ACCESS SERVICE

11. Special Facilities Routing of Access Services

11.1 Description of Special Facilities Routing of Access Services

The following list matches the Company's Basic Service Element (BSE) name to the industry standard name for each BSE.

<u>Company Name</u>	<u>Generic Name of ONA Service</u>
Diversity	Route Diversity

Services under this Tariff are provided over routes and facilities as the Company may elect. Special facilities routing provides for switched access, special access or special Federal Government access services under one or more of the following conditions:

Service is provided subject to the availability of facilities. In the event of service failure, restoration will be through the use of available facilities as selected by the Company.

To avoid a compromise of special routing information, the Company will provide such information only to the ordering customer.

The rates for special facilities routing will be determined on an individual case basis. They are in addition to all other rates and charges for services provided under other sections of this Tariff.

11.1.1 Diversity BSE

Two or more services provided over different physical routes.

11.1.2 Avoidance

A service provided on a route which avoids specified geographical locations.

11.1.3 Cable-Only Facilities

Certain voice grade services are provided on facilities to meet the particular needs of a customer.
