E5.1 General

E5.1.1 Scope

- A. This section sets forth the regulations and order related charges for Access Orders for BellSouth Special Access (a.k.a. BellSouth SPA) services. These charges are in addition to other applicable charges as set forth in other sections of this Guidebook.
- B. An Access Order is the customer's request for the Company to provide the customer BellSouth Special Access service (a.k.a. BellSouth SPA) or to provide modifications to existing service. An Access Order may be submitted by Access Service Request (ASR) or by such other ordering processes as the Company may provide. Depending upon the services, facilities or service interval dates requested, one or more Access Orders may be required to provide the customer with access service. (D)

E5.1.2 Ordering Conditions

- G. The day upon which the customer has provided to BellSouth a firm commitment for the service and complete and accurate information to allow for the processing of the Access Order *by two o'clock p.m. Central Standard Time (CST)¹* is the Application Date. BellSouth will release an optional initial Pending Order Confirmation, which will include the BellSouth order number and circuit identification. At the customer's request, when the BellSouth facility availability is verified, either a Firm Order Confirmation, which will include critical date information, or a Design and Ordering Confirmation, which will include design as well as critical date information, will be released. Critical date information will include the Service Date. The Service Date (also sometimes referred to as the due date) is the date service is to be made available to the customer and billing will commence.

A Pending Order Confirmation is available for orders for BellSouth-provided switched access dedicated transport services, where ordered separately from other switched access services, and for BellSouth-provided special access services. A Design and Ordering Confirmation is not available for orders submitted by end users. The rates and charges for these services, as set forth in other sections of this Tariff, will apply in addition to the ordering charges set forth in this section and the rates and charges for the Access Service with which they are associated. (T)
- B. With the agreement of **BellSouth**, the items listed in A. preceding may subsequently be added to the order at any time, up to and including the service date for the Access Service. When added subsequently, charges for a design change as set forth in Section E5.2.3.F will apply when an engineering review is required. (T)
- C. Additional Engineering is not an ordering option, but will be applied to an Access Order when **BellSouth** determines that Additional Engineering is necessary to accommodate a customer request. Additional Engineering will only be required as set forth in Section E13.1. When it is required, the customer will be so notified and will be furnished with a written statement setting forth the justification for the Additional Engineering as well as an estimate of the charges. If the customer agrees to the Additional Engineering, a firm order will be established. If the customer does not want the service or facilities after being notified that Additional Engineering is required, the order will be withdrawn and no charges will apply. Once a firm order has been established, the total charge to the customer for the Additional Engineering may not exceed the estimated amount by more than 10 percent. (T)

E5. ORDERING OPTIONS FOR BELL SOUTH SPECIAL ACCESS (A.K.A. BELL SOUTH SPA) SERVICE

E5.2 Access Order (Cont'd)

E5.2.3 Access Order Modifications

- A. The customer may request a modification of its access order at anytime prior to notification by the Company that service is available for the customer's use. The Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an order within normal business hours. If the modification cannot be made with the normal work force during normal business hours, the Company will notify the customer. If the customer still desires the access order modification, the Company will schedule a new service date. All charges for access order modification will apply on a per occurrence basis.
- B. Any increase in the number of Special Access (a.k.a. BellSouth SPA) service channels will be treated as a new Access Order (for the increased amount only).
- C. If order modifications are necessary to satisfy the transmission performance for a Special Access (a.k.a. BellSouth SPA) service ordered by a customer, these changes will be made without order modification charges being incurred by the customer.
- D. Service Date Change Charge
 1. Access order service dates for installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than 30 calendar days. When, for any reason, the customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and the Company accordingly delays the start of service, a Service Date Change Charge will apply. If the customer requested service date is more than 30 calendar days after the original service date, the order will be cancelled by the Company and re-issued with the appropriate cancellation charges applied, unless the customer indicates that billing for the service is to commence as set forth in Section E5.2.4.A.
 2. Failure to notify the Company prior to the original service date to request a different service date may result in the application of a Service Date Change-Additional Dispatch Charge for installations, moves and rearrangement of services. If a Company technician is dispatched to the Customer's premises on the scheduled service date and the customer has failed to notify the Company before two o'clock p.m. CST on the business day prior to the scheduled service date that it wishes to change the service date, the Company will delay the start of service pending negotiations with the customer. If the customer reschedules the service date, a Service Date Change-Additional Dispatch Charge will apply in addition to a Service Date Change Charge as specified in Section E5.2.3.D.4(a). If the customer cancels the service date, cancellation charges will apply in accordance with terms and conditions for cancellation charges as set forth in Section E5.2.4. Cancellation of the order will not preclude the application of the Service Date Change Charge and Service Date Change-Additional Dispatch Charge assessed for prior occurrences on the same order.
 3. A new service date may be established that is prior to the original service date if the Company determines it can accommodate the customer's request without delaying service dates for orders of other customers.
 4. A Service Date Change Charge will apply, on a per order per occurrence basis, for each service date changed. The Service Date Change-Additional Dispatch Charge will apply for each occurrence of a technician dispatch to the customer's premises when the customer is not ready for service as specified in Section E5.2.3.D.2. The applicable charges are:

