PRIVACY MANAGER^{®/1/} (cont'd)

B. Definitions

This service will be available when facilities permit. Subscribers need to have Caller ID with Name as well as Touch Tone service to subscribe to the Privacy Manager. This service will be provisioned on a line by line basis and customers with more than one line would need to have the service activated on each line if they want the ability to intercept unknown and blocked calls to each line.

The subscriber can override the Privacy Manager platform through the use of a personal identification number, which is changeable through a VRU. The subscriber would establish this PIN in the event they receive frequent calls from friends and family that register as “unknown”, “private” or “unavailable”, i.e., cellular phones, payphones, and some long distance calls. The subscriber would then provide the PIN to those callers who would invoke the PIN upon being intercepted by the platform, which would enable the caller to bypass the Privacy Manager platform and the call would be directly connected. The subscriber would hear a distinctive ring and upon answering the call would not hear any of the Privacy Manager messages or prompts.

Residence customers who subscribe to Privacy Manager as described above and also have the applicable The WORKS[®], The BASICS[®], BASICS ChoiceSM, or Economy Local SolutionSM package established on the same line will receive a discount on the Privacy Manager monthly price.

C. Prices

1. Service Elements

Description /Billing Code/	Monthly Price
Privacy Manager - Residence /WHO/	\$ 9.00
Privacy Manager - Business /WHO/	29.25(I)
