A123.2 Centrex And ESSX-1 Optional Features

(Obsoleted 01-15-96, Type D) Service rates and charges in this section are not available for new installations, moves, transfers of service or replacements or additions to existing service.

Obsolescence Rules

1. Centrex and ESSX-1 Optional Feature service subscribers under a month-to-month payment option will be allowed to maintain their existing service at month-to-month rates until 12-31-96.

On or prior to 12-31-96 Centrex and ESSX-1 service month-to-month subscribers must; 1) convert their entire Centrex and ESSX-1 service account to MultiServ service or MultiServ PLUS service as described in A12.20 and A12.21 respectively; or 2) subscribe to an alternate service.

2. Centrex and ESSX-1 service subscribers under contract will be allowed to maintain their Centrex and ESSX-1 service until the expiration date of their contract or until 12-31-96 if the Term Payment Plan expires prior to that date. Upon expiration of their contract or no later than 12-31-96, Centrex and ESSX-1 service subscribers must disconnect their Centrex and ESSX-1 and either; 1) convert their entire Centrex and ESSX-1 service account to MultiServ service or MultiServ PLUS service as described in A12.20 and A12.21 respectively; or 2) subscribe to an alternate service.

(Obsoleted 7-5-85, Type D, Guidebook Reference A23.)

Available for existing service and additions at existing ESSX-1 locations and all Centrex locations.

A123.2.1 Centrex CO And ESSX-1 Station User Optional Features

A. General

Number 1 ESS Optional Feature service is furnished from Number 1 ESS central office equipment located on Company premises and may be provided, subject to the availability of facilities, to Centrex CO and ESSX-1 systems which are served by the same such equipment.

B. Terms and Conditions

1. Automatic Callback

- a. Automatic Callback permits a main station line user who attempts an intercommunication call to a busy main station line to be automatically connected to that line when both called and calling lines are subsequently idle. Automatic Callback is only operational for intercommunication calls between main station lines served by the same Number 1 ESS customer group.
- b. A calling main station line is permitted only one Automatic Callback request at a time. The called main station line is limited to only one request at a time for Automatic Callback. Once requested, Automatic Callback will remain active for a period not to exceed thirty minutes unless deactivated by the calling main station line.

A123.2.3 Electronic Tandem Switching

A. General

Electronic Tandem Switching (ETS) features are provided only in association with Centrex CO or ESSX-1 Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities, to Centrex CO or ESSX-1 systems which are served by the same such equipment.

The ETS features are designed to meet the needs of those Centrex and ESSX-1 customers who have large numbers of WATS, FX and Private Line services. These features will be used to control and monitor facilities in such classes of application as:

1. Stand-alone Centrex and ESSX-1 configurations,
2. Electronic Tandem Network configurations as Centrex or ESSX-1 tandems,
3. Intercity Facilities Concentrators as the main Centrex or ESSX-1 with many branch PBX's homing on it to gain intercity access, and
4. Main/Tributary/Satellite configurations as the main Centrex or ESSX-1 with access to a Common Control Switching Arrangement (CCSA) or Enhanced Private Switched Communications System (EPSCS) network.

B. *Terms and Conditions*

1. Explanation of Terms

a. ETS Features

ETS features are Centrex or ESSX-1 optional features which are, except as specified in A123.2.3.B.6., comprised of both Automatic Route Selection-Deluxe (ARS-D) and Facilities Restriction Levels (FRL) and, at the option of the customer, the following service features and arrangements:

- Time of Day Routing
- Authorization Codes
- Deluxe Queuing
- Station Message Detail Recording to Premises
- Account Codes
- Facilities Administration and Control
- Traffic Data to Customer (Pollable)
- Facility Assurance Reports
- Uniform Numbering/Automatic-Alternate Routing
- Automatic Overflow to Toll

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 Centrex And ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. Terms and Conditions (Cont'd)

1. Explanation of Terms (Cont'd)

b. Automatic Route Selection-Deluxe (ARS-D)

ARS-D provides for the origination of only ten digit calls to a public network telephone number, after the Centrex or ESSX-1 ARS-D access code, e.g., "8", automatically scans the digits and selects a first choice completing route when available, or subsequent route if the first choice route is not available. Routes may include Foreign Exchange trunk lines, Wide Area Telephone Service lines, exchange trunk lines to the toll network or access lines to CCSA or other arrangements where compatible.

