A5. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

A5.1 Construction Charges (Cont'd)

A5.1.9 Construction Required For Temporary Service

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber may be required to bear all or a portion of the cost of such construction.

A5.1.10 Engineering Work Preparation Fee

A one-time Engineering Work Preparation Fee will apply for the preparation of a quotation for custom work which may require construction charges. This fee is applicable prior to preparation of an estimate for custom work requiring construction charges and will be applied regardless of whether or not the work is ultimately performed for the customer. The Engineering Work Preparation Fee is non-refundable; however, should the customer proceed with the custom work the fee will be applied against the special construction charges. If work is determined not to be a custom work order after the field visit by the engineer, the fee will be refunded to the customer. (C)

The Engineering Work Preparation Fee provides for the development and preparation of a detailed estimate of cost including any appropriate engineering costs incurred in the preparation of this quotation. The customer will be advised of this charge and must agree to pay it before development of the quotation will commence. Preparation of the quotation will begin after the Engineering Work Preparation Fee is received by the Company.

Payment of the Engineering Work Preparation Fee does not assign, confer, or transfer title or ownership rights to proposals or equipment, designed or furnished by the Company. Title and ownership rights for any item developed at the customer's request remains with the Company except as specifically provided by an agreement between all parties.

The Company has the right to apply more applicable engineering preparation fees for any large, complex and/or unique projects that will require excessive engineering hours to develop a detailed cost quote.

A5.2 Reserved For Future Use

B5. APPLICATION OF CONSTRUCTION (TERMINATION AND ADDITIONAL CHARGES)

B5.1 General (Cont'd)

H. Special Equipment And Arrangements (Cont'd)

3. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
4. Administration, taxes and uncollectible revenue on the basis of reasonable average charges for these items.
5. Any other specific items of expense associated with the particular situation.
6. A reasonable amount, computed on the estimated cost installed of any facilities provided, for return and contingencies.

Estimated cost installed as mentioned in B5.1.H.3. and 6. preceding includes the cost of equipment and material specifically provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and any other items which are chargeable to the capital accounts of the Company.

I. Engineering Work Preparation Fee

A one-time Engineering Work Preparation Fee will apply for the preparation of a quotation for custom work which may require construction charges. This fee is applicable prior to preparation of an estimate for custom work requiring construction charges and will be applied regardless of whether or not the work is ultimately performed for the customer. The Engineering Work Preparation Fee is nonrefundable; however, should the customer proceed with the custom work the fee will be applied against the special construction charges. If work is determined not to be a custom work order after the field visit by the engineer, the fee will be refunded to the customer.

The Engineering Work Preparation Fee provides for the development and preparation of a detailed estimate of cost including any appropriate engineering costs incurred in the preparation of this quotation. The customer will be advised of this charge and must agree to pay it before development of the quotation will commence. Preparation of the quotation will begin after the Engineering Work Preparation Fee is received by the Company.

Payment of the Engineering Work Preparation Fee does not assign, confer, or transfer title or ownership rights to proposals or equipment, designed or furnished by the Company. Title and ownership rights for any item developed at the customer's request remains with the Company except as specifically provided by an agreement between all parties.

The Company has the right to apply more applicable engineering preparation fees for any large, complex and/or unique projects that will require excessive engineering hours to develop a detailed cost quote.

J. Rearrangements Of Existing Plant

1. When the Company is requested to move or change existing plant for which no specific charge is quoted in this Guidebook, the person at whose request such move or change is made may be required to bear the costs incurred.
2. Where by statute, ordinance or other legal requirement, existing aerial facilities are required to be relocated underground, the Company will charge the net cost attributable to such relocation to the local exchange subscribers located within the political subdivision or area affected by such statute, ordinance or other legal requirement.

B5.2 Special Type Of Construction

- A. Where a special type of construction is necessary because of unusual conditions or is desired by a customer, as when underground construction is desired in places where aerial facilities would normally be used to reach customer's premises, or when conditions imposed by a customer make the installation exceptionally expensive, an additional charge will be made equal to the difference between the cost of the special type of construction and the cost of normal construction. The customer, however, may provide conduit or pipe subject to approval by the Company, in which case no additional charge will be made for the initial installation of wire or cable therein.
 1. Ownership of such conduit is vested in the customer and necessary replacements shall be made by him.
 2. The duct or ducts required in the underground conduit by the Company to furnish service shall be reserved for its exclusive use.
- B. Where facilities are changed from aerial to underground, the customer is charged the cost of the underground facilities and for the cost of dismantling and moving the aerial facilities. Repair or replacements of cable in conduit or trench made necessary by damages caused by the customer or his representatives will be made only at the customer's expense.
- C. Construction Provided By Connecting Companies

The charges to the customer for special construction provided by a connecting or other participating company of the Company will be based on the charges of the connecting or other participating company.
