- A. Assigned telephone numbers without facilities will be provided to meet growth requirements of a Centrex Type Services subscriber and any associated ISDN service. These telephone numbers will be assigned to the subscriber's common block without being associated with a working station line and will be converted to active station lines as requested by the subscriber.

**A12.4.2. Terms and Conditions**

- A. The assignment of telephone numbers and the sequence of numbers assigned to a Centrex Type Services subscriber's system will be made at the discretion of the Company.
- B. The service is furnished subject to the availability of telephone numbers.
- C. The Company does not guarantee to provide consecutive telephone numbers.
- D. Calls to these assigned telephone numbers will be routed to intercept common recorded announcement facilities as indicated in the *guidebook* section for the subscriber's Centrex Type Services system.
- E. Telephone numbers furnished herein retain their status until associated with an active station line at which time the service assumes rates and charges applicable to the appropriate Centrex Type Services station line.
- F. These assigned telephone numbers will not be available for manipulation utilizing ECAS, DECAS, Customer Control, or BellSouth Centrex Control capabilities.
- G. Directory listings will not be provided with these assigned telephone numbers.
- H. These telephone numbers will be billed at the following rates until utilized on an active Centrex Type Services station line.
- I. A Secondary Service Charge applies per occasion for the assignment of any quantity of telephone numbers at the same time. A Secondary Service Charge does not apply when a working telephone number is converted to an Assigned Telephone Number.
- J. The Company will make every effort to insure the correct assignment and control of Assigned Centrex Type Services Telephone Numbers Without Facilities. The Company's liability for any damages or harm that may occur as the result of incorrect assignment or control of these numbers shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected.
- K. The installation charge for subscription to Assigned Centrex Type Services Telephone Numbers without Facilities will be waived through February 28, 2001.

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.7 Direct-Inward-Dialing (DID) Service

#### A12.7.1 General

- A. DID service permits calls incoming to a PBX system, Telephone Answering Service, or other Customer Premises Equipment requiring outputting-of-digits from the network to reach a specific station line without the assistance of an attendant. DID service is provided subject to the availability of facilities and telephone numbers and other conditions as specified in Section A2.3.1 and A15.
  - B. The rates specified herein are in addition to the rates shown elsewhere in the *Guidebook* for the services with which this offering is associated (e.g., central office PBX trunks, access lines, Sharing and Resale of Basic Local Exchange Service, etc.) (T)
  - C. DID service is optionally available with Identified Outward Dialing (IOD) service and includes central office switching equipment necessary for in-dialing from the network directly to stations associated with customer premises switching equipment. Subscribers to DID service will be required to maintain an adequate number of DID trunks as determined by the Company in order to provide "quality" grade of service and prevent Network degradation.
  - D. The service must be provided on all lines in a trunk group arranged. Where DID is required on more than one group of trunks or central office lines, each such group shall be considered as a separate DID service.
  - E. The assignment of DID telephone numbers is made at the discretion of the Company and will be provided in blocks of twenty consecutive numbers where number ranges permit. When a customer requests removal of a number(s) or changes to an existing group of consecutive numbers (defined as Non-Consecutive DID) rates and charges found in A12.7.2 will be applicable. Non-Consecutive DID numbers will only be provided to an existing DID customer or when a customer initially orders DID. Where the equipment configuration requires the assignment of blocks of telephone numbers or where the customer requests telephone numbers held in reserve for future use, rates and charges as shown A12.7.2 are applicable for each unused Non-Consecutive number(s) or group of telephone numbers.
  - F. When equipment or service of a special type arrangement is requested and provided, rates and charges are based on costs involved to meet the individual requirements of each case.
  - G. Operational characteristics of interface signals between the Company-provided facilities and the customer-provided switching equipment must conform to the *terms and conditions* the Company considers necessary to maintain proper standards of service as specified in other sections of this *Guidebook*. (T)
  - H. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations, or procedures of the Company render any of the facilities provided by a customer, authorized user, or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
  - I. Directory listings will be provided in accordance with the *terms and conditions* of Section A6. for PBX trunks. DID numbers furnished herein are not entitled to directory listings without charge. Where clients of a subscriber to DID service have no local exchange service but want to list one of these numbers, Sharing and Resale of Basic Local Exchange Service in Section A23. will be applicable. (T)
  - J. Automatic Intercept Service (AIS) for a non-listed disconnected DID telephone number will be provided at the rate shown in A12.7.2A., where facilities permit. AIS will provide a referral from the non-listed disconnected DID telephone number to the corresponding new telephone number for a maximum period of twelve months or until the delivery of the new Real White/Yellow Pages directory, whichever comes first.
- All switching systems provided this service must be arranged to provide for the intercepting of reserved, idle and/or unassigned station numbers.
- 1. Calls to vacant, non-working and reserved numbers will be routed to the Customer Premises Equipment for handling. On incoming calls from the network to invalid numbers or restricted stations in DID equipped Customer Premises Equipment only two methods of intercept are acceptable: Attendant or Recorded Announcement. Due to the network irregularities that can be caused, no form of tone intercept is permitted.

