A12.4 Assigned Centrex Type Services Telephone Numbers without Facilities

A12.4.1. General

- A. Assigned telephone numbers without facilities will be provided to meet growth requirements of a Centrex Type Services subscriber and any associated ISDN service. These telephone numbers will be assigned to the subscriber's common block without being associated with a working station line and will be converted to active station lines as requested by the subscriber.

A12.4.2. Terms and Conditions

(T)

- A. The assignment of telephone numbers and the sequence of numbers assigned to a Centrex Type Services subscriber's system will be made at the discretion of the Company.
- B. The service is furnished subject to the availability of telephone numbers.
- C. The Company does not guarantee to provide consecutive telephone numbers.
- D. Calls to these assigned telephone numbers will be routed to intercept common recorded announcement facilities as indicated in the *Guidebook* Section for the subscriber's Centrex Type Services system.
- E. Telephone numbers furnished herein retain their status until associated with an active station line at which time the service assumes rates and charges applicable to the appropriate Centrex Type Services station line.
- F. These assigned telephone numbers will not be available for manipulation utilizing ECAS, DECAS, Customer Control, or BellSouth Centrex Control capabilities.
- G. Directory listings will not be provided with these assigned telephone numbers.
- H. These telephone numbers will be billed at the following rates until utilized on an active Centrex Type Services station line.
- I. A Secondary Service Charge applies per occasion for the assignment of any quantity of telephone numbers at the same time. A Secondary Service Charge does not apply when a working telephone number is converted to an Assigned Telephone Number.
- J. The Company will make every effort to insure the correct assignment and control of Assigned Centrex Type Services Telephone Numbers Without Facilities. The Company's liability for any damages or harm that may occur as the result of incorrect assignment or control of these numbers shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected.

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.7 Direct-Inward-Dialing (DID) Service

A12.7.1 General

- A. DID service permits calls incoming to a PBX system, Telephone Answering Service, or other Customer Premises Equipment requiring out-pulsing-of-digits from the network to reach a specific station line without the assistance of an attendant. DID service is provided subject to the availability of facilities and telephone numbers and other conditions as specified in Sections A2 and A15. (M1)
- B. The rates specified herein are in addition to the rates shown elsewhere in the Guidebook for the services with which this offering is associated (e.g. central office PBX trunks, access lines, etc.) (M1)
- C. DID service is optionally available with Identified Outward Dialing (IOD) service and includes central office switching equipment necessary for in-dialing from the network directly to stations associated with customer premises switching equipment. Subscribers to DID service will be required to maintain an adequate number of DID trunks as determined by the Company in order to provide "quality" grade of service and prevent Network degradation. (M1)
- D. The service must be provided on all lines in a trunk group arranged. Where DID is required on more than one group of trunks or central office lines, each such group shall be considered as a separate DID service. (M1)
- E. It is the Company's policy to arrange DID numbers in blocks of twenty (20) consecutive numbers where facilities permit. A customer may request DID numbers arranged in a non-consecutive manner. In that case, the installation charge in A12.7.2.A.1. (a) applies in addition to the rates found in A12.7.2.A.1. (c) for Non-Consecutive DID numbers. When a number is removed from an existing consecutive DID group, the installation charge and monthly rates for Non-Consecutive DID apply to the remaining numbers. Where the equipment configuration requires the assignment of blocks of telephone numbers or where the customer requests telephone numbers held in reserve for future use, rates and charges as shown A12.7.2 are applicable for each unused group of telephone numbers or Non-Consecutive number(s). (M1)
- F. When equipment or service of a special type arrangement is requested and provided, rates and charges are based on costs involved to meet the individual requirements of each case. (M1)
- G. Operational characteristics of interface signals between the Company-provided facilities and the customer-provided switching equipment must conform to the *Terms and Conditions* the Company considers necessary to maintain proper standards of service as specified in other sections of this Guidebook. (T)(M1)
- H. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations, or procedures of the Company render any of the facilities provided by a customer, authorized user, or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance. (M1)
- I. Listings will be provided in accordance with the *Terms and Conditions* of Section A6 for PBX trunks. DID numbers furnished herein are not entitled to listings without charge. Where clients of a subscriber to DID service have no local exchange service but want to list one of these numbers, "Joint User Services" in Section A3 will be applicable. (T)(M1)

A12.7 Direct-Inward-Dialing (DID) Service (Cont'd)

(M1)

A12.7.1 General (Cont'd)

(M1)

- J.** Automatic Intercept Service (AIS) for a disconnected non-listed DID telephone number will be provided at the rate shown in A12.7.2.A, where facilities permit. AIS will provide a referral from the disconnected non-listed DID telephone number to the corresponding new telephone number for a maximum period of twelve months. (M1)
- All switching systems provided this service must be arranged to provide for the intercepting of reserved, idle and/or unassigned station numbers. (M1)
1. Calls to vacant, non-working and reserved numbers will be routed to the Customer Premises Equipment for handling. On incoming calls from the network to invalid numbers or restricted stations in DID equipped Customer Premises Equipment only two methods of intercept are acceptable: Attendant or Recorded Announcement. Due to the network irregularities that can be caused, no form of tone intercept is permitted. (M1)
- K.** At the discretion of the Company, subject to operating limits and the availability of facilities, DID service may be provided outside the customer's normal serving central office. Where a DID trunk group is served from a central office other than the customer's normal serving central office, the appropriate mileage rates for Foreign Exchange or Foreign Central Office service, per DID trunk will apply. (M1)
- L.** In addition to the rates and charges specified in A12.7.2, appropriate service connection, move and change charges are applicable to the establishment or rearrangement of trunks and numbers in connection with providing DID service. (M1)
- M.** Installation charges for DID central office switching equipment are not applicable if the customer presently subscribes to DID service and changes the type of customer premises switching equipment or if the customer subscribes to Centrex-CU service which has DID as a feature and changes to another type of customer premises switching equipment with DID service. The following provisions apply: (M1)
1. The customer must maintain at least the same level of DID service requirements. (M1)
 2. The replacing customer premises equipment must be served by the same central office as the existing customer premises equipment. (M1)
 3. Central office switching equipment additions or modifications must not be required in order to provide DID service to the replacing customer premises switching equipment. (M1)
 4. Rates and charges are applicable to additional DID service requirements which exceed the customer's existing level of DID arrangements. (M1)

