## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(M)

### A112.10 Prestige Single Line Service (PSLS)

(Obsoleted July 25, 1990, Type 2)

#### A112.10.1 General

- A. PSLS provides central office calling features for Business Flat, Measured or Message Rate Services and is furnished only from central offices equipped to provide this service. It is offered only on a single exchange line basis as a customer option and is provided subject to the availability of facilities. PSLS is not available for lines equipped with Rotary (Grouping) arrangements, ESSX service, Coin Telephone Services, Custom Calling Service (CCS) options specified in Section A13 are not compatible with PSLS and may not be combined with PSLS features on the same line.
- B. The billing record of any local or toll calls on lines using PSLS will not be affected by the application of the features of this service.
- C. Four PSLS features: Call Hold, Call Forwarding, Convenience Dialing and Speed Dial-Thirty are not available to lines utilizing dial pulse signaling. All PSLS features are available to lines utilizing Touch-Tone signaling. The rates and charges for Touch-Tone service are in addition to PSLS rates and charges.
- D. The quality of transmission for calls utilizing PSLS's User Transfer, Call Forwarding or Conferencing features may vary depending on the distance and routing of the calls involved. The Company makes no representation as to the quality of the transmission of such calls.
- E. Suspension of PSLS service is not allowed.
- F. The initial service period for PSLS is one month commencing with the date of installation of the service.
- G. Feature availability and/or operation may vary depending upon the type of central office serving PSLS and/or the current generic program available in the serving Electronic Central Office.

(M)

---

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS****A112.10 Prestige Single Line Service (PSLS) (Cont'd)****A112.10.2 Service Description****A. Standard Features**

## 1. Call Hold

A user of PSLS can place any established call on hold by flashing the switchhook and dialing a code. This frees the line to originate another call.

## 2. User Transfer

A user of PSLS can transfer an incoming call to another exchange line.

## 3. Conferencing

The user of PSLS may hold an in-progress call and complete a second call while maintaining privacy from the first call, or may add on the previously held call for a three-way conference.

**B. Optional Features**

## 1. Call Waiting

This feature provides a tone burst alert to a PSLS line user who is on an existing call that another call is waiting.

## 2. Call Forwarding

This feature provides a PSLS user the ability to have all incoming calls forwarded to a different telephone number by dialing a code and the telephone number where calls are to be forwarded.

## 3. Convenience Dialing

This feature provides a PSLS user the ability to place a call by dialing a code plus one digit to any one of six telephone numbers preprogrammed by the customer.

## 4. Speed Dialing-Thirty

This feature is available in certain offices where PSLS is offered. When available, this feature provides a PSLS user the ability to place a call by dialing a code plus two digits to any one of thirty telephone numbers preprogrammed by the customer.

(M)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.11 ESSX Small, Medium and Large Service and ESSX-1 (M)

(Obsoleted 08-02-96, Type 4) Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations. (M)

#### Obsolescence Rules (M)

1. Inward activity will only be allowed under a Term Payment Plan. (M)
2. Subscribers who have their entire account under a month-to-month payment option will be allowed to maintain their service at month-to-month rates. (M)
3. Subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section. (T)(M)
4. Subscribers under a Term Payment Plan may remain under the rates and charges outlined in this. (T)(M)
5. Subscribers under a Term Payment Plan will have until 02-02-97 to exercise the recast option and subscribe to ESSX service - Vintage II, as described in A112.26, for a Term Payment Plan of not greater than 36 months in length. Subscribers under a month-to-month payment option will have until 02-02-97 to convert to an ESSX service - Vintage II Term Payment Plan of not greater than 36 months in length.
6. Conversions from ESSX-1 service to ESSX service - 85 will not be allowed under this *Guidebook*. (T)(M)
7. Existing subscribers who are under a Term Payment Plan may add a new secondary location (SLA) or move an existing SLA of their existing service. (M)

#### A112.11.1 Customer Management Features (M)

##### A. Customer Station Rearrangement (M)

Obsoleted 1-28-87, Type 4. Not offered for new installations on and after the specified obsolete date. Additions and/or changes of CSR changeable features are permitted for existing service. (M)

1. General (M)
  - a. The Customer Station Rearrangement (CSR) feature permits Centrex, ESSX-1 and ESSX customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated ESSX station lines. (M)
  - b. For CSR equipped station lines, CSR allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option. (M)
  - c. Certain ESSX station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible to CSR. (M)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.11 ESSX Small, Medium and Large Service and ESSX-1 (Cont'd)

#### A112.11.1 Customer Management Features (Cont'd)

##### A. Customer Station Rearrangement (Cont'd)

###### 1. General (Cont'd)

g. A CSR customer can schedule changes (individual or bulk) for completion by the next business day or for a future business day.

h. Definitions pertaining to CSR/ESSX features are specified in A112.26.3. (T)

i. The CSR feature allows the customer to perform the following transactions from the customer provided terminal:

(1) Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are:

Common Equipment Group Number (Common Block)

CAT Code

Ringing Cycles for CFDA

Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis. The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.

Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis.

Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per-station basis<sup>1</sup>

Station TN Rearrangement: Swap TNs from one location to another<sup>2</sup>

(2) Activate/deactivate the following features and service options on a single station line basis:

Automatic Callback Calling

Call Forwarding Busy Line

Call Forwarding Don't Answer

Call Forwarding Variable

Call Forwarding Unrestricted

Call Hold

Call Pickup

Call Waiting Originating

Call Waiting Terminating

Dial Call Waiting

Directed Call Pickup - Barge In

Directed Call Pickup - Non Barge In

Speed Calling - 6

Speed Calling - 30

Basic Station Line Hunting (Series Completion)

**Note 1:** All numbers in series completion hunt must be in the same common block.

**Note 2:** Rearranged station TNs carry all features and characteristics to their new location unless the Common Equipment Group (Common Block) is also changed.

#### A112.11.1 Customer Management Features (Cont'd)

##### A. Customer Station Rearrangement (Cont'd)

##### 1. General (Cont'd)

##### i. (Cont'd)

- (3) Display and/or print the status (active or inactive) of features and service options previously listed in a and b and other related information for either a single station line, range of station lines, or all station lines. The other related information provided includes:

Line Equipment Number (OE)  
 Common Equipment Group Number (Common Block)  
 Master Complex Number  
 CAT Code Assignment  
 Multiline Hunt Group (MLH) TN assigned to  
 Terminal assignment in MLH  
 Call Pickup Group - Station TN assigned to  
 Speed Call - 30 Group - Station TN assigned to  
 Forward to Station TN for CFBL and/or CFDA  
 "Hunt to" Station TN  
 Outward Trunk Queuing (OTQ) (active/inactive)  
 TouchTone (equipped for/not equipped for)  
 Group Start (equipped for/not equipped for)

- (4) A CSR customer may also display and/or print the following administrative reports:

##### Call Pickup Groups

- A list of all call pickup groups and the station TNs associated with each.
- A list of all station TNs associated with a particular multiline hunt group.

##### Multi-Line Hunt Groups

- A list of all multi-line hunt groups and the station TNs associated with each.
- A list of all station TNs associated with a particular multiline hunt group.

##### Speed Call Groups

- A list of all speed call groups and the station TNs associated with the control station identified for each group.
- A list of all station TNs with the control station identified for a particular speed call group.

##### Pending Changes

- A list of all CSR changes entered pending a future completion date.

##### Listing

- Listing of all CSR changeable station lines which includes the following information:

Station Telephone Number

Name<sup>1</sup>

Department<sup>1</sup>

Location<sup>1</sup>

- Note 1:** The CSR customer is responsible for entering and updating the information contained in this field.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.11 ESSX Small, Medium and Large Service and ESSX-1 (Cont'd)

#### A112.11.1 Customer Management Features (Cont'd)

##### B. Advanced Communications Package

##### 1. General

- a. Advanced Communications Package (ACP) features are provided only in association with ESSX Service furnished from No. 1/1A Electronic Switching System (ESS) central office equipment located on company premises and may be provided, subject to the availability of facilities, to ESSX systems which are served by the same such equipment.
- b. The ACP features are designed to meet the needs of those customers who have large numbers of WATS, FX and other services. The ACP features are designed to streamline communications and offer a customer increased control over those communications and offer a customer increased control over those communications. The ACP features will be used to monitor and control facilities in applications such as stand-alone ESSX configurations, Electronic Tandem Network Configurations with ESSX tandems etc.

##### 2. Explanation of Terms

- a. ACP features are optional ESSX features which are specified following:

Advanced Station Message Detail Recording (ASMDR)  
Customer Station Rearrangement (CSR)  
Facilities Management System (FMS)

- b. ASMDR data include records for Electronic Tandem Switched (ETS) calls originating over FX, WATS, CCSA and the toll network. This feature also adds the capability of recording non-ETS call types (such as dial '9' or "IXX" calls) originated by stations, attendants and ESSX Tie Trunks.
- c. The CSR feature allows the ESSX customer to change and verify their own station assignments for specified stations without requiring a service order.
- d. The Facilities Management feature provides real time access to facilities data and allows customer control of ARS pattern groups, FRL's, Queues, and authorization codes.

##### 3. *Terms and Conditions*

- a. ASMDR will require that the central office be capable of providing SMDR via the 1AE6/1E6 generic or higher. ASMDR is not represented to be a provision of billing detail.

