<b>Expected Issue Date:</b>	09/17/2021
<b>Expected Effective Date:</b>	09/17/2021
<b>Descriptive Narrative:</b>	<p>Effective September 17, 2021, the following services will be discontinued in the service area affected by the copper retirement of AT&amp;T's equipment and facilities due to the impact of the North Carolina Department of Transportation (NCDOT) Winston-Salem Northern Beltway road project. In preparation for an upcoming phase of this project, NCDOT has requested AT&amp;T North Carolina remove or relocate its facilities in the way of this road project near Oak Grove Church Road. This area is identified in AT&amp;T South Carolina's records as distribution area 2214E in the Lexington Road wire center (WNSLNCLE) which serves the Winston-Salem exchange.</p> <p>AT&amp;T is restoring many services in this area with a fiber-to-the-premises network architecture, which will increase the broadband service options for this area. AT&amp;T is discontinuing the following services because provisioning these services over the new architecture is either uneconomical or technically infeasible.</p> <p>The services to be discontinued in the affected areas include:</p> <p>General Exchange Guidebook Services</p> <ul style="list-style-type: none"> <li>- Community Caller Plus Service, PBX Trunks</li> <li>- Telephone Answering Service, PBX Trunks</li> <li>- Local Exceptions (Season Service), PBX Trunks</li> <li>- Expanded Local Saver Service, PBX Trunks</li> <li>- Auxiliary Line Service (Inward Service)</li> <li>- Foreign Exchange Service</li> <li>- Foreign Central Office Service</li> <li>- Private Branch Exchange Service</li> <li>- Trunk Lines</li> <li>- Direct-Inward-Dialing (DID) Service</li> <li>- Identified-Outward-Dialing (IOD) from Customer-Premises Located Switching Systems</li> <li>- BellSouth ISDN Centrex Service</li> <li>- Extension Services</li> </ul>
