A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

(T)

CONTENTS

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.1 Application

This Guidebook applies to Long Distance Message Telecommunications Service (MTS) furnished or made available by the Company and its connecting companies between two points within the state of Mississippi where the respective rate centers of such points are located in the same LATA.

A18.2 General

- A. Long Distance Message Telecommunications Service is that of furnishing facilities for communications between stations in different rate centers for either two-point or conference service.
- B. Rates for service between points are based on airline mileage between rate centers. In general, each point is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest. Airline mileages between rate centers are determined as provided in A18.5.
- C. Terminal equipment or systems may be used with facilities furnished to the customer by the Company for Long Distance MTS as specified in Section A15.
- D. Long Distance MTS is provided for use by the Customer and may be used by others when so authorized by the Customer. Use of the service is subject to *terms and conditions* in Section A2., with the exception of A2.2.1.A. and A2.2.1.B., which restrict the use of service and prohibit payment to the Customer by another for use of the service. (T)

A18.3 Two-Point Service

A18.3.1 Service Between Land Wire Stations

- A. Classes Of Service
 - 1. Service is offered on a Station-to-Station basis, as either Dial or Operator. These classes of calls are defined in Section A1., Definition of Terms.
- B. Rates And Charges
 - 1. Charges for each Long Distance MTS message between any two points within the state and within the same LATA are determined as follows:
 - a. All messages are rated in full minute increments. Initial and additional minute basic rates are specified in the Basic Rate Schedule in A18.3.1.B.2 following. Initial minute rates are for connections of one minute or any fraction thereof. Additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the first minute.
 - b. If any portion of a message occurs in a reduced rate period, the Basic Rate Schedule charges are discounted, as specified in A18.3.1.B.3.
 - c. For any Operator Station message, the Service Charge specified in A18.3.1.B.4., is added to the Basic Rate Schedule charge.
 - d. All real-time rated calls are rounded and rated in whole minutes. Real-time rated calls are calls that require quotation of charges before or after a call is completed (1+ Hotel or Time and Charges).
 - 2. Basic Rate Schedule
 - a. The following rate table contains the initial minute and additional minute rates for the Day rate period for all call classes. These rates are based on chargeable time (duration) of the message, as specified in A18.3.1.C., following, and the airline mileage between the rate centers of the two stations connected, as specified in A18.5 following.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.3 Two-Point Service (Cont'd)

A18.3.1 Service Between Land Wire Stations (Cont'd)

B. Rates And Charges (Cont'd)

3. Rate Periods and Rate Discounts

- a. Rate periods and rate discounts are described in the tables following. Residence rate discounts are only available for hearing and speech-impaired.

Residence	Rates and Applicable Periods						
	Mon.	Tues.	Wed.	Thur.	Fri.	Sat.	Sun.
8:00 AM to 5:00 PM ^{1,2}	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	4% Disc.	4% Disc.
5:00 PM to 11:00 PM ^{1,2}	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.
11:00 PM to 8:00 AM ^{1,2}	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.	4% Disc.

Day rate period = full rate

Evening rate period = 4% discount

Night and Weekend rate period = 4% discount

Business	Rates and Applicable Periods						
	Mon.	Tues.	Wed.	Thur.	Fri.	Sat.	Sun.
7:00 AM to 7:00 PM ¹	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate
7:00 PM to 7:00 AM ¹	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate	Full Rate

Day rate period = Peak period = full rate

Off-Peak period = **full rate**

- b. Discounts for the Off-Peak, Evening, Night and Weekend discount periods are expressed as a percent reduction of the Basic Rate Schedule charges preceding. The discount is applied to the total Basic Rate Schedule charge for that portion of a message occurring within the discount period. When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.
- c. No discount applies for that portion of a message occurring in the Day rate period.
- d. When a message spans more than one rate period, total charges for the minutes in each rate period are calculated, any discount applied and the results for each rate period are totaled to obtain the total message charge.

Note 1: To, but not including.

Note 2: Changes to be implemented during normal billing cycles beginning March 6, 2003.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.3 Two-Point Service (Cont'd)

A18.3.1 Service Between Land Wire Stations (Cont'd)

B. Rates And Charges (Cont'd)

4. Application of Surcharges

a. For any message in the call classes listed following, add the Service Charge shown following to the total Basic Rate Schedule charge, adjusted for time-of-day. (The Service Charge is not adjusted for time-of-day.)