ASMDR records will be provided on customer provided compatible terminal equipment located at the customers' premises.

The customer must designate all station lines and/or selected facility groups on which ASMDR originating and terminating records are to be provided.

ASMDR will include the recording of Authorization codes where these optional features are provided at the rates and charges specified in A112.27.

- b. CSR will be provided at the Rates and Charges as specified in A112.11.
- c. FMS requires the use of ARS-Deluxe at the rates and charges as specified in A112.27.3. FMS provides the individual features of Facility Administration and Control, Traffic Data to Customer (Pollable). (T)
- d. All ACP features require the use of customer provided compatible terminal equipment. (M)
- e. Rates and charges for ACP will be developed on an individual case basis and will be based on the estimated costs to provide this service. (M)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(M1)

### A112.12 ESSX Small, Medium and Large Service - 85

(Obsoleted 08-02-96, Type 4) Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations.

#### Obsolescence Rules

1. Inward activity for ESSX<sup>®</sup> service - 85 will only be allowed under a Term Payment Plan.
2. ESSX<sup>®</sup> service - 85 subscribers who have their entire account under a month-to-month payment option will be allowed to maintain their ESSX<sup>®</sup> service - 85 at month to month rates.
3. ESSX<sup>®</sup> service - 85 subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section. (T)
4. ESSX<sup>®</sup> service - 85 subscribers under a Term Payment Plan will be allowed to maintain their ESSX<sup>®</sup> service - 85 under the rates and charges outlined in this Section. (T)
5. Subscribers under a Term Payment Plan will have until 02-02-97 to exercise the recast option and subscribe to ESSX<sup>®</sup> service - Vintage II, as described in A112.26, for a Term Payment Plan of not greater than 36 months in length. Subscribers under a month-to-month payment option will have until 02-02-97 to convert to an ESSX<sup>®</sup> service - Vintage II Term Payment Plan of not greater than 36 months in length.
6. Conversions from ESSX-1 service to ESSX<sup>®</sup> service - 85 will not be allowed. (T)
7. Existing ESSX<sup>®</sup> service - 85 subscribers who are under a Term Payment Plan may add a new secondary location (SLA) or move an existing SLA of their existing service. (T)

Vintaged 12-30-88, Type 4. This service is not offered for new installations after 12-30-88, except where a letter of intent was signed prior to 12-30-88 and the service is to be installed on or before 06-30-89. Subsequent additions to an existing system, under contract, are permitted. Additionally, a system under contract may be moved to another Southern Bell location within the State of North Carolina. Customers paying vintaged rates and charges will continue to pay vintaged rates and charges until their payment period expires.

#### A112.12.1 General

(M2)

- A. ESSX<sup>®</sup> service Small (S), Medium (M) and Large (L) is furnished from No. 1 and 1A Electronic Switching System (ESS) Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features: (M2)
  1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of an ESSX<sup>®</sup> service system. (M2)
  2. Intercommunication calls between stations of the same ESSX<sup>®</sup> service system. (M2)
  3. Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by the Company will be provided this identification. (M2)
  4. Common recorded announcement interception of calls to unassigned station numbers. (M2)
  5. Trunk answer any station of incoming primary directory listing calls. (M2)
  6. Basic Station Line Hunting (M2)
  7. Touch-Tone Service (M2)
- B. ESSX<sup>®</sup> service will be furnished in three categories based on the size of the subscriber's system. (M2)
  1. ESSX<sup>®</sup> service-S will serve systems with 1-200 main station lines. (M2)
  2. ESSX<sup>®</sup> service-M will serve systems with 201-600 main station lines. (M2)
  3. ESSX<sup>®</sup> service-L will serve systems with more than 600 main station lines. (M2)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.1 General (Cont'd)

- C. An ESSX service System may be comprised of the following components: (T)
- Common Equipment<sup>1</sup> (M)
  - Network Access<sup>1</sup> (M)
  - Main Station Lines<sup>1</sup> (M)
  - Terminating Arrangements (M)
  - Features (M)
1. The Common Equipment and Terminating Arrangements will be at the rates and charges as specified in A112.12.7. The Network Access Limiter and Network Access Registers will be at the rates and charges as specified in A112.26.7. (T)(M)
  2. Main Station Line rates will consist of the intercom charge and the appropriate wire center line charge. These charges will be located in A112.12.8, A112.12.9, and A112.12.10 for ESSX-S, ESSX-M, and ESSX-L respectively.
  3. ESSX Line and System Features will be grouped as follows:
    - Group A Line Features
    - Group B Line Features
    - Group B System Features
    - Optional System Features
    - Customer Management Features
    - Customer Management Features<sup>2</sup> (T)
    - a. Group A Line Features will be offered on a grouped basis to ESSX subscribers who have selected an ESSX Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the month-to-month payment option will be offered the Group A Line Features on an individual basis only.
    - b. Group B Line Features, Group B System Features, Optional Service Features and the Customer Management Features will be offered to ESSX subscribers under all payment plan options subject to the specific requirements within each arrangement.
    - c. An ESSX-S subscriber will select Group A and B features in A112.12.8.<sup>2</sup> (T)
    - d. An ESSX-M subscriber will select Group A and B features in A112.12.9.<sup>2</sup> (T)
    - e. An ESSX-L subscriber will select Group A and B features in A112.12.10.<sup>2</sup> (T)
    - f. Optional Service Features will be offered to all ESSX subscribers in A112.12.12. (T)
    - g. Customer Management Features will be offered to all ESSX subscribers in A112.12.13.<sup>2</sup> (T)

#### A112.12.2 Terms and Conditions (T)

- A. ESSX Small, Medium and Large service is furnished subject to the availability of facilities and features from a No. 1 or 1A Electronic Switching System located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and/or major relocations of ESSX systems are subject to the same *terms and conditions* as initial installations. (T)
- B. Certain Auxiliary Services are available on a individual main station line basis and are subject to the capabilities of the serving ESS central office.
- C. Optional Service Features as listed in A112.12.12 include Attendant Service Features and Auxiliary Attendant Features. These Features may require customer provided compatible terminal equipment.
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
  - Note 1:** Every system will include these components. (M)
  - Note 2:** ESSX systems subscribing to the CSR feature in A112.12.13 must select CSR Changeable Features subject to the rates, *terms, and conditions* in A112.12.13. (T)

---

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.2 Terms and Conditions (Cont'd)

- E. All ESSX main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with ESSX service. (T)
- F. Tie lines for direct connections between a basic ESSX system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in Section A13 and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the ESSX system to or from other systems (ESSX or non ESSX) provided such connections to the exchange or long distance network are only made one system at a time. (T)
- G. Where completion of incoming and outgoing local and long distance calls through an ESSX system is furnished to or from main station lines of a separate ESSX system in another exchange or a non ESSX system in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *terms and conditions* specified in A112.12.12. (T)
  - 1. Rates and charges as specified in Section B3 of the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.12.12. (T)
  - 2. ESSX optional features charges as outlined in Section A112.12.12 apply for each trunk terminated main station line as offered in Section A112.12.12, as appropriate. (T)
- H. Where the lines are arranged to switch calls through the System to or from one or more tie lines or private lines, charges for Dial Cut-Through Arrangement as specified in A112.12.7 shall apply per tie line so equipped. The charge is in addition to the regular charges for the facilities connecting the systems. (T)
- I. Dormitory service is furnished in accordance with the *terms and conditions* for Dormitory Communications Service specified in Section A13. (T)
- J. A system may not be provided for Intercommunication (stand alone) service only. Access to the exchange network must be provided.
- K. A mixture of Flat Rate and Message/Measured Rate Service will not be allowed within a single customer system.
- L. Suspension of Service - With the exception of Network Access Registers, suspension of ESSX Service is not permitted.
- M. A twelve month minimum service period shall be required for subscription to ESSX-M or ESSX-L Service. The minimum service period as specified in Section A2 applies for ESSX-S Service. (T)
- N. Touch-Tone service will be furnished subject to the *terms and conditions*, specified in Section A13. The rates and charges for ESSX-S, ESSX-M and ESSX-L Service include the provision of Touch-Tone Service. Rates and charges as specified in Section A13 of this *Guidebook* do not apply for the provision of Touch-Tone Service to ESSX-S, ESSX-M and ESSX-L Service. (T)
- O. Directory Listings will be furnished subject to the rates, *terms, and conditions* specified in Section A6. (T)
- P. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an ESSX system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one way incoming or one-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charge as specified in Section A4 will apply per Network Access Register affected. (T)
- Q. Service charges, as specified in Section A4 of this *Guidebook*, apply to all ESSX systems except as provided in A112.12.5. (T)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.2 Terms and Conditions (Cont'd)

