Telephone directories should not be mutilated or misused in any manner which impedes reference to essential service information or otherwise interferes with service.

A2.3.12 Provision And Ownership Of Telephone Numbers

Telephone numbers are the property of the Company and are assigned to the service furnished the subscriber. The subscriber has no property right to the telephone number or any other call number designation associated with services furnished by the Company, and no right to the continuance of service through any particular central office. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the subscriber, whenever the Company deems it necessary to do so in the conduct of its business.

A2.3.13 Maintenance And Repairs

Where new or additional service is to be established at a location that would involve undue hazards, or where accessibility is impracticable to employees of the Company, the subscriber may be required to install and maintain the Company's equipment and facilities in a manner satisfactory to the Company, any remuneration to be based on the conditions involved.

Where new or additional service is to be established at a location that has a hazardous electrical environment (e.g., an electric power substation or generating plant or a high voltage transmission tower, switching or distribution location), the customer must have high voltage isolation equipment installed at such premises whenever hazardous voltages of 1000V peak-asymmetrical or greater exist prior to the installation of Company ordered service. If the customer is aware that its premises are located where such hazardous voltages exist, the customer must notify the Company of this fact at the time its order for service is placed. The Company makes high voltage isolation equipment that complies with the Institute of Electrical and Electronics Engineers ("IEEE") Standards 487 and 1590 available to its customer under Special Assembly.

The customer may elect to provide high voltage protection by means other than a Company Special Assembly and if customer so elects, the equipment used must meet the technical requirements specified in IEEE Standards 487 and 1590 and the customer shall submit its proposed design and equipment specifications to the Company for approval prior to installation of Company service ordered. Where the customer has elected to select, install, use and maintain its own high voltage protection equipment, the customer does so with the understanding that it is solely responsible for any interruption of Company service associated with its selection, installation, use or maintenance of the high voltage protection. Furthermore, the customer, its employees, agents, officers, directors, affiliates, successors and assigns agree to indemnify and hold the Company, its subsidiaries, affiliates and their collective employees, agents, officers, and directors harmless from all loss, liabilities, costs and expenses, including attorneys' fees and all costs of defense and settlement, resulting from interruption of service, damage to property, claims, demands, suits or actions of any nature whatsoever arising from the failure of the high voltage protection selected, installed, used or maintained by the customer.

The Company reserves the right to suspend any service it provides absent required high voltage protection until adequate protection is provided.

Standard intervals do not apply for service ordered where voltage isolation equipment is required and must be installed prior to installation of new or additional service ordered from the Company.

E. Additions To Existing Systems

(T)

1. Additions can be made to an existing system at the customer's option, and the payment of rates and charges in the currently effective *guidebooks* for such service will be applied. (T)(M)
2. At the customer's option, unless otherwise specified in the service *guidebook*, additions may be paid for over the remainder of the existing system's payment period, and be added onto the existing agreement, providing at least 30 days remain in the customer's existing payment period. The addition and installed system payment periods will then have a common expiration date. The charge(s) for the addition(s) will be the current filed rate(s) for the equipment for the same payment period as the installed system's existing payment period. If the installed system's payment period is not in the current *guidebook*, the rate charged for the addition will be that of the next shorter filed payment period. (T)(M)
If less than 30 days remain in the current payment period, additions may only be placed on the one-month payment period at the current rates in effect for the one-month period. (M)
3. 3. Additions made at the time a service is upgraded may, at the customer's request be paid over the existing (including extension) payment period unless otherwise specified in service *guidebooks*. (T)(M)

The rates for added service will be those for a time period equivalent to that of the payment period prior to the upgrade. If the payment period for the customer's current payment period has been discontinued in the *guidebook* at the time of the upgrade, the new service will be billed at rates applicable for the next shorter payment period in the current *guidebook*. The total rates charged for the upgraded service over the extended payment period will be the current *guidebook* rates for any new service plus the rates already being billed for service installed before the upgrade and continuing in service. (T)(M)

4. When new service is not added to the existing (excluding extension) payment period, the customer must choose a currently available payment period of equal or shorter length than the time remaining in the current (excluding extension) payment period. Current rates would apply for the selected payment period for the new service, and rates already being billed prior to the upgrade would be charged for service previously installed and continuing in service. The new service may then have a different expiration date than the installed service. (M)

When the new service and the existing service's expiration dates differ, the customer must select a new payment period for the service added (at the time of expiration) in upgrading the system according to the terms and conditions stated in A2.4.8.E.3. preceding or in this section.

