B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE

B107.1 Reserved for Future Use

B107.2 SynchroNet Service

Effective June 30, 2021, SynchroNet Service will no longer be available for purchase by new or existing customers. In addition, requests to move, add, change, or renew existing service arrangements will not be accepted. Following the expiration of a customer's existing term agreement, service will be provided on a month-to-month basis at the applicable Month-to-Month rates until the service is discontinued. The Company currently plans to discontinue this service on or after June 30, 2024. (N)

(Obsoleted 08-04-93, Type 4) The provision of SynchroNet service will be continued for circuits in place as of August 4, 1993, under the following guidebook. Additions to SynchroNet service arrangements being provided from B107.2 must be made from B107.2. New circuits not directly connected to the original SynchroNet service arrangement provided from B107.2, that are established on or after August 4, 1993, will be provided from B7.2. Customers with existing SynchroNet service arrangements provided from B107.2 may move a portion of that arrangement. In such case, the customer's arrangement will continue to be provided from B107.2. Nonrecurring charges do not apply for customers desiring to change existing service from B107.2 to B7.2.

B107.2.1 General

- A. SynchroNet service is furnished for IntraLATA Communications by the Company.
- B. The service is provided for the transmission of digital signals only and is furnished only via digital transmission facilities.
- C. SynchroNet service provides for the simultaneous two-way transmission of synchronous digital signals at speeds of 2.4, 4.8, 9.6 and 56 Kbps between customer locations where appropriate digital facilities for this service are available as determined by the Company.
- D. Multipoint Service and/or Secondary Channel capability may not be available in all SynchroNet service locations.
- E. To ensure satisfactory operation, the terminal equipment provided by the customer must be compatible with the channel facility provided by the Company.
- F. Unless specified following, the terms and conditions for SynchroNet service specified herein apply in addition to the terms and conditions set forth in Section B2. preceding.
- G. The rates specified for SynchroNet service are in B107.2.3 following. The Company will provide a digital facility over existing interoffice carrier equipment and/or transmission facilities compatible with SynchroNet service.
- H. SynchroNet service is available on a month-to-month basis or under contract plans as described in **B107.2.2.G.** following. (T)(O)

B107.2.2 Terms and Conditions

- A. Description of Service
 1. Service is furnished for the simultaneous two-way transmission of digital signals at synchronous rates of 2.4, 4.8, 9.6 and 56 Kbps between two or more points located within a LATA.
 2. Service is furnished for duplex operation only. This service may also be furnished on a link (partial channel) basis when connected to FlexServ service and/or MegaLink channel service.
 3. A minimum initial service period of three months is required.
 4. The design, maintenance and operation of SynchroNet service contemplates communications originating or terminating at stations of the customer or user. While connections to communications systems provided by others may be made on a permissive basis as provided for in Section B2., the Company does not represent this service as adapted for such connections, and shall not be responsible for the through transmission of signals, or the quality of such transmission on such connections.
 5. A Channel Service Unit provided by the customer is required at a customer's or authorized user's premises to perform such functions as:
 - proper termination of the service
 - amplification
 - signal shaping (M)
 - remote loop-back (M)

B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE**B107.2 SynchroNet Service (Cont'd)****B107.2.2 Terms and Conditions (Cont'd)**

(M)

B. Definitions**CHANNEL SERVICE UNIT**

The term "Channel Service Unit" (CSU) denotes equipment provided by the customer to terminate a digital facility on the customer's, user's or Other Common Carrier's premises.

DIGITAL INTERNODAL CHANNEL

The term "Digital Internodal Channel" denotes a path (or paths) for digital transmission between Node Central Offices within a LATA. An internodal channel may be furnished in such a manner as the Company may elect.

DIGITAL INTEROFFICE CHANNEL

The term "Digital Interoffice Channel" denotes a path (or paths) for digital transmission between Serving Wire Centers and Node Central Offices, within a LATA. An interoffice channel may be furnished in such manner as the Company may elect.

DIGITAL LOCAL CHANNEL

The term "Digital Local Channel" denotes a path for SynchroNet service furnished from the Serving Wire Center to the demarcation point on the customer's premises.

MULTIPOINT SERVICE

The term "Multipoint Service" denotes a service which provides communications capability between more than two points by means of a bridging or hubbing arrangement. For the provision of SynchroNet service, the bridging or hubbing arrangement shall be located at the same Node Central Office.

NODE CENTRAL OFFICE

The term "Node Central Office" denotes that physical location the Company has designated as a test, maintenance and monitoring center to service one or more Serving Wire Centers. There may be more than one Node Central Office within a LATA.

POINT

A point is a location on the customer's or user's premises at which a Digital Local Channel is terminated. Each SynchroNet service point requires service from a Node Central Office.

SECONDARY CHANNEL CAPABILITY

The term "Secondary Channel Capability" denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

SERVING WIRE CENTER

The term "Serving Wire Center" denotes the local telephone central office assigned to subscribers in a well defined area. A Serving Wire Center may be further designated by the Company as a Node Central Office.

