A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

A114.3 Obsolete ESSX-1 Customer Premises Attendant Services (Cont'd)

A114.3.1 50A Consoles (Cont'd)

A. General

1. The 50A Consoles are provided only where the central office serving the ESSX-1 System has been arranged for use with such consoles.
2. One-way call splitting is provided and allows the attendant to exclude only the incoming calling party while announcing the incoming call to the called party.
3. The 50A Consoles are available only equipped with a Touch-Tone® dial and therefore, rates and charges for Touch-Tone® Calling Service as specified in Section A13. will apply. (T)
4. The Direct Station Selection (DSS) capability is only available with the 131 and 151 type console and is included in the console rate. The ESSX-1 station lines equipped for DSS must be in consecutive one hundred station number group(s). Station lines equipped for DSS may, as an option, be equipped for station line visual busy indication on a "per key" basis. Where more than one console is equipped for the DSS and station busy lamp indication feature, the DSS and station busy indication on the second console are a multiple appearance of the first console. Only two consoles may be equipped with the DSS- Busy Lamp Field (BLF). The DSS-BLF feature can be provided only to the main stations at the same location as the consoles.
5. The ESSX-1 Primary Feature Package is required with each ESSX-1 circuit designated as a Console Access Loop.
6. Each ESSX-1 circuit (Console Access Loop), terminating on a console loop key requires a Loop Terminating Equipment.
7. Console Access Loops are required between the No. 1 ESS serving the ESSX-1 System and the console location. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing dial "O" traffic. In addition, Console Access Loops have the same capabilities as ESSX-1 station lines. Console Access Loops terminate directly on apparatus of a specific console. Multiple appearances of a Console Access Loop are not provided.
8. Night Service is provided by use of Directed Call Pickup optional feature of the ESSX-1 System on the listed directory number.
9. Control channels are required for various console optional features as indicated and are provided at the appropriate rates and charges as specified.

B. Optional Payment Plan - Plan 1

1. Telephone Consoles

		TIER A					TIER B	
		Monthly Rate						
	One-Time Payment	36 Mo.	60 Mo.	84 Mo.	120 Mo.	Mo. Rate	USOC

(d)	Battery reserve, per consoles 131 and 151 type (excluding busy lamps), each	156.00	69.20	CXR31
(e)	Auxiliary attendant features ⁴	-	-	NA
3.	Central Office Components			

Rates and Charges as specified for ESSX service apply as appropriate.

A114.3.2 Data Link Console

A. General

1. Data Link Console operation utilizes universal cordless telephone consoles and is provided only where the central office serving the ESSX-1 System has been arranged for use with such console operation.

Note 1: One required for each ESSX-1, Foreign Exchange, INWATS and tie line circuit, etc. terminating on an attendant loop key.

Note 2: Other optional features that may be provided without change or modification may be provided at the rates and charges as specified in A12 for the 50B Console.

Note 3: See Private Line *Guidebook* for charges applicable for associated Supervisory Control Channels. (T)

Note 4: As specified for ESSX service.

A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

A114.3 Obsolete ESSX-1 Customer Premises Attendant Services (Cont'd)

A114.3.2 Data Link Console (Cont'd)

A. General (Cont'd)

2. Console Access Loops are required for each ESSX-1 System equipped for data link console operation. These facilities are used to complete incoming calls for the listed directory number and may be arranged for completing dial "O" traffic. In addition, Console Access Loops have the same capabilities as ESSX-1 station lines. Console Access Loops terminate on the Data link common equipment.
3. The ESSX-1 Primary Feature Package at rates as specified for ESSX service is required with each ESSX-1 circuit designated as a Console Access Loop.
4. The Data Link Consoles are available only equipped with a Touch-Tone® dial and therefore, rates and charges for Touch-Tone® Calling Service as specified in Section A13. will apply. (T)
5. The Night Service feature is provided by means of a Night Key on the console.
6. Two-way call splitting enabling an attendant to talk to either a calling or called party with the other party being excluded from the conversation is provided.
7. The console can be made to appear busy on incoming calls by the operation of the busy key on the console or by the removal of the attendant headset.
8. Busy Verification is a 51A console attendant position optional service arrangement which permits the ESSX-1 system attendant to verify the status of main station lines and CCSA, SCAN, EPSCS, ETS and tie line terminations associated with that system.
9. The Basic call waiting lamp feature on the console is provided to inform the attendant that calls are waiting to be answered.
 - The optional feature "Variable Trigger" on call waiting lamps provides a more dynamic representation of the length of queue for Data Link Console positions.
10. Incoming call identification provides the attendant with a means of identifying the source and type of incoming calls to be answered.
11. Trunk group busy lamps inform the attendant that all trunks in a particular trunk group are busy.

