

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**A. Application of Guidebook Offerings**

1. This Guidebook applies to Long Distance Message Telecommunications Service furnished or made available by the Company over service components wholly within or partly within LATAs of the State of Oklahoma, between two or more intraLATA points within the State of Oklahoma, where the respective rate centers of such points are also located in said State, and to mobile telephone service under the provisions as set forth in Paragraph G of this Section.
2. Any change in rates or regulations authorized by the legally constituted authorities acts as a modification of all contracts to that extent without further notice.
3. Local Access Transport Areas (LATA) Boundaries.

B. Regulations

1. Scope

Long Distance Message Telecommunications Service (LDMTS) is the furnishing of those service components required for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Guidebook. The message charges specified in this Guidebook are in payment for Long Distance Message Telecommunications Service furnished between the calling and called service points.

The charges specified in this Guidebook do not contemplate work being performed by the Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional costs involved applies.

The Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.

2. Availability of Services

- a. In case a shortage of service components exists at any time, either for temporary or protracted periods, the establishment of Long Distance Message Telecommunications Service shall take precedence over all others.
- b. Service is furnished subject to the availability of the service components required. The Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.
- c. At the option of the Company, Billed Number Screening^{/1/} will be furnished to control instances of fraud associated with billed to third party, station to station service or person to person collect service, or in response to a customer request. (C)

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)
(N)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

3. Limitations on Duration of Connections

The Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions

4. Liability

- a. In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Company, and of the other uses for which service may be furnished him by the Company, and because of unavailability of errors incident to the services and to the use of such service components of the Company, the services furnished by the Company are subject to the terms, conditions and limitations specified in B, C, D and E following.
- b. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failures or defects in service components furnished by the Company, occurring in the course of furnishing service and not caused by the negligence of the customer, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission, or failure or defect in service components occurs. No other liability shall in any case attach to the Company in consideration of such interruptions.
- c. The customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of copyright from the material transmitted over its service; against claims for infringement of patents arising from combining with, using in connection with, service of the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with service provided by the Company.
- d. When the service components of other companies are used in establishing connections to points not reached by the Company's services, the Company is not liable for any act or omission of the other company or companies.
- e. Allowance for Interruptions - In the event a customer's service is interrupted other than by the negligence or willful act of the customer, and it remains out of order for 24 consecutive hours or longer after access to the premises is made available after being reported to be out of order, appropriate adjustments or refunds shall be made to the customer. The amount of adjustment or refund shall be determined on the basis of the known period of interruption, generally beginning from the time the service interruption is first reported. The refund to the customer shall be 1/30 of the monthly charge for the portion of the service facilities rendered useless or inoperative for each consecutive 24 hours or major fraction thereof of interruption.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

5. Use of Service

The service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Guidebook.

6. Abuse and Fraudulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- a. The use of the service of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service.
- b. The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, Long Distance Message Telecommunications Service, by rearranging, tampering with, or making connection with any service components of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- c. The use of the service of the Company for a call or calls anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment, or harass another.
- d. The use of profane or obscene language.
- e. The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

7. Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

8. Obligation of the Customer

- a. The calling party shall establish his identity in the course of any communication as often as may be necessary.
- b. The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called service point or service points.

9. Payment for Service

The customer is responsible for payment of all charges for services.

Payment dates and late payment charges are as specified in 'Rules and Regulations Applying to All Customers' Contracts' in Part 2, Section 2 of this Guidebook.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

10. Billing of Charges

- a. The charges for messages and services originated or charges accepted at the customer's service point are billed and collected by the Company or the connecting company from whose service point the messages were sent paid or at whose service point the messages were received collect.^{/1/}
- b. For features, which have monthly rates, the minimum contract term for which service is furnished, is one month.
- c. The monthly rates are in addition to the applicable local exchange access service rates specified in the providing carrier's local exchange tariff or Part 4, Section 2 of this guidebook.

(C)

11. Termination of Service for Cause

Upon nonpayment of any sum past due the Company may, after five days notice in writing to the customer and without incurring any liability, forthwith discontinue the furnishing of said service.