	Nonrecurring	
	Charge	USOC
(a) Service Date Change Charge, per Order	\$26.21	OMC
(b) Service Date Change-Additional Dispatch Charge, per occurrence	\$150.00	OMCAD

5. For multiple orders with the same service date for the same customer premises, only one Service Date Change-Additional Dispatch Charge will apply. However, a Service Date Change Charge will apply for each order.

E5.2 Access Order (Cont'd)

E5.2.3 Access Order Modifications (Cont'd)

D. Service Date Change Charge (Cont'd)

6. Service Installation Guarantees, as set forth in Section E2.4.10 of this Tariff, are not applicable for Service Date Change Charges.
7. An exception to the Service Date Change Charge provisions in Sections E5.2.3.D.1 and 2 applies for BellSouth Metro Ethernet Service and AT&T Switched Ethernet Service. The following provisions apply:

If a Customer is unable to accept Service on the original due date, the Customer may issue one or more supplements to an Access Order to change the original due date to a date no more than 120 calendar days after the original due date. When such requests are made, the Company will accordingly delay the start of service and the Customer will incur a Service Date Change Charge. The first supplement to the Access Order must be received by the Company on or before 30 calendar days after the original due date.

If a Customer has opted to issue a supplement to an Access Order to extend the original due date but is unable to accept Service within 121 calendar days after the original due date, one of the following will apply:

- If Service has not been fully provisioned, the Company will cancel the order on the 121st calendar day after the original due date and charges specified in Section E5.2.3.D.4(a) will apply, or
- If Service has been fully provisioned, the Company will begin billing for the Service on the 121st day after the original due date.

If a Customer is unable to accept Service within 31 calendar days after the original due date, and the Company has not received a supplement to the Access Order to extend the due date within 30 calendar days after the original due date, one of the following options will apply:

- If Service has not been fully provisioned, the Company will cancel the order on the 31st calendar day after the original due date and charges specified in Section E5.2.3.D.4(a) will apply, or
- If Service has been fully provisioned, the Company will begin billing for the Service on the 31st calendar day after the original due date.

E. Partial Cancellation Charge

1. Any decrease in the number of ordered Special Access (a.k.a. BellSouth SPA) service channels will be treated as a partial cancellation and the charges as set forth in Section E5.2.4.B will apply.

F. Design Change Charge

1. The customer may request a design change to the service ordered. A design change is any change to an Access Order which requires engineering review. An engineering review is a review by Company personnel of the service ordered and the requested changes to determine what changes in the design, if any, are necessary to meet the changes requested by the customer. Design changes may include such things as the addition or deletion of optional features or functions or a change in the type of BellSouth SWA Transport Termination, type of channel interface, type of Interface group or technical specification package. Design changes do not include a change of customer premises, end user premises, end office switch, Feature Group type, BSA type or Special Access (a.k.a. BellSouth SPA) service channel type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate charges applied.
2. Should a customer requested design change be received on a pending access order that results in the establishment of a new service date that exceeds the original service date by more than thirty days, the customer shall not be required to cancel and reissue a new order, but shall be billed a Design Change Charge and a Service Date Change Charge.
3. The Company will review the requested change, notify the customer whether the change is a design change, if it can be accommodated and if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply. The Design Change Charge will apply on a per order, per occurrence basis, for each order requiring a design change.
4. The applicable charge is:

(a) Design Change Charge, per Order	26.21	H28
-------------------------------------	--------------	------------

 Service Installation Guarantees, as set forth in Section E2.4.10 of this Tariff, are not applicable for Design Change Charges.
5. If a change of service date is required, the Service Date Change Charge as set forth in D. preceding will also apply.