- R. ESSX installation charges due on an initial installation or subsequent addition may be paid in full at the time of installation or deferred over a predetermined period of time as specified in Section A122.. (T)
- S. If the ESSX subscriber elects a Message Rate Service option, Message Rate Service usage charges specified in Section A3 of this *Guidebook* are applicable on calls to locations outside the subscriber's ESSX system in addition to rates and charges in this and other *Guidebook* sections for ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same ESSX system. (T)
- T. If the ESSX service subscriber is a Sharing and Resale of Telephone Services provider, Sharing/Resale Measured Service usage charges as specified in Section A23 are applicable on calls to locations outside the subscriber's ESSX system. Usage charges are not applicable on calls originated and terminated within the same ESSX system. All other rates and charges in this and other sections for ESSX service and other associated services are applicable to an ESSX service subscriber who is a Sharing and Resale of Telephone Services provider. Features and services available to an ESSX service subscriber may be shared or resold in accordance with Section A23. (T)
- U. ESSX main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It<sup>1</sup> Services (e.g. 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX and 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted. The term "Public Announcement Services" as used herein are those services which, in the judgement of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the office serving the ESSX systems subscribing to this service arrangement.
  - 1. At the time a Code Restriction Arrangement is installed, the ESSX system will be arranged for the code restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the Line Change Charge in Section A4. applies per main station line affected except that no such charge applies when the Code Restriction Arrangement is disconnected in its entirety. (T)
  - 2. Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
  - 3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls but such calls may, in certain circumstances, be completed and charges will apply as specified elsewhere in this *Guidebook*. (T)
- V. The list of Wire Center Density Classifications by Exchange as specified in A112.12.14 shall be used in determining the density of a particular serving wire center. Whenever the density group designation of a serving wire center is reclassified, ESSX customers are subject to the following:
  - 1. Charges for main station lines under contract via the ESSX Term Payment Plan shall not change for the remainder of the payment period.
  - 2. Upon expiration of the existing contract, the new rate will be based on the wire center density group as reclassified.
  - 3. Charges for main station lines not under contract (Month-to-Month), including minimum service period shall be adjusted as appropriate in those situations where the reclassification will result in a lower rate. (M)

**Note 1:** Dial-It is a service of AT&T.

---

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS****A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**

(M1)

**A112.12.3 Definitions****WIRE CENTER DENSITY**

Refers to the average number of main stations (MS) and equivalent main stations (EQ, M.S.) per square mile in the serving wire center area. Wire Center Density Groups are designated "A" and "B" with group "A" having the least density and group "B" having the highest.

OTHER DEFINITIONS - SEE A112.26.

**A112.12.4 Intercept Of Calls To Unassigned Station Lines**

- A. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- B. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all ESSX systems served out of the same office. The announcement states that the number is not in service.

(M2)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.5 Conversion

**A.** (DELETED)

(T)

**B.** Conversion of ESSX-1 Service to ESSX-S, M and L Service

(M1)

1. When a customer whose present ESSX-1 Service elects to convert to ESSX-S, M or L Service, installation and service charges do not apply to Common Equipment, in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided that all of the following conditions are met:
  - a. The customer's system must continue to be served by the same central office equipment,
  - b. There must be no interruption of service, and
  - c. There are no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
2. Customers with ESSX-1 Service converting to ESSX-S, M or L Service must elect a payment period equal to or greater than the unexpired portion of their current payment plan. The following options are available.
  - a. Month-to-Month Payment Plan
  - b. ESSX Term Payment Plan of 36, 60 or 84 months  
*Terms and conditions* concerning the ESSX Term Payment Plan are specified in Section A122.

(T)

**C.** Replacement of Number 1/1A ESS Central Office Equipment

1. The rates and charges in this and other sections for ESSX Service and the associated features and services will continue to apply to existing ESSX subscribers served at a location that is converted through no desire or fault of the subscriber to other than Number 1/1A ESS central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the non-Number 1/1A ESS equipment, the billing for the customer's system will be converted to rates and charges appropriate for the central office equipment providing his service.

**A. General**

- 1. ESSX service is offered as follows (T)
  - a. The Payment periods are: (T)
    - Month to Month Payment Plan (M1)
    - 36 Month ESSX Term Payment Plan (M1)
    - 60 Month ESSX Term Payment Plan (M1)
    - 84 Month ESSX Term Payment Plan (M1)
  - b. Items that may be placed under the ESSX Term Payment Plan (T)
    - Main Station Lines (M1)
    - Extension Station Lines (M1)
    - Group A Features (M1)
    - Group B Features (M1)
    - Optional Service Features (M1)
    - System Common Equipment
    - Line Terminating Arrangements
- Terms and conditions* concerning the ESSX Term Payment Plan are specified in Section A122.. (T)
- 2. The monthly rate for ESSX service is dependent upon the payment period selected by the customer.
- 3. The monthly rate for ESSX service under the ESSX Term Payment Plan for the periods of 36, 60, or 84 months is not subject to Company initiated rate increases.
- 4. ESSX-S service will be offered to subscribers having 20 -200 main station lines under any of the payment options offered.
  - a. An ESSX-S subscriber may elect a 36, 60 or 84 month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
    - (1) Group A and B line features may be added under any of the payment plan options.
    - (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plans provided that they are not added for a payment period of shorter duration than the contract period associated with the ESSX common equipment.
  - b. An ESSX-S subscriber may add station lines up to 220 Lines, and:
    - (1) Add those lines and associated Group A & B Line features at the month to month rate specified for ESSX-S or,
    - (2) Resubscribe the entire system under the payment periods as offered for ESSX-M.<sup>1</sup>

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.6 Payment Schedules (Cont'd)

##### A. General (Cont'd)

5. ESSX-M service will be offered to subscribers with 201-600 main station lines under month to month, 36 months, 60 months or 84 month payment options. (M1)
  - a. An ESSX-M subscriber may elect a 36, 60 or 84 month payment period for any portion or all the total system size with the remainder to be under the month to month payment option. (M1)
    - (1) Group A and B line features may be added under any of the payment plan options. (M1)
    - (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plan options provided that they are not added for a payment period of shorter duration than the contract period associated with the ESSX common equipment. (M1)
  - b. An ESSX-M subscriber may add station lines up to the 660 Lines and:
    - (1) Add those lines and associated Group A & B features at the month to month rate specified for ESSX-M or,
    - (2) Resubscribe the entire system under the payment periods as offered for ESSX-L.<sup>1</sup>  
There will be no termination liability.  
ESSX-M Subscribers will be liable for the difference in Service Establishment charges between ESSX-M and ESSX-L.
6. ESSX-L service will be offered to subscribers with more than 600 main station lines under month to month, 36 month, 60 month and 84 month payment options.
  - a. An ESSX-L subscriber may elect a 36, 60 or 84 month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
    - (1) Group A and B line features may be added under any of the payment plan options.
    - (2) Group B System Features, Auxiliary Attendant Features, or Optional service features may be added under any of the payment plan options provided that they are not added for a contract period of shorter duration than the contract period associated with the ESSX common equipment.

##### B. Expiration of Contract Period

1. ESSX-S, ESSX-M and ESSX-L customers must upon the expiration of their contract:
  - a. Select a new payment period as provided in A112.26.5.D. or, (T)
  - b. Revert to the rates in Section A112. for the month to month payment option. (T)
2. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms, and conditions* found in Section A112. may at any time during his selected contract period re-subscribe for an equal or longer contract period as provided in A112.26.5.D. subject to the following conditions. (T)
  - a. No credit will be given for payments made during the formerly selected period. Non-recurring charges will not be reapplied.
  - b. The new payment period begins with the billing date following the date the new payment period is requested.
  - c. No termination charge applies for the former payment period.
  - d. A Secondary Service Charge as specified in Section A4. will apply. (T)
3. An ESSX-S, ESSX-M or ESSX-L customer whose service is provided under rates, *terms, and conditions* found in Section A112. may at any time during his selected contract period re-subscribe for a contract period shorter in length than the time remaining in the existing service agreement, subject to the following conditions: (T)
  - a. No credit will be given for payments made during the formerly selected period. However, nonrecurring charges will not be reapplied.
  - b. The new payment period begins with the date requested. (M2)
  - c. A termination charge applied to the former payment period. (M2)
  - d. A Secondary Service Charge as specified in Section A4. will apply. (T)(M2)

**Note 1:** *Terms and conditions* concerning the ESSX Term Payment Plan are specified in Section A122.. (T)

M1 - Material appearing on this page previously appeared on page(s) 124 of this section.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.6 Payment Schedules (Cont'd)

(M)

#### C. Termination Liability

The Termination Liability applicable to ESSX<sup>®</sup> service is dependent upon the payment period selected by the customer. Termination charges for the optional payment periods are as follows:

1. Month-to-Month Payment Plan
  - a. ESSX<sup>®</sup> service-S Customers - No Termination Liability will be applicable.
  - b. ESSX<sup>®</sup> service-M Customers
    - (1) Within 12 months of date of installation - If a customer's Main Station Line count falls below 75% of the total main station lines initially installed, there will be charges 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
    - (2) Beyond 12 months of date of installation No Termination Liability will be applicable.
  - c. ESSX<sup>®</sup> service-L Customers
    - (1) Within 12 months of date of installation - If a customer's main station line count falls below 90% of the total main station lines initially installed, they will be charged 90% of the amount due for the period remaining up to 12 months from the date of installation for each line disconnected thereafter.
    - (2) Beyond 12 months of date of installation - No Termination Liability will be applicable.
2. ESSX<sup>®</sup> service Term Payment Plan Option
  - a. ESSX<sup>®</sup> service-S, ESSX<sup>®</sup> service-M and ESSX<sup>®</sup> service-L customers that contract a portion of their system under the ESSX<sup>®</sup> service Term Payment Plan Option are subject to the following liability charges.
    - (1) Main Station Lines, Group A Features, Group B Features, System Features under contract - 90% of remaining amount due for each main station line disconnected after the customer's total main station line count falls below 90% of the total main station lines initially installed or of the annually adjusted total.
    - (2) All non-contracted items - No Termination Liability will be applicable.
3. When a subscriber's ESSX<sup>®</sup> service under a Rate Stability Plan is disconnected prior to the expiration of the selected service period as a result of a subscriber requested change to one of the separate services listed following, termination charges will not apply when:
  - a. the completed service period is 12 months, and
  - b. the service period of the new arrangement for the separate service equals or exceeds the remaining service period of the disconnected service, and
  - c. the service orders to install the separate service and disconnect the existing service are related together and there is no lapse in service between installation of the separate service and disconnection of the existing service, and
  - d. the service orders are for the same subscriber at the same location.