C. Method of Applying Rates

1. A Digital Local Channel is furnished between a Serving Wire Center and the demarcation point on the customer's premises. The rate is based on 1/2 mile increments, or fraction thereof, for the airline distance measured between the Serving Wire Center and the customer's premises.

B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

B107.2.2 Terms and Conditions (Cont'd)

C. Method of Applying Rates (Cont'd)

2. A Serving Wire Center Termination charge is applicable for each Digital Local Channel to cover those fixed charges to terminate each local channel in the Company's Wire Center.
3. Node Terminations are applied to each termination within the Node Central Office. A charge is applicable for each Local Channel or equivalent.
4. A Digital Interoffice Channel will be required when a Digital Local Channel terminates in a Serving Wire Center that is not a Node Central Office. The rate is based on airline mileage, or fraction thereof, between the Serving Wire Center and the Node Central Office.
5. An Internodal Channel will be required between Nodes when a customer has a requirement to connect premises located in separate Nodal Service Areas. The rate is based on airline mileage, or fraction thereof, between Node Central Offices.¹
6. Airline distance between Company central offices shall be developed using methodology and Vertical (V) and Horizontal (H) coordinates contained in the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 4. Fractional miles are to be rounded up to the next full mile.

D. Connections

1. Customer-Provided Terminal Equipment, Customer-Provided Derivation Equipment and Customer-Provided Communications Systems may be connected to SynchroNet service when such a connection is made in accordance with the provision specified in 2. and 3. following.
2. The responsibility of the Company shall be limited to the furnishing and maintenance of service to a network interface on the customer's, or user's premises where provision is made for the connection of local service. If the customer requires a different location in the same building, it can be provided under B107.2.3.D. The customer or user is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with the SynchroNet service such equipment or facilities are operating properly. (T)
3. The customer responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer or user will be responsible for all expenses incurred in changes to their premises equipment.
4. The customer shall be responsible for payment of a service charge, as set forth in Section B2, for visits by the Company to the premises of the customer or user where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer or user. (T)
5. Connection of Customer-Provided Terminal Equipment, Customer-Provided Derivation Equipment and Customer-Provided Communications Systems.
 - a. The following provisions will apply:
 - (1) Customer-Provided Terminal Equipment, Customer-Provided Communications Systems may be connected at the premises of the customer, or user to SynchroNet service.

Note 1: When more than one Node Central Office is required, mileage will be calculated from the customer's designated Serving Wire Center to the first Node, from that Node to the subsequent Node, then to the Remote Serving Wire Center.

B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

B107.2.2 Terms and Conditions (Cont'd)

D. Connections (Cont'd)

5. (Cont'd)

a. The following provisions will apply: (Cont'd)

- (2) The customer or user, by use of its own derivation equipment, may create digital bit streams from SynchroNet service. Such equipment may be connected for transmission of such bit streams when connected thru a customer-provided CSU.

b. Connections to Other Services Furnished by the Company to the Same Customer

SynchroNet service as furnished by the Company may be connected to another service or to other services furnished by the Company as specified following:

- (1) At the premises of the customer or user to Series 2000 analog data channels furnished under the rates, **terms and conditions** in this *Guidebook*.

c. Connections to other services furnished by the Company to different customers

SynchroNet service as furnished by the Company to a customer may be connected at the premises of the customer or user to other services furnished by the Company to different customers as specified in D.2. preceding.

d. Connection of Channel Service Units

A Channel Service Unit (CSU) must be provided by the customer to connect a Company-provided digital facility. In accordance with Part 68 of the FCC's Rules and Regulations, new grandfathered CSUs may be connected, moved, and reconnected until June 30, 1987. After this date only registered and previously connected grandfathered CSUs may be connected to Company-provided digital facilities.

Grandfathered CSU equipment must comply with the requirements outlined in the Technical Reference Publication #62310, dated September, 1983. This publication is now available from Publishers' Data Center, Inc., P.O. Box C738, Pratt Street Station, Brooklyn, New York 11205. Registered technical requirements for CSUs are outlined in Part 68 of the FCC's Rules and Regulations. A copy may be obtained from the Federal Communications Commission, Room BB300, Washington, D. C. 20054.

e. Responsibility of the Company

- (1) The Company shall not be responsible for installation operation or maintenance of any terminal equipment or communications systems provided by a customer or user. SynchroNet service is not represented as adapted to the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for SynchroNet service and to the maintenance and operation in a manner proper for such digital service. The Company shall not be responsible for:

- the through transmission of signals generated by such equipment or system, or for the quality of, or defects in such transmission or
- the reception of signals by such equipment or systems, or
- damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.