B. Rates and Charges

1. Optional Payment Plan - Plan 1
(Obsoleted September 6, 1982, Type 3)

	TIER A					TIER B		USOC
	Monthly Rate					Mo. Rate		
	One-Time Payment	36 Mo.	60 Mo.	84 Mo.	120 Mo.			
(a) Console control cabinets, each	\$11,600.00	\$361.00	\$233.00	\$179.00	\$139.00	\$86.40	EDY	
(b) Small size consoles (27 type) (maximum of 4 per control cabinet), each	3,782.00	118.00	76.00	59.00	46.00	21.60	ED7	
(c) Large size (47 type), first console, each	4,818.00	150.00	97.00	75.00	58.00	33.10	ED4	

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment

A115.1.1 Connection of Voice Transmitting and/or Receiving Terminal Equipment For Recording of Two-Way Telephone Conversations

A. Terms and Conditions (T)

1. General

Telecommunications service furnished by the Company is not represented as adapted to the recording of telephone conversations. However, recording equipment may be used in connection with telecommunications service subject to the *terms and conditions* specified in A15.1.1.D and A15.1.3.B. (T)

(Filed in compliance with order dated May 20, 1948 of Federal Communications Commission in Docket No. 6787)

a. Connection of voice recording equipment with facilities of the Company for the recording of two-way telephone conversations is permitted by means of a direct electrical connection or a connecting arrangement furnished, installed and maintained by the Company for additions to Grandfathered Terminal Equipment or Communications Systems.

b. The voice recording equipment must comply with the minimum network protection criteria set forth for direct electrical connection of voice terminal equipment in A15.1.3.C. preceding.

2. Connecting Equipment

(Obsoleted - March 15, 1975, Type 3)

a. Recorder connector equipment

(1) For the connection of attended and unattended recording, reproducing and automatic answering and recording equipment with the facilities of the Company.

(a) Without voice control

Installation Charge	Monthly Rate	USOC RDL
\$-	\$6.50	

A115.1.2 Telephotograph Equipment

(Obsoleted - November 30, 1979, Type 3)

A. Terms and Conditions (T)

1. General

a. Telephotograph equipment provided by the following customers may be connected to lines of the Company for use by such customers for the transmission and reception of the material set forth below:

- (1) The Press - pictures and similar material for publication.
- (2) Law enforcement agencies - fingerprints, ballistic data, identification photographs, and similar material for law enforcement.
- (3) The armed forces of the United States - information of military necessity essential to the national defense.
- (4) Civilian defense agencies - information essential for the discharge of their responsibilities in emergencies.
- (5) United States Weather Bureau - weather information

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment (Cont'd)

A115.1.2 Telephotograph Equipment (Cont'd)

A. Terms and Conditions (Cont'd) (T)

2. Basis of Connection

- a. Telephotograph equipment may be connected either by direct physical connection or by acoustic or inductive coupling. *Terms and conditions* specified in A15.1.3.A,B,C. and A15.1.4 are applicable. (T)
- b. Portable protective equipment will be furnished, if desired, for use with portable telephotograph equipment.
- c. The telephotograph equipment may be used in connection with any class of business service, except coin box service, furnished to the above customers or made available to them under a joint user agreement. Portable protective equipment may be used also at PBX stations in guest rooms of hotels or motels subject to the consent of the hotel or motel concerned.

3. Company's Right to Interrupt Connection

The Company may interrupt the connection if at any time such action should become necessary in order to protect any of its services because of departure from the requirements under which the connection is permitted.