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.8 Identified-Outward-Dialing (IOD) from Customer-Premises Located Switching Systems

#### A12.8.1 General

- A. The service is optionally available with DID service and furnished subject to the availability of facilities within the customer's normal central office area and other conditions as specified in A2.3.1 and Section A15. (T)
- B. The service includes the central office equipment necessary for identification of outgoing toll messages and billing of toll messages by station number and furnished subject to the on-premises equipment being arranged for IOD service.
- C. The service must be provided on all Direct Outward Dialing trunks or lines in a group.
- D. Where Identified-Outward-Dialing is requested on more than one group of trunks or lines, each such group shall be considered as a separate IOD service.
- E. The minimum contract period for the service is three years. In case of discontinuance or reduction of service within the minimum contract period, a basic termination charge as shown in A12.8.2 following, reduced by 1/36 for each full month of service provided, shall be applied.
- F. When equipment or service of a special type is requested and provided, rates and charges based on the additional costs involved to meet the individual requirements of each case at the time of occurrence.
- G. Operational characteristics of interface signals between the Company provided facilities and the customer-provided equipment must conform to the *terms and conditions* the Company considers necessary to maintain proper standards of service. (T)
- H. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations, or procedures of the Company render any of the facilities provided by a customer, authorized user, or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

#### **A12.25.1 General**

- A.** BellSouth Centrex service provides an arrangement of switching equipment and station lines for intercommunicating among the station lines and for connection through the local and long distance message network to other subscribers on a dial basis. BellSouth Centrex service is furnished from central office equipment located on Company premises and associated facilities arranged to provide the following basic service capabilities/features.
  - 1. Exchange and long distance message network calls may be made to station lines by dialing the number associated with that station line or attendant position.
  - 2. Exchange and long distance message network calls may be made from station lines via direct outward dialing.
  - 3. Station-to-station intercommunication via two to ten-digit dialing between station lines of the subscriber's system.
  - 4. Outgoing long distance message calls dialed by a station line will be identified by the seven-digit station number. Only calls billed to the subscriber by the Company will be provided this identification.
  - 5. Touch-Tone service.
  - 6. Common recorded announcement interception of calls to unassigned station numbers.
- B.** BellSouth Centrex service will be furnished to subscribers requesting one (1) or more station lines served by the same central office equipment.
- C.** A subscriber's system may be comprised of the following components:
  - Common Equipment
  - Station Lines
  - Network Access Registers
  - Optional Features
- D.** Access to the local and long distance message networks will be provided via Network Access Registers (NARs) at the rates and charges indicated in Section A3.

#### **A12.25.2 Terms and Conditions**

- A.** BellSouth Centrex service is furnished subject to the availability of facilities and features from central office equipment located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions.
- B.** Each system established must consist of a minimum of the Common Equipment, one (1) station line and one (1) Network Access Register.
- C.** A station line will be comprised of the Standard Features and the associated Station Link, which include access to the serving central office equipment.
- D.** BellSouth Centrex service will not be offered in a manner which provides for intercommunication only.