B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE**B107.2 SynchroNet Service (Cont'd)****B107.2.2 Terms and Conditions (Cont'd)**

(T)

D. Connections (Cont'd)

5. (Cont'd)

e. Responsibility of the Company (Cont'd)

- (2) The Company shall not be responsible to the customer or user if changes in any of the facilities, operations or procedures of the Company utilized in the provision of SynchroNet service render any facilities or equipment provided by a customer or user obsolete, or require modification or alteration of such equipment or system, or otherwise affects its use or performance.
- (3) The Company undertakes to maintain and repair the facilities which it furnishes. The customer or user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company without prior written consent of the Company.
- (4) The Company has set a design objective of 99.5 percent error free seconds of operation at all speeds with SynchroNet service.

E. Payment Arrangements and Credit Allowance

1. The minimum period for which service is furnished and for which charges are applicable is three months.
2. Suspension of service is not allowed.
3. When service is interrupted due to causes other than the negligence of the customer or user, or the failure of facilities furnished by the customer or user, a credit allowance will be made upon request for the portion of the service which is affected. For the purpose of determining the amount of allowance every month is considered to have thirty days and only those stations on the interrupted portions of a service shall be considered in determined the number of stations affected. All such credit allowances shall begin from the time of notice by the customer or user to the Company that an unsatisfactory performance level has occurred, provided that the customer or user promptly releases the service as requested by the Company to perform testing and maintenance.
 - a. Interruptions of less than three hours - no credit is applied.¹
 - b. Interruptions of three hours or over are credited to the customer at the proportionate monthly charge in half-hour multiples for each half-hour or major fraction thereof of interruption.
 - c. Interruption for a period of twenty-four hours or more, credit is allowed for the proportionate part of the monthly charge in multiples of one day for each twenty-four hours or major fraction thereof of interruption for the portion of the service affected by the interruption.

Note 1: Two or more interruptions of thirty minutes or more, during any period up to, but not including three hours, shall be considered as one interruption.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

(T)(O)

B107.2.2 Terms and Conditions (Cont'd)

(T)(O)

F. Contract Plans

(O)

1. The contract plans are available under conditions specified in the Channel Services Payment Plan in B2.4 except as follows. (O)
 - a. SynchroNet service is offered under contract plan periods described in (1) and (2) following. (O)
 - (1) Twenty-four to forty-two month Contract Plan^{1,2} - payment periods may be selected from twenty-four to forty-two months. (T)(O)
 - (2) Forty-three to seventy-two month Contract Plan^{1,2} - payment periods may be selected from forty-three to seventy-two months. (T)(O)
 - b. SynchroNet service rates under contract plans will not be changed by Company initiative until the contract period expires. Rates in effect at the time the service is installed and/or when the Company is notified in writing of the subscriber's choice of payment period options, will be applicable until the contract plan expires except as specified in B2.4.9.A.7.a.. At the expiration date of the customer's payment period option, the customer may select a new payment period option at the current rates or revert to current rates on a month-to-month basis. (T)(O)
 - c. A termination charge is applicable at the date of termination if the customer terminates or disconnects the service prior to fulfilling the period of the contract plan except as specified in (2) following. However, termination charges will not apply for customer requests for moves of service under CSPP subject to the provisions set forth in B2.4.9 preceding. The termination charge is fifty percent (50%) of the following: the contracted monthly rate times the number of months in the contract plan, less the contracted monthly rate times the number of months the service has been installed. An example is provided in (1) following. (O)
 - (1) A customer subscribes to SynchroNet service using the twenty-four to forty-two month payment plan. The actual duration of the contract plan is for thirty months. The subscriber terminates the service after twelve months. The total charge is thirty months times the monthly rate. The amount is then reduced to reflect the number of months the subscriber has had the service, which in this example is twelve months. Therefore, the termination liability is calculated as follows: (O)

$$\text{Termination Charge} = .50 \times [(30 \text{ months} \times \text{monthly rate}) - (12 \text{ months} \times \text{monthly rate})]$$
 - (2) A termination charge will not be applicable at the date of termination if the customer terminates or disconnects the service prior to fulfilling the period of the contract plan for customer requested changes to a higher order of service covered by the Channel Services Payment Plan as specified in B2.4.9.A.4.b. or customer requested changes to services not covered by the Channel Services Plan that are offered by the Company under a contract payment plan provided that the applicable conditions set forth in B2.4.9.A.4.b. are satisfied. (O)

Note 1: As of October 1, 2013, payment periods greater than 36 months are no longer available for new or renewing subscribers. (T)(O)

Note 2: Effective December 31, 2013, customers may not establish new term plans of any length for SynchroNet Service, and existing term plans may not be renewed. For new service, or for existing service after any term plan expires, service will be provided only on a month-to-month basis. (T)(O)

B107. OBSOLETE SERVICE OFFERINGS - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

B107.2.3 Rates and Charges

A. Service wholly within the same LATA

1. A Digital Local Channel is furnished between a Serving Wire Center and the customer's premises. Charges are based on the airline distance between the Serving Wire Center and the customer's premises. Digital Local Channel Monthly rates are per 1/2 mile, or fraction thereof. The Digital Local Channel nonrecurring charge is per local channel.