For the purposes of determining the separate services to which the preceding conditions apply, the following list will be used: (T)

- MegaLink<sup>®</sup> Service
- MegaLink<sup>®</sup> Channel Service
- PATHLINK<sup>®</sup> Service

#### D. Minimum Monthly Charge

A minimum charge for ESSX<sup>®</sup> service-S Systems of one (1) main station line, equivalent main station line or Telephone Numbers Reserved for Future Use is applicable. This charge would consist of the rates for ESSX<sup>®</sup> service intercom and station line.

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS**

**A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**

**A112.12.7 Common Rates and Charges**

**A. General**

**1. Station Lines**

- a. The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
- b. The rates and charges specified herein for extension stations provide for an extension station line component. The extension station line consists of usage of traffic sensitive Central Office equipment.
- c. The rates and charges specified herein for main and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.
- d. (DELETED)
- e. End User charges as specified in the End User Access Service Section of FCC Tariff Number 61 apply as appropriate.

- f. Rates for the main station lines of ESSX-S, M and L customers will be based on the following criteria:

Main Station Group Size

Wire Center Density Group

Distance from the Serving Central Office

The type of payment plan selected by the customer

- g. The total main group size will consist of main station lines and attendant access lines for all locations served by the same ESSX system.
- h. Wire center density is based on the number of main stations and equivalent main stations per square mile served by that wire center.
- i. Wire center density groups are designated "A" and "B" with group "A" having the least density and "B" having the most density.

"A"

0 - 1200 Mains and equivalents/square mile

"B"

Over - 1201 Mains and equivalents/square mile

- j. The distance band will be based on airline mileage from the serving central office to the Network Interface Location at the customer's premises.

Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.

Systems with more than one location served by the same ESSX control group will calculate the distance band per location.

- k. In a different central office serving area of a multi-office exchange: (M)

The rate of ESSX Service in a FX or FCO area is the monthly rate for the ESSX service desired, plus an FX or FCO mileage charge as specified in Section A9. (T)(M)

When ESSX main station lines are connected by facilities which are routed between two or more central offices in the same exchange, the foreign central office mileage charge is calculated separately on an airline basis between the ESS central office from which the ESSX system is served and the central office from which exchange service normally would be rendered. (M)

- l. Rates, charges, liabilities and additional *terms and conditions* if applicable may be developed on an individual case basis for main station lines exceeding four (4) airline miles from the serving central office. (T)(M)

---

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS****A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)****A112.12.7 Common Rates and Charges (Cont'd)****A. General (Cont'd)**

## 2. Exchange Access

- a. Exchange Access is provided by means of Network Access Registers.
- b. Presubscription of a Carrier of Preference is specified in Section 13 of the Interstate Access Service Tariff.

(M1)

## 3. Main Station Line Terminated as a PBX Trunk

- a. Where an ESSX<sup>®</sup> service Main Station Line is terminated as a PBX Trunk in customer provided equipment, the appropriate recurring charge (surcharge) specified in A112.1.7.C.6 will apply in addition to the appropriate intercom rate. Wire Center line charges do not apply to ESSX<sup>®</sup> service Main Station Lines terminated as PBX trunks.
- b. This surcharge does not apply to customers with existing ESSX<sup>®</sup> service Main Station Lines terminated as PBX trunks on or before January 28, 1988. Those customers with existing ESSX<sup>®</sup> service Main Station Lines terminated as PBX trunks who order additional lines prior to March 15, 1988, will not be subject to the surcharge on those lines.
- c. This surcharge does not apply to new customers who establish initial service of ESSX<sup>®</sup> service Main Station Lines terminated as PBX trunks after January 28, 1988, but prior to February 11, 1988. Additional lines ordered by such customers on or after February 11, 1988, will be subject to this surcharge.
- d. Customers who establish initial service of ESSX<sup>®</sup> service Main Station Lines terminated as PBX trunks after February 11, 1988, are subject to the surcharge in A112.12.7.C.6(a).

**A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**

**A112.12.8 ESSX-S Service (Cont'd)**

**B. Group A Line Features**

1. General

ESSX-S Service customers may add features from Group A at the rates shown in a. or b. following if a payment period of three, five or seven years is selected. ESSX-S customers choosing the month to month payment option must add Group A features at the rates specified in C. following. An additional common block may be required if certain feature parameters are exceeded.

a. Group A Line Features

The following ESSX-S Group A features are available.

There is no minimum number of features or groupings of features that must be obtained unless specified by the features.

- (1) Three-Way Calling, Consultation Hold, Call Transfer-Individual<sup>1,2</sup>
- (2) Three-Way Calling, Consultation Hold, Call Transfer-All Calls<sup>2</sup>
- (3) Call Forwarding - Busy Line
- (4) Call Forwarding - Don't Answer
- (5) Call Forwarding - Variable
- (6) Call Forwarding - Variable (Outside)
- (7) Call Hold
- (8) Call Pickup
- (9) Call Waiting Terminating
- (10) Call Waiting Originating
- (11) Speed Call (6) Customer Changeable

2. Rates and Charges (M)

a. Contractual rates for the Group A Line features (M)

- (1) Per ESSX-S line so programmed (M)

		36 Months	60 Months	84 Months		
(3) Added Call Transfer <sup>1</sup>						
(a) Per Rearrangement per System	-	-	-	-		CTP
(4) Split Service						
(a) Each additional Common Block	\$ 4.75	\$ 4.50	\$ 4.25	\$ 4.00		EBS
(5) Station Dial Code Screening <sup>2</sup> - Arrangement I						
(a) Per Main Station Line Equipped	.35	.30	.30	.30		SCR
(b) Per group with same Screening arrangements	47.15	46.95	46.75	46.55		SCW
(c) Per NPA (exclude HNPA) with C.O. code screening Initial Service	1.40	1.35	1.35	1.35		SCY
(d) Additions to NPA or C.O. Code Group	-	-	-	-		NA
(e) Deletions from NPA or C.O. Code Group	-	-	-	-		NA
(f) Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change. <sup>3</sup>	-	-	-	-		NA (T)(M)

**Note 1:** This feature is optionally available to Call Transfer - All Calls and permits calls to be transferred outside the ESSX system.

**Note 2:** Except where all ESSX main station lines have the same Arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8.D. This feature is not available on International Direct Distance (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call. (T)

**Note 3:** Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged as specified in other sections. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)(M)

**B. Group A Line Features** (T)

1. General (T)

ESSX-M Service customers may add features from Group A or B following at the rates shown in a. following if a contract period of three, five or seven years is selected. ESSX-M Customers choosing month-to-month payment may add features from c. following for Group A features. An additional common block may be required if certain feature parameters are exceeded. (M1)

All features in Group B apply to ESSX-M customers selecting 3, 5 or 7 years or month-to-month payment plans. (M1)

a. Group A Line Features (T)

The following ESSX-M Group A features are available. (M1)

There is no minimum number of features or groupings of features that must be obtained unless specified by the feature. (M1)

(1) Three-Way Calling, Consultation Hold, Call Transfer-Individual<sup>1, 2</sup> (M1)

(2) Three-Way Calling, Consultation Hold, Call Transfer-All Calls<sup>2</sup> (M1)

(3) Call Forwarding - Busy Line

(4) Call Forwarding - Don't Answer

(5) Call Forwarding - Variable

(6) Call Forwarding - Variable (Outside)

(7) Call Hold

(8) Call Pickup

(9) Call Waiting Terminating

(10) Call Waiting Originating

(11) Speed Call (6) Customer Changeable

2. Rates and Charges

Month To Month	ESSX Term Option			USOC
	36 Months	60 Months	84 Months	

a. Contractual rates for the Group A Line features.

(1) Per ESSX-M line so programmed:

(a) Any Three (3) features shown in Group A	-	\$ 1.45	\$ 1.45	\$ 1.45	ELXO1
(b) Any Four (4) features shown in Group A	-	2.10	2.10	2.10	ELXO2
(c) Any Five (5) features shown in Group A	-	2.80	2.80	2.80	ELXO3

(d)	Additions to NPA or C.O. Code Group	-	-	-	-	NA	(M1)
(e)	Deletions from NPA or C.O. Code Group	-	-	-	-	NA	(M1)
(f)	Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change. <sup>2</sup>	-	-	-	-	NA	(M1)
(6)	Station Dial Code Screening, Arrangement II <sup>3</sup>						
(a)	Per Main Station Line Equipped	.30	.25	.25	.25	SCG	
(b)	Per group with same screening arrangement and same access code	45.35	45.20	45.00	44.80	SCZ	
(c)	Per NPA with C.O. code Screening Additions/Deletions to NPA Central Office Code, each (See A112.26.9)	1.35	1.30	1.30	1.30	SC1	(M2)
	Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change. <sup>2</sup> (See A112.26.9)						(M2)
	<b>Note 1:</b> Except where all ESSX main station lines have the same Arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8. This feature is not available on International Direct Distance Dialed (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call.						(T)
	<b>Note 2:</b> Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may in certain circumstances, be completed and will be charged for as specified in other sections. Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number. Removal of the code screening arrangement from a main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement.						(T)
	<b>Note 3:</b> Arrangement II is available only with access to channels associated with private line networks and requires the associated facilities to be senderized and equipped with uniform numbering.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.10 ESSX-L Service (Cont'd)

(M)

#### B. Group A Line Features

##### 1. General

ESSX-L Service customers may add features from Group A at the rates shown in a. following if a payment period of three, five or seven years is selected. ESSX-L Customers choosing month-to-month payment may add features from b. following for Group A features.