4. Responsibility of the Company

The Company assumes no responsibility for the quality of, or defects in the material transmitted or received regardless of cause.

5. Use with Long Distance Message Telecommunications Service

The *terms, conditions* and rates for each call made for the purpose of transmitting pictures are those applicable for long distance message telecommunications, i.e., station-to-station, person-to-person or conference, according to the connection established. (T)

B. Charges

1. The following charges apply to the facilities provided and are in addition to other rates and charges applicable.

- a. The provision of jacks to connect the portable protective connection equipment is subject to the charges, *terms and conditions* shown in Section A14. (T)
- b. In situations where no jacks are available at the exchange at which connection is desired, the Company will connect the protective equipment to the telephone line in whatever manner is most expedient in the particular case.
 - (1) Each

	Installation Charge	Monthly Rate	USOC
(a) Protective connection equipment - non-jack	\$22.00	\$-	367
c. Special charges are applied where special arrangements are furnished or unusual costs are incurred.			

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment (Cont'd)

A115.1.3 Data Transmitting and/or Receiving Terminal Equipment

A. Data Access Arrangement

1. Network Protection Criteria

Where the customer elects to use data transmitting and/or receiving terminal equipment through a data access arrangement, *terms and conditions* specified in A15.1.3.B are applicable. (T)

Except as otherwise provided in A15.1.7 and A15.1.3.B, installations of new connecting arrangements will not be made for connection of terminal equipment, for connection of communications systems, and for equipment-to-equipment connections. Treatment with respect to grandfathered installations which include such connecting arrangements is covered in A15.1.3.B. (T)

2. Rates

a. Data Access Arrangement

(1) For connection of data transmitting and/or receiving equipment or communications systems

	Installation Charge	Monthly Rate	USOC
(a) Basic arrangement for manual operation ¹	\$8.00	\$8.60	CDT
(b) Arrangement for unattended sending and receiving through a voltage type control interface, each ¹	15.00	18.25	CBS++
(c) Arrangement for unattended sending and receiving through a contact closure type control interface, each	15.00	16.20	CBT++
(d) Power supply for use with contact closure type interface when not supplied by subscriber	8.00	3.25	CBV

A115.1.4 Voice Transmitting and/or Receiving Terminal Equipment

A. Electrical Connections Through Connecting Arrangements

1. Voice connecting arrangement to provide for connection of answer-only terminal equipment:

(a) Per line equipped where two-way transmission is required ²	29.00	7.30	RDMZR
(b) Per line equipped where an automatic volume limited receive signal is required ²	29.00	8.30	RDY

2. For the connection of attended and unattended recording, reproducing and automatic answering and recording equipment with the facilities of the Company:

(a) With voice control ²	29.00	9.85	RDLVC
-------------------------------------	--------------	-------------	--------------

Note 1: Installation charge does not apply when installed at the same time as the telephone service with which it is associated.

Note 2: Installation charge is in addition to the regular non-recurring charge for the central office lines, Foreign Exchange Lines, or WATS Access Lines associated with these arrangements.

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment (Cont'd)

11. (Cont'd)

	Installation Charge	Monthly Rate	USOC
(a) Per line arranged, per set equipped to control ¹	\$60.00	\$2.70	CEZ
12. Arrangement used to connect equipment which enables the connection of an incoming call to a specific outgoing line from a 2-cord switchboard.			
(a) Per line arranged ²	30.00	4.55	CDX
13. Voice connecting arrangement which permits the customer to manually connect and disconnect equipment to a specific line terminated on a key set (control station). For use with equipment with only one supervisory contact.			
(a) Per line arranged, first and subsequent appearances	30.00	4.75	CEBAX
14. Voice connecting arrangement which permits the customer to manually connect and disconnect equipment to a specific line terminated on a key set (control station). For use with equipment with two supervisory contacts.			
(a) Per line arranged, first appearance	30.00	4.75	CEBBX
15. Voice connecting arrangement which permits the customer to manually connect and disconnect equipment, which answers an incoming call, to a specific line terminated on a key set (control station).			
(a) Per line arranged, first and subsequent appearances	30.00	4.75	CEBAV
16. Voice connecting arrangement which permits the customer to manually connect and automatically disconnect equipment to a specific line terminated on a key set (associated station).			
(a) Per line arranged first appearance	30.00	4.75	CEBAW

