- J. Local Credit Option (O)

(Obsoleted April 15, 2009, Type 4. Not available for new installations or transfers of service to a new location.) (N)

When the Company finds it necessary to request a deposit of a prospective residence local exchange service subscriber, the Company shall waive the deposit request if the subscriber agrees that the Company will place a toll restriction option on the subscriber's line, at no additional charge to the subscriber, that prevents completion of toll calls originating from the subscriber's line. When the customer so agrees, the Company will place USOC CREX1, CREXA or CREX7, depending on service to be installed, on the subscriber's line to accommodate originating toll restriction. (O)

When and if either 1) the subscriber pays the requested deposit and requests such toll restriction be removed or 2) the Company determines that satisfactory credit history has been established by the subscriber, the Company shall notify the subscriber that such toll restriction is being removed and will remove such toll restriction. (O)

Billed Number Screening (BNS), as described in A13.21, will be provided at the customer's request. (O)