A12.8 Identified-Outward-Dialing (IOD) from Customer-Premises Located Switching Systems (M1)

A12.8.1 General (M1)

- A. The service is optionally available with DID service and is furnished subject to the availability of facilities within the customer's normal central office area and other conditions as specified in Sections A2 and A15. (T)(M1)
- B. The service includes the central office equipment necessary for identification of outgoing toll messages and billing of toll messages by station number and furnished subject to the on-premises equipment being arranged for IOD service. (M1)
- C. The service must be provided on all Direct Outward Dialing trunks or lines in a group arranged with IOD service. (M1)
- D. Where Identified-Outward-Dialing is requested on more than one group of trunks or lines, each such group shall be considered as a separate IOD service. (M1)
- E. The minimum contract period for the service is three years. In case of discontinuance or reduction of service within the minimum contract period, a basic termination charge as shown in Section A12.8.2, reduced by 1/36 for each full month of service provided, shall be applied. (T)(M1)
- F. When equipment or service of a special type is requested and provided, rates and charges based on the additional costs involved to meet the individual requirements of each case at the time of occurrence. (M1)
- G. Operational characteristics of interface signals between the Company-provided facilities and the customer-provided equipment must conform to the *terms and conditions* the Company considers necessary to maintain proper standards of service. (T)(M1)
- H. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations, or procedures of the Company render any of the facilities provided by a customer, authorized user, or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. A12.16.1 General (M)

- A. PCS provides central office calling features furnished from Electronic Central Office equipment located in Company buildings. Access arrangements available to PCS are individual Business exchange lines, trunks and exchange lines extended to foreign central offices/foreign exchanges. It is offered on a single or multiple access arrangement basis as a customer option and may be provided subject to the availability of facilities. All access arrangements in PCS will have the same subscriber responsibility. Exchange access arrangements in PCS must have the same type of service, e.g., must be either flat, measured or message service. (M)
- B. PCS service requires one basic feature group per access arrangement and the basic feature group selected may vary among multiple access arrangements. Optional feature groups are only available in conjunction with a basic feature group and will be offered on a per access arrangement equipped basis. (M)
- C. PCS is not available to access arrangements equipped with ESSX Service or Centrex Service, Outward WATS Service, and/or 800 Service. PCS basic and optional feature groups are not compatible with existing Custom Calling Services described in Section A13. (M)
- D. The billing record of any local or toll calls on access arrangements using PCS service will not be affected by the application of the features of this service. (M)
- E. Some PCS features may require touch-tone signaling. The rates and charges for touch-tone service are in addition to PCS rates and charges. (M)
- F. The quality of transmission for calls utilizing PCS Call Forwarding features or the User Transfer/Conferencing feature may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission of such calls. (M)
- G. Suspension of PCS service is not allowed. (M)
- H. The minimum service period for PCS is one month commencing with the date of installation of the service. (M)
- I. Feature availability and/or operation is dependent upon the type of serving central office and/or the current generic program. (M)

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.16 Prestige Communications Service (PCS) (Cont'd)

A12.16.2 Service Description

A. Basic Features

1. User Transfer/Conferencing^{1,2}

A user of this feature may hold an in-progress call and complete a second call while maintaining privacy from the first call, or may add on the previously held call for a three-way conference. The feature also allows an incoming call to be transferred to another access arrangement.

2. Call Pickup¹

This feature allows a PCS user the ability to answer a call which has been directed to another PCS access arrangement within the same call pickup group by dialing a code. Multiple call pickup groups are allowed with PCS service.

3. Call Hold^{1,3}

A user of this feature can place any established call on hold by depressing the switchhook and dialing a code. This frees the access arrangement to originate another call.

B. Optional Features

1. Speed Calling 6¹

This feature provides a PCS user the ability to place a call by dialing a code plus one digit, to any one of six telephone numbers preprogrammed by the customer on an individual access arrangement.

2. Call Waiting¹

This feature signals a PCS user that is on an existing call that another call is waiting. Cancel Call Waiting provides the ability to deactivate the Call Waiting feature on a per call basis and is included with Call Waiting where available. Call Waiting may be provided on individual access arrangements that are not in rotary (arranged for hunting) or on the last access arrangement in a rotary hunt group.

3. Call Forwarding Variable¹

This feature provides a PCS user the ability to have all incoming calls forwarded to a different telephone number by dialing a code and the telephone number where calls are to be forwarded. Ring Reminder provides a short burst of ringing on an access arrangement in the call forwarded state when a call is placed to the telephone number which has been forwarded.

4. Call Forwarding Don't Answer¹

This feature provides a PCS user the ability to automatically forward all calls that encounter a don't answer condition, after a preselected interval, to an alternate telephone number. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Due to technical limitations, the actual interval before a don't answer call is forwarded may vary slightly from the preset value. The interval and destination telephone number are specified by the customer at the time the feature is ordered. Changes in either the destination telephone number or the forwarding interval must be requested from the Company by service order.

5. Call Forwarding Busy Line¹

When the called access arrangement is busy, this feature automatically routes all calls to either a different subscriber's telephone number or a different telephone number for the same subscriber located on a different premises from the Call Forwarding Busy Line provisioned premises. The destination telephone number is specified by the customer at the time this feature is ordered. A change in the destination telephone number must be requested from the Company by service order. Call Forwarding Busy Line shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment of Rotary Line Service.

