**F. PRICES (cont'd)****3. Payment Plans**

---

- **Month to Month**

The minimum period is one month, unless otherwise specified.

- **Term Payment Plans**

The Term Payment Plan (TPP) is a plan which allows customers to pay a fixed price for equipment and service over optional payment periods. A different monthly price applies for the duration of each payment period. The monthly price varies inversely with the length of the payment period, e.g. the monthly price for a shorter period is greater than for a longer period. The same payment plan must apply to all lines and features.

Term Payment Plans are available for periods of 36 and 60 months.

During the effective term period, the monthly price is not subject to Company-initiated changes for payment periods longer than one month.

**Contract Options**

Prior to the completion of a contract, a customer may enter into a new contract for a period equal to, or greater than, the life of the original contract at the prices currently in effect at the time of the new contract. The customer will begin paying the new contract prices on the day of signing the new contract.

Upon expiration of a contract, if the customer does not elect to subscribe to a new contract and does not request discontinuance of the service, service will be continued on a month-to-month basis. The month-to-month prices currently in effect at the time of expiration of the contract will apply. Once on a month-to-month basis the customer will not have an additional service commitment and will no longer be subject to termination charges. The month-to-month payment plan will be subject to Company initiated price changes.

**2. FEATURELINK<sup>SM</sup> SERVICE (cont'd)**

**F. Prices (cont'd)**

4. Termination Charges

Full Termination

Discontinuance of the entire service within the initial service contract period will result in termination charges.

The termination liability for the 36- and 60-month<sup>/1/</sup> Term Payment Plan is calculated as follows: (C)

$$\text{Termination Liability} = 50\% * [\text{number of packages contracted for}] * [\text{remaining number of months under contract}] * [\text{monthly price}]$$

Partial Termination

Partial Termination applies when the actual number of packages drops below the contracted amount in any given month. The customer will be liable for the billing shortfall.

No Termination Liability Condition

A customer may upgrade to Centrex Service without termination liability if the Centrex Service agreement is signed for an equal or greater line commitment and an equal or greater term commitment.

/1/ Effective September 1, 2013, the 60 month TPP term period is no longer available for new installations or renewals of FeatureLink Service. FeatureLink customers currently on a 60 month TPP term period may continue service at their existing TPP rate until the contract term expires. Upon completion of the current contract term, customers may continue receiving the service at the then-current month-to-month rates. If the customer does not request discontinuance of the service, the month-to-month rates in effect at such time will automatically apply month-to-month rates in effect at such time will automatically apply.