	Nonrecurring Charge	Monthly Rate	USOC
(a) 2.4 Kbps	\$158.75	\$9.15	1LD2Z
(b) (DELETED)			
(c) 9.6 Kbps	158.75	10.25	1LD9Z
(d) 56.0 Kbps	183.00	11.80	1LD5Z

2. A Serving Wire Center Termination is required in the Company's Local Central Office. Serving Wire Center Termination per local channel, each.

(a) 2.4 Kbps	58.00	28.90	SYN24
(b) 4.8 Kbps	58.00	29.05	SYN48
(c) 9.6 Kbps	58.00	29.05	SYN96
(d) 56.0 Kbps	67.75	44.05	SYN56

3. A Node Channel Termination is required at the Company's Node Central Office. Node Channel Termination per local channel or equivalent, each.

(a) 2.4 Kbps	84.25	19.35	2UN24
(b) 4.8 Kbps	84.25	19.35	2UN48
(c) 9.6 Kbps	84.25	19.35	2UN96
(d) 56.0 Kbps	94.00	29.05	2UN56

4. A Digital Interoffice Channel is furnished between serving wire centers and the Node Central Office(s). Digital interoffice channel, each airline mile or fraction thereof.¹

(a) 2.4, 4.8, or 9.6 Kbps	-	1.45	1LN+X
(b) 56.0 Kbps	-	2.90	1LN5X

(M)

B107.2.3 Rates and Charges (Cont'd)

	Nonrecurring Charge	Monthly Rate	USOC	(M)
B. Internodal IntraLATA arrangements as required to provide service.				
1. Internodal Channels are required between Node Central Offices within the same LATA. Internodal Channel each airline mile, or fraction thereof. ⁴				(T)(M)
(a) 2.4, 4.8 or 9.6 Kbps	-	\$ 1.45	1LN+P	(M)
(b) 56.0 Kbps	-	2.90	1LN5P	(M)
C. Service Options				(M)
1. Multipoint Service, per local or interoffice channel bridged ¹				(T)(M)
(a) 2.4, 4.8 or 9.6 Kbps	\$29.00	24.20	6BN	(M)
(b) 56.0 Kbps	48.50	33.85	6BN	(M)
2. Secondary Channel Capability, per local channel				
(a) Each ^{1,2,3}	58.00	14.50	SFS	
D. Service Connection Charges				
1. Service Ordering Charges are applicable, per service order, for receiving and recording information and/or taking action in connection with a customer's request and processing the necessary data. These charges include the engineering design function. Only one Service Ordering Charge applies for, (1) a two-point channel service or (2) more than one channel service ordered and installed at the same time of the same type for termination at the same premises.				
2. Premises Visit Charges are applicable, per Digital Local Channel, for the termination of a channel within the same building or for inside moves. Only one Premises Visit Charge applies when more than one channel service of the same type is terminated at the same premises at the same time.				
3. Channel Connection Charges are applicable for the connection and testing of Digital Local Channels, Serving Wire Center Terminations, Node Terminations and for Inside Moves. The charges applied are those nonrecurring charges associated with this service. Connection charges for moving a channel termination from one point within a building to another point within the same building (Inside Moves) are per termination and are as specified in 5. following.				
4. Changes				
Changing from one type of service to another type of service is considered as a disconnect and a new connect.				
Customer required changes of data transmission rate for a SynchroNet service, subsequent to initial installation and where no premises visit is required, will not be treated as a change of service. One-half of the standard Nonrecurring Channel Connection Charges as outlined under B107.2.3.A., B, and C will be applicable for these data transmission rate changes.				
5. Charges for SynchroNet service				
a. Service Ordering Charge				
(1) Per Service Order				
		Nonrecurring Charge	USOC	
(a) Point-to-Point Service		\$186.75	NA	
(b) Multipoint Service		234.25	NA	
(c) Inside Moves		122.00	NA	
(d). Secondary Channel Capability			NA	(M)

Note 1: Not available at all service locations.

Note 2: This option cannot be provided where 56.0 Kbps repeaters are required for digital local channels.

Note 3: Nonrecurring charge is applicable only if Secondary Channel service is being added subsequent to the installation of basic service.

Note 4: Refer to the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 4 for mileage measurement methodology and wire center Vertical (V) and Horizontal (H) coordinates. (T)(M)

- Note 2:** This option is not available with 64.0 Kbps. (T)(O)
- Note 3:** Nonrecurring charge is applicable only if Secondary Channel service is being added subsequent to the installation of basic service. (T)(O)
- Note 4:** As of October 1, 2013, payment periods greater than 36 months are no longer available for new or renewing subscribers. (T)(O)
- Note 5:** Effective December 31, 2013, customers may not establish new term plans of any length for SynchroNet Service, and existing term plans may not be renewed. For new service, or for existing service after any term plan expires, service will be provided only on a month-to-month basis. (T)(O)

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

(M)

B107.2 SynchroNet Service (Cont'd)

(T)(O)

B107.2.4 Types of Rates and Charges

(T)(O)

- A. The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

(O)

1. Monthly Rates

(O)

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have thirty days.