B. (Cont'd)

4. Charges applicable as specified in Section E5.2.4.B.3 are based on the estimated costs incurred by the Company at the time the order is cancelled. The estimated costs incurred are determined based on the following: (T)
 - a. Certain Company critical dates are associated with an access order provisioning interval whether standard or negotiated. These dates are used by the Company to monitor the progress of the provisioning process. At any point in the access order interval the Company is able to determine which critical date was last completed and can thus determine what percentage of the Company's provisioning costs have been incurred as of that critical date.
 - b. The critical dates tracked by the Company are as follows:

Application Date (APP): The date the customer provides to the Company, (1) a firm commitment for service and (2) sufficient information as detailed in Section E5.1 to enable the Company to begin service provisioning. This is also the order date. (T)

Scheduled Issue Date (SID): The date that the order is to enter the Company's order distribution system.

Design Layout Report Date (DLRD): The date the Design Layout Report (DLR) is forwarded to the customer.

Records Issue Date (RID): The date that all design and assignment information is to be sent to the central office and installation forces.

Wired and Office Tested Date (WOT): The date by which all intraoffice wiring is to be completed, all plug-ins optioned, aligned, and frame continuity established, and the interoffice facilities, if applicable, tested. In addition, switching equipment, including translation loading, is to be installed and tested.

Plant Test Date (PTD): The date on which overall testing of the service is to be started.

Engineering Information Report Date (EIRD): The date the engineering group in another ISS area provides information to the primary engineering group.

Service Date (DD): The date on which service is to be made available to the customer. This is sometimes referred to as the Due Date.

Designed, Verified, and Assigned Date (DVA): The date by which field implementation groups must report that all documents and materials have been received.

Frame Continuity Date (FCD): Date on which frame-to-frame testing must be completed. This is sometimes referred to as the Facility Continuity Check Date.

Loop Assignment and Make-up Date (LAM): The date by which Local Loop Assignment and Make-up information must be available.

Confirming Design Layout Report Date (CDLRD): The date the Design Layout Report (DLR) is to be confirmed by the customer.
 - c. The percentage of the total provisioning cost incurred by the Company at a particular critical date varies by the type of service as shown in Section E5.2.4.B.4.d.. (T)

- d. When a customer cancels an access order, or part of an access order, before the service date, the Company will apply cancellation charges to the order. Cancellation charges are calculated by multiplying all the nonrecurring charges associated with the order, or that part of the order being cancelled, by the percentage shown in e. following for the critical date last completed on the order¹.

The charges billed to the customer will not exceed an amount equal to the minimum period for the service as set forth in Section E5.2.6 and E7.4 of this guidebook at the month-to-month rates set forth in Section E7.5 of this Guidebook. Such charges will be billed in addition to and subsequent to the cancellation charges set forth in Section E5.2.4.B.
- D.** When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.
- E.** If the Company misses a service date by more than thirty days due to circumstances over which it has direct control (excluding, e.g., acts of God, governmental requirements, work stoppages and civil commotions), the customer may cancel the Access Order without incurring cancellation charges.

E5.2 Access Order (Cont'd)

E5.2.5 Selection Of Facilities For Access Orders

- A. When a customer places an Access Order, the customer may choose to utilize facilities it previously purchased.
If the customer has a high capacity interface, or has purchased a facility, the customer must request that specific channels be used to implement the Access Order. If a facility assignment is not provided by the customer, the Company will provide the service from available inventory as discussed in Section E5.3 of this Guidebook.
- B. For all other Access Orders, the option to request a specific transmission path or channel is not provided, except as provided for under Special Facilities Routing as set forth in Section E11 of this Guidebook.

E5.2.6 Minimum Period

- A. Except as set forth in Section E2.4.2 of this Guidebook and Section E5.2.6.B., D., F., the minimum period for which charges are applicable for access service is one month.
- B. The minimum period for part-time Television service is one day even though the service will be provided only for the duration of the event specified on the order (e.g. one-half hour, two hours, five hours, etc.) (D)

- D. The minimum service period for BellSouth Wavelength service, BellSouth Dedicated Ring, *BellSouth Metro Ethernet service¹* and SMARTRing service (a.k.a. BellSouth Dedicated Ring) is 4 months.
- E. Changes other than those identified in Section E7¹ of this Guidebook will be treated as a discontinuance of the existing service and an installation of a new service. All associated nonrecurring charges will apply for the new service. A new minimum period will be established for the new service. The customer will also remain responsible for all outstanding minimum period obligations associated with the disconnected service.

The changes listed following are those which will be treated as a discontinuance and installation of service and for which a new minimum period will be established.