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.25 BellSouth Centrex Service (Cont'd)

#### A12.25.2 Terms and Conditions (Cont'd)

- E. Facilities may be used for direct connections between a subscriber's BellSouth Centrex service and other systems primarily for communication between stations of the two systems. Rates and charges for these connection facilities are specified in either Section A13. or Section B3. of the Private Line *Guidebook*. Charges for access to Private Facilities as specified in A12.25.8.E. are applicable. These facilities, connecting BellSouth Centrex service, may be arranged to provide completion of incoming or outgoing exchange and long distance message network through the subscriber's BellSouth Centrex service system to or from other systems, provided such connections to the exchange or long distance message network are only made one system at a time.
- F. Station lines may require customer-provided compatible terminal equipment.
- G. If the subscriber of BellSouth Centrex service has a Message Rate service, usage charges as specified in Section A3. are applicable on calls to locations outside the subscriber's system in addition to rates and charges in this and other *guidebook* sections for BellSouth Centrex service and other associated services. Usage charges are not applicable on calls originated and terminated within the same BellSouth Centrex service system, unless the system is equipped with Assumed Dial '9', in which case any appropriate usage charges will be applicable. (T)
- H. Suspension/Denial of Service - BellSouth Centrex service may be suspended or denied at the subscriber's request or at the instance of the Company.
  - 1. Full suspension of service at the request of the subscriber will be allowed on the Common Equipment, Station Links, and certain ISDN elements as indicated in A12.26.2 in a system at 50 percent of the rate regularly charged. Full suspension of a system requires that all Station Links and the ISDN elements indicated in A12.26.2 in a system be suspended. Standard Features and Optional Features outlined in Section A12. will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. apply. Charges for restoration will be applicable as specified in Section A4.
  - 2. Partial suspension of service at the request of the subscriber will be allowed on selected Station Link(s) and certain ISDN elements indicated in A12.26.2 in a system at 50 percent of the rate regularly charged. Standard Features and Optional Features outlined in Section A12. associated with the Station Link(s) suspended will be suspended at no recurring charge during the period of suspension unless otherwise noted. For BellSouth Centrex service, there is no time limitation for suspension of service. Other rules and restrictions as outlined in Section A2. apply. Charges for restoration will be applicable as specified in Section A4.
  - 3. Denial at the instance of the Company will be allowed for non-payment of rates and charges for BellSouth Centrex service and the associated services. Restoration charges will be applicable as specified in Section A4..
- I. Directory Listings will be furnished subject to the rates, *terms and conditions* specified in Section A6. (T)
- J. Service charges, as specified in Section A4, apply to each station line in the same manner as for an individual business line and to all of the subscriber's systems unless otherwise indicated. A Secondary Service Charge from Section A4. applies per occasion for the addition or change of a feature or features provided as part of the Standard Features element.
- K. BellSouth Centrex service installation charges are due on initial installation unless arrangements are made for Installment or Deferred Billing.
- L. For purposes of application of End User Common Line charges only, charges for BellSouth Centrex service station lines will be as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
- M. Concessions will not apply to BellSouth Centrex service except those allowed to Corporate Communication BellSouth Centrex service accounts.
- N. Service charges will not apply for the provision of Calling Number Delivery Blocking.
- O. During collection or distribution of the subscriber's ACD-NMR and/or Switch-Computer Application Interface (SCAI) Link data, due to faults or defects in telephone equipment, data may be destroyed. The Company shall not be liable, directly or indirectly, for damages, except as outlined in A2.5.1.

