

6.1 CENTRAL OFFICE SERVICES**6.1.1 PRIVATE BRANCH EXCHANGE TRUNKS****6.1.1.1 DIRECT-IN-DIALING TO PBX SYSTEMS****A. REGULATIONS**

1. DID service permits calls incoming to a PBX or other type customer-provided equipment from the network to reach a specific station line without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from the foreign central office equipped to provide DID service subject to the appropriate intra/interexchange rates.
2. Rates are in addition to the rates shown elsewhere in the Guidebook for the services with which this offering is associated (e.g. trunk-line rate).
3. The service includes central office switching equipment necessary for in-dialing from the network directly to stations associated with customer premises switching equipment or other equipment used for number identification purposes.
4. The service must be provided on all lines in a trunk group arranged for inward service. Each trunk group shall be considered a separate service.
5. Operational characteristics of interface signals between the Company provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards.
6. One primary listing will be furnished without charge for each separate trunk group. Additional listings can be obtained as specified in Part 12, Section 1 of this Guidebook.
7. The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of attendant intercept or recorded announcement service.
8. DID numbers in groups of 20, 60 or 100 may be reserved for future use at rates specified herein. The Company does not guarantee to provide reserved numbers arranged in a consecutive manner. The Company will be responsible for interception and administration of these numbers.
9. The removal of one or more numbers from a DID number block is offered, subject to the availability of facilities, at the charge specified in 6.1.1.1.B.1.c, following. In such cases, the customer shall continue to pay the appropriate rate for the original number block of DID numbers.

6.1.1 PRIVATE BRANCH EXCHANGE TRUNKS (Cont'd)

6.1.1.2 TWO-WAY OPERATION TO PBX SYSTEMS (DID/DOD)

A. REGULATIONS

1. Two-way Operation (DID/DOD) permits a call to or from a PBX station or other type customer-provided equipment from the network to reach its destination without the assistance of an attendant. Two-way operation is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from a foreign central office equipped to provide this service subject to the appropriate intra/interexchange rates.
2. All regulations set forth in Part 6, Section 1 of the Guidebook apply to this service with the distinction of two-way operation rather than in-dialing.
3. Two-way operation is only available on 4-wire trunks.

B. RATES AND CHARGES

1. Two-way Operation

	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>	<u>USOC</u>