(O)

2. Nonrecurring Charges

(O)

Nonrecurring Charges are one-time charges that apply for a specific work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service rearrangements.

(O)

a. Installation of Service

(O)

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same premises locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

(O)

The nonrecurring charges for the Installation of Services are set forth in **B107.2.3.A.**

(T)(O)

Rates and charges for Network Interface Equipment are set forth in Section A14. of the General Exchange Guidebook.

(O)

- b. Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service. Nonrecurring charges for Optional Features and Functions are set forth **B107.2.3.C.**

(T)(O)

c. Service Rearrangements

(O)

- (1) Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes which result in the establishment of new minimum period obligations are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and charged for as set forth in **B107.2.5.**

(T)(O)

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

B107.2.4 Types of Rates and Charges (Cont'd)

A. (Cont'd)

2. Nonrecurring Charges (Cont'd)

c. Service Rearrangements (Cont'd)

(1) (Cont'd)

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Private Line Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name),
- Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment.
- Change in billing data (name, address or contact name or telephone number).
- Change of jurisdiction, e.g., intraLATA to intrastate, intrastate to interstate, etc. No Termination Liability Charges apply for service billed under the Channel Services Payment Plan (CSPP) if the customer subscribes to a payment arrangement offered in the appropriate guidebook which is a minimum twenty-four month service period or equals/exceeds the remaining contract period, whichever is greater.

(2) All other service rearrangements will be charged for as follows:

- If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element(s) being added will apply. Nonrecurring charges for interoffice channel mileage may also apply.
- If the change involves the addition of other customer designated premises to an existing two-point service, resulting in a multipoint circuit configuration, the nonrecurring charge for the local channel rate element(s) being added will apply. Nonrecurring charges for interoffice channel mileage may also apply.
- If the change involves the disconnection of a customer designated premises from an existing multipoint circuit resulting in a two-point circuit configuration, no charge will apply.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.
- Customer required changes of data transmission rates for a SynchroNet service, subsequent to initial installation and where no premises visit is required, will not be treated as a change of service. One-half of the standard guidebook nonrecurring charges as outlined in **B107.2.3.A** will be applicable for these data transmission rates.
- For rearrangements and all other activities involving physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service order, per change.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.2 SynchroNet Service (Cont'd)

(T)(O)

B107.2.4 Types of Rates and Charges (Cont'd)

(T)(O)

A. (Cont'd)

(T)(O)

2. Nonrecurring Charges (Cont'd)

(O)

c. Service Rearrangements (Cont'd)

(O)

(2) All other service rearrangements will be charged for as follows: (Cont'd)

(O)

- For a change of customer of record, where no specific transfer of service charge is stated, and for all other activities involving no physical changes, the following charges will apply: (1) If the request is for multiple circuits of the same type or speed, a charge equal to one "First" Local Channel nonrecurring charge applies, (2) If the request is for only one circuit, a charge equal to one "Additional" Local Channel nonrecurring charge applies, (3) If the request is for multiple circuits of different types or speeds, charges will be applicable for each type of circuit according to the same guidelines in (1) and (2) preceding.

(O)

B107.2.5 Moves

(T)(O)

A. A move involves a change in the physical location of one of the following:

(O)

1. The point of interface at the customer premises.
2. The customer's premises.

(O)

(O)

B. The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(O)

1. Moves Within the Same Building

(O)

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

(O)

2. To a Different Building

(O)

Moves to a different building, other than addressed in 3. following, will be treated as a discontinuance and a start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location except as provided for in **B107.2.2.F.** for service under CSPP. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

(T)(O)

3. Moves of Service(s) under CSPP

(O)

Customer requests for moves of service under CSPP, other than inside moves, will be subject to the conditions stated in B2.4.9.A.11.

B. Definitions

LIGHTGATE 2

(Obsoleted 11/30/01, Type D) Not available for new installations or moves of service to a difference premises. New channel activations must be ordered under section B7.4.5. No termination liability charge will be applicable for an existing customer under a CSPP arrangement who converts to rates in section 7.4.5 as long as the service is at the same location(s) for a service period equal to or greater than the time remaining on the existing CSPP arrangement. In addition, nonrecurring charges will be waived for customers converting their existing service to rates in section B7.4.5. Any new features added at the time of conversion will incur standard nonrecurring charges as stated in section B7.4.5.

This service provides extended service capability of multiples of DS3 data rates to the customer. Essentially, it provides three times the potential capacity of LightGate 1. The associated channelization equipment will permit combinations of DS3, DS1 and DS0 level services in a flexible building block structure. Automatic protection switching capability is inherent in this service. Appropriate electrical signals will be provided in accordance with the specifications of Technical Reference #73501. This offering is intended to be a very flexible, link connectable transport service for the very large customer. It has the capability of connecting with individual exchange and private line services, MegaLink channel service, SMARTRing service, and/or other LightGate services.

