1. The following usage rates apply where the Area Calling Plan is not available. All calls originating and terminating within the same or contiguous wire center of an exchange are in Band A. All other calls within the local calling area are in Band B.

Mileage Bands	Initial Minute Charge	Additional Minute Charge
A	\$.04	\$.02
B	.06	.04

2. Usage rates where the Area Calling Plan is available are based on airline mileage between wire centers. Wire center coordinates are specified in the National Exchange Carrier Association F.C.C. Tariff No. 4.

- E.** On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the holiday rate applicable is the Evening rate, unless a lower rate would normally apply.
- F.** Usage charges may be billed to numbers other than the measured service telephone number. (C)
- G.** Usage charges apply to local calls completed with operator assistance in addition to Operator Assisted Local Call surcharges (when applicable). Such calls are itemized on the subscriber's billing statement and are billed outside any applicable usage allowances for dialed sent paid calls. (C)
- H.** When a customer subscribes to more than one measured rate line on the same premises and the lines are group billed on the same service account, the local usage charges on all such lines are combined. If usage allowances are applicable, they are also combined to determine the amount of charges for usage in excess of such allowances. Usage charges and/or usage allowances shall not be combined for measured rate lines or trunks structured on separate service accounts, even though one account might be "billed to" another account, for the purpose of rendering one bill to the subscriber.
- I.** The offering of this service is subject to availability as determined by the Company. Individual line measured rate service in those exchanges where the service is offered will be at a rate specified in A3.2.3.A or A103.2.3.A. The rates specified entitle subscribers to a usage allowance for calls completed to stations in the local calling area; i.e., all stations bearing the designation of central offices of the serving exchange and additional exchanges as shown in A3.6., following, Local Calling Areas, of this Guidebook. Charges for local usage in excess of the allowance are based on mechanized records kept of all calls originated on the line.

A3.47 AT&T Business Local Calling (BLC) (Cont'd)

A3.47.2 Terms and Conditions (Cont'd)

- M. Customer may purchase a Business Local Calling package for a 12-month term via a written or oral agreement. The agreement will automatically renew in successive 12-month terms unless, prior to expiration of the then-existing term, either party (Customer or Company) provides the other 30-days written notice that it does not wish to renew the agreement. Absent such notification, upon renewal a new 12-month term commences at the rates for 12-month term then in effect in A3.47.6 Prices on the date of renewal, subject to Company-initiated rate adjustment.¹

When Business Local Calling 1-19 line package is purchased as part of a Bundle Offer (i.e. an offer for the purchase of multiple AT&T services at a discount), the customer agrees to maintain the Bundle Offer for the applicable term. The price of the Business Local Calling service portion of the Bundle is valid until one of the following events occurs, at which time the price will increase: (1) the term of the Bundle Offer expires; (2) customer changes the Business Local Calling service address; or (3) customer drops one of the AT&T services in the Bundle Offer. If the customer is no longer eligible for the Bundle Offer price for the reasons described above, but has time remaining on the Bundle Offer term, the price for the Business Local Calling service will increase to the then-existing 12-month term price.

- N. Applicable local, state, and federal charges; taxes; 911 fees; and the End User Common Line charge are in addition to the line option prices listed in A3.47.6.
- O. Reserved for Future Use
- P. Lines subscribed to an AT&T Business Local Calling account cannot be placed on customer-initiated temporary suspension.
- Q. AT&T Business Local Calling customers with 1-19 initial line agreements who request a move or transfer of their telephone service either within the same premises or from one premises to another will be charged a one-time \$20 per line Service Order and Line Connection Charge for a maximum of 4 lines per move or transfer. This charge will not apply if the move or transfer is within 90 days of term expiration and the customer agrees to a new AT&T Business Local Calling agreement.
- R. AT&T Business Local Calling customers may combine subscribed lines from any state where an AT&T ILEC provides local service and where the AT&T Business Local Calling plan is available, into one agreement to meet line commitments.
- S. Each business customer may establish multiple 1-19 line AT&T Business Local Calling agreements but will be limited to a maximum of one 20+ line AT&T Business Local Calling agreement at any given time. The total number of lines subscribed under all agreement types combined is limited to 35,000 per customer. This limitation applies for each business customer across all states where an AT&T ILEC provides local service and where AT&T Business Local Calling is also available.

A3.47.4 Termination Liability and Shortfall

- A. Except as provided for elsewhere in this Guidebook, customers who terminate their entire AT&T Business Local Calling account prior to completion of the selected term period are subject to termination charges. Termination charges are equal to \$15.00 times the number of months remaining on the term commitment times the number of lines subscribed to on the initial order.
- B. Termination charges are not applicable if, during the term period:
1. the customer converts to another Company access and local usage plan with a term equal to or greater than the time remaining on the AT&T Business Local Calling term plan. or
 2. the customer converts to an upgraded technology with the Company (e.g., network access lines to PBX Trunks, Centrex, ISDN) and commits to a term equal to or greater than the time remaining on the AT&T Business Local Calling term plan. It is at the Company's sole determination whether a product change satisfies the requirements for waiver of the termination liability under this clause; or
 3. the customer chooses to terminate their agreement and to negotiate a new AT&T Business Local Calling agreement with a term period greater than the time remaining on the existing AT&T Business Local Calling agreement. The new service agreement will be based on the term plan rates in effect at the time of establishing the new agreement. For 20+ line agreements the customer must also establish a new line commitment at least as great as in their initial subscription in order to qualify, or
 4. an AT&T ILEC Service (referred to as the "Terminated ILEC Service") provided under an AT&T Business Local Calling Agreement is migrated to a qualifying AT&T Business Voice over IP (BVoIP) Service or to a qualifying AT&T Mobility Service (referred to collectively as the "Replacement Service"), then the Early Termination Charge associated with the Terminated ILEC Service will be waived provided:
 - a. the Terminated ILEC Service has been installed at the Customer site for no fewer than 3 months;
 - b. the Term of the Replacement Service agreement is equal to or greater than the remaining term for the Terminated ILEC Service;
 - c. the Replacement Service is installed or available at the same Customer sites as the Terminated ILEC Service;
 - d. the Replacement Service is contracted for in the same relative quantity(ies) as those Terminated ILEC Services being displaced; and
 - e. activation of the Replacement Service at the Customer sites or for Customer use at such Customer Sites occurs within 90 days of termination of the ILEC Service at that site.

It is at the Company's sole discretion whether a product change satisfies these requirements

- C. For customers who initially subscribe to 20+ lines: in any month during the term of an AT&T Business Local Calling agreement if the customer's total number of subscribed lines falls below 80% of the number of lines subscribed to on the agreement, then a shortfall adjustment charge will be applicable and will appear on the customer's bill for each of those months. This shortfall adjustment charge is equal to \$10.00 times the number of lines below the 80% requirement.