5. A customer on the one-month payment period may elect to upgrade; however, the payment period will not be extended.
6. The new service is exempt from Company initiated rate changes for all payment periods longer than one month.
7. Termination charges will apply to service disconnected prior to expiration for all payment periods longer than one month.

3. The customer must select a currently available payment period for the new service. The current rates for the chosen period would apply to any new service as well as to any remaining service from that previously installed.
4. Termination charges will apply to all service removed prior to expiration of the selected payment period. Termination charges will not apply to any service remaining at the customer's premises for use with the new service provided the customer selects a new payment period equal to or longer than the time remaining under the former payment period.
5. Installation, service establishment, service order, and other nonrecurring charges, as specified in service *guidebooks*, will apply for the newly installed service. Nonrecurring charges will not apply to service remaining at the customer's premises. (T)

H. Removals

 - a. Removal of service that is unique or identifiable by a code will be recognized through application of a termination charge for that specific unit.
 - b. Removal of service that is not unique or identifiable by a code, where two or more units of the same type of service are provided to the customer's premises, will be recognized through the following provisions:

- I. Downgrades** (T)
1. Allowable downgrades for installed services are specified in service *guidebooks*. (T)(M)
 2. A customer has the option to place any new service on a coterminous payment period at the time of the downgrade, unless otherwise specified in the service *guidebook*. Rates for the new service are those currently in effect for the original payment period (or, if the period is no longer available, for the next shorter one). The rates for service remaining at the customer's premises after the downgrade will not be affected. (T)
 3. When a coterminous payment period is not chosen, the customer must select a payment period of equal or shorter length than the time remaining in the current payment period. Current rates apply for the equal or shorter payment period. Service remaining to the customer's premises will continue being billed at the rates in effect prior to the downgrade. The new service may then have a different expiration date from the service which remained after downgrading. (T)
When the expiration dates differ, the customer must select a new payment period for the service (at the time of expiration) added at the time when service was downgraded according to the terms and conditions in A2.4.8.I.2. preceding of this section.
 4. Termination charges do not apply for existing service which becomes part of the downgraded service. Termination charges do apply for service removed in downgrading.

 2. A new version may result in a higher monthly charge.
 3. All version replacements requiring central office hardware changes will be *guidebook* enumerated, under specific service headings. (T)
 4. Appropriate charges will apply for central office hardware changes resulting from version changes, as specified in A2.4.8.C., E.5., E.7., F.7., F.8., G.4., and G.5. preceding and elsewhere in this *Guidebook*. (T)

The first bill rendered after service is reestablished will contain advance billing and, if applicable, retroactive billing from the date of disconnect. Progression of the payment period will be unaffected. (M1)
 - (4) Complete arrangements or services must be moved in lieu of individual components, where components are dependent on host units for operation, unless otherwise specified in service *guidebooks*. Where components operate independently and are covered by individual *guidebook* charges, the customer may select units to be moved and units to be terminated from the agreement, subject to any restriction(s) in service *guidebooks*. (M)

(T)

Customer requests for lapse-in-service moves between exchanges of a Company in different states or between exchanges of two Bell Operating Companies in the same or different states will be provided under the same conditions as described preceding, in A2.4.8.L.1.a. except as follows:

- (1) Billing for the original location will apply through the date service is disconnected. Billing for the new location will be effective on the next day.

The rates in the new location will be those in effect for new customers. Rate stability against Company initiated changes shall be provided at the new rates for the remainder of the customer's payment period.

The first bill rendered after service is re-established will contain advance billing and, if applicable, retroactive billing from the date of disconnect. Progression of the payment periods will be unaffected.