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.25 BellSouth Centrex Service (Cont'd)

#### A12.25.2 Terms and Conditions (Cont'd)

- P.** Customer Premises Equipment (CPE) and software for use with ACD and/or Switch-Computer Application Interface (SCAI) Link is the responsibility of the user for provisioning. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD Service render any facilities provided by the customer obsolete, or require modification or alteration of such equipment or system, or otherwise affect its use or performance.
- Q.** A mixture of Flat Rate and Message Rate Local Exchange Service will not be allowed.
- R.** BellSouth Centrex ISDN Service lines may be purchased out of A12.26 to be associated with BellSouth Centrex service. Terms and conditions of BellSouth Centrex service will apply to these BellSouth Centrex ISDN service lines except as otherwise stated in A12.26.
- BellSouth Centrex ISDN service lines may subscribe to compatible Optional Features from this Section.
- S.** Flat Rate service available to the subscriber is outlined in Section A3.
- T.** Specific name and location data associated with BellSouth Centrex service station lines, if requested, will be provided to BellSouth by the subscriber. The Company is not responsible for any issues that may arise from inaccurate data. In the event any claim is brought against the Company in connection with any errors or omissions in name and location data, the Company's liability shall be limited to one month's service for the BellSouth Centrex service station line or station lines involved.

#### A12.25.3 Unconditional Satisfaction Guarantee

- A.** If the subscriber is not completely satisfied with BellSouth Centrex service within ninety (90) days of the earliest effective billing date, all payments will be handled as indicated in this paragraph.
1. The following charges will be refunded:
    - a. Nonrecurring and recurring charges (up to ninety days recurring billing) for rate elements as specified in this section for BellSouth Centrex service.
    - b. Service charges from Section A4.
  2. The following charges will not be refunded:
    - a. End User Common Line charges as specified in BellSouth Telecommunications, Inc. Tariff F.C.C. No. 1, Section 4.
    - b. Usage Charges from Section A3.
  3. Customer-provided equipment acquired for use with BellSouth Centrex service will not be included in this plan.
  4. Other facilities, features, and services not located in this Section will not be included in this plan.
  5. This guarantee will not apply to transfers of service, moves, conversions, or renewal of Payment Plan and/or Rate Stability Plan.
  6. BellSouth Centrex service will be disconnected no later than ten (10) days after receipt of notification of dissatisfaction.
  7. Subscribers requesting an extension of the ten (10) day disconnection interval to accommodate installation of a replacement product/service, will be billed the recurring rates applicable to the subscriber's system when installed for that period, not to exceed six (6) months.
  8. Subscribers must retain continuous service beyond the ninety (90) days utilizing other BellSouth services.
  9. Cancellation charges will not apply to BellSouth Centrex service disconnected under this plan.

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

### A12.25 BellSouth Centrex Service (Cont'd)

#### A12.25.6 Payment Schedules

##### A. General

1. BellSouth Centrex service is offered at the rates and charges indicated in this section.
2. The subscriber may choose from the Payment Plans and Rate Stability Plans as offered in this section.
3. The rates applicable for the Common Equipment and Station Links must be under the same Payment Plan.
4. The rates for the Common Equipment indicated in this section may be stabilized for 12, 24, 36, 48<sup>1</sup>, or 60<sup>1</sup> months, as selected by the subscriber, with a Rate Stability Plan under the *terms and conditions* in this Section. (T)
5. Subscribers will have the BellSouth Centrex service Common Equipment rates indicated in this section stabilized for their chosen Payment Plan and Rate Stability Plan period. Stabilized rates will not be subject to Company initiated increases for the duration of the stabilized period. Rates for the Station Links, Standard Features, Optional Features, and other rate elements in this section associated with BellSouth Centrex service will not be increased for the Rate Stability Plan period associated with the Common Equipment. Decreases for any rate element will automatically flow through to all customers.
6. Except as indicated in A12.25.6.A.5. preceding, the Common Equipment Payment Plan recurring rate will be applicable for the length of the Rate Stability Plan period subject to the Cancellation Charge indicated in A12.25.6.C. following. Station Links, Standard Features, and Optional Features may be added or removed without the application of a Cancellation Charge.
7. Subscribers may apply for rates developed and offered via a Contract Service Arrangement as specified in Section A5.

