Telephone Exchange Service is the furnishing of facilities necessary for communicating within specified exchange areas. Service is comprised of three components - network access line, central office termination and usage. There are two classes of service, Non-Residence and Residence. Except where otherwise provided the monthly rates in this paragraph 1 cover the access line and central office termination for the types and classes of exchange service listed.

A. Network Access Lines

Monthly rates for network access lines are determined by class of service and by access area. The customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Section 1 preceding.

Central Office Termination

Furnishes dial tone along with a termination for the network access line to the serving central office for the placing and receiving of calls.

Basic Local Exchange Service (BLES)

Residential-end-user access to and usage of telephone-company-provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area exists on the effective date of the amendment of this section by S.B. 162 of the 128th general assembly;

Consists of all of the following services:

- Local dial tone service;
- For residential end users, flat-rate telephone exchange service;
- Touch tone dialing service;
- Access to and usage of 9-1-1 services, where such services are available;
- Access to operator services and directory assistance;
- Provision of a telephone directory in any reasonable format for no additional charge and a listing in that directory, with reasonable accommodations made for private listings;
- Per call, caller identification blocking services;
- Access to telecommunications relay service; and
- Access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies.

Small business means a nonresidential service customer with three or fewer service access lines. (N)