- (2) **Guidebooks** for the same service and payment periods must exist in both states or Companies at the time of the move. If **guidebooks** exist for the same service, but the lengths of the periods available are different, the customer must select a payment period available in the new state or Company. Relocation of installed cables, wires, or equipment will follow interjurisdictional or intrajurisdictional move provisions as appropriate. Substitution of installed cables, wires or other equipment will follow the minor equipment modifications, additions, removals, upgrades, downgrades or conversion policies as appropriate, depending on the type of substitution requested.

4. Minor Service Modifications

(M1)

Minor service modifications are identified in service specific **guidebooks**. The length of the customer's existing payment period is unaffected by these modifications. The following provisions may apply to changes of jurisdiction when the service location is not changed. However, the concepts may be used for reclassification of services at the time of a move. (T)

1. Billing for the original jurisdiction will apply through the date of jurisdiction change. Billing for the new jurisdiction will begin on the next day.

The rates applicable for the new jurisdiction will be those in effect for new customers. Customers changing service to the jurisdiction (*AT&T Mississippi* in Mississippi) will have stability against Company-initiated changes in rate levels for the remainder of the payment period. (T)

2. Nonrecurring charges will not apply, either for the services subscribed to under the Variable Term Payment Plan or for connecting services, unless they are being installed at the time of the change in jurisdiction of existing services. Service ordering charges will apply if stipulated by the tariff/*guidebook* in the new jurisdiction. (T)

3. Tariffs/*guidebooks* for the same service and Variable Term Payment Plan periods must exist in both jurisdictions at the time of the change. If tariffs/*guidebooks* exist for the same service but the lengths of the payment periods in the new jurisdiction are different, the customer must select a new payment plan period with a length equal to or longer than the remaining time in the existing payment period, subject to the conditions covered in A2.4.8.N., "Requests for Changes in Length of Optional Payment Periods", following. (T)

N. Requests For Changes In Length Of Optional Payment Period

2. The new payment period begins with the date requested.
3. No termination charge applies for the former payment period provided the customer selects a new payment period equal to or longer than the time remaining under the system's/item's former payment period. Otherwise, a termination charge applies for the former payment period.
4. A service order charge will not apply. (M1)
5. The new payment period, selected by the customer for a new item of service must be shorter than the time remaining in the service's existing payment period. (M1)

The one-month service will be subject to Company initiated rate adjustments. (T)

The Company may discontinue or change any or all renewal options. (T)

The new customer will be subject to all provisions currently reflected in the service agreement. (T)

Q. Concession Service

Service furnished under the Variable Term Payment Plan is not eligible for discount in accord with provisions for concession service specified elsewhere in this *Guidebook*. (T)

R. Failure Of Service

(T)(M1)

A2.4.10 Payment Plans And Options For Contract Services

A. General

1. The *terms and conditions* specified herein are applicable to specific services as indicated in each service's respective section of this *Guidebook*. (T)
2. Services furnished under Payment Plans for Contract Services (PPCS) are subject to all general *terms and conditions* applicable to the provision of service by the Company as stated elsewhere in this *Guidebook* except as noted herein. (T)
3. The PPCS are payment plans which allow customers to pay fixed or variable rates for services provided over variable contractual payment periods. A specific monthly rate applies for the duration of each period.

Payment periods for services provided under PPCS will be described in the services' specific *guidebook* section. The following is an example of payment periods offered. (T)

 - a. Payment Plan A - payment periods may be selected from 24 months to 48 months in length.
 - b. Payment Plan B - payment periods may be selected from 49 months to 72 months in length.
 - c. Payment Plan C - payment periods may be selected from 73 months to 96 months in length.
4. When the customer extends service beyond the longest service period offered, then rates for the longest available service period will apply. (M1)
5. When the customer orders service to be provided under a PPCS arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g. Payment Plan B and sixty months. (M1)

(M)

B. Application of Rates and Charges

1. Rates stabilized under a PPCS arrangement are exempt from Company-initiated increases, however, decreases for any rate element will automatically flow through to the customer. Effective with this *Guidebook*, customers under a PPCS arrangement will be billed the lower of their existing PPCS rates or the current PPCS rates for their service arrangement. (T)
2. When customers renew or change the length of their payment period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the payment period. A service charge will not be applicable for such renewals or changes to the payment period.
3. Recurring rates and installation, termination, service establishment, Service Connection and other nonrecurring charges apply according to the appropriate schedules for services offered as associated items to Contracted Services, and are *found* elsewhere in this *Guidebook*. (T)
4. Customer requests for inside moves of service will not affect the contract period.
5. A change in jurisdiction will not constitute a disconnect of service provided the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period, whichever is greater, and provided the new PPCS arrangement is for the same customer at the same location for the same capacity service.