##### B. Expiration of Rate Stability Plan Period

1. BellSouth Centrex service subscribers may upon the expiration of their contract choose either a. or b. following.
  - a. The subscriber may continue to receive BellSouth Centrex service under their previously selected Payment Plan and Rate Stability Plan period for their Common Equipment. The currently effective rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this section.
  - b. The subscriber may choose another Payment Plan and/or Rate Stability Plan period for their Common Equipment. The currently effective rates will apply for the Common Equipment, Standard Features, Optional Features, and other rate elements in this section. If the new Rate Stability Plan period is for 24 months or greater, one month of the Common Equipment monthly rate for the Payment Plan and Rate Stability Plan period selected will be waived for each year of the new Rate Stability Plan period. This waiver does not apply to conversions of other services to BellSouth Centrex service.
2. BellSouth Centrex service subscribers may at any time during their selected Payment Plan and Rate Stability Plan period choose another Payment Plan with a Common Equipment monthly rate equal to or greater than their current Common Equipment rate and a Rate Stability Plan period equal to or greater than the amount of time remaining on their existing Rate Stability Plan period. The new rates will be the currently effective rates. If the subscriber is within the last six months of his Rate Stability Plan Period, the waiver described in A12.25.6.B.1.b preceding is applicable.

##### C. Cancellation Charges

1. The following charges are incurred when a complete removal of a BellSouth Centrex service system occurs prior to the expiration of the Rate Stability Plan.

The subscriber's Rate Stability Plan cancellation charge will be the total amount of the BellSouth Centrex service Common Equipment monthly rate committed to by the subscriber for the remaining months of his Payment Plan and Rate Stability Plan period.
2. Cancellation charges may be applicable whether the disconnection occurs at the subscriber's request or at the instance of the Company.

**A12.25.14 Systems Communication Service (SCS)**

**A. General**

1. Systems Communication Service (SCS) is an arrangement that provides abbreviated dialing between systems. SCS allows users in a BellSouth Centrex service system to dial four or five digits to reach users in the other destinations included in the SCS arrangement. Destinations included in the SCS arrangement may be PBX, MultiServ service, MultiServ PLUS service, BellSouth Centrex service or any other location which may be dialed directly (the subscriber may subscribe to BellSouth Centrex service at the other locations, but it is not required). The calls can be local or toll.
2. The only function SCS offers to BellSouth Centrex service subscribers is abbreviated dialing to the other selected locations.

**B. Terms and Conditions**

1. SCS will allow four or five-digit dialing on a system basis to the subscriber's distant number range. SCS will prefix any Access Code (if required), Home (HNPA) or Foreign Numbering Plan Area (FNPA) (if required), and NXX dialed by the subscriber before routing to the distant location.
2. The four or five-digit abbreviated dialing ranges cannot be duplicated at any other SCS location or destination.
3. BellSouth Centrex service common equipment is required at each serving central office at which SCS is provided.
4. SCS will be offered only where facilities exist.
5. IntraLATA toll calls will be subject to the applicable rates for the authorized intraLATA toll service selected by the subscriber. InterLATA toll calls will be routed to the Interexchange Carrier (IC) to which the subscriber has presubscribed. Other usage charges will apply as appropriate.

**Note 1:** See A12.25.13.A.1. for availability of functions included in this rate element.

**Note 2:** Rates and charges for terminations in BellSouth Centrex service (other than Tandem Switching Features SFGs) are located in A12.25.8.

**A12.25.15 Telephone Numbers and Facilities Reserved for Future Use**

**A. General**

- 1. A customer may reserve preassigned telephone numbers and facilities necessary to meet their specified growth requirements at specific locations on a mutually agreeable date. In the event the customer elects not to be provided with reserve telephone numbers, timely station line additions cannot be assured and facilities necessary for growth requirements will be provided only within normal engineering and construction intervals.
- 2. Telephone numbers reserved for future use includes preassigned telephone numbers and the facilities required. Such telephone numbers and facilities will be removed from reserved status and assigned as active station lines as requested by the customer.
- 3. The assignment of telephone numbers and the sequence of numbers assigned to a subscriber's system is made at the discretion of the Company.
- 4. The service is furnished subject to the availability of facilities and telephone numbers.
- 5. Calls to reserved (unassigned) telephone numbers will be routed to intercept common recorded announcement facilities as specified in A12.25.1.A.
- 6. Telephone numbers furnished herein retain their reserved status until assigned to a station line at which time the service assumes rates and charges applicable to a BellSouth Centrex service station line.
- 7. Reserved numbers not assigned to a station line will be billed at the following rates until removed from reserved status or billed as an active BellSouth Centrex service station line.