6. Speed Calling 30¹

This feature provides a PCS user the ability to place a call by dialing a code plus two digits, to any one of thirty telephone numbers preprogrammed by the customer on an individual access arrangement.

Note 1: This feature is inherent in most customer provided PBX's. Under certain conditions, the PBX feature may take precedence over, alter, or preclude the use of this PCS feature.

Note 2: Due to technological limitations, User Transfer includes Conferencing.

Note 3: Due to technological limitations, User Transfer/Conferencing is required with Call Hold.

A12.25 BellSouth Centrex Service

(T)(M)

A12.25.1 General

(M)

- A.** BellSouth Centrex service provides an arrangement of switching equipment and station lines for intercommunicating among the station lines and for connection through the local and long distance message network to other subscribers on a dial basis. BellSouth Centrex service is furnished from central office equipment located on Company premises and associated facilities arranged to provide the following basic service capabilities/features. (T)(M)
1. Exchange and long distance message network calls may be made to station lines by dialing the number associated with that station line or attendant position. (M)
 2. Exchange and long distance message network calls may be made from station lines via direct outward dialing. (M)
 3. Station-to-station intercommunication via two to ten-digit dialing between station lines of the subscriber's system. (M)
 4. Outgoing long distance message calls dialed by a station line will be identified by the seven-digit station number. Only calls billed to the subscriber by the Company will be provided this identification. (M)
 5. Touch-Tone service. (M)
 6. Common recorded announcement interception of calls to unassigned station numbers. (M)
- B.** BellSouth Centrex service will be furnished to subscribers requesting one (1) or more station lines served by the same central office equipment. (T)(M)
- C.** A subscriber's system may be comprised of the following components: (M)
- Common Equipment (M)
 - Station Lines (M)
 - Network Access Registers (M)
 - Optional Features (M)
- D.** Access to the local and long distance message networks will be provided via Network Access Registers (NARs) at the rates and charges indicated in Section A3. (T)(M)

A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

A12.25 BellSouth Centrex Service (Cont'd)

A12.25.2 Terms and Conditions

- A.** BellSouth Centrex service is furnished subject to the availability of facilities and features from central office equipment located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions.

(M)
(T)(M)
- B.** Each system established must consist of a minimum of the Common Equipment, one (1) station line and one (1) Network Access Register.

(M)
- C.** A station line will be comprised of the Standard Features and the associated Station Link, which include access to the serving central office equipment.

(M)
- D.** BellSouth Centrex service will not be offered in a manner which provides for intercommunication only.

(T)(M)
- E.** Facilities may be used for direct connections between a subscriber's BellSouth Centrex service and other systems primarily for communication between stations of the two systems. Rates and charges for these connection facilities are specified in either Section A13 of this *Guidebook* or Section B3 of the Private Line *Guidebook*. Charges for access to Private Facilities as specified in A12.25.8.E are applicable. These facilities, connecting BellSouth Centrex service, may be arranged to provide completion of incoming or outgoing exchange and long distance message network through the subscriber's BellSouth Centrex service system to or from other systems, provided such connections to the exchange or long distance message network are only made one system at a time.

(T)(M)
- F.** Station lines may require customer-provided compatible terminal equipment.

(M)
- G.** If the subscriber of BellSouth Centrex service elects a Message Rate service, usage charges as specified in Section A3 are applicable on calls to locations outside the subscriber's system in addition to rates and charges in this and other *Guidebook* sections for BellSouth Centrex service and other associated services. Usage charges are not applicable on calls originated and terminated within the same BellSouth Centrex service system, unless the system is equipped with Assumed Dial '9', in which case any appropriate usage charges will be applicable.

(T)(M)
- H.** Suspension/Denial of Service - BellSouth Centrex service may be suspended or denied at the subscriber's request or at the instance of the Company.

(T)(M)
- 1. Full suspension of service at the request of the subscriber will be allowed on the Common Equipment, Station Links, and certain ISDN elements as indicated in A12.26.2 in a system at 50 percent of the rate regularly charged. Full suspension of a system requires that all Station Links and the ISDN elements indicated in A12.26.2 in a system be suspended. Standard Features and Optional Features outlined in Section A12 will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth Centrex service, there is no time limitation for suspension of service. Other *Terms, Conditions* and Restrictions as outlined in Section A2 apply. Charges for restoration will be applicable as specified in Section A4.

(T)(M)
- 2. Partial suspension of service at the request of the subscriber will be allowed on selected Station Link(s) and certain ISDN elements indicated in A12.26.2 in a system at 50 percent of the rate regularly charged. Standard Features and Optional Features outlined in Section A12 associated with the Station Link(s) suspended will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth Centrex service, there is no time limitation for suspension of service. Other *Terms, Conditions* and Restrictions as outlined in Section A2 apply. Charges for restoration will be applicable as specified in Section A4.

(T)(M)
- 3. Denial at the instance of the Company will be allowed for non-payment of rates and charges for BellSouth Centrex service and the associated services. Restoration charges will be applicable as specified in Section A4.