C. Termination Liability Charge

1. In the event that all or any part of a service is disconnected at a customer's request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a termination charge as stated in that service's section of this *Guidebook*. (T)

D. Additions

1. Additions of services or rate elements, e.g. ports, new local channels, interoffice channels, etc., must be under a new PPCS arrangement at rates and charges as specified in B. preceding.
2. Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects as stated in E. following.

E. Disconnects

1. When a service or rate element, included under a PPCS arrangement, is disconnected prior to expiration of the selected service period, Termination Liability Charges apply as set forth in the rate *terms and conditions* in this *Guidebook* for such service. Remaining services or rate elements will not be affected by such disconnections. (T)
2. When a *guidebook* service under a PPCS arrangement is disconnected prior to the expiration of a selected service period as a result of a change of jurisdiction Termination Liability Charges will not apply when: (T)
 - the completed service period is twelve months, or twenty-five percent of the length of the originally selected PPCS service period, whichever is greater, and
 - the service orders to install the new service and disconnect the old service are related together and there is no lapse in service between installation of the new service and disconnection of the existing service, and
 - the service orders are for the same customer at the same location.

F. Moves of Equipment

1. The appropriate nonrecurring charges for inside moves for items associated with contract services as specified in this and other *Guidebooks* are applicable. This type movement will not affect the contract period. (T)
2. Customer requests for moves of service(s) under PPCS, other than inside moves, will be subject to the conditions stated in M. following. (M1)

G. Requests for Changes in Length of Optional Payment Period

1. Subsequent to the establishment of a contract with a PPCS period, and prior to the completion of that period, the existing payment period may be replaced by:
 - a. A currently offered payment period at the current rates, with a length equal to or longer than the time remaining in the existing service agreement, subject to the following conditions:
 - (1) No credit will be given for payments made during the formerly selected period.
 - (2) The new payment period begins with the new PPCS effective date.
 - (3) No termination charge applies for the remaining portion of the former payment period.
 - (4) Nonrecurring charges will not be reapplied.
 - (5) A service charge will not apply.
 - b. A currently offered payment period at the current rates, with a length shorter than the time remaining in the existing service agreement, subject to the following conditions:
 - (1) No credit will be given for payments made during the formerly selected period.
 - (2) The new payment period begins with the new PPCS effective date.
 - (3) A termination charge applies for the remaining portion of former payment period.
 - (4) Nonrecurring charges will not be reapplied.
 - (5) A service charge will not apply.

H. Renewal Options

1. The customer has the following renewal options:
 - a. Prior to completion of the current payment period, any period available under the PPCS may be selected at the rates in effect for new customers at the time of the renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the prior payment period.
 - b. Service may be continued on a month-to-month basis at the current rate for the one-month payment period, unless otherwise specified in this *Guidebook*. The customer has no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge. The one month service will be subject to Company-initiated rate adjustments. (T)
 - c. If the customer does not elect an additional payment period or does not request discontinuance of service, service will be continued at the monthly rate currently in effect for the month-to-month payment rate, under the terms specified in b. preceding.
 - d. Upon expiration, Letters of Election executed on or after May 1, 2005, shall automatically renew for an additional one-year term under the same rates, terms and conditions in effect under the original Letter of Election, unless the Subscriber or the company provides written notice of its intent not to renew the Letter of Election at least sixty (60) days prior to the expiration of the initial term or any subsequent additional one-year term.
2. Service charges are not applicable for services renewed under the PPCS. Any new rate elements added at the time of renewal will be subject to all appropriate service charges and other nonrecurring charges.
3. The Company may discontinue or change any or all renewal options. (T)
4. When a customer renews a PPCS arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
5. Recognition of previous service will be given to customers who renew an existing PPCS arrangement, for all associated rate elements at the same location(s), provided that the length of the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period of the original PPCS arrangement, whichever is greater.