All features in Group B apply to ESSX-L customers selecting 3, 5 or 7 years or month-to-month payment plans.

##### a. Group A Line Features

The following ESSX-L Group A features are available.

There is no minimum number of features or grouping of features that must be obtained unless specified by the feature.

- (1) Three-Way Calling, Consultation Hold, Call Transfer - Individual<sup>1,2</sup>
- (2) Three-way Calling, Consultation Hold, Call Transfer - All Calls<sup>2</sup>
- (3) Call Forwarding - Busy Line
- (4) Call Forwarding - Don't Answer
- (5) Call Forwarding - Variable
- (6) Call Forwarding - Variable (Outside)
- (7) Call Hold
- (8) Call Pickup
- (9) Call Waiting Terminating
- (10) Call Waiting Originating
- (11) Speed Call (6) Customer Changeable

**Note 1:** An ESSX-L System may be provided with only one type of call transfer capability without using the Split Service feature. The Split Service feature in D. following is required to provide more than one type call transfer within the same ESSX-L system.

**Note 2:** Either 1. or 2. is required with each Listed Directory Number (LDN), numbers arranged for hunt with Listed Directory Numbers, and/or each ESSX-L main station line or line equipment number designated as a Console Access Loop or terminated in telephone sets used as Attendant Consoles.

		<b>Month</b>	<b>Months</b>	<b>Months</b>	<b>Months</b>	<b>USOC</b>
(5)	Station Dial Code Screening, <sup>1</sup> Arrangement I					(M1)
(a)	Per Main Station Line Equipped	\$ .25	\$ .20	\$ .20	\$ .20	SCR (M1)
(b)	Per group with same screening arrangements	44.95	44.70	44.60	44.40	SCW (M1)
(c)	Per NPA (exclude HNPA) with C.O. code screening Initial Service	1.30	1.25	1.25	1.25	SCY (M1)
Deletions from NPA or C.O. Code Group (See A112.26.10)						
Rearrangement from one Screening arrangement to a different Screening arrangement per main station line or group of lines changed at the same time without main station line number change <sup>2</sup> (See A112.26.10)						
(6)	Station Dial Code Screening, Arrangement II <sup>3</sup>					
(a)	Per Main Station Line Equipped	.25	.20	.20	.20	SCG
(b)	Per group with same screening arrangement and same access code	44.95	44.70	44.60	44.40	SCZ
(c)	Per NPA with C.O. code screening	1.30	1.25	1.25	1.25	SC1
Additions/Deletions to NPA Central Office Code, each (See A112.26.10) (M2)						
Rearrangement from one screening arrangement to a different screening arrangement per main station line or group of lines changed at the same time without main station line number change <sup>4</sup> (See A112.26.10) (T)(M2)						
<b>Note 1:</b>	Except where all ESSX main station lines have the same arrangement, each main station line or group of main station lines requires a Split Service Offering Feature at the rate and charge as specified in A112.12.8.D of this <i>guidebook</i> . This feature is not available on International Direct Distance Dialed (IDDD) calls. The provision of this feature will not affect the local or toll billing for any completed call.					
<b>Note 2:</b>	Main station line calling arrangement restrictions are not assured. This feature is intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged as specified in other sections of this <i>guidebook</i> . Main station lines with Station Dial Code Screening are assigned to a specific code screening arrangement by main station line number. Removal of the code screening arrangement from a main station line number(s) or changing the main station line number(s) from one code screening arrangement to a different code screening, requires a main station line number rearrangement. (T)					
<b>Note 3:</b>	Arrangement II available only with access to channels associated with private line networks and requires the associated facilities to be senderized and equipped with uniform numbering.					
<b>Note 4:</b>	On subsequent additions to the same system, no additional recurring rates apply. (T)(M2)

**C. Centralized Attendant Service**

Centralized Attendant Service (CAS) allows a customer with a number of locations that are served by either a PBX Centrex Type Services system to concentrate all attendants at a single centralized location (main). Incoming calls over a local exchange trunk to an unattended location (branch) are routed to the main location via a Release Link Trunk (RLT), where a CAS attendant completes the call by dialing the called party's extension number over the same Release Link Trunk facilities.

**1. Types of Equipment With Which CAS is Associated**

The main location must be an ESSX system that is equipped for this service, and utilizes customer provided compatible terminal equipment.

The branch locations must be one of the following:

- a. An ESSX system
- b. (DELETED)
- c. A location that has switching equipment that is customer-provided or is in an area that is served by another company can be interconnected as a branch location only if the switching equipment is compatible with the Company's. (T)

**Note 1:** In addition apply rates and charges as specified in Section B3 of the Private Line *Guidebook* for a private line channel between the serving central office and the customer premises and for customer provided equipment associated with that charge. (T)

**Note 2:** Apply recurring charges for initial installation.

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS**

**A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**

**A112.12.12 Optional Service Features (Cont'd)**

C. Centralized Attendant Service (Cont'd)

2. Basic Service Features

- a. Remote Hold - enables the attendant to hold a call without holding an RLT. The call is temporarily placed on hold at the originating system and automatically routed to an attendant after approximately 30 seconds.
- b. Customer Testing of Release Link Trunks - permits each RLT to a PBX branch to be dial accessed by the centralized attendant to insure it is in service and the transmission performance is adequate.
- c. Attendant Call Distribution - queues and distributes calls to the CAS attendants. This provides administrative control over the team of attendants and enables the calls from the branch locations to be handled in their approximate order of arrival, as attendant positions become available.
- d. Attendant Recall on "Station Don't Answer" - all PBX type branch locations provide a timed reminder generally after 30 seconds, to automatically recall the attendant if a called station does not answer.

3. Rates and Charges

(a) Each	-	-	-	-	UNZ

**D. Automatic Route Selection - Basic (ARS-B)**

**1. General**

- a. Automatic Route Selection - Basic (ARS-B) is an optional feature, available where facilities permit that allows station users, by dialing a preselected code to automatically select the preferred route subscribed to by a customer for network calls. Alternate routing to other facilities subscribed to by the customer is also provided. This agreement is available for use with Foreign Exchange, WATS, CCSA off-net tie lines and Interexchange Carrier (IC) access lines which are compatible with ARS and the MTS network facilities.
- b. Automatic Route Selection - Basic is accessed by dialing a single code (1, 2 or 3 digits) which automatically selects the appropriate route (FX, WATS, CCSA off-net, tie line, IC access line or the MTS Network) to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four (4) private routes. If no route is available, the call will route to the MTS network or overflow tone (customer option). All patterns accessed by a single access code will have the same final route, either the MTS network or overflow tone.
- c. For calls using FX, WATS, CCSA off-net or IC access line facilities, the routing may be based on a Number Plan Area (NPA) and limited to specified central office codes within the NPA as designated by the customer. This is referred to as Foreign Area Discrete Translation.
- d. Automatic Route Selection - Basic is a call routing capability and, therefore, all codes must be in a route for selection. Code blocking is not provided by this feature.

**Note 1:** Rates and charges as specified in Section A112.12.12.A.1 of this *guidebook* for equipment is required. (T)

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS**

**A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)**

**A112.12.12 Optional Service Features (Cont'd)**

**D. Automatic Route Selection - Basic (ARS-B) (Cont'd)**

**2. Terms and Conditions**

- a. Automatic Route Selection - Basic is provided only in association with ESSX Service furnished from No. 1 Electronic Switching System (ESS) central office equipment located on Company premises and may be provided, subject to the availability of facilities to ESSX systems which are served by the same such equipment.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection - Basic are in addition to the rates and charges for associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to the facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to the DDD Network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgement of the Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls over their telephone service.
- g. Where a route is used in one pattern (pattern reached by one access code) only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes). One translation per pattern may be provided subject to the appropriate charges as specified in paragraph E.1.d. Where central office code translation is required for more than one Numbering Plan Area (NPA) per single facility group or route, rates and charges as specified should be applied for each NPA translated.
- h. A group of patterns may have either the DDD Network as a final route or overflow tone. A combination of both within the same pattern group is not permitted. Dial "9" may be used as an access code only if the patterns accessed have the DDD Network as a final route.
- i. Where toll restricted main station lines have access to ARS-Basic patterns with final route to the DDD Network, apply charges and rates as specified for patterns with overflow to tone in lieu of the charge and rate specified for final route to the DDD Network.

c. Additions and Changes (See A112.26.12)

**E. Station Message Detail Recording**

1. General

- a. Station Message Detail Recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, FX, WATS, CCSA, Interexchange Carrier access lines and or the MTS Network (Toll) and at the customer's option on certain incoming calls<sup>2</sup> that the attendant extends to a station or the line within the customer's ESSX group.
- b. The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by; the customer for Station Message Detail Recording.