A12.25.2 Terms and Conditions(Cont'd)

(T)(M)

- I. Directory Listings will be furnished subject to the Rates, *Terms and Conditions* specified in Section A6. (T)(M)
- J. Service charges, as specified in Section A4 apply to each station line in the same manner as for an individual business line and to all of the subscriber's systems unless otherwise indicated. A Secondary Service Charge from Section A4 applies per occasion for the addition or change of a feature or features provided as part of the Standard Features element. (T)(M)
- K. BellSouth Centrex service installation charges are due on initial installation unless arrangements are made for Installment or Deferred Billing. (T)(M)
- L. For purposes of application of End User Common Line charges only, charges for BellSouth Centrex service station lines will be as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4. (T)(M)
- M. Concessions will not apply to BellSouth Centrex service except those allowed to Corporate Communication BellSouth Centrex service accounts. (T)(M)
- N. Service charges will not apply for the provision of Calling Number Delivery Blocking. (M)
- O. During collection or distribution of the subscriber's ACD-NMR and/or Switch-Computer Application Interface (SCAI) Link data, due to faults or defects in telephone equipment, data may be destroyed. The Company shall not be liable, directly or indirectly, for damages, except as outlined in A2.5.1. (T)(M)
- P. Customer Premises Equipment (CPE) and software for use with ACD and/or Switch-Computer Application Interface (SCAI) Link is the responsibility of the user for provisioning. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD Service render any facilities provided by the customer obsolete, or require modification or alteration of such equipment or system, or otherwise affect its use or performance. (M)
- Q. A mixture of Flat Rate and Message Rate Local Exchange Service will not be allowed. (M)
- R. BellSouth Centrex ISDN Service lines may be purchased out of A12.26 to be associated with BellSouth Centrex service. Terms and conditions of BellSouth Centrex service will apply to these BellSouth Centrex ISDN service lines except as otherwise stated in A12.26.
BellSouth Centrex ISDN service lines may subscribe to compatible Optional Features from this Section. (T)(M)
- S. Expanded local serving Area Calling Plans which are available to BellSouth Centrex service subscribers in North Carolina include Community Caller Plus. Flat Rate and Measured Rate (Community Caller Plus) service available to the subscriber are outlined in Section A3. (T)(M)
- T. Calling Number Delivery Blocking - Per Call is an inherent capability on a BellSouth Centrex service Station Line. If the subscriber chooses to utilize the Calling Number Delivery Blocking - Permanent, Per Line feature, the subscriber may select that feature from the Standard Features List appropriate for the serving central office switch. If the subscriber wishes to switch from one version of the feature to the other, no Service Charges from Section A4 will be applicable. (T)(M)
- U. Specific name and location data associated with BellSouth Centrex service station lines, if requested, will be provided to *the Company* by the subscriber. The Company is not responsible for any issues that may arise from inaccurate data. In the event any claim is brought against the Company in connection with any errors or omissions in name and location data, the Company's liability shall be limited to one month's service for the BellSouth Centrex service station line or station lines involved. A12.25.3 Unconditional Satisfaction Guarantee

(M)

- A. If the subscriber is not completely satisfied with BellSouth Centrex service within ninety (90) days of the earliest effective billing date, all payments will be handled as indicated in this paragraph. (M)
1. The following charges will be refunded: (M)
 - a. Nonrecurring and recurring charges (up to ninety days recurring billing) for rate elements as specified in this Section for BellSouth Centrex service. (M)
 - b. Service charges from Section A4. (M)
 2. The following charges will not be refunded: (M)
 - a. End User Common Line charges as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4. (M)
 - b. Usage Charges from Section A3. (M)
 3. Customer-provided equipment acquired for use with BellSouth Centrex service will not be included in this plan. (M)
 4. Other facilities, features, and services not located in this Section will not be included in this plan. (M)
 5. This guarantee will not apply to transfers of service, moves, conversions, or renewal of Payment Plan and/or Rate Stability Plan. (M)
 6. BellSouth Centrex service will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction. (M)
 7. Subscribers requesting an extension of the ten (10) day disconnection interval to accommodate installation of a replacement product/service, will be billed the recurring rates applicable to the subscriber's system when installed for that period, not to exceed six (6) months. (M)
 8. Subscribers must retain continuous service beyond the ninety (90) days utilizing other *Company* services. (T)(M)
 9. Cancellation charges will not apply to BellSouth Centrex service disconnected under this plan. (M)

A12.25.4 Intercept of Calls

(M)

- A. Rerouting of calls that cannot be completed to the number originally dialed will be offered either standard Intercept or Automatic Number Referral. (M)
1. Intercept - Incoming calls from the exchange and long distance message networks to unassigned station numbers are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service. (M)
Intercommunicating calls to unassigned station numbers are intercepted by central office recorded announcement equipment which is common to all subscriber's BellSouth Centrex service systems served out of the same office. The announcement states that the number is not in service and advises that the attendant should be consulted or the caller should check the number. (M)
 2. Automatic Number Referral - Incoming calls to a telephone number that has been disconnected or changed may be routed to a mechanized announcement that tells the calling party that they have not reached the number they dialed, the reason the number is not in service and the new number to call, if available. Telephone numbers for station lines that are listed in the Company's Listing Information System will be provided Automatic Number Referral (if desired) at no charge if disconnected or changed. Telephone numbers for station lines not listed in the Company's Listing Information System may be provided Automatic Number Referral with charges from A12.25.12 applicable per telephone number referred. A12.25.5 Conversions

(M)

- A.** MultiServ service, MultiServ PLUS service, ESSX Service, Digital ESSX service and ESSX-1 service will be converted to BellSouth Centrex service as follows. Conversions will be based on the Company's standard provisioning intervals. A12.25.5 only applies to the conversion of existing service and is not meant to apply to the provision of new service. (M)
1. Nonrecurring charges from this Section will not apply. (M)
 2. Termination Liability/Cancellation Charges for original service will not apply. (M)
 3. Service charges from Section A4 will not apply. (M)
- B.** Deletions, changes, additions, and rearrangements of a subscriber's station lines and/or features will be performed subsequent to conversion to BellSouth Centrex service as follows. (M)
1. Changes, additions, or rearrangements for station lines and/or optional features: (M)
 - a. Nonrecurring charges from this section will apply. (M)
 - b. Service charges from Section A4 will apply. (M)
- C.** Subscribers of BellSouth Centrex service, upon the conversion of the central office facilities from one switch type to another, must convert to corresponding switch type features. (M)
1. Conversion will be within thirty (30) days of the central office conversion. (M)
 2. Nonrecurring charges from this section will not apply. (M)
 3. Cancellation charges for original service will not apply. (M)
 4. If subscriber had a Rate Stability Plan in effect, it will continue uninterrupted. (M)
 5. Service charges from Section A4 will not apply. (M)
 6. Changes, additions, or rearrangements: (M)
 - a. Nonrecurring charges from this Section will apply. (M)
 - b. Service charges from Section A4 will apply. (M)
- D.** Conversions will not be allowed on suspended service. (M)