B107.4.4 Rates and Charges¹

(Obsoleted 11/30/01, Type D) Not available for new installations or moves of service to a difference premises. New channel activations must be ordered under section B7.4.5. No termination liability charge will be applicable for an existing customer under a CSPP arrangement who converts to rates in section B7.4.5 as long as the service is at the same location(s) for a service period equal to or greater than the time remaining on the existing CSPP arrangement. In addition, nonrecurring charges will be waived for customers converting their existing service to rates in section B7.4.5. Any new features added at the time of conversion will incur standard nonrecurring charges as stated in section B7.4.5.

A. Basic LightGate Service

	Nonrecurring Charge	Month To Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC
1. LightGate 1 System (One DS3 Capacity)						
a. Includes photonic common equipment and first one-half air mile of local channel fiber optic facilities. Additional specific interface equipment is required in the central office (C.O.) and customer premises, as contained following. Mileage charges are as contained in B. following.						
(1) LightGate 1 System						
(a) Per System	\$800.00	\$1,800.00	\$1,550.00	\$1,400.00	\$1,250.00	HFQ4N
(b) Per Central Office DS3 Interface ²	225.00	115.00	90.00	80.00	70.00	FQA4X
(c) Per Central Office DS1 Interface	170.00	12.00	8.00	7.00	6.00	FQA1X
(d) Per Customer Premises DS3 Interface ²	300.00	115.00	90.00	80.00	70.00	FQB4X
(e) Per Customer Premises DS1 Interface	250.00	17.00	13.00	11.50	10.00	FQB1X

Note 1: Month to month rates are only available at the end of a contract rate period.

Note 2: DS3 capability is provided where the customer does not desire channelization to DS1 channel levels. This interface should not be provided where DS1 level signals are provided at that system's termination point. However, if a DS3 signal is extended from the LightGate System local to a remote central office, a DS3/DS1 multiplexer may be ordered at the remote C.O., per DS3 channel, to derive DS1 channels at rates contained in B.2.(c) following.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE**B107.5 MegaLink ISDN Service (Cont'd)****B107.5.1 General (Cont'd)**

- B.** MegaLink ISDN service provides a method of access to the telephone network called Primary Rate Access. Primary Rate Access is an ISDN based, DS1 access link to the telecommunications network and provides integration of multiple voice and data transmission channels on the same line. The service will initially provide connectivity between an ISDN PBX or other ISDN compatible CPE and a serving central office. The basic channel structure for Primary Rate Access is twenty-three 64 Kbps (B) channels and one 64 Kbps (D) channel. Customers may activate any number of B channels from one to twenty-three. These B channels may be used to connect the customer's CPE to the Public Circuit Switched Network (e.g. outward, inward and two-way trunks, and WATS/800 Service access lines). MegaLink ISDN service may not be extended to Centrex Type Services or ESSX ISDN service.
- C.** MegaLink ISDN service is a service for the transmission of digital signals only. Clear Channel Capability and Extended Superframe Format are inherent to the service.
- D.** Unless specified following, the *terms and conditions* for MegaLink ISDN service specified herein apply in addition to the *terms and conditions* set forth in Section B2. (T)
- E.** MegaLink ISDN service is provided within a LATA from wire centers where appropriate ISDN facilities are available as determined by the Company. Service inquiries will be necessary to determine availability. Special Construction charges will apply as specified in B7.1.1.F. (T)

B107.5.2 Terms and Conditions (T)

- A.** Customer Premises Equipment (CPE) that is compatible with the MegaLink ISDN service interface is the responsibility of the user for provisioning.
- B.** The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Primary Rate MegaLink ISDN service render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
- C.** Digital transmission rates at speeds less than those indicated may be accomplished as a function of the particular CPE furnished by the user.
- D.** Suspension of service is not allowed.
- E.** *Terms and conditions* for Allowance of Interruptions apply as specified in Section A2. of the General Exchange Guidebook and Section B2. (T)
- F.** Minimum subscription period for which month-to-month Primary Rate services are furnished and for which charges are applicable is one month.
- G.** In addition to month-to-month rates, MegaLink ISDN service is available under contractual rate periods based on lengths of twenty-four to forty-eight months, forty-nine to seventy-two months, or seventy-three to ninety-six months.
- H.** Local exchange services utilizing the MegaLink ISDN service Primary Rate Interface are only available with Network Access Register (NAR) Packages located in Section A3. of the General Exchange Guidebook.
- I.** Rates for intraLATA WATS/800 service can be found in North Carolina's Non-Regulated Services – Pricing publication. (T)

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.5 MegaLink ISDN Service (Cont'd)

B107.5.2 Terms and Conditions (Cont'd)