A115.1.5 Alarm Detection and Reporting Equipment

A. Terms and Conditions

1. General

- a. Connection of alarm detection and reporting equipment with the facilities of the Company shall be made only through an alarm coupler. The alarm coupler consists of a one-way interface unit which, in response to a signal from the customer's device, seizes the telephone line, transmits dial pulses corresponding to a predetermined telephone number and a prerecorded voice alarm report originated by the customer's device to the line and disconnects at the end of the report.
- b. The alarm coupler is furnished for use in connection with telephones associated with individual lines or dial PBX and Centrex Type Services main station lines.

Note 1: Installation charge applies only to the first line equipped on an associated key telephone set.

Note 2: Standard charges, not to exceed the Installation Charge, apply for moves and/or rearrangements of the connecting arrangement.

(T)

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment (Cont'd)

A115.1.5 Alarm Detection and Reporting Equipment (Cont'd)

A. Terms and Conditions (Cont'd) (T)

1. General (Cont'd)

- c. The alarm coupler is furnished only for the purpose of reporting a condition or result of an operation of the equipment with which it is associated and shall not be used to connect any other equipment with Company facilities.
- d. Alarm detection and reporting equipment connected through an alarm coupler shall not be used to interconnect any line or channel of the Company with any other line or channel of the Company or any other person.
- e. Connections are subject to *terms and conditions* specified in A15.1.3.B. (T)

B. Rates

1. The following rates and charges are in addition to the rates and charges for the associated service and facilities:

	Installation Charge	Monthly Rate	USOC
(a) Alarm Coupler, each	\$29.00	\$7.15	CAU
(b) Alarm Coupler combined with Tone Signaling Unit	44.00	7.55	SU4

2. Move and Change Charges

A nonrecurring charge equal to the installation charge is applicable for moving or changing the alarm coupler from one telephone line to another.

A115.1.6 Dictation Recording Equipment

Obsolete December 17, 1980 - Type 4 - not available for new installations or additions of new equipment to existing systems. For additional information see A15.1.6.

A. Terms and Conditions (T)

1. General

Recording equipment may be used in connection with dial PBX or Centrex Type Services and dial intercommunication facilities of the Company for the recording of dictation subject to the following conditions.

a. Connection with Company Facilities

- (1) Connection of dictation recording equipment with the dial PBX, Centrex Type Services, or dial intercommunication facilities shall be made only through a dictation recording terminal for this purpose. The dictation recording terminal will include and terminate in a connecting block to which alone the dictation recording equipment may be connected.
- (2) The dictation recording equipment may be used only with dial stations of PBX, Centrex Type Services, or dial intercommunications facilities or dial stations of associated dial PBX or Centrex Type Services systems connected by dial tie lines, and in no case shall such equipment be connected to other telephones or to the local and long distance networks.

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.1 Terminal Equipment (Cont'd)

A115.1.6 Dictation Recording Equipment (Cont'd)

A. Terms and Conditions (Cont'd) (T)

1. General (Cont'd)

a. Connection with Company Facilities (Cont'd)

- (3) One dial PBX dictation recording terminal is required for connection with each dictation recording machine.
- (4) Auxiliary equipment at the PBX may be required. See Section A11. for specific PBX.
- (5) Except as otherwise provided in A15.1.7 and A15.1.8, installations of new connecting arrangements will not be made for connection of terminal equipment, for connection of communications systems and for equipment-to-equipment connections. Treatment with respect to grandfathered installations which include such connecting arrangements is covered in A15.1.3.B. (T)

B. Rates

1. Non-Series Dial PBX equipment¹

	Installation Charge	Monthly Rate	Termination Charge	Basic USOC DCT
(a) 48 volt system, per terminal (BTC 60 mo.)	\$44.00	\$39.00	\$495.00	
2. Protective Voice Connecting Arrangement which provides trunk level access via a PBX or Centrex Type Services System to terminal equipment (typically radio or loudspeaker paging systems, dictation equipment or information retrieval system).				
(a) Per arrangement associated with a PBX or Centrex Type Services when the arrangement is on the same premises as the switching equipment. This rate also applies in those cases in which the switching equipment is located on the Company premises	51.00	9.40	-	DCK
(b) Per arrangement associated with a PBX or Centrex Type Services when the arrangement is not on the same premises as the switching equipment ²	51.00	10.55	-	DCL

Additional rates for additional equipment required by the particular serving vehicle with which the arrangement is associated may apply (See A11. or A12.)