The final completing route may be the toll network or, at the option of the customer, the call attempt is routed to overflow tone if a Facilities Restriction Level (FRL) is insufficient to complete the call.

When ARS-D is provided in conjunction with Uniform Numbering/Automatic Alternate Routing (UN/AAR), incoming tie lines from other Centrex, ESSX-1 or PBX systems connected directly to the Centrex or ESSX-1 system may be arranged to have automatic access to the ARS-D and UN/AAR features. When such arrangements are provided, the tie lines to the ARS-D become "dedicated" tie lines, i.e., provided for and restricted to that use only, and separate tie lines are required from the distant Centrex, ESSX-1 or PBX system if access is to be provided to other Centrex or ESSX-1 functions at the ARS-D equipped Centrex or ESSX-1 system. In addition, when ARS-D is provided in conjunction with UN/AAR, routes may include tie lines to a distant Centrex, ESSX-1 or PBX system equipped with an ARS-D like capability for subsequent access to the toll network.

The ARS-D feature provides all number translation and supervision necessary to route the call. "More Expensive Route" (MER) Tone is supplied, at the option of the customer, as a function of the route selected for a particular call.

Time of Day (TOD) Routing is an ARS-D option which permits preprogrammed selection of alternate routing pattern groups for public network calls (up to three sets of ARS-D routing pattern groups) on a time-of-day and day-of-week basis. Manual override is available with the Facility Administration and Control feature. The Maximum number of programmed changes per week is sixteen.

(D)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 Centrex And ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. Terms and Conditions (Cont'd)

1. Explanation of Terms (Cont'd)

e. Station Message Detail Recording to Premises (SMDR-P)

SMDR-P provides a record, on magnetic tape equipment located at the customer's premises, of calls originating from Centrex or ESSX-1 station lines to locations outside the same Centrex or ESSX-1 system. Facility groups may also be designated as requiring originating and/or terminating records.

Account Codes are an SMDR-P option which permit a station user to dial a series of digits (code) which will appear in the SMDR-P record for that particular call. The Account Code can be used by the customer for account or project identification. Adding an Account Code to a call, where arrangements have been made to provide this capability, is at the discretion of the station user. Each customer's Account Codes must contain the same number of digits, not to exceed eight, and must not conflict with ETS network code assignments.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 Centrex And ESSX-1 Optional Features (Cont'd)

A123.2.3 Electronic Tandem Switching (Cont'd)

B. Terms and Conditions (Cont'd)

2. Automatic Route Selection - Deluxe (ARS-D)

- a. ARS-D is furnished only in association with Facilities Restriction Levels (FRL).
- b. Preferred routes and alternate routes in patterns will be specified by the customer.
- c. A maximum of three ARS-D Pattern Groups with a maximum of sixty-four (64) patterns in each Pattern Group will be provided. The three Pattern Groups referred to will consist of one primary and two additional Pattern Groups for Time of Day Routing.
- d. A maximum of ten routes are provided in a pattern.
- e. Each WATS type band is treated as a separate route.
- f. A maximum of sixty-four (64) Number Plan Areas (including the home NPA) may be designated by the customer for routing of calls by central office codes (six digit translation).
- g. All rates and charges specified for ARS-D are in addition to the rates and charges for the associated facilities and facility terminations.
- h. A single rate "per facility terminated in patterns" will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
- i. The charges specified in A123.2.3.C. for each code addition or change is applicable whether customer or Company initiated.
- j. Where ARS-D is furnished in connection with Uniform Numbering/Automatic Alternate Routing, tie lines to other PBX, Centrex or ESSX-1 system locations may appear as routes in ARS-D patterns when such tie lines are provided for subsequent access to the toll network at the distant PBX, Centrex or ESSX-1 system location.
- k. The TOD Routing feature permits up to sixteen programmed changes in Pattern Groups per week. When additional ARS-D patterns are required due to TOD changes, rates and charges as specified in A123.2.3.C. apply to each additional pattern.
- l. CCSA access lines (public network calls) and access lines to other similar arrangements, compatible with ARS-D, may be included as routes in patterns.
- m. Centrex or ESSX-1 toll diversion and toll restriction do not function on calls routed via ARS-D.

