The following are not covered by this Service: AVOICS customers; AT&T IP Toll-Free customers, International Toll-Free customers; AT&T Voice DNA® Remote Worker without Secure Voice Tunnel Option; customers who provide Audio and/or Video Teleconference service; calls carried on an audio or video teleconference bridge; and Prepaid Card Providers. NetPROTECT does not cover any fraud event that originates on or otherwise utilizes a non-covered service.
2. This Service option is a value-added Remote Toll Fraud protection and notification plan that applies with respect to Covered Calls to or from a Premium CTS. When AT&T certifies Customer's CTS as a Premium CTS, Customer is not liable for charges for Remote Toll Fraud calls that commence during the Protected Period for that Premium CTS.
3. The Protected Period for a Premium CTS is the period from the commencement of this Service protection for the Premium CTS through two hours after any AT&T Notification or Customer Notification involving the Premium CTS. When the Protected Period has terminated as a result of an AT&T Notification or a Customer Notification, it will not recommence for the Covered Premium CTS in question until seven days after such termination (or until seven days after a subsequent AT&T Notification or Customer Notification that would have terminated the Protected Period if the Protected Period had been in effect for that Premium CTS).
4. The Protected Period does not include any period during which Customer has implement a restriction recommended by AT&T during an active Remote Toll Fraud incident. Any Remote Toll Fraud that involves a Premium CTS and that occurs when the Protected Period is not in effect for that Premium CTS will also be deemed not to have occurred during the Protected Period for any other Premium CTS involved in the same Remote Toll Fraud incident (regardless of whether the Protected Period otherwise would have been in effect for such Premium CTS).