2. **Terms and Conditions**

- a. Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b. Station Message Detail Recording is not represented to be a provision of billing detail. Where tie line, Interexchange Carrier access line, and Foreign exchange facilities are involved all such call attempts, whether completed or not, will appear in the SMDR.
- c. Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The customer will be responsible for making the tape format compatible with his data processing equipment.

**Note 1:** Each WATS band is treated as a separate route.

**Note 2:** SMDR detail on incoming calls does not include the calling number or the type of facility used.

**A112.12.12 Optional Service Features (Cont'd)**

**E. Station Message Detail Recording (Cont'd)**

**2. Terms and Conditions (Cont'd)**

- d. A magnetic tape will be provided by the Company on each occasion Station Message Detail Recording is furnished to the customer. The tape becomes the property of the customer on a "no exchange" basis and the tape may not be returned to the Company for reuse.
- e. Station Message details may be provided on all facilities subscribed for the customer including the Network (Toll), but will not include intercom calls originated by station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the toll network, the magnetic tape file will include a record of each message itemized on the customer's bill.
- f. Directory Assistance (DA) call detail may be provided on the magnetic tape (customer option).

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.12 Optional Service Features (Cont'd)

- F. Subsidiary System Arrangements (T)
1. Subsidiary System (M)
 

A Subsidiary System of an ESSX system is a customer-provided equipment system which is furnished PBX trunks from the central office serving the customer's ESSX system and which is connected by tie lines to that ESSX system. (M)

A Subsidiary System Arrangement provides station numbers which are in sequence with the main station line numbers of the customers' ESSX system to the stations of one or more subsidiary systems. (M)
  2. *Terms and Conditions*
    - a. Subsidiary System Arrangement (SSA) station numbers are provided by the same central office equipment and facilities which furnish Direct-Inward-Dialing (DID) service and will only be furnished where adequate DID facilities are available in the central office serving the customer's system and where the subsidiary system is properly equipped for DID service.
    - b. The PBX trunks of the subsidiary system are provided at the same rates and charges as specified for such trunks furnished from the central office serving the customer's ESSX system. In addition, foreign central office or foreign exchange mileage charges are applicable to those trunks when the subsidiary system is located outside the area of that serving central office.
    - c. The same rates and charges as specified for DID service apply for SSA station numbers. Where more than one subsidiary system is involved, each subsidiary system is considered a separate service and the count of station numbers furnished will commence anew at each such system for the purpose of determining the applicable rates and charges.
    - d. Tie lines connecting the ESSX and subsidiary systems are provided at the same rates and charges as specified for ESSX tie line terminals in a customer-provided equipment system.
    - e. SSA station numbers are furnished subject to the condition that all inward and outward local and toll network calling by subsidiary system stations be via the central office serving the customer's ESSX system.
      - (1) Where subsidiary system station's outward local and toll network calls are placed via tie lines and the network access registers of the ESSX system, the charges for such calls are identified and billed as primary directory listing calls of the ESSX system.
      - (2) Where subsidiary system station's outward local and toll network calls are placed via PBX trunks, the charges for such calls are identified as primary directory listing calls of the subsidiary system except as specified in f. (T)
    - f. At the option of the customer, identification of outgoing toll network calls by SSA station number will be provided at the same rates and charges as specified for Identified-Outward-Dialing (IOD) service subject to the following conditions.
      - (1) The identification of outgoing toll calls by SSAS station number will only be provided on calls routed via PBX trunks.
      - (2) Where more than one subsidiary system is arranged for the identification of outgoing toll calls by SSA station number, each system shall be considered a separate service and the count of connecting channels which serve as IOD trunks will commence anew at each system for the purpose of determining the applicable rates and charges.
    - g. The ESSX subsidiary system arrangement is provided solely for the furnishing of SSA station numbers to subsidiary systems for local and toll network and intercommunication calling and does not provide any of the basic optional service features of ESSX service to stations of the subsidiary systems.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

(M1)

#### A112.12.15 ESSX Customer Administration Service

##### A. General

1. The ESSX Customer Administration Service (ECAS) feature permits ESSX customers to activate/deactivate selected optional features, change certain service options, and change feature configurations on predesignated ESSX station lines. Customer provided terminal equipment is required for the operation of the ECAS feature.
2. For ECAS equipped station lines, ECAS allows the customer to verify and/or display the assignment of features on a single station line, range of station lines or all station lines to determine which station or stations have a particular feature or service option.
3. Certain ESSX station lines may be specified by the customer to be exempt from this feature. Additionally, the Company reserves the right to make station lines inaccessible for ECAS.
4. Changing the status of a station line from accessible to ECAS to inaccessible or vice versa, must be done by the Company via a service request. A Secondary Service Charge specified in Section A4. *applies*.
5. The Company has made the following provisions to protect the integrity of the switching system database and to ensure the security of ECAS changes.
  - a. An ECAS customer's change, display or verify capabilities are restricted to that particular customer's own ESSX system.
  - b. All changes are audited as they are entered by the ECAS customer. Invalid changes will not be accepted. An error message detailing which command is in error will be given.
  - c. Customer access to the database is protected using dialup, login, password/dial-back arrangement.
6. An ECAS customer can schedule changes (individual or bulk) for completion by the next day or for a future day. Additionally, priority changes may be requested, and the changes completed the same day subject to ***Terms and Conditions*** in A112.12.15. (T)
7. Definitions pertaining to ECAS/ESSX features are specified in A112.26.3 of this *guidebook*. (T)

(M2)

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.15 ESSX Customer Administration Service (Cont'd)

##### A. General (Cont'd)

8. The ECAS feature allows the customer to perform the following transactions from the customer provided terminal: (T)
  - a. Change particular service options on a per station basis and exchange station telephone numbers (TNs). The change capabilities are: (T)
    - (1) Line Status (Active/Inactive)<sup>1</sup> (M1)
    - (2) CAT Code
    - (3) Ringing Cycles for CFDA
    - (4) Call Pickup Group: The call pickup group to which a station is assigned can be changed on a per station basis.
    - (5) The Forward to Number can be changed for a station line with CFBL and/or CFDA assigned.
    - (6) Speed Call Group: The Speed Call group to which a station is assigned can be changed on a per-station basis.
    - (7) Series Completion "Hunt To" Telephone Number (TN): The "hunt to" TN assigned to a station line can be changed on a per station basis<sup>2</sup> (T)
    - (8) Station TN Rearrangement: Swap TNs from one location to another
    - (9) Facility Restriction Levels
    - (10) Access Line Class of Service
    - (11) Add/Change Customer Entered Listing Information
  - b. Activate/deactivate the following features and service options on a single station line basis:
    - (1) Automatic Callback Calling
    - (2) Call Forwarding Busy Line
    - (3) Call Forwarding Don't Answer
    - (4) Call Forwarding Variable
    - (5) Call Forwarding Variable - Outside
    - (6) Call Hold
    - (7) Call Pickup
    - (8) Call Waiting Originating
    - (9) Call Waiting Terminating
    - (10) Dial Call Waiting
    - (11) Directed Call Pickup - Barge In
    - (12) Directed Call Pickup - Non Barge In
    - (13) Speed Calling - 6
    - (14) Speed Calling - 30
    - (15) Basic Station Line Hunting (Series Completion)<sup>3</sup> (T)
    - (16) Inhibit ETS queuing (M2)
      - Note 1:** Station lines made inactive using ECAS will continue to be billed at the *guidebook* rates. (M1)
      - Note 2:** All numbers in series completion hunt must be in the same common block. (T)
      - Note 3:** Deactivating Basic Station Line Hunting may disrupt the normal completion order of a Hunt Group. (T)

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.15 ESSX Customer Administration Service (Cont'd)

A. General (Cont'd)

8. (Cont'd)

- (M1)
- c. The following information can be displayed to aid in system management.
    - (1) The configuration of a single ESSX station line (i.e., service options and active station line features)
    - (2) The number of stations having or not having a particular feature
    - (3) Pending TN swaps
    - (4) The series completion sequence of a station line
    - (5) Selected Company entered information affecting customer station lines
    - (6) Customer Entered Listing Information
    - (7) The number of call pickup groups in the system
  - d. An ECAS customer may also print the following administrative reports.
    - (1) Configuration (i.e., service options, station features) for a single station line or span of ESSX station lines.
    - (2) A listing of all pending changes including the type of change and the scheduled effective date.
    - (3) Customer Entered Listing Information
      - The following information is included on all ECAS changeable station lines.
      - Station Telephone Number
      - Name<sup>1</sup>
      - Organization<sup>1</sup>
      - Location<sup>1</sup>
  - e. Initial training of the customer for up to four system managers in the use of this feature is included at the time the feature is put into service. Communication counselor training is a prerequisite to the ECAS system manager training. Any customer training or subsequent assistance necessary after the initial establishment of the feature is at the option of the customer and a Subsequent Training Charge applies per hour where such training is provided.