(1) Billing Surcharges

	Rate	USOC	
(a) Station-to-station operator assisted sent paid, each	\$1.00	NA	(T)(C)
(b) (DELETED)			(T)(D)

(2) Operator Dialed Surcharge ¹

(a) Station-to-station operator assisted calls where the operator dials the terminating number, each	1.00	NA	(C)
--	-------------	-----------	-----

(3) Partially Automated Surcharge ²

(a) Station-to-station operator assisted calls where the customer dials the terminating number, and elects to have the operator handle the billing, each	1.25	NA	
--	-------------	-----------	--

C. Timing Of Messages

1. The time at the beginning of each minute of connection determines the applicable rate period. The time observed at the rate center of the calling station applies. (C)
2. On Station-to-Station calls, chargeable time begins when connection is established between the calling station and the called station, Miscellaneous Common Carrier, mobile radio system or PBX system.
3. **(DELETED)** (D)
4. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
5. Chargeable time does not include time lost because of faults or defects in the service.

Note 1: An Operator Dialed Surcharge is in addition to any applicable Billing Surcharge.

Note 2: A Partially Automated Surcharge is in addition to any applicable Billing Surcharge.

A18.3 Two-Point Service (Cont'd)

A18.3.1 Service Between Land Wire Stations (Cont'd)

D. (DELETED)

(D)

E. Collection Of Charges At Coin Telephones

Charges for calls to be collected at coin box telephones will be the total charge for a business call as provided herein, computed and rounded to the nearest multiple of \$.05.

F. Rates Applicable On Certain Holidays

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day, and Labor Day, the holiday rate applicable is the Evening Rate, unless a lower rate would normally apply.

G. Rates for Customers with a Hearing or Speech Disability or users of the Mississippi Relay Center

1. Rates for certain MTS calls are reduced for customers with a hearing and/or speech disability who meet requirements G.1.a. through G.1.d., following, or for any customer who meets requirement G.1.e., following:
 - a. The customer is certified to the Company as having a hearing or speech disability that prevents telephone voice communication.
 - b. The customer has non-voice equipment used for telecommunications.
 - c. The customer makes written application to the Company for the reduced MTS rates.
 - d. The customer designates to the Company one and only one telephone number associated with that customer's residence service. Reduced rates apply only to calls originated from this telephone number.
 - e. The customer uses the Mississippi Relay Center which permits customers with a hearing and/or speech disability to use a Text Telephone (TT) to exchange telephone conversations with voice customers. See definitions of Terms in Section A1.
2. Rates for certain MTS calls are reduced for an agency that assists persons with a hearing or speech disability under the following conditions:
 - a. The agency provides non-voice telecommunications equipment solely for the use of hearing or speech disabled persons.
 - b. The agency makes written application to the Company for the reduced MTS rates.
 - c. The agency designates to the Company one and only one local exchange telephone number associated with each piece of non-voice telecommunications equipment. Each such number may be used only for calls through the non-voice telecommunications equipment. Reduced rates apply only to calls originated from such designated telephone numbers.
3. All Dial Station-to-Station (DDD) calls originated from the designated telephone number, regardless of rate period, will be discounted at 20% off the total Basic Rate Schedule charge for residence calls and 25% off the total Basic Rate Schedule charge for business calls.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.3 Two-Point Service (Cont'd)

A18.3.1 Service Between Land Wire Stations (Cont'd)

H. Operator Assisted Premium Plan

A premium is described as a commission applicable to all 0+ and 0- operator assisted calls and may be payable to subscribing customers based upon the Company's revenue generated by said calls. These calls must:

1. originate from a telephone line associated with the subscribing customer's account,
2. originate and terminate in the same LATA,
3. be carried and completed by the Company via Company facilities and
4. be billed by the Company.

In the event the Company billing records used to determine the premiums are destroyed or lost, the Company shall not be liable for payments of premiums on such lost data.