Note 1: Regular *guidebook* charges apply for interior station used as attendant set. (T)

Note 2: Channel charges are applicable in addition to the DCL rate.

A115. OBSOLETE SERVICE OFFERINGS - CONNECTIONS OF TERMINAL EQUIPMENT AND COMMUNICATIONS SYSTEMS

A115.2 Communications Systems

A115.2.1 Connecting Arrangements-Voice Communications-Manual

Obsolated November 29, 1980 - Type 4 - not available for new installations or additions of new equipment to existing systems. For additional information see A15.1.6.

Except as otherwise provided in A15.1.7 and A15.1.8, installations of new connecting arrangements will not be made for connection of terminal equipment, for connection of communications systems and for equipment-to-equipment connections. Treatment with respect to grandfathered installations which include such connecting arrangements is covered in A15.1.3.B. (T)

A. Rates

1. Connections are subject to *terms and conditions* specified in A15. (T)

a. Arrangement to connect a line from a communications system to an attendant position.

(1) At a cord switchboard, not conditioned to accept supervisory signals¹

	Installation Charge	Monthly Rate	USOC
(a) Per manual arrangement	\$36.00	\$2.15	CD4
b. Arrangement used to terminate without connection to the telecommunications network - a line from a communications system in a key telephone station which has been provided as a part of normal exchange telephone service.			
(a) Each arrangement ¹	-	-	CDY

A115.2.2 Connecting Arrangements-Voice Communication-Automatic

A. Rates

1. Connections are subject to *terms and conditions* specified in A15.1.3.B. (T)

a. Types of Arrangements

(1) Arrangement to permit connection of an attendant position to an exchange trunk line, or WATS access line.

(a) Per automatic arrangement provided in connection with two-way service² **29.00** **6.50** **CD9**

(2) Arrangement to permit connection of switching equipment to an exchange trunk line, or WATS access line.

(a) Per automatic arrangement provided in connection with outward service² **30.00** **6.50** **CD8**

(3) Arrangement to permit connection of switching equipment and attendant positions to an exchange trunk line, or WATS access line.

(a) Per automatic arrangement provided in connection with two-way service (outward only from switching equipment)² **30.00** **7.60** **CDH**

Note 1: Regular appropriate non-recurring charges (e.g., Service Connection, Changes and Rearrangements) apply for the central office trunk lines associated with these arrangements.

Note 2: Regular appropriate non-recurring charges apply for the central office trunk lines associated with these arrangements.

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.1 *Terms and Conditions*

(Obsoleted 03-28-90, Type 4 - Effective March 28, 1990 Mobile Telephone Service is restricted to existing customers. No new service can be ordered after March 28, 1990. All existing service will be discontinued in its entirety by July 27, 1990.)

A117.1.1 Definitions

A. Mobile Telephone Service

1. A communication service through a land radiotelephone base station between (1) a wire telephone and a mobile unit (2) two mobile units or (3) a wire telephone or a mobile unit, and another station which is authorized by the Federal Communications Commission to communicate with the mobile telephone service base station, or between two such other stations.
2. In the application of *terms, conditions and* rates, stations other than mobile units which are authorized by the Federal Communications Commission to communicate with a mobile telephone service base station are considered as mobile units.

B. Base Station Of Registry

1. The base station from which a mobile unit receives its mobile telephone number.

C. Foreign Base Station

1. Any base station other than the Base Station of Registry.

D. Air Time

1. The time interval from the instant the mobile unit seizes a frequency until it releases the frequency for use by others.