**A12.25.16 BellSouth Centrex Control**

**A. Description of Service**

- 1. BellSouth Centrex Control is a feature of BellSouth Centrex service which utilizes a computer-based operations system accessed via an Internet connection or a Company Secure Network pending conversion to Internet access. BellSouth Centrex Control allows end users to activate and/or deactivate selected features and/or change certain service options and feature configurations on designated BellSouth Centrex service station lines. These changes can be performed on a per line basis or a bulk change basis. Subscriber provided equipment is required for the operation of BellSouth Centrex Control. The BellSouth Centrex Control feature is available where central office switching systems and facilities permit. ISDN station lines will only be controllable in the DMS-100 and 5ESS switches where facilities permit.
- 2. For access to BellSouth Centrex Control, the subscriber will be required to provide appropriate equipment and Internet access. Service established prior to June 30, 2006, using dedicated access lines will be converted to Internet access.

**Note 1:** Billing will be in increments of 100 numbers. Partial increments will be rounded up to the next 100.

If the subscriber requests that the Company provide access to some controllable optional features subsequent to initial installation, the nonrecurring charge in A12.25.16.E.5.(b) following will be applicable. Depending on the subscriber's serving central office switch type, all features may not be controllable via BellSouth Centrex Control.
6. If the subscriber wishes to provision the station line initially, the Company will first provide the station lines with the basic service capabilities/features indicated in A12.25.1.A.
7. BellSouth Centrex Control allows the subscriber to schedule changes for completion by the next business day or for a future business day. Additional priority changes may be requested and the changes completed the same day subject to switch access availability.
8. BellSouth Centrex Control is furnished subject to the availability of facilities and features.
9. If a subscriber requests BellSouth Centrex Control on any station lines in a system, all station lines in that system must be equipped for BellSouth Centrex Control. The Company reserves the right to make certain station lines inaccessible for BellSouth Centrex Control.
10. Service established prior to June 30, 2006, pending conversion to Internet access requires use of a Security Card, see A12.25.16.  
BellSouth Centrex Control utilizes Internet access and provides security by requiring login and password identifiers. The subscriber must have one user ID and password for each user accessing the BellSouth Centrex Control Database. In addition, BellSouth Centrex Control ensures that the user can access only their portion of their database. The subscriber will be required to authenticate with a user ID and password before access is permitted  
(Obsoleted, see Section A112.)
11. The subscriber will be provided one user ID and password in conjunction with the Service Establishment, Initial Setup. Additional user IDs will be needed if multiple users are to access the data base. Additional user IDs can be obtained per A12.25.16.E following.
12. The subscriber will be provided one Data Base setup in conjunction with the Service Establishment, Initial Setup.
13. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions or TN swaps, as outlined in A12.25.16.E following, for new and existing BellSouth Centrex service subscribers. TN swaps can only be performed for like type station lines and facilities.
  - Change station line features,
  - Delete features from a line or
  - Add new features to a line.
14. (Obsoleted, see Section A112.)

##### A. Description of Service (Cont'd)

15. BellSouth Centrex Control provides the subscriber with the ability to print standard administrative reports.
16. BellSouth Centrex Control subscribers may have capabilities beyond those indicated in this section that are not available to non-Centrex Control subscribers.

