

1. BILLING NAME AND ADDRESS (BNA) SERVICES**A. Description**

BNA is a service whereby the Company will provide billing information to an Interexchange Carrier (IXC), to the extent the names and addresses are available in AT&T Ohio's customer information databases. The "customer" for BNA service is an IXC and the BNA information is for use by the IXC in connection with its business.

B. Regulations

The name and address information will be obtained by the Company from its customer information data bases. The name and address information will be provided for the calling number shown in the recorded customer message detail to the extent a name and address exists in the Company customer information data bases (e.g., some calling number names and addresses may be confidential). If the name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory requirements, the name and address information will not be provided unless the IXC is the Primary or Dial Up Interexchange Carrier or the IXC secures written permission from the end user and/or other party imposing the confidentiality requirement, for the Company to provide the information as requested by the IXC.

The request for name and address information will be provided in accordance with specifications provided by the Company.

At the request of an IXC, magnetic tape processing of the bill name and address information will be provided to the IXC. The Company will supply the magnetic tapes and the magnetic tapes will be provided without the return of previously supplied tapes. Unless specified otherwise by the IXC, the magnetic tapes will be sent to the IXC via first class U. S. Mail Service or other appropriate means. If expedited delivery is requested by the IXC, such expenses will be charged to the IXC. However, the IXC may pick up the magnetic tapes at a location designated by the Company or request that the detail on the magnetic tapes or in a data file be data transmitted to the IXC.

B. Regulations (Cont'd)

BNA output supplied by the Company is considered proprietary information. It will be provided to the IXCs for use by the IXCs in connection with its business. Any use of this information by the IXC's contractors, agents, or other third parties, not in connection with the IXC's business, shall be the responsibility of the IXC. The IXC shall affirm in writing that the Company is not responsible for the use by the IXC of this BNA information for purposes not in connection with the IXC's business.