E. Resident Mobile Unit

1. A mobile unit communicating through its Base Station of Registry.

F. Transient Mobile Unit

1. A mobile unit communicating through a Foreign Base Station.

A117.1.2 Availability of Service

- A. Mobile telephone service is available to mobile units equipped for this service when within range of a base station through which such service is furnished, subject to transmission, atmospheric, and like limitations, provided however, that the Company reserves the right to refuse to connect calls to or from any Transient Mobile Unit which regularly places more calls through one particular Foreign Base Station than through its Base Station of Registry.

A117.1.3 Obligation of Customer

- A. The customer's use of the radio transmitter of the mobile unit shall at all times be subject to the control of the Company.
- B. The customer assumes responsibility for all applicable service charges including charges for all messages sent from or accepted at the customer's mobile unit.
- C. The customer shall operate the mobile unit in accordance with the Federal Communications Commission rules and regulations for Domestic Public Land Mobile Service.

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.1 Terms and Conditions (Cont'd)

(T)

A117.1.4 Liability of the Company

- A. In addition to the provisions applicable to the liability of the Company as stated in Section A2., the Company is not liable for damages for any accident or injury occasioned by the mobile unit or by supplementary apparatus provided in connection therewith when such accident or injury is not due to the negligence of the Company.

(T)

A117.1.5 Transfer of Service Between Subscribers

- A. Service previously furnished one subscriber may be assumed by a new subscriber as specified in A2.3.6.A. preceding except that when suitable facilities for furnishing Mobile Telephone Service to prior applicants are unavailable, such assumption will not be allowed.

A117.1.6 Denial of Service

- A. In addition to the provisions in Section A2., the Company reserves the right to either temporarily deny services or terminate the service of any mobile unit which regularly places more calls through one particular Foreign Base Station than through its base station of registry, or violates the lawful regulations of the Company, of the Communications Act of 1934, as amended, or of the rules and regulations of the Federal Communications Commission.

(T)

A117.2 Service Categories

A117.2.1 Mobile Telephone Service

- A. Mobile Telephone Service is furnished between any wire telephone within a mobile service area and a mobile unit within range of the base station serving that area, or between two such mobile units.
- B. Calls placed or received by transient mobile units will be billed under the rate arrangement specified as follows applicable to transient mobile units in the foreign base station through which the call is handled.
- C. Mobile Telephone Service is furnished to customers engaged in the business of renting mobile units to transients upon the condition that use of the service by such transients shall not be made subject to any charge other than those charges specified in A117.4.1.A.1. pertaining to mobile telephone service

A117.3 Service Areas

The mobile service areas for Charleston, Columbia, Florence, Greenville and Spartanburg are as specified for local calling areas in Section A3. Certain exchanges and localities located in South Carolina are in the mobile service areas of Augusta and Savannah, Georgia and Charlotte, North Carolina. Rates and regulations are those established by the Georgia Public Service Commission for Augusta and Savannah, and by the North Carolina Public Service Commission for Charlotte.

(T)

A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE

A117.4 Rates and Charges

A117.4.1 Mobile Telephone Service

A. Network Access Charge

In addition to the appropriate service charges as shown in Section A4, the following rate, including one directory listing, applies for each mobile unit:

1. Base Station

	Monthly Rate	USOC
(a) Charleston	\$52.75	MRD
(b) Columbia	52.75	MRD
(c) Florence	52.75	MRD
(d) Greenville	52.75	MRD
(e) Spartanburg	52.75	MRD

B. Air Time

1. For any and all completed calls, an air time charge applies for usage including the first minute. This charge is applicable to the mobile unit on all calls to or from the mobile unit.

	Rate	USOC
(a) Per minute or fraction thereof	\$.35	NA

2. For the wire line portion of a call, no extra charges are applicable to the wire line telephone for calls within the local calling area of the exchange. For calls outside the local calling area but within the LATA, regular message toll charges are applicable. Air time charges are applicable to the mobile unit. For calls outside the LATA, the appropriate carrier tariff is applicable.

3. For calls between two mobile units served by the same base station of registry, air time charges are applicable for each mobile unit on calls.