A12.25.6 Payment Schedules

(M)

- A.** General (M)
1. BellSouth Centrex service is offered at the rates and charges indicated in this Section. (M)
 2. The subscriber may choose from the Payment Plans and Rate Stability Plans as offered in this Section. (M)
 3. The rates applicable for the Common Equipment and Station Links must be under the same Payment Plan. (M)
 4. The rates for the Common Equipment indicated in this section may be stabilized for 12, 24, 36, 48¹, or 60¹ months, as selected by the subscriber, with a Rate Stability Plan under the *terms and conditions* in this Section. (T)(M)
 5. Subscribers will have the BellSouth Centrex service Common Equipment rates indicated in this Section stabilized for their chosen Payment Plan and Rate Stability Plan period. Stabilized rates will not be subject to Company initiated increases for the duration of the stabilized period. Rates for the Station Links, Standard Features, Optional Features, and other rate elements in this section associated with BellSouth Centrex service will not be increased for the Rate Stability Plan period associated with the Common Equipment. Decreases for any rate element will automatically flow through to all customers. (M)
 6. Except as indicated in 5, the Common Equipment Payment Plan recurring rate will be applicable for the length of the Rate Stability Plan period subject to the Cancellation Charge indicated in C. Station Links, Standard Features, and Optional Features may be added or removed without the application of a Cancellation Charge. (T)(M)
 7. Subscribers may apply for rates developed and offered via a Contract Service Arrangement as specified in Section A5. (M)

Note 1: Effective September 1, 2013, payment periods greater than 36 months are no longer available for new or renewing subscribers of BellSouth Centrex Service. (M)

A12.25.6 Payment Schedules (Cont'd)

B. Expiration of Rate Stability Plan Period

1. BellSouth Centrex service subscribers may upon the expiration of their contract choose either a. or b. (T)(M)
 - a. The subscriber may continue to receive BellSouth Centrex service under their previously selected Payment Plan and Rate Stability Plan period for their Common Equipment. The currently effective rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this Section. (M)
 - b. The subscriber may choose another Payment Plan and/or Rate Stability Plan period for their Common Equipment. The currently effective rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this Section. If the new Rate Stability Plan period is for 24 months or greater, one month of the Common Equipment monthly rate for the Payment Plan and Rate Stability Plan period selected will be waived for each year of the new Rate Stability Plan period. This waiver does not apply to conversions of other services to BellSouth Centrex service. (M)
2. BellSouth Centrex service subscribers may at any time during their selected Payment Plan and Rate Stability Plan period choose another Payment Plan with a Common Equipment monthly rate equal to or greater than their current Common Equipment rate and a Rate Stability Plan period equal to or greater than the amount of time remaining on their existing Rate Stability Plan period. The new rates will be the currently effective Guidebook rates. If the subscriber is within the last six months of his Rate Stability Plan Period, the waiver described in 1.b is applicable. (T)(M)

C. Cancellation Charges

1. The following charges are incurred when a complete removal of a BellSouth Centrex service system occurs prior to the expiration of the Rate Stability Plan. (M)

The subscriber's Rate Stability Plan cancellation charge will be the total amount of the BellSouth Centrex service Common Equipment monthly rate committed to by the subscriber for the remaining months of his Payment Plan and Rate Stability Plan period. (M)
2. Cancellation charges may be applicable whether the disconnection occurs at the subscriber's request or at the instance of the Company. (M)

D. Additions

A BellSouth Centrex service subscriber may add station lines and/or any feature/capability to the existing system at any time during the period of service. (M)

E. Disconnects

When a portion of a subscriber's BellSouth Centrex service is disconnected, the expiration date of the Common Equipment Rate Stability Plan will not be affected. (M)

F. Transfer of Contract

Service may be transferred to a new subscriber at the same location upon prior written concurrence by the new subscriber as specified in Section A2. (M)

G. Deferred Payment

Nonrecurring charges may be deferred as specified in Section A2 or extended under Installment Billing as specified in Section A4. (M)

H. Prepayment

Recurring charges may be prepaid as specified in Section A2. (M)

I. Service Migration and Early Termination Charges

If Customer migrates a AT&T Centrex Service or Service Component (referred to as the "Terminated ILEC Service") to a qualifying AT&T Business Voice over IP (BVoIP) Service (referred to as the "Replacement Service"), then the Early Termination Charge associated with the Terminated ILEC Service will be waived provided: (M)

1. the Terminated ILEC Service has been installed at the Customer site for no fewer than 12 months; (M)
2. the Term of the Replacement Service agreement is equal to or greater than the remaining term for the Terminated ILEC Service; (M)
3. the Replacement Service is installed at the same Customer sites as the Terminated ILEC Service; and (M)
4. activation of the Replacement Service at the Customer site occurs within 90 days of termination of the Terminated ILEC Service at that Customer site. (M)

It is at the Company's sole discretion whether a product change satisfies these requirements. (M)