5. Station Message Detail Recording to Premises (SMDR-P)
 - a. SMDR-P is not represented to be a provision of billing detail.
 - b. Station message detail records will be provided on customer provided terminal equipment located at the customer's premises.
 - c. The customer must provide suitable space, environmental conditions, 110 volt AC power, and magnetic tape for the equipment located at his premises.
 - d. Processing of message detail information by the Company accounting center is not provided with this arrangement.
 - e. The customer must designate all station lines in a No. 1 ESS customer group and/or selected facility groups on which SMDR-P originating and terminating records are to be provided.
 - f. Additions or deletions of SMDR-P recording are provided by Company service orders.
 - g. Where SMDR-P is provided, a detailed record may be made for each completed call. At the option of the customer, arrangements can be made to provide records of calls attempted as well as calls completed. Under certain exceptional conditions, with SMDR-P, calls may be processed without recording the call detail.
 - h. SMDR-P includes the recording of Account Codes and Authorization Codes where these optional features are provided.
 - i. Account Codes are available with the initial installation of SMDR-P at no additional charge. Additions or changes of Account Codes subsequent to the initial installation of SMDR-P are provided at rates and charges shown in A123.2.3.D. (T)

A123.2.4 Customer Management Features

A. ESSX Customer Administration Service

(New Service Offering For Centrex - C.O. And ESSX-1 Subscribers)

1. General

- a. The ESSX Customer Administration Service (ECAS) feature permits ESSX-1 and Centrex C.O. customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated Centrex C.O. and ESSX-1 station lines. Customer provided terminal equipment is required for the operation of the ECAS feature.
- b. For ECAS equipped station lines, ECAS allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
- c. Certain Centrex C.O. and ESSX-1 station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible for ECAS.
- d. Changing the status of a station line from accessible to ECAS to inaccessible or vice versa, must be done by the Company via a Service Order request. Appropriate Service Order charges specified in Section A4. apply.
- e. The Company has made the following provisions to protect the integrity of the switching system database and to ensure the security of ECAS changes.
 - (1) An ECAS customer's change, display or verify capabilities are restricted to that particular customer's own ESSX-1 system.
 - (2) All changes are audited as they are entered by the ECAS customer. Invalid changes will not be accepted. An error message detailing which command is in error will be given.
 - (3) Customer access to the database is protected using a dialup, login, password/dialback arrangement.
- f. An ECAS customer can schedule changes (individual or bulk) for completion by the next day or for a future day. Additionally priority changes may be requested and the changes completed the same day subject to **terms and conditions** in A123.2.4.A.2.d., A123.2.4.A.2.l. and A123.2.4.A.2.m. (T)
- g. Definitions pertaining to ECAS/ESSX-1 and Centrex C.O. features are specified in A111.1.2. (T)

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2 Centrex And ESSX-1 Optional Features (Cont'd)

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

1. General (Cont'd)

h. The ECAS feature allows the customer to perform the following transactions from the customer provided terminal:

(1) Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:

- Line Status¹ (Active/Inactive)
- CAT Code
- Ringing Cycles for CFDA
- Call Pickup Group:

The call pickup group to which a station is assigned can be changed on a per station basis.

- The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.
- Speed Call Group:

The Speed Call group to which a station is assigned can be changed on a per-station basis.

- Series Completion "Hunt To" Telephone Number (TN):

The "hunt to" TN assigned to a station line can be changed on a per station basis²

- Station TN Rearrangement:
Swap TNs from one location to another³
- Facility Restriction Levels
- Access Line Class of Service
- Add/Change Customer Entered Listing Information

Note 1: Station lines made inactive using ECAS will continue to be billed at the *guidebook* rates. (T)

Note 2: All numbers in series completion hunt must be in the same common block.

Note 3: Rearranged station TNs carry all features and characteristics to their new location unless the Common Block is also changed.

A123. OBSOLETE SERVICE OFFERINGS - ESS CENTRAL OFFICE FEATURES

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

1. General (Cont'd)

h. (Cont'd)

(2) Activate/deactivate the following features and service options on a single station line basis:

- Automatic Callback Calling
- Call Forwarding Busy Line
- Call Forwarding Don't Answer
- Call Forwarding Variable
- Call Forwarding Variable - Outside
- Call Hold
- Call Pickup
- Call Waiting Originating
- Call Waiting Terminating
- Dial Call Waiting
- Directed Call Pickup - Barge In
- Directed Call Pickup - Non Barge In
- Speed Calling - 6
- Speed Calling - 30
- Basic Station Line Hunting (Series Completion)¹
- Inhibit ETS queuing

(3) Review the following information to aid in system management

- The configuration of a single Centrex C.O. or ESSX-1 station line (i.e., service options and active station line features)
- The number of stations having or not having a particular feature
- Pending TN swaps
- The series completion sequence of a station line
- Selected Company entered information affecting customer station lines
- Customer Entered Listing Information
- The number of call pickup groups in the system

(4) An ECAS customer may also print the following administrative reports.