12. Unauthorized Attachments or Connections

No equipment, accessory, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the services furnished by the Company, whether mechanically, electrically, inductively, acoustically, or otherwise, except as provided in this Guidebook. In case any such unauthorized attachment or connection is made, the Company will take action to terminate existing service until the customer complies with the Guidebook. In such instances where property or life is endangered, the Company shall have the right to disconnect service or remove the cause of the impairment without notice to the customer.

13. Advance Payments

Applicants for Long Distance Message Telecommunications Service, whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation or other concern of established credit, may be required to make an advance payment of at least one month's estimated charges.

14. Deposits

Rules, regulations and amounts pertaining to advance payments, deposits, guaranty contracts and payments for service are as found in the Rules and Regulations Applying to all Customers' Contracts in Part 2, Section 2 of this Guidebook.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)
(N)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

15. Definitions

Accessories

The term "Accessories" denotes devices which are mechanically attached to, or used with, the services furnished by the Company and which are independent of, and not electrically, acoustically or inductively connected to, the conductors in the communications path of the telecommunications system.

Authorized Protective Connecting Module

The term "Authorized Protective Connecting Module" denotes a protective unit designed by the Company and manufactured under the control of Company quality assurance procedures, which unit is to be incorporated in a conforming answering device.

Bill to Third Number^{/1/}

The term "Bill to Third Number" denotes a billing arrangement by which a message may be charged to an authorized service point as determined by the Company other than the service point originating the message or the service point where the message is terminated.

(C)

Billed Number Screening^{/1/}

The term "Billed Number Screening" denotes an arrangement whereby at time of message origination, bill to third number, station-to-station or person-to-person collect calls are screened for customer pre-authorized or Company-directed non-acceptance. Screening is based on the "billed to" number.

(C)

Call Forwarding

Call Forwarding denotes that feature whereby a call placed to a customer's telephone number in one exchange (the call forwarding location) is automatically forwarded by company serving office equipment on a Long Distance Message Telecommunications Service basis only to a service point designated by said customer in another exchange. Provision of call forwarding is subject to the availability of service components.

Collect Call^{/1/}

The term "Collect Call" denotes the procedure by which calls, upon request, may be reversed, that is, charged to the called service point, provided the charges are accepted at the called service point.

(C)

Communications Systems

The term "Communication Systems" denotes channels and other service components which are capable, when not connected to the Telecommunications Network, of two-way communications between customer premises equipment and/or the Company service points.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)

(N)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

B. Regulations (cont'd)

15. Definitions (cont'd)

Company

The Southwestern Bell Telephone Company, LLC, d/b/a AT&T Oklahoma or concurring local exchange carriers.

(C)

Composite Data Service:

The combined use of terminal and data switching equipment provided by a Composite Data Service Vendor with the use of telecommunications services of the Company to perform data switching for others.

Composite Data Service Vendor

A customer that has been certificated by the proper state regulatory body, and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate service components to perform data switching for others. A customer shall be classified as a Composite Data Service Vendor only with respect to use of those exchange services, which are utilized for the provision of composite data service.

Conformance Number

The term "Conformance Number" denotes an identifying number assigned by the Company to a particular model of conforming answering device incorporating an authorized protective connecting module when that model or device is in conformance with the provisions set forth by the Company in its technical reference for conforming answering devices.

Conforming Answering Device

The term "Conforming Answering Device" denotes a device on the customer's premises which automatically answers incoming calls; transmits a prerecorded voice message or appropriate audible signal to the calling party; records a voice message from the calling party if so designed and arranged; and automatically disconnects from the line in a prearranged manner on completion of the last functions for which it was designed and arranged as described in this paragraph. The conforming answering device may include remote interrogation and/or device function control. A conforming answering device must incorporate an authorized protective connecting module and must bear a valid conformance number.

Connecting Arrangement

The term "Connecting Arrangement" denotes the equipment provided by the Company to accomplish the direct electrical connection of service components not provided by the Company with the services of the Company.

Customer

The term "Customer" denotes the person, firm or corporation responsible for the payment of charges and compliance with the regulations of the Company.

Customer Premises Equipment

The term "Customer Premises Equipment" denotes devices, apparatus, and their associated wiring, provided by a customer, which are used with the services furnished by the Company.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

15. Definitions (cont'd)

Demarcation Point

Denotes the point of interconnection between the Company's facilities and the wiring at the subscriber's premises. The demarcation point (referred to as network interface) shall consist of wire or a jack conforming to Subpart F of Part 68 of the Federal Communications Commission's Rules and Regulations. Terms and conditions for the location of demarcation points are found in the "Rules and Regulations Applying to all Customers' Contracts", Part 2, Section 2 of this Guidebook.