- J. Verification and Emergency Interrupt service is not available for MegaLink ISDN services. (T)
- K. Telephone numbers transmitted via the Optional Incoming Call Identification feature are intended solely for the use of the MegaLink ISDN service subscriber. Resale of this information is prohibited by this *Guidebook*. (T)
- L. Non-facility Associated Signaling (NFAS) provides the capability to serve multiple DS1's over a single D-channel (NB+D). This feature can be ordered where switch capabilities exist as stipulated in the vendor technical documentation and where switch capacity exists. When NFAS is selected, the customer will order one MegaLink ISDN service arrangement with up to 23 B-channels and 1 D-channel. Additional MegaLink ISDN service arrangements are ordered with up to 24 B-channels at rates and charges provided in B107.5.6.C. The D-channel activated on the initial arrangement serves the additional MegaLink ISDN service arrangements. If the customer desires, he may also request a back-up D-channel with the NFAS option (NB+2D). It is recommended that D-channels be provisioned in separate MegaLink ISDN service arrangements.

B107.5.3 Definitions

B CHANNEL

A bidirectional synchronous channel capable of supporting 64 Kbps of digital transmission.

D CHANNEL

A 64 Kbps digital signaling only channel for call establishment when used with Primary Rate Access.

64 KBPS CLEAR CHANNEL CAPACITY (CCC)

A B channel connection that provides end-to-end digital connection in which all 64 Kbps of bandwidth are available for customer use.

THIRTY-SIX MONTH TERM PAYMENT PLAN

Payment periods may be selected from twenty-four months to forty-eight months in length at thirty-six month rates and charges.

SIXTY MONTH TERM PAYMENT PLAN

Payment periods may be selected from forty-nine months to seventy-two months in length at sixty month rates and charges.

EIGHTY-FOUR MONTH TERM PAYMENT PLAN

Payment periods may be selected from seventy-three to ninety-six months in length at eighty-four month rates and charges.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.5 MegaLink ISDN Service (Cont'd)

B107.5.4 Application of Rates

- A. MegaLink ISDN service Primary Rate Access Lines furnished between a Serving Wire Center and the customer's premises will be charged at rates based on the first 1/2 mile and each additional 1/2 mile for the airline distance measured between the customer's premises and the customer's Serving Wire Center.
- B. Interoffice Channels furnished between central offices will be charged at rates based on airline distance between the central offices.
- C. MegaLink ISDN service is available on a month-to-month basis or under variable rate periods, with rates based on length of twenty-four to forty-eight months, forty-nine to seventy-two months, or seventy-three to ninety-six months under conditions specified in the Channel Services Payment Plan in B2.4 except as modified following. (T)
- D. MegaLink ISDN service rates under any Term Payment Plan are exempt from Company-initiated changes for the payment period selected. Rates in effect at the time the service is installed and/or as of the service order application date, will be applicable until the contract expires. At the expiration date of the customer's payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.
- E. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.
- F. Airline distance between Company central offices shall be developed using the methodology found in B3.3.3. Fractional mileage shall be rounded up to the next full mile. (T)

B107.5.5 Service Components

- A. The customer may choose any number of channels up to twenty-three per Primary Rate Access to be active with a corresponding number of services (e.g. inward/outward trunks, WATS Lines, 800 Service) selected. The customer may also choose to have more services selected than channels available for specific applications. The total number of communication paths may not exceed the number of channels subscribed.
- B. The required components for MegaLink ISDN service will be as follows:
 - Primary Rate Access Line
 - Primary Rate Interface
 - Primary Rate "B" Channels
 - Call-by-Call/Integrated Service Access Feature Capability
 - Network Access and Usage Charges where applicable
 1. Primary Rate Access Line - will provide a four-wire access loop from the customer premises to the serving wire center. The transmission characteristics of this loop support Clear Channel Capability and Extended Superframe Format (ESF).
 2. Interoffice Channels - will provide for the transmission facilities between Company serving wire centers within a LATA.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.5 MegaLink ISDN Service (Cont'd)

B107.5.5 Service Components (Cont'd)

- B.** The required components for MegaLink ISDN service will be as follows: (Cont'd)
3. Primary Rate Interface - provides the multiplexing to support up to twenty-three B channels at 64 Kbps and one D channel for signaling also at 64 Kbps. When Non-Facility Associated Signaling (NFAS) is ordered, the Primary Rate Interface can provide up to twenty-four B-channels at 64 Kbps.
 4. Primary Rate "B" Channels - will provide a circuit switched service that will allow either voice or data transmission at up to 64 Kbps.
 - a. Monthly rates for Primary Rate "B" Channels will be billed for local exchange service in accordance with flat rate Network Access Register (NAR) rates and charges found in Section A3. of the General Exchange Guidebook for all ISDN facilities.
 - b. Voice calls may be completed to both ISDN and non-ISDN lines.
 - c. Data Transmission on the B channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices may be potentially subjected to analog transmission or sub-rated to 56 Kbps.
 - d. The customer may choose to subscribe to additional non-exchange based services. Initial choices for these services will be WATS and 800 Service. The subscription to these services is in addition to the charges for MegaLink ISDN service.
 5. Call-by-Call/Integrated Service Access Feature Capability - This feature will allow the customer to dynamically allocate the use of channels MegaLink ISDN service. The customer may also choose voice or data transmission on a per call basis. In addition, the customer may also choose to subscribe to more services than channels and dynamically change the services in use.
 6. Network Access and Usage Charges - Network Access for MegaLink ISDN service is based upon the type of service the customer desires. Exchange access is provided through the use of Network Access Registers found in Section A3. of the General Exchange Guidebook. Rates for intraLATA WATS/800 service can be found in North Carolina's Non-Regulated Services – Pricing publication. (T)
- C.** Incoming Call Identification - This optional feature provides the customer with the telephone number of the calling party on calls within the SS7 serving area. Incoming call identification is provided via the D Channel associated with incoming calls on a B channel(s) to a PBX. This feature is only available in office's in which Caller ID and associated blocking required by North Carolina Utilities Commission Order of May 12, 1992, in Docket P-55, Sub 925 are available. Where call blocking is available, Incoming Call Identification can be blocked if a customer elects to activate this service.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.5 MegaLink ISDN Service (Cont'd)