(M2)

**Note 1:** The ECAS customer is responsible for entering and updating the information contained in this field.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.12 ESSX Small, Medium and Large Service - 85 (Cont'd)

#### A112.12.15 ESSX Customer Administration Service (Cont'd)

##### B. *Terms and Conditions*

1. ECAS is provided only with ESSX systems served from a No. 1/1A ESS central office and is furnished subject to the availability of facilities. (T)(M)
2. Customers equipped for ECAS must order via a service order<sup>1</sup> ECAS changeable features in groups of five (5) at the rates specified in A112.12.15. (T)(M)
3. Non-ECAS changeable features with the exception of Three-Way Calling, Consultation Hold, Call Transfer All Calls will be added subject to the specifications and rates in A112.12.8, A112.12.9 or A112.12.10 as appropriate. Three-Way Calling, Consultation Hold, Call Transfer All Calls is offered in groups of five (5) at the rates specified in A112.12.15.
4. Features for ECAS exempt station lines must be requested via a Service Order<sup>1</sup> and added by the Company. Rates and Charges for the features specified in A112.12.8, A112.12.9 or A112.12.10 apply as appropriate.
5. The customer provided ECAS terminal equipment requires an ESSX main station line. Rates and charges in A112.12.8, A112.12.9 and A112.12.10 apply as appropriate.
6. ECAS changes must be entered prior to a time to be designated by the Company to be completed as priority changes or by the next day as requested by the customer.
7. An ECAS customer cannot activate features in excess of the quantity that has been ordered from the Company. The customer will receive an indication when 100% utilization of a feature is reached. Additional quantities of features may be added subject to *Terms and Conditions*. (T)
8. Contractual obligations and End User Common Line charges will be billed to the location where originally installed and will not transfer with a station number rearrangement.
9. If the Company is requested to load ECAS changeable features for new ESSX/ECAS customers, Installation Charges specified in A112.26.15 applies per ECAS feature added.
10. The following types of lines will be restricted from Station TN Rearrangement capability. Service options and feature change capabilities will still be available except on lines assigned to multiline hunt groups.
  - Station lines assigned to multiline hunt groups
  - Attendant Lines
  - Any ESSX line which as a special hardware configuration (e.g., ground start lines and lines having SCAN points or signal distribution points)
  - Manual lines (e.g., station lines with full originating and/or terminating restrictions)
11. ECAS functions performed by the Company at the customer's request subsequent to the initial installation will be subject to the nonrecurring charge specified in A112.26.15.
12. The Per System charges specified in A112.12.15.C. apply when a feature is initially activated in a Common Block.
13. Any required changes in customer provided equipment as a result of growth, desired enhancements or technological advancement, will be the responsibility of the ECAS customer. Compatibility with customer provided station terminal equipment is not guaranteed.
14. The ECAS customer is responsible for assigning and maintaining a record of station feature assignments. The ECAS customer also agrees to provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
15. ECAS customers will be responsible for initiating a Service Order to correct any information pertaining to Directory Listings that changed as a result of an ECAS TN swap. The Secondary Service Charge specified in Section A4. applies.

**Note 1:** Appropriate Service Charges specified in Section A4. will apply.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(M1)

### A112.13 Digital ESSX Service - 85

(Obsoleted 08-02-96, Type 4) Service rates and charges in this section are available for inward activity of existing subscribers only as specified following. Not available for new service or entire moves of existing service to new locations.

#### Obsolescence Rules

1. Inward activity for Digital ESSX® service - 85 will only be allowed under a Term Payment Plan.
2. Digital ESSX® service - 85 subscribers who have their entire account under a month-to-month payment option will be allowed to maintain their Digital ESSX® service – 85 at Month-to-month rates.
3. Digital ESSX® service - 85 subscribers who have a portion of their existing service under a month-to-month payment option and a portion of their existing service under a Term Payment Plan may remain under the rates and charges outlined in this Section. (T)
4. Digital ESSX® service - 85 subscribers under a Term Payment Plan may remain under the rates and charges outlined in this Section. (T)(M2)
5. Subscribers under a Term Payment Plan will have until 02-02-97 to exercise the recast option and subscribe to Digital ESSX® service - Vintage II, as described in A112.28, for a Term Payment Plan of not greater than 36 months in length. Subscribers under a month-to-month payment option will have until 02-02-97 to convert to a Digital ESSX® service - Vintage II Term Payment Plan of not greater than 36 months in length. (M2)
6. Conversions from ESSX-1 service to Digital ESSX® service - 85 will not be allowed under this *Guidebook*. (T)(M2)
7. Existing Digital ESSX® service - 85 subscribers who are under a Term Payment Plan may add a new secondary location (SLA) or move an existing SLA of their existing service. (M2)

Vintaged 12-30-88, Type 4. This service is not offered for new installations after 12-30-88, except where a letter of intent was signed prior to 12-30-88 and the service is to be installed on or before 06-30-89. Subsequent additions to an existing system, under contract, are permitted. Additionally, a system under contract may be moved to another *Company* location within the State of North Carolina. Customers paying vintaged rates and charges will continue to pay vintaged rates and charges until their payment period expires. (T)(M2)

**Page 193.1 is hereby deleted in its entirety and removed from this Guidebook**

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.13 Digital ESSX Service - 85 (Cont'd)

#### A112.13.1 General

- A.** Digital ESSX<sup>®</sup> service is furnished from Digital Central Office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features: (T)
1. Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long-distance message network calls to and from stations and attendant positions of a Digital ESSX<sup>®</sup> service system. (M1)
  2. Intercommunication calls between stations of the same Digital ESSX<sup>®</sup> service system. (M1)
  3. Identified Outward Dialing (IOD), by station number of outgoing long-distance message calls dialed by a station. Only calls billed to the subscriber by this Company will be provided this identification. (M1)
  4. Common recorded announcement interception of calls to unassigned station numbers. (M1)
  5. Basic Station Line Hunting. (M1)
  6. Touch-Tone Service (M1)
- B.** Digital ESSX<sup>®</sup> service will be furnished in three categories, based on the size of the subscriber's system. (M1)
1. Digital ESSX<sup>®</sup> service-S will serve systems with 1-200 Main Station Lines. (M1)
  2. Digital ESSX<sup>®</sup> service-M will serve systems with 201-600 Main Station Lines. (M1)
  3. Digital ESSX<sup>®</sup> service-L will serve systems with more than 600 Main Station Lines. (M1)

- C.** A Digital ESSX System may be comprised of the following components:

Common Equipment<sup>1</sup>  
 Network Access<sup>1</sup>  
 Main Station Lines<sup>1</sup>  
 Terminating Arrangements  
 Features

The Common Equipment and Terminating Arrangements will be at the rates and charges as specified in A112.13.7. The Network Access Limiter and Network Access Registers will be at the rates and charges as specified in A112.28.7. (T)

Main Station Line rates will consist of the intercom charge and the appropriate wire center line charge. These charges will be located in A112.13.8, A112.13.9, and A112.13.10 for Digital ESSX-S, Digital ESSX-M and Digital ESSX-L respectively.

Digital ESSX Line and System Features will be grouped as follows:

A Line Features Grouped  
 A Line Features Individual  
 B Line Features  
 Optional Service Features

A Line Features will be offered on a grouped basis to Digital ESSX Subscribers who have selected an ESSX Term Payment Plan of 36, 60 or 84 months. Subscribers selecting the month to month payment option will be offered the Group A Line features on an individual basis only.

B Line Features and Optional System Features will be offered to Digital ESSX subscriber under all payment plan options subject to the specific requirements within each arrangement.

A Digital ESSX-S subscriber will select A & B Features in A112.13.8. (T)

A Digital ESSX-M subscriber will select A & B Features in A112.13.9. (T)

A Digital ESSX-L subscriber will select A & B Features in A112.13.10. (T)

Optional Service Features will be offered to all Digital ESSX subscribers in A112.13.11. (T)

(M2)

**Note 1:** Every system will include these components.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.13 Digital ESSX Service - 85 (Cont'd)