A2. GENERAL TERMS AND CONDITIONS (T)

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.10 Payment Plans And Options For Contract Services (Cont'd)

H. Renewal Options (Cont'd)

6. Recognition of previous service will be given to month-to-month customers with a service date of January 1, 1994 or later who convert to a PPCS arrangement, provided the minimum service period has been met. For customers whose service date is January 1, 1994 or earlier, recognition will be given for the previous service back to January 1, 1994. For customers whose service date is later than January 1, 1994, recognition for the previous service will be given back to the actual service date.
7. To determine the appropriate PPCS for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of the months of the proposed service period of the PPCS arrangement. For example, a PPCS arrangement for a thirty-six month service period under Payment Plan A is renewed for twenty-four months with no changes at the end of the thirty-six month period. The sum of months for the completed and proposed service periods would equal sixty months and would be billed under Payment Plan B. Another example is a Month-to-Month customer, in service for fifteen months, who wishes to convert to a sixty month PPCS arrangement with no changes. The combined service period of the Month-to-Month arrangement and the PPCS arrangement is equal to seventy-five months, which would be billed under Payment Plan C.

I. Transfer of Service

1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer as specified in this *Guidebook*. This does not constitute a disconnect of service or a discontinuance of an existing PPCS arrangement. The new customer will be subject to all provisions and equipment configurations currently in effect for the previous customer. *Terms and conditions* concerning transfer of service between subscribers as stated in other sections of this *Guidebook* also apply under PPCS. (T)

J. Deferred Payment

1. Payment of nonrecurring charges for services with contract payment plans which have been approved for deferred payments may be deferred over the length of the customer's payment period or a shorter period (in annual increments) subject to the conditions specified in the *Guidebook* for the contracted service as well as the conditions following: (T)
 - a. The charges to be deferred must be either the Installation, Service Establishment and/or other nonrecurring charges (including the applicable interest).
 - b. The payment period must be longer than one month.
 - c. The minimum amount deferrable shall be the minimum amount set forth in the specific *guidebook* for the contracted service. (T)
 - d. Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement concurred in by both the customer and the Company. The interest rate shall be reviewed periodically by the Company. If the Company determines that the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of an allowed interest rate specified by law. Suspension of the deferred payment option will not affect customers with existing deferred payment agreements that were made prior to the effective date of such suspension.
 - e. The deferred charges (including interest) will be prorated on a monthly basis over the length of the selected deferral period.
 - f. All deferred charges must be paid in full when the customer:
 - (1) Disconnects service, for the system or service prior to expiration of the deferral period.
 - (2) Fails to pay a monthly amount within thirty days of its due date.
 - g. The customer may prepay only the total outstanding deferred charges at any time during the selected deferral period. The customer will be given a credit for the amount of unearned interest. The customer may not prepay less than the total of the outstanding deferred charges.

K. Prepayment

The customer may prepay the total outstanding recurring monthly rates for contracted services, approved for prepayment, for payment periods greater than one month. The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply:

1. Customers who prepay six months or more will have an allowance applied. The interest rate credit for prepayments shall be based on market interest rates that will change periodically, and will be calculated by the Company.
2. Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid service.
3. Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges as specified preceding and/or in the *Guidebook* for the contracted service. (T)
4. Customers who prematurely disconnect will have termination or cancellation charges deducted from the prepaid amount and any balance credited to their account.

L. Exception To Termination Liability For State, County, And Municipal Governments

(See A2.4.8)

(T)

M. Moves of Service(s) under PPCS

Termination Liability Charges will not apply to customer requests for moves of service under PPCS from one location to another location subject to the following:

1. The original and new premises locations must be in Company territory within the same state.
2. The move from the original location to the new location must be completed within thirty days of the original premises disconnect date.
3. No lapse in billing will occur for moves of service under PPCS.
4. Orders to disconnect the existing service and reestablish it at the new location must be related.
5. Any rate elements from the original location that are not reestablished at the new location will be subject to applicable Termination Liability charges.
6. Any additions made at the new location will be treated as coterminous additions in accordance with D. preceding.