4. Completed calls between transient mobile units and wire line telephones or other mobile units will be charged as follows:

(a) Per Minute or fraction thereof	.40	NA
------------------------------------	------------	-----------

5. Regular message toll charges will also apply in addition to the air time charges applicable to the mobile units on calls made beyond the local calling area of the base station but within the LATA through which the call is placed. For calls outside the LATA, the appropriate carrier tariff is applicable.

A117.4.2 Miscellaneous Charges

A. Restoral charge for restoring of service which has been denied under the provisions of Section A2. as specified in A4.3.3. (T)

B. Transfer of service from one customer to another - service charges as specified in A4.2.2.

A118. OBSOLETE SERVICE OFFERINGS - LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

A118.1 Two-Point Service

A118.1.1 Enterprise Service (Special Reversed Charge Toll)

Obsoluted June 17, 1987, Type 4 - Effective June 17, 1987, Enterprise Service is restricted to existing customers. No new service can be ordered after June 17, 1987. All existing service will be discontinued in its entirety by December 31, 1987. (T)

A. General

- 1. Enterprise Service is an arrangement whereby charges for long distance messages will be reversed to the called customer without specific request of the calling party.
- 2. The Company assigns a special call number designation for the use of patrons in each exchange in which the service is to be furnished. One directory listing in the alphabetical section is provided without charge for each such exchange. Additional directory listings are provided at charges shown in A6. preceding.
- 3. Calls for the special number designation are accepted only on an operator handled station-to-station basis and when originated at telephones located in the exchange to which the special number has been assigned. Only those long distance calls placed by calling the special number are considered as coming within the scope of the service.
- 4. Customers subscribing to Enterprise Service assume all charges for completed calls made to their special numbers.
- 5. Contracts for Enterprise Service are taken for an initial period of two months.

B. Rates And Charges

- 1. Each completed call is charged for at the established rate for a completed sent paid operator handled station-to-station call.
- 2. In addition, a service charge applies as follows:
 - a. For service from an exchange for which the directory listings are contained in an individual alphabetical list in the directory, a monthly service charge applies as follows:
 - (1) Monthly Service Charge

(a) Each

Monthly Rate	USOC
\$3.75	ENT

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General

(Obsoleted 8-14-2004, Type 4) Not available for new installations, additions or transfers of service.

- A. Wide Area Telecommunications Service (WATS) is the furnishing of facilities by the Company, its concurring Local Exchange Carriers and when applicable, an interLATA carrier for dial type telecommunications between a station associated with an exchange access line or a WATS access line and stations using the public switched network within the State of South Carolina in accordance with the *terms, conditions* and schedule of charges specified in this *Guidebook* and when applicable, the tariff of the interLATA carrier. The WATS charges set forth in this *guidebook* and the interLATA carrier's tariffs are in payment for the service furnished between the calling and called stations within South Carolina. Toll Free Dialing (TFD) is the term now used to describe the service formerly known as 800 Service. Currently, Toll Free Dialing Service provides incoming service utilizing 800 and 888 numbers. This service will be expanded, as required, at a later date to include additional 8XX toll free dialing numbers, e.g., 877, 866, 855, etc. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA Only Outward WATS requires the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange access line purchased from the appropriate local exchange *offering*. See A119.5.20 following, for other applicable charges when terminating on an exchange access line. For the rules, regulations and rates of the interLATA portion of these services, refer to the interLATA carrier's tariffs. (T)
1. The rates and charges specified herein for WATS provide for a WATS access line. The WATS access line consists of all facilities, including outside plant facilities and premises wiring, from the Company serving central office equipment to the first Company provided jack or outlet of the WATS access line location on the customer's premises. (T)
 2. The rates and charges specified herein for WATS access line extensions provide for a WATS extension station line within the same LATA as the WATS access line.²
 3. Charges for Company-provided jacks other than the standard network interface used in association with WATS are specified in Section A14. (T)
- B. Dial type telecommunications, as specified in A. preceding, for Combined Outward WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS Access Line. For Option TFD Service and Open TFD Service, service can be completed to a WATS Access Line or an exchange access line. In all cases communications must be completed without the assistance of a Company operator³, except that a Company operator will:
1. Re-establish a call which has been interrupted after the called number has been reached.
- C. A WATS access line or exchange access line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company Central Office where access to the public switched network is obtained for the purpose of completing WATS calls. The WATS access line will be arranged at the subscriber's option for Outward WATS. Option TFD Service and Open TFD Service, at the direction of the customer, can be terminated on a WATS access line arranged for inward calling only or on an exchange access line. For service terminating on an exchange access line, only one toll free dialing number can be assigned to terminate on any one exchange access number. An exchange access number may include residence or business line or trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. These services are subject to the provisions, *terms and conditions* outlined herein and in Section A2. A WATS access line may also be provided over an intraLATA High Capacity Channel Service equipped with Outward WATS or Toll Free Dialing Service functionality. See Private Line *Guidebook*, Section B7. for additional applicable charges. High Capacity Channel Services are available for use by resellers from Section E7. of the Access Service Tariff. (T)