##### B. *Terms and Conditions*

1. BellSouth Centrex Control is furnished subject to the availability of facilities and the ability of the software to control the requested feature. (T)
2. Limitations and use of BellSouth Centrex Control as stated in Section A2 will apply.
3. Suspension of service at reduced rates as specified in A12.25.2 is not applicable if the customer utilizes BellSouth Centrex Control to deactivate station lines. Suspension of service by the Company will have reduced rates applicable as indicated in A12.25.2.
4. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission, or failure of performance by the Company, or its employees, or agents, in line with this *guidebook*. (T)
5. To access the BellSouth Centrex Control database, the subscriber must use Internet access or (for service established prior to June 30, 2006, awaiting conversion to Internet access) a voice grade line or the equivalent.
6. All BellSouth Centrex Control controllable lines in the 1AESS, 5ESS, DMS-100, and EWSD switches must be provisioned with a Caller ID Station Link.
7. For station lines equipped with BellSouth Centrex Control, the subscriber can verify and/or display the assignment of features on a single line, range of station lines or all station lines to determine which station line or station lines have a particular feature or service option.
8. BellSouth Centrex Control changes must be entered in conjunction with the following:
  - Prior to Company designated schedules, or
  - As priority changes, or
  - As future dated transactions by the subscriber.
9. The subscriber will be responsible for installation, maintenance and testing of compatible customer-provided equipment (CPE).
10. The Company does not assume responsibility for the compatibility or suitability of the subscriber's (CPE) equipment.
11. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of BellSouth Centrex Control render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
12. The subscriber must provide the Company with a central point of contact for inquiries and/or trouble reports involving station features.
13. The BellSouth Centrex Control subscriber is responsible for initiating a Service Order to correct any information pertaining to the Company's Published Directory Listings that changed as a result of a BellSouth Centrex Control TN Swap. The appropriate Service Charges specified in Section A4. apply.
14. The subscriber must notify BellSouth when an available telephone number used or intended for use as an Additional Directory Number (ADN) is assigned, moved, or deleted by the subscriber in order to assure the appropriate treatment of required information such as PIC, 911, and repair service data. The Company is not responsible for any issues that may arise from inaccurate data or lack of subscriber notification. In the event any claim is brought against the Company in connection with any errors or omissions, the Company's liability shall be limited to one month's service for the BellSouth Centrex service station line or station lines involved.

##### C. Moves of Service

1. When a subscriber elects to move service from one serving central office to a different serving central office, the BellSouth Centrex Control Service Establishment charge will apply.
2. Moves of Service *terms and conditions* as outlined in A12.25.7.A preceding are applicable. (T)

## A12. CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

### A12.26 BellSouth Centrex ISDN Service (Cont'd)

#### A12.26.1 General (Cont'd)

- E.** The following parameters may be provided with Packet Switched B channel and D channel Services:

Each B channel packet terminal will be provided logical channels up to the technical capability of the serving central office. Each logical channel can carry an independent call with throughput of up to 64 Kbps.

Each D channel packet terminal will be provided logical channels up to the technical capabilities of the serving central office. Each logical channel can carry an independent call with throughput of up to 9.6 Kbps. Each logical channel may be established as one of the following types:

- Two-Way Switched Virtual Circuit (default)
- One-Way Incoming Switched Virtual Circuit
- One-Way Outgoing Switched Virtual Circuit

1. Flow Control Parameter Negotiation - This parameter negotiates on a per call basis the flow control parameters. This consists of automatic negotiation of the maximum packet size and window size for each direction of data transmission.
2. Throughput Class Negotiation - This parameter allows the calling station to request specific throughput classes in the call request packet for both directions of data transmission.
3. Recognized Private Operation Agency (RPOA) Selection - This parameter allows an ISDN user to specify an interLATA carrier (IC) for packet-switching on a per-call basis when the customers want it different from presubscribed IC.
4. Interexchange Packet - Preselect - This parameter allows an ISDN user to specify an interLATA carrier for packet switching at the time of subscription.
5. Fast Select Option - This parameter permits user data to be passed in the call set up packets of a virtual call.
6. Reverse Charging Option - This parameter permits the data communications equipment to transmit incoming calls requesting reverse charging to the user. The user must be subscribed to the destination line for X.25 Reverse Charge calls to be completed. If not, the call requesting reverse charging is refused.

- F.** BellSouth Centrex ISDN Service will consist of the following components:

- BellSouth Centrex Service Common Equipment
- Station Lines
- Network Access Registers
- Optional Features

- G.** The BellSouth Centrex ISDN service station line will be comprised of the following components:
