

SEMIPUBLIC TELEPHONE SERVICE /a/

A. EXTENSION STATIONS /a/

1. Existing installations may be retained by the customers at their present addresses. These installations will be maintained dependent upon availability of equipment from existing stock within this Company. No additions, moves or changes will be allowed.
2. Keyless extension stations, without coin-collecting devices, for answering incoming calls are provided in connection with Semipublic Telephone Service when such stations are essential to the efficient handling of the Service. The extension station must be on the same premises as the main station and the latter in plain view of the extension station.
3. Normal length cords in harmonizing or matching colors, as available, are provided without charge to replace nonstandard cords for maintenance reasons. Long or nonstandard cords are no longer available.
4. Charges
 - a. The following rates are for telephone sets only and are in addition to other rates and charges which may be applicable for the type of service with which the sets are associated. The monthly rate for the associated Keyless Set Access Service is specified in Tariff M.P.S.C. No. 20 R Part 4, Section 5.

	<u>Monthly Rates</u>
(1) Standard Set, per set	\$0.91
(2) Princess Set, per set	1.91
(3) Trimline Set, per set	2.68

B. AUXILIARY SIGNALS /a/

1. Existing installations may be retained by the customers at their present addresses. These installations will be maintained dependent upon availability of equipment from existing stock within this Company. No additions, moves or changes will be allowed.
2. Audible or visual signals to supplement regular station signals may be operated by central office ringing current, by low voltage power or commercial power depending upon the type of signal.
3. Suitable commercial power and power wiring, where required, will be furnished by the customer.

SEMI-PUBLIC TELEPHONE SERVICE (Cont'd)

B. AUXILIARY SIGNALS (Cont'd)

- 4. When satisfactory from an operating standpoint, commercial power operated signals may be furnished by the customer. In such cases the control equipment connected to the Company's facilities is furnished by the Company at the charges shown below.
- 5. Channels for the operation of auxiliary signals are provided as shown under Interbuilding Channel Charges elsewhere in the Company's tariff.

6. Charges	<u>Monthly Rates</u>
a. Auxiliary Signals	
(1) Small Signals - Buzzers, ordinary tone extension bells, bells and gongs up to and including 4-inch signals, and visual signals up to and including 1 1/2 inch lamps, each	\$0.69
(2) Large Signals - Loud ringing extension bells, bells and gongs over 4-inch diameter, lamps over 1 1/2 inch diameter, and regular size horns, each	2.43
(3) Control Equipment for Customer-Provided Signal, each	2.43

C. CUT-OFF AND TRANSFER FEATURES /a/

- 1. Existing installations may be retained by the customers at their present addresses. These installations will be maintained dependent upon availability of equipment from existing stock within this Company. No additions, moves or changes will be allowed.
- 2. Manual Cut-Off or Cut-Off Transfer
 - a. For locations within the same building, this feature provides by means of a key for the disconnection of certain stations or signals from a line, or the transfer of connection of stations or signals to a different location, or the simultaneous disconnection of stations or signals from a location and the transfer of the connection to a different location. This excludes Regular Station Bell Cut-Off, which is covered in 3. following.

	<u>Monthly Rate</u>
b. Cut-off or Cut-off Transfer, each	\$.49

/a/ Rates in effect for services no longer offered for new installations.

Material originally appeared in INFORMATION LINK No. 1, Original Sheet S1 and Original Sheet S2.

SEMIPUBLIC TELEPHONE SERVICE (Cont'd)

C. CUT-OFF AND TRANSFER FEATURES (Cont'd)

3. Regular Station Bell Cut-Off

- a. Regular station bell cut-off provides for cut-off of the bell regularly included as part of the telephone instrumentality by means of a key located at the station, or cut-off of an extension signal at the signal location.
- b. When the station bell cut-off is used in conjunction with exchange service, at least one audible signal is ordinarily connected to the line at all times. However, at the request of the customer, the cut-off may be used to disconnect the only audible signal from the line.
- c. Nonrecurring Charge
 - (1) When provided at the same time as the associated instrument or as the associated extension signal is installed, no additional charge is applicable.
 - (2) When provided on existing instruments or extension signals, the change charge treatment is applicable.

4. Miscellaneous Switching Keys

- a. Standard type two-position switching keys for miscellaneous purposes - e.g., the control or transfer of auxiliary signals and the connection or disconnection of auxiliary service features - are furnished as specified below, provided the key and associated equipment are located in the same building and provided no additional auxiliary apparatus is necessary.

	<u>USOC</u>	<u>Monthly Rate</u>
b. Each Feature (cut-off, transfer, or cut-off transfer)	LTT	\$0.49

D. BOOTHS /a/

- I. Existing installations may be retained by the customers at their present addresses. These installations will be maintained dependent upon availability of equipment from existing stock within this Company. No additions or changes will be allowed.

/a/ Rates in effect for services no longer offered for new installations.

Material originally appeared in INFORMATION LINK No. 1, Original Sheet S-2 and Original Sheet S-3.

SEMIPUBLIC TELEPHONE SERVICE (Cont'd)

D. BOOTHS (Cont'd)

2. Standard telephone booths are furnished without charge in connection with Semi-public telephone service when warranted by the receipts or by the nature of the location, as in hotel lobbies, railroad stations, etc. In all other cases the following charge applies for each standard booth furnished.
3. The occupant of the premises provides, at his expense, suitable electric current and power supply facilities for the operation of the booth light and other accessories, if required.

4. Charges

	<u>Used on Semi-Public Service</u>	
	<u>Nonrecurring</u>	<u>Rates</u>
	<u>Charges</u>	<u>Per Month</u>
a. Indoor:		
Open Type	\$16.39	\$1.63
Closed Type	16.39	1.63
b. Outdoor:		
Standard Type	16.39	3.22

c. Moves and Changes

- (1) When a booth is moved to a different location on the same premises the nonrecurring charge specified above is applied for the move. This charge is in addition to the charge for moving the associated station.

Material originally appeared in INFORMATION LINK No. 1, Original Sheet 76.

INDEPENDENT PAYPHONE PROVIDER (IPP) SERVICE /1/
 (Formerly CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE - COCOTS)

Service Availability (N)

Beginning June 1, 2021, new orders for these services will no longer be accepted. Current subscribers may keep their service at its existing location. The Company currently plans to discontinue this service on or after June 1, 2025. (N)

A. Description /1/

Access Line - IPP Service

A business one-party, measured-rate, central office exchange access line, including Touch Tone, which provides outgoing and incoming calling to be used with a customer-owned, coin-operated telephone set.

Directory Assistance Service - IPP Service

Directory Assistance Service provides the user of an IPP access line with telephone numbers available from the Company's Directory Assistance records.

Interzone Messages - IPP Service

Interzone Messages include all calls from an IPP access line that are completed to a called party within twenty (20) miles in another zone of the same district exchange and not within the local calling area of the calling party as specified in Part 4, Section 2. Interzone Message rates are as specified in Part 9, Section 1.

Line Connection Charge - IPP Service

The charge for performing all or part of the operations associated with the connection of an IPP access line.

Line Rearrangement Charge - IPP Service

The charge for performing central office type work.

Local Messages - IPP Service

Local Messages include all calls from an IPP access line completed to a called party in the same exchange or zone or other nearby exchanges or zones within the calling party's Local Calling Area, as specified in Part 4, Section 1.

Message Toll Service - IPP Service

Message Toll Service is furnished or made available by the Michigan Bell Telephone Company and Concurring Carriers over facilities wholly within or partly within and partly outside the State of Michigan, between two or more points within the State of Michigan where the respective rate centers of such points also are located in said state. Rates are as specified in Part 9, Section 1.

Miscellaneous Service Charge - IPP Service

The charge for performing miscellaneous service at the customer's request as specified in the Terms and Conditions section of this Guidebook.

Other Operator Services - IPP Service

Operator Assisted Calls, other than Directory Assistance calls, are not regulated and will be charged at the applicable Company prices.

Restoration of Service Charge - IPP Service

The charge to restore an IPP line which has been discontinued by the Company for nonpayment provided the service has not been disconnected. /1/

/1/ Material formerly appeared in Part 13, Section 2. (N)

INDEPENDENT PAYPHONE PROVIDER (IPP) SERVICE (cont'd)

/1/

B. Terms and Conditions

The General Regulations and Terms and Conditions of the Telephone Company apply to Interzone Messages and Message Toll Service, in addition to the Terms and Conditions included in this Part.

Access Line - IPP Service

1. IPP Service is an optional service available for use with customer-owned, coin-operated telephone sets.
2. Intrastate, intraLATA, communications may be resold or shared by the customer when used with IPP Service. The total call charge to a user for a resold call must be collected from the user by the customer.
3. The customer shall be solely responsible for provision, installation, operation, and maintenance of the IPP set and for all aspects of business relations with its users concerning operation of, and service difficulties associated with use of the IPP set, including refunds.
4. Customer provided equipment may be used with IPP Service subject to Part 68 of the FCC's Rules and Regulations, and the provisions of the Company's tariffs.
5. The customer assumes sole responsibility for compliance with all local, state, and federal regulations governing the provision and use of IPP sets. The IPP set shall comply with those requirements.
6. The company is not responsible for a function of IPP sets or other customer-owned equipment, or for misdirected calls, disconnections or other service problems caused by the use of customer-owned equipment.
7. The customer shall prominently display at each IPP set the name of the owner or agent responsible for the service and the procedure for reporting service difficulties and obtaining coin refunds.
8. IPP Service is not provided on a foreign telephone basis.
9. Where an IPP line has additional jacks or other arrangements that could be used for the connection of an extension telephone set, the customer must prominently display at the IPP set location a sign to advise users that an extension telephone may be connected and that the conversation may be heard by others. This requirement is waived if arrangements are made to automatically prevent a third party from listening on an extension telephone.
10. Except as specified herein, regulations and Terms and Conditions applicable elsewhere in the Company's tariffs for regular business service are applicable to IPP Service.

/1/

/1/ Material formerly appeared in Part 13, Section 2.

B. TERMS AND CONDITIONS (cont'd)

LINE CONNECTION CHARGE - IPP SERVICE

1. Line Connection Charge applies separately for each IPP line that is:
 - a) Transferred from one building to another building.
 - b) Moved with a customer's portable structure containing the line(s).
 - c) Transferred from one premises (ie., one contiguous portion of a building occupied by a customer) to another premises in the same building, e.g., one office or suite of offices to another office or suite of offices.
 - d) Moved when the telephone equipment at a new location is established prior to disconnection of the old location or discontinued at the old location prior to establishment at the new location.
 - e) Connected from the serving central office including provisioning of a Network Interface (NI).
 - f) Connected between the general distribution cable terminals serving different premises in the same building or serving different buildings on the customer's same continuous property.
 - g) Changed from a business or IPP coin line to an IPP line.
 - h) Moved when a building cable terminal is moved to a different location in the same building.
 - i) Restored to service after having been disconnected by the Company for nonpayment.
2. Line Connection Charge is applicable for each single span of aerial service drop wire or equivalent underground entrance facilities that are rearranged.

Line Rearrangement Charge is applicable for each change in telephone number made at the customer's request.

/1/

/1/ Material formally appeared in Part 13, Section 2.

(N)

INDEPENDENT PAYPHONE PROVIDER (IPP) SERVICE

/1/

B. TERMS AND CONDITIONS (cont'd)

MISCELLANEOUS SERVICE CHARGE - IPP SERVICE

1. One charge covers all miscellaneous services performed at the same time for each separately billed IPP Service.
2. Miscellaneous Services covered by this charge include, but are not limited to, the following:
 - a) Change from published to unpublished listing.
 - b) Addition or change in directory listings.
 - c) Change in responsibility for payment for service not involving a listing change except cases involving:
 - * Establishment or termination of receivership
 - * Addition to or withdrawal from membership in a partnership or corporation.
 - d) Customer requested change in customer records except for
 - * Discontinuance of a listing
 - * Change of listing due to a legal name change
 - * Change in customer billing address.

RESTORAL OF SERVICE CHARGE - IPP SERVICE

The Restoral of Service Charge applies separately for each IPP line requiring restoration.

Directory Assistance Service - IPP Service

1. Information that a customer has requested not be made available will not be provided.
2. The Directory Assistance operator will provide telephone numbers or other information as noted in the Description preceding for a maximum of three number requests per call.
3. Charges specified in the rates section following apply for Directory Assistance calls within the customer's home numbering plan area when the number of calls exceed the monthly allowance for that IPP set as specified in 4. following. Charges do not apply to Directory Assistance calls for numbers outside of the customer's home numbering plan.
4. An allowance of 20 Directory Assistance calls (not transferable) per month is provided for each line at no additional charge.
5. When an IPP end user places a call to Directory Assistance Service via another Company operator, the Directory Assistance Service charge applies but the unregulated Assisted Call Charge does not apply. The call allowance does not apply.
6. When an IPP end user requests that the Directory Assistance Service charge be billed to a Third party or Credit (Calling) Card, the unregulated Assisted Call Charge for Stations calls also applies. The call allowance does not apply.