- Configuration (i.e., service options, station features) for a single station line or span of Centrex C.O. or ESSX-1 station lines.
- A listing of all pending changes including the type of change and the scheduled effective date.
- Customer Entered Listing Information²
- The following information is included on all ECAS changeable station lines.

- Station Telephone Number

(M)

- Name³

(M)

- Organization³

(T)(M)

- Location³

(T)(M)

(T)(M)

(5) Initial training of the customer for up to four system managers in the use of this feature is included at the time the feature is put into service. Communication counselor training is a prerequisite to the ECAS systems manager training. Any customer training or subsequent assistance necessary after the initial establishment of the feature is at the option of the customer and a Subsequent Training Charge applies per hour where such training is provided.

(M)

Note 1: Deactivating Basic Station Line Hunting may disrupt the normal completion order of a Hunt Group.

Note 2: The ability to print customer entered listing information is provided as an optional feature, and is subject to the appropriate charges specified in A123.2.4.A.3.a.

Note 3: The ECAS customer is responsible for entering and updating the information contained in this field.

A123.2 Centrex And ESSX-1 Optional Features (Cont'd)

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

2. *Terms and Conditions*

- a. ECAS is provided only with Centrex C.O. and ESSX-1 systems served from a No. 1/1A ESS central office and is furnished subject to the availability of facilities. (M)
- b. Features for all station lines must be requested via a Service Order.¹ Rates and Charges for the features specified in A110.1.6. and A111.1.4. apply as appropriate. (T)
- c. The customer provided ECAS terminal equipment requires an ESSX-1 main station line. Rates and charges in A110.1.6. and A111.1.3. apply as appropriate.
- d. ECAS changes must be entered prior to a time to be designated by the Company to be completed as priority changes or by the next day as requested by the customer.
- e. An ECAS customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication when 100 percent utilization of a feature is reached. Additional quantities of features may be added subject to *terms and conditions described in* A123.2.4.A.2.b. (T)
- f. Contractual obligations and End User Common Line Charges will be billed to the location where originally installed and will not transfer with a station line number rearrangement.
- g. The following types of lines will be restricted from Station TN Rearrangement capability. Service option and feature change capabilities will still be available except on lines assigned to multiline hunt groups.
 - Station lines assigned to multiline hunt groups
 - Attendant Lines
 - Any Centrex C.O. or ESSX-1 line which has a special hardware configuration (e.g., ground start lines and lines having SCAN points or signal distribution points)
 - Manual lines (e.g., station lines with full originating and/or terminating restrictions)

Note 1: Appropriate Service Order charges specified in Section A4. will apply. (T)

A123.2.4 Customer Management Features (Cont'd)

A. ESSX Customer Administration Service (Cont'd)

2. Terms and Conditions (Cont'd)

- h. ECAS functions performed by the Company at the customer's request subsequent to the initial installation will be subject to the nonrecurring charge specified in A123.2.4.A.3.b.
- i. The Per System charges specified in A123.2.4.A.3. apply when a feature is initially activated in a Common Block.
- j. Any required changes in customer provided equipment as a result of growth, desired enhancements or technological advancement, will be the responsibility of the ECAS customer. Compatibility with customer provided station terminal equipment is not guaranteed.
- k. The ECAS customer is responsible for assigning and maintaining a record of station feature assignments. The ECAS customer also agrees to provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
- l. ECAS customers will be responsible for initiating a Service Order to correct any information pertaining to Listings that changed as a result of ECAS TN swap. The appropriate Service Order charges specified in Section A4. apply.
- m. ECAS customers will be limited to one (1) TN swap per day as a priority request. The number of feature changes that can be requested as priority changes will be determined by the Company when ECAS is ordered.

3. Rates And Charges

a. ECAS Capability

Centrex C.O. or ESSX-1 customers having greater than 600 total main station lines will have to pay for ECAS on a per line basis subject to the rates specified in A123.2.4.A.3.a.(3). The installation charge will be reapplied if a Centrex C.O. or ESSX-1 customer having more than 600 lines changes their ECAS billing arrangement subsequent to the initial installation of the ECAS feature.