1. Each BellSouth Centrex service system consists of the Common Equipment, Station Lines, NAR(s), and any selected Optional Features. The Common Equipment and Station Links must be under the same Payment Plan. (M)
2. A station line will be comprised of the Standard Features and the associated Station Link or the equivalent. The maximum number of features on a station line will be based on the limitations of the switching equipment serving the subscriber. (M)
 - a. The rates and charges specified herein for station lines and bridged links are applicable to each station line location and bridged link location, respectively, to which a customer-provided instrument can be connected. (M)
 - b. Rates for the station lines of BellSouth Centrex service subscribers will be based on the following criteria: (M)
 - Station lines (Station Link and Standard Features) selected. (M)
 - The appropriate Optional Features requested. (M)
 - c. Where station lines are extended to a premises served by a central office other than the central office providing the telephone number, the interoffice channel will be provided at the rates in D. Rates for the BellSouth Centrex service station links will apply for the link from the distant central office to the subscriber's premises. (T)(M)
 - d. Exchange Access (M)
 - Exchange Access is provided by means of Network Access Registers. Usage charges may apply. (M)
 - Presubscription of a Carrier of Preference is specified in Section 13 of the Interstate Access Services Tariff. (M)
3. Installation Charges (M)
 - a. Installation charges apply as specified, when a rate element is added or changed. These charges apply in addition to other applicable nonrecurring charges. (M)
 - b. One or more rate elements may be provided at the same time and in such instances the specified installation charge will apply for each rate element provided. (M)
4. Additional Directory Listings apply as specified in Section A6. (T)(M)
5. Service Charges apply as specified in Section A4 to service establishment, moves and changes of BellSouth Centrex service. (T)(M)
6. Credits and Surcharges (M)

Credits and surcharges as described following will apply for all BellSouth Centrex service systems. A credit that is equivalent to the F.C.C. End User Common Line charge will be applied to each station line. A surcharge that is equivalent to the F.C.C. End User Common Line charge will be applied to each Network Access Register. (M)
7. Centrex PRI Conversions (M)

Customers may elect to convert existing PRI to Centrex PRI, and vice versa. This is considered an inside move and service rearrangement charges apply (as indicated in A42.3.4.G). Applicable charges for 5ESS switch type include Type 1 (as indicated in A42.3.4.G.1.a) and Premise Visit (as indicated in A42.3.4.G.3.a) per access line converted. Applicable charges for DMS-100 switch type include Type 1 (as indicated in A42.3.4.G.1.a), Type 2 (as indicated in A42.3.4.G.1.b) and Premise Visit (as indicated in A42.3.4.G.3) per access line converted. A12.25.11 Standard Features

(M)

A. General

(M)

1. The quantity of features offered as standard and optional will be dependent on the switch type. (M)
2. The maximum number of features that can be provisioned on a station line is dependent on the serving central office. (M)
3. All features are offered where facilities permit. This will be dependent on the serving central office. (M)
4. Feature operation may vary based on the serving central office. (M)
5. The operation of some features may make them incompatible with other features requested by the subscriber. Incompatible features will not be provisioned on a station line. (M)
6. A list of the Standard Features is available for each switch type as indicated in A12.25.21. As additional features become available in each switch type and are offered by the Company with this service as Standard Features, those additional features will be added to the Standard Features lists. As features are no longer made available by the Company with this service, those features will be deleted from the Standard Features lists. (M)
7. Standard Features for BellSouth Centrex ISDN service are listed in A12.26. (M)

Note 1: Calling Number Delivery Blocking - Per Call is an inherent capability on a BellSouth Centrex service Station Line. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's CPE to perform satisfactorily with the network feature described herein. Calling Number Delivery Blocking does not prevent transmission of the calling party number on services such as E911 that utilize Automatic Number Identification (ANI) for delivery of the calling number. (T)(M)

Note 2: This feature allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party. The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name. (M)

Note 3: Applies per additional 6 port conference circuit. (T)(M)

Note 4: Requires Conference Use Control in A12.25.12.A.13.a. (T)(M)

(T)(M)

A12.25.14 Systems Communication Service (SCS)

(M)

A. General

(M)

1. Systems Communication Service (SCS) is an arrangement that provides abbreviated dialing between systems. SCS allows users in a BellSouth Centrex service system to dial four or five digits to reach users in the other destinations included in the SCS arrangement. Destinations included in the SCS arrangement may be PBX, MultiServ service, MultiServ PLUS service, BellSouth Centrex service or any other location which may be dialed directly (the subscriber may subscribe to BellSouth Centrex service at the other locations, but it is not required). The calls can be local or toll. (T)(M)
2. The only function SCS offers to BellSouth Centrex service subscribers is abbreviated dialing to the other selected locations. (T)(M)

B. Terms and Conditions

(T)(M)

1. SCS will allow four or five-digit dialing on a system basis to the subscriber's distant number range. SCS will prefix any Access Code (if required), Home (HNPA) or Foreign Numbering Plan Area (FNPA) (if required), and NXX dialed by the subscriber before routing to the distant location. (M)
2. The four or five-digit abbreviated dialing ranges cannot be duplicated at any other SCS location or destination. (M)
3. BellSouth Centrex service common equipment is required at each serving central office at which SCS is provided. (T)(M)
4. SCS will be offered only where facilities exist. (M)
5. IntraLATA toll calls will be subject to the applicable rates for the authorized intraLATA toll service selected by the subscriber. InterLATA toll calls will be routed to the Interexchange Carrier (IC) to which the subscriber has presubscribed. Other usage charges will apply as appropriate. (M)
6. When SCS involves more than one subscriber, each subscriber must consent to sharing of information with other subscribers that is necessary for implementation of SCS. (M)

A12.25.15 Telephone Numbers and Facilities Reserved for Future Use (M)

