/a/ Although included in the Toledo, Ohio LATA, this rate center is in Michigan.  
Calls to and from Michigan rate centers are covered by interstate (F.C.C.) tariffs.

Material formerly appeared in Tariff M.P.S.C. No. 20R

**BOUNDARY DESIGNATIONS**

## Application of Boundary Designations

1. Boundaries for Exchange or Zone Service Areas, Base Rate Areas, Locality Rate Areas, and Local Access and Transport Areas are designated on maps in Part 4, Section 6.
2. Each customer's establishment is considered to be within only one Exchange or Zone service area of this telecommunications provider, except as provided in 3.a. and b. below. The term "establishment", as used in this Telecommunications Provider's Tariffs, denotes the actual building occupied by the customer, rather than the property associated with such building.
3. Exchange (or Zone of a District Exchange) Boundaries
  - a. Where the boundary is designated as a road (street or highway) the service area includes both sides of the road when associated general plant facilities serving the area are located along one side of the road. A customer's establishment located on the far side of the boundary road is considered to be within the service area if that establishment has an address on the road and can be served by associated aerial or buried general plant facilities, not to exceed 500 feet airline distance, measured from the center of the road, to the nearest point on the customer's establishment.
  - b. Service will not be extended to customers' establishments located on the far side of the boundary road, as indicated in a. preceding, under the following circumstances:
    - (1) Where the customer's establishment can be served by associated general plant facilities provided from the exchange in which the establishment is located, as determined by this Telecommunications Provider.
    - (2) Where there are associated general plant facilities on both sides of the boundary road.
    - (3) Where the customer's establishment is part of a complex (trailer park, shopping center, apartment cluster, etc.) on the same continuous property, a portion of which exceeds the measurement of 500 feet.

**BOUNDARY DESIGNATIONS (cont'd)**

## Application of Boundary Designations (cont'd)

## 3. Exchange (or Zone of a District Exchange) Boundaries (cont'd)

- c. Where the boundary is designated as the center of the road (street or highway) each side of the road is in a different service area.
- d. Where the boundary is designated as a river (stream) or railroad each side of the river or railroad is in a different service area.
- e. Where the boundary divides a lake, the shore of the lake is in different service areas in accordance with the boundary designation at the shore line.
- f. Where the boundary is designated as a Township Section Line, or a specified distance from a Township Section Line or from a road, customers' establishments are served in accordance with their location with respect to such boundary line. When such a line is other than the section line or one-quarter or one-half mile from a section line, the location of the boundary line with respect to the section line or road will be shown in feet or fractional miles on the Map Sheet.

(T)

## 4. Base Rate Area and Locality Rate Area Boundaries

- a. Where a base rate area or locality rate area boundary is designated as a road, street or highway, the area offering the lower rate treatment extends to customers located on the far side of the boundary road if the customer's establishment has an address on the road.
- b. Where a base rate area or locality rate area boundary is coterminous with an exchange boundary, (whether the adjoining exchange is of this Telecommunications Provider or another Telecommunications Provider) the provisions of paragraph 3. preceding also apply.