B107.5.6 Rates and Charges

A. A MegaLink ISDN Primary Rate Access Line is furnished between a Serving Wire Center and the customer's premises. Rates are based on the airline distance between the Serving Wire Center and the customer's premises.

1. Primary Rate Access Line, each

	Nonrecurring Charge	Month -to- Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC	
(a) First 1/2 mile	\$314.50	\$113.36	\$94.85	\$94.85	\$94.85	1LDN1	(1)
(b) Each additional 1/2 mile, or fraction thereof	-	50.21	41.60	40.65	39.70	1LDNA	(1)
(c) Connection for existing customer facilities	-	-	-	-	-	1LDNF	

B. Interoffice Channels furnished between central offices. Rates are based on the airline distance.

1. Interoffice Channel, each channel 0 - 8 miles

(a) Fixed monthly rate	121.00	77.57	64.85	64.85	64.85	1LNF8	(1)
(b) Each airline mile, or fraction thereof	-	32.23	27.10	26.20	26.15	1LNN8	(1)

2. Interoffice Channel, each channel 9 - 25 mile

(a) Fixed monthly rate	121.00	77.57	67.75	67.75	67.75	1LNF9	(1)
(b) Each airline mile, or fraction thereof	-	32.23	26.15	25.65	25.15	1LNN9	(1)

3. Interoffice Channel, each channel over 25 mile

(a) Fixed monthly rate	121.00	77.57	82.25	82.25	82.25	1LNF5	(1)
(b) Each airline mile, or fraction thereof	-	32.23	25.15	24.70	24.20	1LNN5	(1)

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE

B107.5 MegaLink ISDN Service (Cont'd)

B107.5.6 Rates and Charges (Cont'd)

- C. MegaLink ISDN services will be available in combinations of Primary Rate Channels according to the limits of the Company central office type. Customers will choose the most appropriate combination(s) and will be billed for the services as appropriate.

	Nonrecurring Charge	Month To Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC	
(1) Primary Rate Interface							
(a) Each	\$335.00	\$403.58	\$240.00	\$230.00	\$220.00	PRFS1	(1)
(2) Primary Rate "B" Channels							
(a) Per Channel	7.00	25.52	19.50	19.50	19.50	PRFCM	(1)
(3) Call -by-Call/Integrated Service Access Service Selection							
(a) Per facility group	110.00	17.81	10.00	10.00	10.00	PRFAS	(1)
D. Optional Features							
1. Incoming Call Identification Per Incoming or Two-Way NAR or In-WATS service							
(a) 1 - 8 Services, each	-	29.68	25.00	25.00	25.00	NUBC1	(1)
(b) 9 - 15 Services, each	-	23.74	20.00	20.00	20.00	NUBC2	(1)
(c) 16 or more Services, each	-	17.81	15.00	15.00	15.00	NUBC3	(1)
E. Move Charge							

A move charge, per MegaLink ISDN service applies for each Primary Rate Access Line moved to a new location in the same building. This move charge is equal to the sum of the Primary Rate Access Line Nonrecurring Charge, Service Change Charge - Inside Moves, and Premises Visit Charge.

F. Service Connection Charges

1. Service Establishment Charges are applicable, for each MegaLink ISDN service ordered, for receiving and recording information and/or taking action in connection with a customer's request, and processing the necessary data. These charges include engineering design, common centralized testing and coordination.
2. Service Change Charges are applicable for receiving and recording information and/or taking action in connection with a customer's inside move or transfer of service responsibility request, for processing the necessary data on an existing MegaLink ISDN service. A Service Change Charge is applicable for each Primary Rate Access Line associated with the customer request (in lieu of a Service Establishment Charge).
3. Premises Visit Charges are applicable, per Primary Rate Access Line, for the termination of a channel at a customer's premises or for inside moves. Only one Premises Visit Charge applies when more than one channel service of the same type is terminated or moved at the same premises at the same time.