A. General (M)

1. A customer may reserve preassigned telephone numbers and facilities necessary to meet their specified growth requirements at specific locations on a mutually agreeable date. In the event the customer elects not to be provided with reserve telephone numbers, timely station line additions cannot be assured and facilities necessary for growth requirements will be provided only within normal engineering and construction intervals. (M)
2. Telephone numbers reserved for future use includes preassigned telephone numbers and the facilities required. Such telephone numbers and facilities will be removed from reserved status and assigned as active station lines as requested by the customer. (M)
3. The assignment of telephone numbers and the sequence of numbers assigned to a subscriber's system is made at the discretion of the Company. (M)
4. The service is furnished subject to the availability of facilities and telephone numbers. (M)
5. Calls to reserved (unassigned) telephone numbers will be routed to intercept common recorded announcement facilities as specified in A12.25.1.A. (T)(M)
6. Telephone numbers furnished herein retain their reserved status until assigned to a station line at which time the service assumes rates and charges applicable to a BellSouth Centrex service station line. (M)
7. Reserved numbers not assigned to a station line will be billed at the following rates until removed from reserved status or billed as an active BellSouth Centrex service station line. (M)

A12.25.16 BellSouth Centrex Control (M)

A. Description of Service (M)

1. BellSouth Centrex Control is a feature of BellSouth Centrex service which utilizes a computer-based operations system accessed via an Internet connection or a Company Secure Network pending conversion to Internet access. BellSouth Centrex Control allows end users to activate and/or deactivate selected features and/or change certain service options and feature configurations on designated BellSouth Centrex service station lines. These changes can be performed on a per line basis or a bulk change basis. Subscriber provided equipment is required for the operation of BellSouth Centrex Control. The BellSouth Centrex Control feature is available where central office switching systems and facilities permit. ISDN station lines will only be controllable in the DMS-100 and 5ESS switches where facilities permit. (M)
2. For access to BellSouth Centrex Control, the subscriber will be required to provide appropriate equipment and Internet access. Service established prior to June 30, 2006, using dedicated access lines will be converted to Internet access. (M)

- A12.25.16 BellSouth Centrex Control (Cont'd)** (M2)
- A. Description of Service (Cont'd) (M2)
3. BellSouth Centrex Control subscribers are subject to BellSouth Centrex service *Terms and Conditions* as stated in A12.25. (T)(M2)
 4. All features which are available via BellSouth Centrex service may not be available for BellSouth Centrex Control from all central offices. Non-controllable features may also be provided on a BellSouth Centrex Control station line. Rates and charges indicated for non-controllable Optional Features will be applicable. (M2)
 5. If the Company provisions the station lines initially, the Company will provision the basic service capabilities/features indicated in A12.25.1.A and the initial customer specified set of the available controllable standard and optional features as indicated in A12.25.21 or A12.26 for ISDN lines, on all station lines. If the subscriber requests that the Company provide access to some controllable optional features subsequent to initial installation, the nonrecurring charge in E.5 (b) will be applicable. Depending on the subscriber's serving central office switch type, all features may not be controllable via BellSouth Centrex Control. (T)(M2)
 6. If the subscriber wishes to provision the station line initially, the Company will first provide the station lines with the basic service capabilities/features indicated in A12.25.1.A. (T)(M2)
 7. BellSouth Centrex Control allows the subscriber to schedule changes for completion by the next business day or for a future business day. Additional priority changes may be requested and the changes completed the same day subject to switch access availability. (M2)
 8. BellSouth Centrex Control is furnished subject to the availability of facilities and features. (M2)
 9. If a subscriber requests BellSouth Centrex Control on any station lines in a system, all station lines in that system must be equipped for BellSouth Centrex Control. The Company reserves the right to make certain station lines inaccessible for BellSouth Centrex Control. (M2)
 10. Service established prior to June 30, 2006, pending conversion to Internet access requires use of a Security Card, see A112.25.16. (M2)
 BellSouth Centrex Control utilizes Internet access and provides security by requiring login and password identifiers. The subscriber must have one user ID and password for each user accessing the BellSouth Centrex Control Database. In addition, BellSouth Centrex Control ensures that the user can access only their portion of their database. The subscriber will be required to authenticate with a user ID and password before access is permitted. (M2)
 (Obsoleted, see Section A112.) (M2)
 11. The subscriber will be provided one user ID and password in conjunction with the Service Establishment, Initial Setup. Additional user IDs will be needed if multiple users are to access the data base. Additional user IDs can be obtained per E. (T)(M2)
 12. The subscriber will be provided one Data Base setup in conjunction with the Service Establishment, Initial Setup. (M2)
 13. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions or TN swaps, as outlined in E for new and existing BellSouth Centrex service subscribers. TN swaps can only be performed for like type station lines and facilities. (T)(M2)
 - Change station line features, (M2)
 - Delete features from a line or (M2)
 - Add new features to a line. (M2)
 14. (Obsoleted, see Section A112.) (M2)
 15. BellSouth Centrex Control provides the subscriber with the ability to print standard administrative reports. (M2)
 16. BellSouth Centrex Control subscribers may have capabilities beyond those indicated in this section that are not available to non-Centrex Control subscribers. (M2)

(T)(M2)

