A29.7 Administrative Management Service (AMS)

A29.7.1 Description of Service

A. General

Administrative Management Service provides customers a single point of access to other Company network management products, and provides the customers greater control of and additional information about the network services they purchase from the Company. Although most Operation Support Systems (OSS) are optional on a nominal business day, AMS will be provided on a twenty-four hour basis for continuous usage of those systems that are accessible twenty-four hours.

B. Customer Access

Customers will have access to Administrative Management Service through a customer provided VT100 terminal with a choice of up to 2400 bits per second (bps) dial access or dedicated 9600 bps private line.

C. Maintenance and Operation

Due to the nature of Administrative Management Service it may be necessary to perform preventive and routine maintenance on the system. At such times, the customers will be notified in advance as to the time and duration of these outages.

A112.28.14 Switched Data Service I

A. General

1. Switched Data Service is a digital switched service that may be utilized by Digital ESSX service subscribers to provide up to a maximum of 56 kilobits per second full duplex information via a specially equipped two-wire Digital ESSX service main station line. (T)
2. Switched Data Service Capability will be provided to Digital ESSX service subscribers via non-loaded facilities utilizing main station lines within the engineering limits of Switched Data service where facilities permit. (T)
3. Digital ESSX service main station lines with Switched Data Service capability will allow digital calls only. Main station lines equipped with Switched Data Service capability are not voice functional. (T)

B. Regulations

1. Switched Data Service capability for Digital ESSX service main station lines is furnished at rates specified in C. Rates for locations beyond two and one half miles will be provided as specified in Section A5. (T)
2. The total quantity of voice functional main station lines and Switched Data Service capable main station lines for one subscriber will determine Digital ESSX service size (S,M,L). (T)
3. A Digital ESSX service subscriber utilizing Switched Data Service capability must subscribe to a main station line that will include the exchange circuit and the C.O. termination at rates and charges as specified in C for Message or Flat Rate Digital ESSX service. The C.O. termination will include intercom, provisioning for Switched Data Service and Data Call Protection per main station line. (T)
4. **(DELETED)** (D)
5. End User Common Line Charge will apply as appropriate.
6. DECAS capabilities may not be used to affect changes on Switched Data Service capable Digital ESSX service main station lines. (T)

Note 1: Apply sixty percent of the monthly rate applicable for intercom and the wire center line for a main station line at the customer's main location.

Note 2: Rates and charges specified elsewhere in A112 are applicable.

Note 3: Appropriate Service Charges as specified in Section A4 of this *Guidebook* apply. (T)
