1. MONTHLY EXCHANGE SERVICES

Price Flexibility

All the Company's exchanges have been deemed exempt from the requirements of Section 4927.12 of the Ohio Revised Code (ORC) per Section 4927.123 of the ORC effective April 22, 2023, and are no longer subject to pricing constraints.

Telephone Exchange Service is the furnishing of facilities necessary for communicating within specified exchange areas. Service is comprised of three components - network access line, central office termination and usage. There are two classes of service, Non-Residence and Residence. Except where otherwise provided the monthly rates in this paragraph 1 cover the access line and central office termination for the types and classes of exchange service listed.

A. Network Access Lines

Monthly rates for network access lines are determined by class of service and by access area. The customer's normal serving central office determines the applicable access area rate. The access areas, by exchange, are shown in Section 1 preceding.

Central Office Termination

Furnishes dial tone along with a termination for the network access line to the serving central office for the placing and receiving of calls.

Basic Local Exchange Service (BLES)

Residential-end-user access to and usage of telephone-company-provided services over a single line or small-business-end-user access to and usage of telephone-company-provided services over the primary access line of service, which in the case of residential and small-business access and usage is not part of a bundle or package of services, that does both of the following:

Enables a customer to originate or receive voice communications within a local service area as that area exists on the effective date of the amendment of this section by S.B. 162 of the 128th general assembly;

- Per call, caller identification blocking services;
- Access to telecommunications relay service; and

C. Local Exchange Usage

There are three types of local exchange usage: measured, message and flat. Effective February 15, 2015, Measured Rate, Message Rate, and Minute Line Services will no longer be available to residence customers.

1. Non-Residence BLES Measured Rate Service

Non-Residence measured rate local usage charges consist of per-minute usage charges based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

- (1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.
- (2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.
- (3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.
- (4) Chargeable time does not include time lost because of faults or defects in the service.

1. MONTHLY EXCHANGE SERVICES (cont'd)

C. Local Exchange Usage (cont'd)

1. Non-Residence BLES Measured Rate Service (cont'd)

c. Time of day

- (1) Discounts apply to the total charges for local messages during certain time periods as outlined below:

	<u>Time Periods</u>
No discount -	8:00 AM to 9:00 PM* - Monday through Friday
50% discount -	9:00 PM to 8:00 AM* - Monday through Friday (All day Saturday, Sunday and Holidays)

* To, but not including.

- (2) The holidays on which a 50% discount applies are Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, or on resulting legal holidays when Christmas, New Year's or Independence Day legal holidays fall on dates other than December 25, January 1 or July 4 respectively.
- (3) In cases where a local message begins in one time period and ends in another, the charges in effect at the time the message starts apply to the entire message.
- d. The per-minute charges for local message usage are based on summary billing for such usage by mileage step, initial period calls and total additional minutes of usage per mileage step. The charges will also be separated by time period. Special billing of local message charges requiring the assistance of a Company operator will not be provided.