Direct Electrical Connection

The term "Direct Electrical Connection" denotes a physical connection of the electrical conductors in the communications path.

Exchange Access Arrangement

An Exchange Access Arrangement (EAA) is a telephone service component which permits access to and from both the customer's premises and the telephone exchange network point. A telephone exchange network point is also known as a serving office.

Initial And Additional Period

The term "Initial Period" denotes the interval of time allowed at the rate quoted for a long distance connection between given points. The term "Additional Period" denotes the unit of time used for measuring and charging for time in excess of the initial period.

Interexchange Carrier Or Interexchange Common Carrier

Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged for hire in interLATA intrastate, interstate or foreign communication between two or more exchanges.

Interface: See Demarcation Point

Intralata:

Long Distance Message Telecommunications Service where service point locations are all within the same LATA.

LATA

Local Access and Transport Area denotes a geographic area established for the administration of communication service. It encompasses designated local operating Telephone Company exchanges, which are grouped to serve common social, economic and miscellaneous purposes.

Local Service Area

The area within which service is furnished between customers without charge other than the charges specified in the Part 2 and Part 4.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

B. Regulations (cont'd)

15. Definitions (cont'd)

Network Control Signaling

Denotes the transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signaling (e.g., dialing), calling and called number identification, audible tone signals, (call progress signals indicating reorder or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of switching machines in the telecommunications system.

Network Interface: See Demarcation Point.

(D)

(D)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

B. Regulations (cont'd)

15. Definitions (cont'd)

Reseller

A customer that subscribes to communications services or facilities by one entity and reoffers communications services to its patrons for payment.

Sent Paid Service

Sent paid service includes all calls where the person originating the call pays for the call by having the call billed to the originating telephone number. Sent paid calls also include calls from pay telephones when the caller pays for the call by depositing coins.

Service Point

The term "Service Point" when used in connection with customer-provided communication channels, denotes the point of the customer's premises where channels provided by or furnished to the customer are terminated in switching equipment used, at least in part, for communications with service points or customer premises equipment.

Service Terminating Arrangement

Company-provided equipment which terminated exchange telephone service, used for Long Distance Message Telecommunications Service at a customer's premises. The "Service Terminating Arrangement" provides a clearly delineated interface, which facilitates the design, isolation, and testing of LDMTS. Where a protective connecting arrangement is required, the "Service Terminating Arrangement" is provided as a part of the protective connecting arrangement.

Station

The network control signaling unit, data set or other equipment provided at the customer's premises which enables the customer to establish the communications connection to effect communications through such connections; also denotes a termination of an individual exchange line provided in accordance with the provisions of this Guidebook, in switching equipment located in an exchange foreign to the exchange in which the customer is located.

Station-to-Station

The term "Station-to-Station" denotes that service where the person originating the call dials the telephone number desired, or gives to the Company operator the telephone number of the desired service point or gives only the name and address under which the number of the desired service point is listed and does not specify a particular person to be reached, nor a particular mobile service point to be reached through a Mobile Telephone Service Attendant, nor a particular service point, department or office to be reach through an attendant.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**B. Regulations (cont'd)**

15. Definitions (cont'd)

Station-to-Station: (cont'd)

"Dial Station-to-Station" is that Station-to-Station service where the person originating the call from other than a public or semi-public coin telephone dials the telephone number desired and the call is completed without the assistance of a Company operator and the call is not billed to a number other than the originating number, including: (1) when an operator records the originating telephone number where no automatic recording equipment is available; (2) when an operator reaches the called telephone number where service components are not available for dial completion; (3) when a operator places a call for a calling party who identifies himself has be disabled and unable to dial the call because of his disability; (4) when an operator re-establishes a call which has been interrupted after the called number has reached; then the dial Station to Station rate shall apply, and, (5) when an operator places a call for the calling party who declares that he has attempted to complete the call but has been unable to do so due to technical difficulties.

