curbsides along East Jackson Street. MDOT has requested that AT&T Mississippi to remove or relocate its facilities in the way of this project before October 30, 2025. Plans to migrate customers currently served by copper facilities to existing Gigabit Passive Optical Network/Fiber-to-the-Premises (GPON/FTTP) facilities and then retire the copper facilities.

As a result of evolving network technology, the Company is able to offer new, advanced services. At the same time, certain older services will no longer be available in some geographic areas, as those services are no longer technically or economically feasible. The table below identifies where services have been withdrawn, by wire center and exchange, along with additional information related to these service withdrawals.
