EXCHANGE ACCESS SERVICE (cont'd)

A. Exchange Rates (cont'd)

Footnotes for Service Charges

- /1/ In addition, apply a nonrecurring charge of \$6.00 when a customer has not subscribed to Touch-tone Service previously from the Company.
- /2/ See Part 4, Section 4 for reduced charges applicable to certain low income households eligible for Link Up America.
- /3/ This charge is waived, if applicable, if the customer subscribes to Custom BizSaver and is coming to AT&T Oklahoma from another carrier.
- /4/ This charge is waived, if applicable, if the customer subscribes to Custom BizSaver and this hunting feature is required to establish a Multiline bundle or establish an Additional Line (Option 2) and the customer is coming to AT&T Oklahoma from another carrier.
- /5/ Reserved for future use.
- /6/ Customers will receive a waiver of the applicable nonrecurring service installation charge associated with business access lines and analog trunks. Eligible customers are business customers who have their service with another carrier and who now wish to establish service with the Company. The customer must also commit to a minimum of a one year term plan. Nonrecurring charges waived under this discount plan will only apply to the exchange access lines that the customer installs on their initial order when establishing service with the Company. This offer cannot be combined with other business access lines and trunks nonrecurring Service installation charge waivers or credit offers.
- /7/ Eligible customers will receive a waiver of the applicable nonrecurring service installation charge associated with residence access lines. Eligible customers are residence customers who have their service with another carrier and who now wish to establish service with the Company. The customer must also subscribe to one of the following custom calling services: Call Waiting ID, Call Waiting ID Options, Three-Way Calling, Speed Calling 8, Priority Call, Call Return, Auto Redial, Call Blocker, Call Forwarding, Remote Access to Call Forwarding, Call Forwarding-Busy Line/Don't Answer, Caller ID (Calling Name Delivery Service and Calling Number Delivery Service), Anonymous Call Rejection or Personalized Ring. The nonrecurring service charge associated with custom calling service installation is also waived. Nonrecurring charges waived under this discount plan will only apply to the exchange access lines that the customer installs on their initial order when establishing service with the Company.

EXCHANGE ACCESS SERVICE (cont'd)

A. Exchange Rates (cont'd)

3. Local Exchange Service Features

a. Hunting Line Service

These services are available to customers where facilities exist.

Rotary Hunt: The hunt for an idle number starts with the called telephone number in a prearranged group and ends with the last telephone number in the group, completing the call to the first idle number encountered. Unless the first number is called, only a portion of the group is hunted.

Circle Hunt: Permits a complete hunt over all the numbers in a prearranged group. If no idle number is encountered, the hunt will continue until it reaches the number that was originally called.

The rates set forth below apply to each line arranged for hunting^{/2/}

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Installation Charge</u> ^{/1/}
Rotary.....	HSHT	\$57.00 (l)	\$3.00 ^{/3/}
Circle.....	HSHCH	57.00 (l)	3.00

/1/ Installation Charges apply in addition to Service Charges as specified in paragraph A.2.

/2/ See Part 20, Section 4 - CompleteLink for additional discount information.

/3/ This charge is waived, if applicable, if the customer subscribes to Custom BizSaver and this hunting feature is required to establish a Multiline bundle or establish an Additional Line (Option 2) and the customer is coming to AT&T Oklahoma from another carrier.

EXCHANGE ACCESS SERVICE (cont'd)

A. Exchange Rates (cont'd)

3. Local Exchange Service Features (cont'd)

b. Improved Transmission Service^{/1/}

Improved Voice Grade Transmission: The local exchange access line is designed on an individual basis to provide improved transmission characteristics which are normally required when the line is connected to a customer-provided switching system. The exchange access line loss will not exceed 4.0 dB at 1004 Hz when measured between the network interface and the local serving office.

Improved Non-voice Transmission: The local exchange access line is designed on an individual basis to provide improved gain/frequency-loss response. This service will typically support non-voice transmission at speeds up to 1200 baud. However, since transmission improvement is provided only on the customer's local line, no specific level of improved end-to-end transmission performance is guaranteed. The improved transmission parameters are as follows with specifications limited to measurement between the network interface and the local serving office:

- (a) Envelope delay distortion shall not exceed 650 mcs between 1004 and 2800 Hz
- (b) Loss deviation with frequency from a 1004 Hz reference shall not exceed -1 db to +3 db between 404 and 2804 Hz. (+ means more loss)
- (c) C-Notched noise not to exceed 30 dbrnCO
- (d) Impulse noise of 15 counts in 15 minutes at 59 dbrnCO

The rates set forth below apply to each line for which improved transmission service is provided.

	<u>USOC</u>	<u>Monthly Rate</u>
Improved Transmission ^{/2/}		
Voice Grade	LOS	\$3.50
Non-Voice	CQ4	3.50

c. Line Supervision

To change line supervision from loop start to ground start, or vice versa, on an existing exchange access line, the following charge applies:

	<u>USOC</u>	<u>Installation Charge</u> ^{/3/}
.....	NRCGL	\$19.00

/1/ Company changes, upgrades or replacements made in facilities to utilize services will provide adequate service for normal conversation with unconditioned services.

/2/ Service Charges apply as specified in paragraph A.2.

/3/ Installation Charges apply in addition to Service Charges as specified in paragraph A.2.

EXCHANGE ACCESS SERVICE (cont'd)

A. Exchange Rates (cont'd)

3. Local Exchange Service Features (cont'd)

d. Open Switch Interval Protection

Open Switch Interval Protection provides additional equipment on a customer's local exchange access line necessary to overcome the occurrence of open switching intervals resulting from an incompatibility of certain customer-provided equipment with the Company central office.

The rates set forth below apply to each line for which open switch interval protection is provided.

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Installation Charge</u> ^{/1/}
.....	53W	\$3.70	\$7.00

/1/ Installation Charges apply in addition to Service Charges as specified in paragraph A.2.

LOCAL EXTENDED AREA SERVICE CHARGES^{/1/}

<u>Rate Schedule</u>	<u>Exchange</u>	<u>Business^{/2,3/}</u>	<u>Residence</u>