C. FEATURES

1. Standard Features

- a. Listings are available as regularly provided with business service.
- b. Selective Call Screening (unregulated) is required, where facilities are available, to prevent origination of Message Toll Service Assisted Calls except Collect and Billed-to-Third-Party calls.

2. Optional Features

IPP lines may be provisioned with optional features on an unregulated basis and at the applicable Company prices.

(N)

IPP COIN LINE

/1/

A. DESCRIPTION

The IPP Coin Line is an optional exchange access line for use with payphone service. The IPP Coin Line is provided with central office based features and signaling functionality.

B. DEFINITIONS

Coin Rating

A rate obtained from a table entry built into the Traffic Operator Position Switch (TOPS) with which the coin line interfaces in the central office.

Coin Supervision

The capability of recognizing and monitoring coins deposited into the payphone.

Coin Control

The capability of collecting or returning coins deposited into the payphone.

Call Screening

A screening feature that is provided with the Coin Line. This feature prevents toll fraud by restricting originating non-sent paid operator-assisted calls to collect or third party billing.

Independent Payphone Provider ("IPP")

The customer of AT&T Michigan subscribing to the Coin Line.

End User

The consumer making a call from the payphone.

/1/

IPP COIN LINE (cont'd)

/1/

C. TERMS AND CONDITIONS

1. Unless otherwise specified, regulations in this Guidebook are in addition to those set forth for IPP Service in Part 13, Section 2.
2. The IPP Coin Line offers central office based signaling required to enable coin rating, coin control, and coin supervision. The Coin Line also offers certain call screening (see definition above) designed to prevent fraudulent calls from being placed from the customer's payphone.
3. Coin sent paid intraLATA calls from IPP Coin lines will be carried by Ameritech or any other Carrier that has the ability to provide coin control, coin supervision, and coin rating.
4. All intraLATA operator assisted calls will be handled by Ameritech operator services or the Carrier selected to handle the coin sent paid intraLATA calls as stated in C.4. above. When Ameritech is selected, Ameritech unregulated operator services rates, as well as Ameritech intraLATA toll rates, as specified in Part 13 will apply to end users.
5. No adjustments to the usage rates charged pursuant to 8 following or any other refund will be made in the event of uncollected initial period or overtime coin charges applicable to end users.

/1/ Material formerly appeared in Part 13, Section 2.

(N)

IPP COIN LINE (cont'd)

/1/

C. TERMS AND CONDITIONS (cont'd)

- 6. The customer shall be responsible for payment of charges of all messages originating from or accepted at this type of service.
- 7. Coin sent paid revenues collected at the customer's payphone are the property of the customer.
- 8. Coin sent paid interLATA calls from IPP Coin Lines may be routed to any Interexchange Carrier selected by the customer who has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) which are required to complete the call.
- 9. The customer's terminating equipment must be suitably equipped in order to utilize IPP Coin Line features. Such equipment must meet the interface specifications in the Technical References below.
- 10. In addition to the recurring access line rate following, all rates and charges applicable under IPP Service (formerly COCOTS) (i.e., intraLATA toll, local usage, directory assistance, service charges, etc.) will also apply to the customer.

E. PRICES

1. Service Elements

Description	Monthly Rate Access Area		
	A	B	C
IPP Coin Line, each	\$12.46	\$15.95	\$20.18

2. Other Applicable Charges and Payments

In addition to the above rates, interstate End User Comm on Line (EUCL) charges as filed in Section 4 of Ameritech Operating Companies Tariff F.C.C. No. 2 also apply.

3. Promotional Offerings

A promotional offering/waiver is a special program designed to introduce and/or encourage customers to use products and services of Ameritech Michigan. The promotion may offer services at a reduced rate or a waiver of nonrecurring charges under the terms specified in the promotion. The waiver or reduction of recurring or nonrecurring charges will be for a specified time limit.

Rates for services provided to Independent Payphone Providers are not subject to a wholesale discount pursuant to determinations made by the FCC applying the provisions of section 276 of the Federal Telecommunications Act of 1996. Resale Access Line Rates are effective as of July 25, 2005.
