SECTION 4 – SWITCHED SERVICES RATES AND CHARGES

4.10 Miscellaneous Charges

4.10.1 Payphone Origination Charge

Pursuant to the FCC's Order in CC Docket 96-128, this service charge applies only to dial-around calls, i.e., calls originating using a carrier's access code, a Customer's 800/888/877 (and other area code assignments as appropriate) number and other toll-free numbers and debit card calls, from payphone instruments.

The Customer shall pay the Company a per call charge of \$0.60 per call for all such traffic.

4.10.2 Return Check Charge

When another telecommunications carrier provides the billing function on behalf of the Company, the other carrier's bad check charge applies. Otherwise, the Company will assess the Customer a return check charge of \$25.00 for any check that is returned for any reason by the financial institution on which it is drawn.

4.10.3 PIC Change Rebate

If local telephone company is requested to change the subscriber's PIC from one long distance service provider to another long distance service provider, the local telephone company may charge the Customer for the PIC change. If a Customer incurs such a charge from its local telephone company for changing the PIC to the Company, the Company will rebate that charge to the Customer. The rebate will be in the form of a credit on the Customer's bill. The credit will appear within two (2) billing cycles after the Customer provides the Company proof that the local telephone company billed the Customer for the PIC change.
