(D)

CONFERENCE SERVICE

Conference service is that of furnishing connections between three or more Exchange Access Arrangements (EAA) on one connection at the same time.

A. Conditions Under Which Service is Furnished

1. Service is furnished where and to the extent that service components permit.
2. All Exchange Access Arrangements on an conference connection may be so interconnected that each may communicate with all the others, or arrangements may be made whereby one will be the transmitting service point and all others receiving service point.
3. Conference Call connections will be established on either a person-to-person or station-to station basis.
4. The Company, upon request, will attempt to arrange for the establishment of a conference connection at a specified time.

B. Billing of Conference Calls

Charges for conference calls may, upon request, be billed to a number other than the originating number, provided:

1. The total charge will be billed to one number.
2. The charge is accepted at the designated number.

C. Timing of Messages

1. A chargeable duration of the message is the elapsed time between the start of conversation, with all points on the conference connection, and the time at which the disconnect signal is received from the originating service point, indicating the termination of the conference, except as provided in C.2. below.
2. When the originating customer requests that a service point or service points be added to or disconnected from a conference call on which conversation is in progress, it is considered as terminating the call and initiating a new call to the revised group of service points.

CONFERENCE SERVICE (cont'd)**D. Rates and Charges**

The total charge for the conference connection is the sum of the set-up charge and the charge for the total conversation time.

1. The set-up charge is \$2.40 for each Exchange Access Arrangement included in the conference call.
2. The charge for conversation time will consist of the total minutes of the conversation multiplied by the appropriate charge per minute applying to the conference call. The charge per minute for each Exchange Access Arrangement is as follows:

<u>Mileage Between the 2 Most Distant Service Points</u>	<u>Charge Per Minute</u>
0 – 27	\$.08
28 – 66	.16
Over 66	.24