A18.3.2 Service Through Mobile Telephone Service Base Stations

A. General

1. The *terms, conditions and* rates set forth following apply for Long Distance Message Mobile Telephone Service furnished through the mobile telephone service base stations specified in Section A17. Such service is in addition to that offered in Section A17. Mobile Telephone Service. (T)
2. Long Distance Message Mobile Telephone Service is a communications service through a mobile telephone service base station between a mobile unit and a land wire telephone located outside the mobile service area associated with such base station or between two mobile units served through different base stations having different rate centers.
3. Long Distance Message Mobile Telephone Service also includes service through a mobile telephone service base station between a land wire telephone or mobile unit, and another station which is authorized by the Federal Communications Commission to communicate with the mobile telephone service base station, or between two such other stations.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.3 Two-Point Service (Cont'd)

A18.3.2 Service Through Mobile Telephone Service Base Stations (Cont'd)

A. General (Cont'd)

4. For service with ships of foreign registry served through VHF Coast Stations, in addition to the charge specified in this *Guidebook*, the ship's station charge specified in the List of Ship Stations, published by the International Telecommunications Convention of Geneva (1959), shall apply. (T)

B. Rates

1. The rates between the applicable land wire telephone rate center and the rate center of the serving base station, or between the rate centers of two base stations are the schedules of Station-to-Station rates as set forth in A18.3.1.B. preceding. (C)

A18.3.3 Reserved For Future Use

A18.3.4 (DELETED)

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.3 Two-Point Service (Cont'd)

A18.3.5 Service Through Miscellaneous Common Carriers

- A. Service is available to and from customers of a Miscellaneous Common Carrier with which arrangements have been made for the interchange of telephone traffic and is furnished through interconnecting equipment and local connecting facilities provided by the Company.
- B. The rates between the applicable wire telephone rate center and the rate center of the Miscellaneous Common Carrier are the rates set forth in this *Guidebook* for two-point service. The rate center of the Miscellaneous Common Carrier is the wire telephone rate center of the Company serving exchange. An additional charge which the Miscellaneous Common Carrier bills to and collects from its customer is applicable to the remainder of the haul as set forth in the Miscellaneous Common Carrier's tariff on file with the Mississippi Public Service Commission. (T)

A18.5 Airline Mileage Between Rate Centers

(M)

A18.5.1 General

- A. For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of Mississippi. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map projection equations. These rate centers and their V and H coordinates are shown in A18.5.3. following. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in A18.5.2. following.
- B. For long distance message telecommunications service the rate center for a point not listed in this section is the rate center for the central office to which the point is assigned for long distance telecommunications rate purposes; where the point is not assigned to a central office, the rate center is the location of the point.

A18.5.2 Determination Of Airline Mileages

- A. To determine the rate distance between any two rate centers proceed as follows:
 1. Obtain the "V" and "H" coordinates for each rate center.
 2. Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
 3. Divide each of the differences obtained in A18.5.2.A.2. by three rounding each quotient to the nearer integer.
 4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in A18.5.2.A.3. by three and repeat step A18.5.2.A.4. Repeat this process until the sum of the squares obtained in A18.5.2.A.4. is less than 1778.
 5. The number of successive divisions by three in steps A18.5.2.A.3. and 4. determines the value of "N". Multiply the final sum of the two squares obtained in step A18.5.2.A.4. by the multiplier specified in the following table for the value of "N" preceding.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

(N)

A18.5 Airline Mileage Between Rate Centers (Cont'd)

A18.5.2 Determination Of Airline Mileages (Cont'd)

A. To determine the rate distance between any two rate centers proceed as follows: (Cont'd)

5. (Cont'd)

N	Multiplier	Minimum Rate Mileage
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in A18.5.2.A.5. and with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in A18.5.2.A. preceding, the minimum rate mileage corresponding to the "N" value is applicable.

a. EXAMPLE:

The message rate distance is required between Canton, Mississippi and Laurel, Mississippi

	V	H
(1) Canton	7962	2882
Laurel	8066	2645
(2) Difference	104	237
(3) Dividing each difference by three and rounding to nearer integer = 35 and 79.		
(4) Squaring integers and adding,	35 x 35 = 1225	
	79 x 79 = 6241	
Sum of squared integers		7466
(5) Sum of squared integers is greater than 1777 so divide integers in A18.5.2.A.6.a.(3) by three and repeat (4).		
(6) Dividing integers in A18.5.2.A.6.a.(3) by three and rounding = 12 and 26.		
(7) Squaring integers and adding,	12 x 12 = 144	
	26 x 26 = 676	
Sum of squared integers		820
(8) The sum of squared integers is less than 1778 and was obtained after two successive divisions by three, therefore "N" = 2.		
(9) Multiply final sum of squared integers by factor 8.1 (corresponding to "N" = 2)	820	
	x 8.1	
		6642.0
(10) Square root of 6642.0 = 81 and a fraction, which is rounded up to 82 miles (fractional miles being considered full miles). The 82 miles is larger than the minimum of 41 rate miles applicable when "N" = 2, so the message rate mileage is 82 miles.		