Station-to-Station calls may be dialed direct, or completed with the assistance of a Company operator. If the customer utilizes an operator, there are three levels of Operator Assistance service. They are:

- a. Non-Automated: Non-automated service is where the person originating the call dials zero, and the operator dials the number and collects billing information for completion of the call. Non-automated service includes service that is not fully automated or semi-automated. When an operator re-establishes a non-automated call, which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
- b. Semi-Automated: Semi-automated service is where the person originating the call dials zero (or 1+ calls from pay telephones), then dials the desired telephone number, and the operator collects billing information for completion of the call. When an operator re-establishes a semi-automated call, which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.

Telephone Company (the Company)

The Southwestern Bell Telephone Company, LLC, d/b/a AT&T Oklahoma or concurring local exchange carriers.

(C)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

B. Regulations (cont'd)

16. Application of Construction Charges

When special construction for individual customers is necessary, special construction charges may apply as set forth in the "Construction Charges" in Part 2, Section 5 of the Guidebook.

17. Time and Charges on Long Distance Messages

Time and charges on long distance messages may be quoted upon request from the customer. Name association with time and charge details will be provided where service components permit. The Company reserves the right to determine the service component used where there are multiple service components.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

C. Two-Point Service

Classes of Service

Service is offered on a Station-to-Station basis. Day, Evening, Night and Weekend rates apply to all classes of service as follows: (C)

1. Discounts for Dial Station-to-Station Message-rated Calls (Placed by Certified Hearing and/or Speech Disabled Residence Customers).

There are no discounts applied to Residential Message-rated Calls

2. Discounts for Residence Services Message-rated Calls

There are no discounts applied to Residence Message-rated Calls

3. Discount for Business Services Message-rated Calls.

There are no discounts applied to Business Message-rated Calls

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**C. Two-Point Service (cont'd)**

2. Reserved for future use.

(D)

(D)

3. Time of Day

The time when connection is established, as provided in 5.4 following, determined in accordance with the time - standard or daylight saving - legally or commonly in use at the location of the rate center at the point of message origination, determines whether Day, Evening, Night, or Weekend rates apply.

(C)

When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.

4. Initial and Additional Periods

- a. Long Distance Message Telecommunications Service usage rates are quoted in terms of initial and additional periods, unless otherwise noted in this Guidebook.

- (1) The initial period is the interval of time allowed at the rate quoted for a long distance connection between given points.

- (2) The additional period is the unit of time used for measuring and charging for time in excess of the initial period. All additional period rates are for each additional minute or any fraction thereof that the telephone connection continues beyond the initial period.

- b. Timing of Messages

- (1) On Station-to-Station message-rated calls, chargeable time begins when connection is established between the calling and the called service points, mobile telephone system, or customer premises equipment.

(D)

(D)

- (2) Chargeable time ends when the calling service point "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

(C)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**C. Two-Point Service (cont'd)**

4. Initial and Additional Periods (cont'd)

b. Timing of Messages (cont'd)

(4) Chargeable time does not include time lost because of faults or defects in service.

(5) When exchange telephone service used for Long Distance Message Telecommunications Service is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communication system, chargeable time for all classes of calls begins when a call from the telecommunication network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

5. Service From Coin Telephones

The appropriate initial period rate, additional period rate and service charge shown in 6 and 7 apply for all usage from coin telephones except:

- a. On sent paid calls from coin telephones and on collect calls received at coin telephones^{/1/}, the amount to be deposited is the sum of the appropriate initial period rate, additional period rate and service charge rounded to the nearest multiple of \$.05 to which shall be added the applicable taxes rounded off to the nearest multiple of \$.05. (C)
- b. When the message charge or the applicable taxes are midway between multiples of five cents, the next higher multiple shall apply. (C)

/1/

/1/ Material now appears on Sheet 14.1.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**C. Two-Point Service (cont'd)****6. Rates**

The following rates apply to intrastate intraLATA business between all points within the State of Oklahoma.

a. Usage - All Classes of Service

- (1) Initial period rates indicated in the rate table in 7, following are for connections of one minute or any fraction thereof, unless otherwise indicated in this Guidebook.
- (2) All additional minute rates indicated in the rate table in 7 are for each additional minute or any fraction thereof that the connection continues beyond the initial period or block of time period as indicated in 11. of this Guidebook.
- (3) Discounts for the evening, night and weekend reduced rate periods indicated in C.1.a and C.1.b are expressed as a percent reduction of the charge calculated at the rates indicated in the table in 7 and are applied to message connections established during the periods indicated in C.1.a and C.1.b.
- (4) Discounts apply to the charge for the initial minute occurring within the discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled. When application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.

b. Service Charges

The rates, which will apply on Operator Station-to-Station service, are found in the 'Operator Services' Part 11 and are in addition to other rates as specified in this Guidebook. Discounts as specified in C.1.a and C.1.b do not apply to Service Charges. Only one service charge per message will apply.