1. BellSouth Centrex Control is furnished subject to the availability of facilities and the ability of the software to control the requested feature. (M2)
2. Limitations and use of BellSouth Centrex Control as stated in Section A2 will apply. (M2)
3. Suspension of service at reduced rates as specified in A12.25.2 is not applicable if the customer utilizes BellSouth Centrex Control to deactivate station lines. Suspension of service by the Company will have reduced rates applicable as indicated in A12.25.2. (M2)
4. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, or its employees, or agents, in line with this Guidebook. (M2)
5. To access the BellSouth Centrex Control database, the subscriber must use Internet access or (for service established prior to June 30, 2006, awaiting conversion to Internet access) a voice grade line or the equivalent. (M2)
6. All BellSouth Centrex Control controllable lines in the 1AESS, 5ESS, DMS-100 and EWSD switches must be provisioned with a Caller ID Station Link. (M2)
7. For station lines equipped with BellSouth Centrex Control, the subscriber can verify and/or display the assignment of features on a single line, range of station lines or all station lines to determine which station line or station lines have a particular feature or service option. (M2)
8. BellSouth Centrex Control changes must be entered in conjunction with the following: (M2)
 - Prior to Company designated schedules, or (M2)
 - As priority changes, or (M2)
 - As future dated transactions by the subscriber. (M2)
9. The subscriber will be responsible for installation, maintenance and testing of compatible customer-provided equipment (CPE). (M2)
10. The Company does not assume responsibility for the compatibility or suitability of the subscriber's (CPE) equipment. (M2)
11. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of BellSouth Centrex Control render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance. (M2)
12. The subscriber must provide the Company with a central point of contact for inquiries and/or trouble reports involving station features. (M2)
13. The BellSouth Centrex Control subscriber is responsible for initiating a Service Order to correct any information pertaining to the Company's Listings that changed as a result of a BellSouth Centrex Control TN swap. The appropriate Service Charges specified in Section A4 apply. (M2)
14. The subscriber must notify *the Company* when an available telephone number used or intended for use as an additional number is assigned, moved, or deleted by the subscriber in order to assure the appropriate treatment of required information such as PIC, 911, and repair service data. The Company is not responsible for any issues that may arise from inaccurate data or lack of subscriber notification. In the event any claim is brought against the Company in connection with any errors or omissions, the Company's liability shall be limited to one month's service for the BellSouth Centrex service station line or station lines involved. A12.26 BellSouth Centrex ISDN Service (M)

A12.26.1 General (M)

- A.** BellSouth Centrex ISDN is an intraLATA group of offerings supported by the Integrated Services Digital Network (ISDN) architecture. BellSouth Centrex ISDN supports simultaneous transmission of voice, data, and packet services on the same exchange access line Calling/Called Number Delivery, Calling Name Delivery in equipped 5ESS and EWSD switches, Call Hold and Intercom are included with this service. BellSouth Centrex ISDN is available only for use with BellSouth Centrex service. BellSouth Centrex ISDN provides access to the telephone network through a Basic Rate Digital Subscriber Line (DSL) Access Arrangement. Basic Rate Digital Subscriber Line (DSL) Access Arrangement will allow transmission on one or two 64 Kbps (B) channels and one 16 Kbps (D) channel at the service delivery point. (M)
- B.** B channel circuit switched services offer up to 64 Kbps intra-office transmission of voice or data. This option permits the customer to utilize either circuit voice or data transmission paths on a per call selection basis. Transmission on the B channel will be circuit switched at 64 Kbps within the switch and/or equipped facilities between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps. This option includes one directory number (DN) per user access. (M)
The ISDN Standard Features rate element is required for each B channel circuit switched user access. (M)
- C.** (DELETED) (M)
- D.** (DELETED) (M)
- E.** (DELETED) (M)
- F.** BellSouth Centrex ISDN Service will consist of the following components: (M)
- BellSouth Centrex Service Common Equipment (M)
 - Station Lines (M)
 - Network Access Registers (M)
 - Optional Features (M)
- G.** The BellSouth Centrex ISDN service station line will be comprised of the following components: (M)
- Basic Rate Digital Subscriber Line (DSL) Access (M)
 - At least one channel, either B or D, must be activated. A minimum of one and maximum of eight User Profiles per Basic Rate Digital Subscriber Line (DSL) Access Arrangement (M)
 - Standard Features (M)
- H.** The Basic Rate Digital Subscriber Line (DSL) Access will be counted as the station line in determining the application of the service Charges specified in Section A4 and the End User Charges as specified in the End User Common Access Service Section of BellSouth Telecommunications, Inc., FCC No.1, Section 4. (T)(M)

(M)

A12.26.2 *Terms and Conditions*

(T)(M)

- A. BellSouth Centrex ISDN Service is available only in connection with BellSouth Centrex Service. *Terms and Conditions* for BellSouth Centrex Service in A12.25 will apply to BellSouth Centrex ISDN service. (T)(M)
- B. Customer Premises Equipment (CPE) that is compatible with the ISDN Interface is the responsibility of the user for provisioning. (M)
- C. The Company will be responsible for publishing and maintaining ISDN Interface Specifications. (M)
- D. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Basic Rate Access render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance. (M)
- E. Suspension of service will be allowed under the *terms and conditions* in A12.25, except that suspension of service will not be applicable to the packet portion of the BellSouth Centrex ISDN line. The Basic Rate Digital Subscriber Line (DSL) Access and User Profile per circuit switched voice/data of the suspended line will be at the reduced rate as specified in A12.25. The features associated with the suspended line will be suspended at no rate. (T)(M)
- F. Calling Number Delivery Blocking - Per Call is an inherent capability on a BellSouth Centrex ISDN service Station Line. If the subscriber chooses to utilize the Calling Number Delivery Blocking - Permanent, Per Line feature, the subscriber may select that feature from the Standard Features List appropriate for the serving central office switch. If the subscriber wishes to switch from one version of the feature to the other, no Service Charges from Section A4 will be applicable. (M)

A12.26.3 Rates and Charges

(M)

- A. The BellSouth Centrex ISDN Service is associated with existing forms of exchange access which is BellSouth Centrex Service. These rates and charges are applicable in addition to the rates and charges for associated services and features. (M)
- B. BellSouth Centrex ISDN Service B and D channel access will be available in combinations restricted by the limits of the Company central office type. The subscriber will choose the most appropriate combination(s) and will be billed the required B and D channel access and the additional options as needed. (M)
- C. Rates and charges for BellSouth Centrex ISDN Service Common Equipment are in addition to the charges in this section of the guidebook. (M)