EFFECTIVE: July 1, 2006

A18.9 Intra-NPA Long Distance Operator Service Requiring Telephone Number Assistance

- A. Intra-NPA Long Distance Operator Service Requiring Telephone Number Assistance is that service for which the operator is required to obtain the telephone number of the called party in order to complete the call. This service is furnished in conjunction with an intra-NPA long distance call placed through an operator.
- B. Application Of Charges
 - 1. The charges specified in A18.9.C will be applicable to all subscribers except:
 - a. Customer-provided public telephones
 - b. Hotel/motel guests and hospital patients
 - c. Mobile telephone customers

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.9 Intra-NPA Long Distance Operator Service Requiring Telephone Number Assistance (Cont'd)

B. Application Of Charges (Cont'd)

1. The charges specified in A18.9.C. will be applicable to all subscribers except: (Cont'd)
 - e. Operator Assistance (OA) may be provided at no charge to persons who are unable to use a telephone due to a disability which can be confirmed by a physician or certifying agent. Operator Assistance service charges will not be charged to the approved telephone number. To obtain an exemption, the customer must complete the appropriate form and have it certified by a registered physician or certifying agent. Operator Assistance exemption is valid for a two-year period and must be renewed. Failure to provide the required documentation may result in loss of the exemption. Operator Assistance usage will be monitored by the Company and is subject to review and investigation. Misuse of the exemption by a customer could result in its removal. Operator Assistance exemption is a voluntary program of the Company that may be terminated at any time.
 - f. Customers who make a call to Intra-NPA Long Distance Operator Service Requiring Telephone Number Assistance for a telephone number that was incorrectly published in the alphabetical section of the *Company's Listing Information System*. (T)
2. Telephone Number Assistance Charges
 - a. A telephone number assistance charge applies to operator assisted intra-NPA long distance Station-to-Station calls for which the operator is required to obtain, or to attempt to obtain, the telephone number of the called party in order to complete the call.

C. Rates

1. A charge for the long distance operator obtaining, or attempting to obtain the telephone number of the called party will apply to all telephone number assistance calls described preceding.
2. Applicable charges in A3.13.3 will also apply for the Intra-NPA Long Distance Directory Assistance Service provided.

A18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A18.14 Toll Directory Assistance Call Completion Service

A18.14.1 Description of Service

- A. Toll Directory Assistance Call Completion (DACC) is an optional service provided to users of Toll Directory Assistance (DA) Service. When dialing (555-1212), Toll DA customers may choose to have the telephone number they are requesting dialed by the DA System.
- B. The service is available to Business and Residence customers except as limited in A18.14.4 following.
- C. Individual message detail is not included as a part of this service.
- D. The service is available only where billing and terminal capability exists.
- E. Customers may request blocking of DACC Calls originating from their telephone lines by contacting the local Company Business Office.

A18.14.2 General Terms and Conditions

- A. The service is not subject to concessions. (T)

A18.14.3 Use of the Service

- A. The service is furnished subject to all applicable *terms and conditions* in section A2. (T)

A18.14.4 Limitations of Service

- A. The service is not available for the following classes of service call categories:
 - 1. UniServ DA number requests
 - 2. Any Special Line Class Codes
 - 3. (DELETED)
 - 4. Any PBX type customer who requires real-time notification of charges, i.e., HOBIC
 - 5. Calls from tandems where the end user cannot be identified
 - 6. Calls from the Payphone Service Provider Telephones

A18.14.5 Application of Charges and Exemptions

- A. The charges specified in A18.14.6 following will be applicable to all subscribers except disabled customers who are exempt from Directory Assistance charges, as detailed in A3.13.2.
- B. Chargeable Calls
 - 1. For charging purposes, a DACC completed call is as defined in Section A1.

A18.14.6 Rates and Charges

- A. Service Charges