/1/

/1/

/1/ Material formerly appeared on Sheet 15.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**C. Two-Point Service (cont'd)**

7. Rate Table for message-rated calls Dial Station-to-Station and Operator Station-to-Station ^{/1,2/}

All Rate Mileage (1-82 & 83 and over) for both Initial Minute and Each Additional Minutes are:

Residential	\$0.74
Business	\$9.80

(l)

8. Rates Applicable to Messages Placed by Certified Hearing and/or Speech Disabled Residence Customers

Disabled persons who have been certified to the Company as having a hearing or speech impairment which necessitates that they communicate via a telecommunications device (e.g., teletypewriter or similar keyboard communications equipment) will receive, upon written application to the Company, discounts as shown in C.1.a. on intrastate intraLATA dial station-to-station message-rated calls placed from the premises of the certified residence account where the telecommunication device is located.

Certification of the hearing and/or speech disability requires the completion of an application form certified by a physician, otolaryngologist, audiologist, licensed speech-language pathologist or an authorized agency representing hearing and speech disabled individuals.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

D. RESERVED FOR FUTURE USE

(C)

(D)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

E. MOBILE LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

General Regulations

1. Definition - Mobile long distance message telecommunications service is a communication service through a mobile telephone service base station between a mobile unit and a land wire telephone located outside the flat rate calling scope of the exchange area associated with such base station, but within the same LATA, or between two mobile units served through base stations having different rate centers, both of which are in the same LATA.
2. Availability of Service
 - a. Mobile long distance message telecommunications service is available to mobile units equipped for this service when within range of a mobile telephone service base station through which such service is furnished and subject to transmission, atmospheric and like limitations.
 - b. Calls may be placed either to a specified person or to a specified telephone. The charges applicable are as specified in below.

Rates

The rates between the applicable land wire telephone rate center and the rate center of the serving base station or between the rate centers of two base stations are the Station-to-Station or Person-to-Person rates^{/1/}, according to the connection established, as set forth in A. and C. of this Section and Operator Assistance Service Charges in Part 11 of this Guidebook.

(C)

F. SPECIAL REDUCED RATES

Rates Applicable on Certain Holidays - On Christmas Day (December 25) and on New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day the holiday rate applicable on all classes of Two-Point message-rated Long Distance Message Telecommunications Service between points within the State of Oklahoma, is the Evening rate, unless a lower rate would normally apply. Discounts do not apply to service charges as specified in Operator Assistance Service Charges in Part 11 of this Guidebook.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)
(N)

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE**G. SELECTIVE CLASS OF CALL SCREENING**

General

1. Selective Class of Call Screening Service enables a customer, by means of operator identification, to restrict outgoing long distance calls to only those calls which are charged to the called telephone or a third number.^{/1/} (C)
2. All local calls and calls to Company numbers such as repair service, Directory Assistance Service and public emergency service numbers such as 911 will be permitted from the establishment.
3. This service is available only where service components permit.

Rates and Charges

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Installation Charge</u>	<u>Service Charge</u>
Selective Class of Call Screening, per system	SRG	\$54.65	\$556.00	\$6.75

H. CONNECTIONS OF CUSTOMER PREMISES EQUIPMENT

Connections of equipment will be made in accordance with the "Connections of Terminal Equipment and Communications Systems" in Part 2, Section 9.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)
(N)

INTRALATA TOLL PRESUBSCRIBED INTEREXCHANGE CARRIER CHANGE CHARGE

AT&T Oklahoma business and residence customers who convert their existing intraLATA toll service provider to AT&T Oklahoma from an alternate intraLATA toll service provider will not be charged the Local Presubscribed IntraLATA carrier (LPIC) change charge, per telephone number converted, as noted in the Access Service Tariff.