#### A112.13.2 Terms and Conditions

- A. Digital ESSX service is furnished subject to the availability of facilities and features from Digital Central Office equipment, located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and or major relocations of Digital ESSX systems are subject to the same *Terms and Conditions* as initial installations. (T)(M)
- B. Certain Auxiliary Services are available on an individual main station line basis and are subject to the capabilities of the serving central office. (M)
- C. Optional Service Features as listed in A112.13.11 include Attendant Features and Auxiliary Attendant Features. These features may require customer provided compatible terminal equipment. (M)
- D. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service. (M)
- E. All Digital ESSX main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with Digital ESSX service. (M)
- F. Tie lines for direct connections between a basic Digital ESSX system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in A13 and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the Digital ESSX system to or from other systems (Digital ESSX or non-Digital ESSX) provided such connections to the exchange or long distance network are only made at one system at a time. (T)
- G. Where completion of incoming and outgoing local and long distance calls through a Digital ESSX system is furnished to or from main station lines of a separate Digital ESSX system in another exchange or a non-Digital ESSX system in the same or different exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems except for Subsidiary System Arrangements furnished under the *Terms and Conditions* specified in A112.13.11. (T)
  - 1. Rates and charges as specified in Section B3 of the Private Line *Guidebook* apply to miscellaneous lines furnished with unique access codes (trunk level access) except for tie lines furnished in connection with Subsidiary System Arrangements as specified in A112.13.11. (T)
  - 2. Digital ESSX optional feature charges as outlined in Section A112.13.8, 9 and 10 apply for each trunk terminated main station line as offered in Section A112.13.7, as appropriate. (T)
- H. Dormitory service is furnished in accordance with the *Terms and Conditions* for Dormitory Communications Service specified in Section A13. (T)
- I. A system may not be provided for Intercommunication (standalone) service only. Access to the Exchange Network must be provided.
- J. A mixture of Flat Rate and Message/Measured Rate Service will not be allowed within a single customer system.
- K. Suspension of Service  
With the exception of Network Access Registers, suspension of Digital ESSX Service is not permitted.
- L. A twelve month minimum service period shall be required if the subscriber's system is a Digital ESSX-M or L. The normal minimum service period as specified in Section A2 will be applicable to Digital ESSX-S systems. (T)
- M. Touch-Tone service will be furnished subject to the *Terms and Conditions* specified in Section A13. The rates and charges for Digital ESSX station lines include the provision of Touch-Tone service. Rates and charges for Touch-Tone service as specified in Section A13 do not apply for the provision of Touch-Tone service to Digital ESSX Service. (T)
- N. Directory Listings will be furnished subject to the rates, *Terms, and Conditions* specified in Section A6. (T)
- O. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of a Digital ESSX system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the Network Access Register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charges as specified in Section A4 apply per Network Access Register affected. (T)
- P. Service charges, as specified in Section A4 of this apply to all Digital ESSX systems except as provided in A112.13.5. (T)
- Q. Digital ESSX installation charges are due on initial installation or subsequent additions unless deferred over a predetermined period of time as specified in Section A122.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.13 Digital ESSX Service - 85 (Cont'd)

#### A112.13.2 Terms and Conditions (Cont'd)

- R. If the Digital ESSX subscriber elects a Message Rate Service option, Message Rate Service usage charges specified in Section A3 are applicable on calls to locations outside the subscriber's Digital ESSX system in addition to rates and charges in this and other *guidebook* sections for Digital ESSX service and other associated services. Usage charges are not applicable on calls originated and terminated within the same Digital ESSX system. (T)
- S. If the Digital ESSX service subscriber is a Sharing and Resale of Telephone Services provider, Sharing/Resale Measured Service usage charges as specified in Section A23 are applicable on calls to locations outside the subscriber's Digital ESSX system. Usage charges are not applicable on calls originated and terminated within the same Digital ESSX system. All other rates and charges in this and other *guidebook* sections for Digital ESSX service and other associated services are applicable to a Digital ESSX service subscriber who is a Sharing and Resale of Telephone Services Provider. Features and services available to a Digital ESSX service subscriber may be shared or resold in accordance with Section A23. (T)
- T. Digital ESSX main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It<sup>1</sup> Services (e.g., 900 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 10XXX and 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted. The term "Public Announcement Services" as used herein are those services which, in the judgement of the Company, furnish advertised recorded announcement messages to the general public (e.g., time, weather, sport scores and stock market reports). The Public Announcement Service central office codes will be determined by the Company and will be commonly denied access in the central office serving the Digital ESSX systems subscribing to this service arrangement.
  1. At the time a Code Restriction arrangement is installed, the Digital ESSX system will be arranged for the Code Restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Charges as specified for a change in line termination apply per main station line affected except that no such charges apply when the code restriction arrangement is disconnected in its entirety.
  2. Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
  3. Code Restriction Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for in the normal manner.
- U. The list of Wire Center Density Classifications by Exchange as specified in Section A112.1.14 shall be used in determining the density of a particular serving wire center. Whenever the density group designation of a serving wire center is reclassified, Digital ESSX customers are subject to the following: (T)
  1. Charges for main station lines under contract via the ESSX Term Payment Plan shall not change for the remainder of the contract.
  2. Upon expiration of the existing contract, the new rate will be based on the wire center density group as reclassified.
  3. Charges for main station lines not under contract (Month-to-Month), including minimum service period shall be adjusted if the reclassification would result in a lower rate.
- V. Customer Station Rearrangement (CSR) may be provided with Digital ESSX Service where facilities permit. Rates and charges for CSR will be developed on an individual case basis and will be based on the estimated costs to provide this service. (M)

**Note 1:** Dial-It is a service of AT&T.

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS****A112.13 Digital ESSX Service - 85 (Cont'd)**

(M1)

**A112.13.3 Definitions****WIRE CENTER DENSITY**

Refers to the average number of main stations (MS) and equivalent main stations (EQ. MS) per square mile in the serving wire center area. Wire Center Density Groups are designated "A" and "B" with group "A" having the least density and group "B" having the highest.

OTHER DEFINITIONS - See A12.13.3

**A112.13.4 Intercept of Calls to Unassigned Station Lines**

- A. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- B. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all Digital ESSX systems served out of the same office. The announcement states that the number is not in service.

### A112.13 Digital ESSX Service - 85 (Cont'd)

#### A112.13.5 Conversion

##### A. Replacement of Central Office Equipment

1. The rates and charges in this and other *guidebook* sections for Digital ESSX Service and the associated features and services will continue to apply to Digital ESSX subscribers served at a location that is converted through no desire or fault of the subscriber to Digital central office equipment. Should one of the aforementioned existing subscribers wish to utilize features and/or services specific to the Digital central office equipment, the billing for that customer's system will be converted to charges appropriate for the central office equipment providing his service.

(T)

(M)

(T)(M)

##### B. Conversion of Centrex or ESSX Service<sup>1</sup> to Digital ESSX Service

1. When a customer whose present Centrex Type Services elects to convert to Digital ESSX Service, installation and service charges do not apply to Common Equipment, in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided each of the following conditions are met:
  - a. The Customer's system must continue to be served by the same central office equipment or the customer is moved to other central office equipment at the Company's instance.
  - b. There must be no interruption of service, and
  - c. There are no moves, changes or additions in existing station lines, terminating arrangements, or optional features requested by the customer.
2. Centrex Type Services converting to Digital ESSX Service must elect one of the following options:
  - a. Month to Month Payment Plan
  - b. ESSX Term Payment Plan of 36, 60 or 84 months<sup>1</sup>
3. Where the customer elects an ESSX Term Payment Plan of 36, 60 or 84 months and wishes to add to his system the following shall apply:
  - a. Such additions shall be made within a scheduled period after the conversion at the rates and charges in this and other *guidebook* sections for Digital ESSX Service and the associated Features and Services.
4. Where an ESSX customer converts to Digital ESSX the service establishment charge shall not apply if the same customer category, (Small, Medium or Large) is maintained. If the ESSX customer has a current ESSX Term Payment Plan, an ESSX Term Payment Plan for Digital ESSX must be selected that is equal to or longer than the unexpired portion of the current plan.
5. Where an ESSX customer converts to Digital ESSX and changes customer category (Small to Medium, Medium to Large, Small to Large) the Service Establishment Charge applied shall be equal to the appropriate Digital ESSX Service Establishment Charge (of the category the customer is going to) less the ESSX Service Establishment (of the category the customer is coming from) Charge.
6. Where an ESSX customer converts to Digital ESSX and downgrades from Large to Medium, Medium to Small, or Large to Small, no service charge shall apply. Termination charges will apply as specified in A112.13.6.
7. Where a Digital ESSX customer converts to ESSX such conversions shall also be made in accordance with paragraphs 3, 4, 5 & 6.

## A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A112.13 Digital ESSX Service - 85 (Cont'd)

#### A112.13.6 Payment Schedules

##### A. General

1. Digital ESSX service is offered as follows.
  - a. The contract periods are:
    - Month to Month Payment Plan
    - 36 Month ESSX Term Payment Plan
    - 60 Month ESSX Term Payment Plan
    - 84 Month ESSX Term Payment Plan
  - b. Items that may be placed under the ESSX Term Payment Plan <sup>1</sup>
    - (1) Main Station Lines
    - (2) Extension Station Lines
    - (3) Line Feature Options
    - (4) Optional Service Features
    - (5) System Common Equipment
    - (6) Terminating Arrangements
2. The monthly rate for Digital ESSX service is dependent upon the payment period selected by the customer.
3. The monthly rate for Digital ESSX service under the ESSX Term Payment Plan for the periods of 36, 60 or 84 months is not subject to Company initiated rate increases.
4. Digital ESSX-S service will be offered to subscribers having 20 -200 main station lines under any of the payment options offered.
  - a. A Digital ESSX-S subscriber may elect a 36-, 60-, or 84-month payment period for any portion or all of the total system size with the remainder to be under the month to month payment option.
    - (1) Group A and B line features may be added under any of the payment plan options.
    - (2) Auxiliary Attendant Features, or Optional Service Features may be added under any of the payment plans provided that they are not added for a payment period of shorter duration than that associated with the Digital ESSX common equipment.
  - b. A Digital ESSX-S subscriber may add station lines up to 220 Lines, and:
    - (1) Add those lines and associated Group "A" and "B" line features at the month-to-month rate specified for Digital ESSX-S or,
    - (2) Re-subscribe the entire system under the payment periods offered for Digital ESSX-M.<sup>1</sup>
    - (3) There will be no termination liability.
    - (4) Digital ESSX-S Subscribers will be liable for the difference in service establishment charges between Digital ESSX-S and Digital ESSX-M.

**Note 1:** *Terms and Conditions* concerning the ESSX Term Payment Plan are specified in Section A122..