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

Note 2: Refer to the interLATA carrier tariff for rates and charges applicable to WATS access line extensions terminated in a LATA other than the WATS access line.

Note 3: Due to the technical limitations of certain interLATA carriers' services, operator assistance as specified in A119.1.B.1. cannot be provided with the Combined Outward WATS offered in conjunction with interLATA carriers having these technical limitations.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.1 General (Cont'd)**

- D. WATS arranged for combined outward service provides for the origination of calls from a station associated with WATS for telecommunications with stations within this State by way of the WATS access line and the public switched network. WATS arranged for intraLATA only outward service provides for the origination of calls from a station associated with WATS for telecommunications within the same LATA and this same State by way of the WATS access line and the public switched network.
- E. WATS arranged for Open TFD Service provides for the termination of calls from stations within this State for telecommunications with a station associated with an Toll Free Dialing Service access line, or an exchange access line located within this State. WATS arranged for Option TFD Service provides for the termination of calls from stations within the same LATA and the same state, for telecommunications with a station associated with an Toll Free Dialing Service access line or exchange access line located within the same LATA and State.
- F. Service Group
 1. The term "Service Group" as used in connection with Outward WATS denotes one or more Outward WATS access lines for the same service area terminated in the same multiline terminating system at the same premises.
 2. The term "Service Group" as used in connection with Toll Free Dialing Service denotes the WATS access lines arranged in Central Office equipment furnished by the Company as part of a given hunting arrangement.
- G. WATS is furnished in the offices technically capable of providing the service only if the necessary facilities are available.
- H. Combined Outward WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- I. Directory Assistance Service for customers of the Company requesting telephone numbers of subscribers who are located outside their local calling area, but within the same LATA, is furnished under the provisions of A18.7. Such calls will not be included in the determination of WATS usage charges. (T)
- J. For customers obtaining WATS or WATS-like service from interexchange carriers (ICs), "1+" and "0" intraLATA usage carried over WATS Access Lines, having both intra and interstate capability (multijurisdictional) and provided from the BellSouth Telecommunications, Inc. Tariff FCC No. 1 or other appropriate Local Exchange Carrier (LEC) interstate tariff, will be completed over LEC facilities at LEC intraLATA WATS rates and subject to *terms and conditions* applicable to LEC intraLATA WATS. The "1+" and "0" intraLATA usage will be billed to the customer (end user or IC) where the closed end of the Multijurisdictional WATS Access Line is terminated. Customer billing information must be provided to the Company at the time the Multijurisdictional WATS Access Line is ordered. (T)
- K. The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the *terms, conditions* and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs. (T)
- L. Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General (Cont'd)

- L. Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service. (Cont'd)
2. Area of Service

Area of Service for Option TFD Service is defined as the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange access line is required within each LATA specified by the Area of Service for termination of Toll Free Dialing Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3., following. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.¹
 3. Variable Call Destination

The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20, following.
- M. Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates, *terms and conditions* for Option TFD Service as specified in this *Guidebook* (USOC TGW. Bills usage only). (T)

A119.2 Use of the Service

- A. The service is furnished subject to the condition that all applicable *terms and conditions* stipulated in Section A2. will be adhered to and that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes: (T)
1. The placing or acceptance of a WATS call by a WATS subscriber, his agent, employee or representative, in response to an uncompleted long distance call, which was not completed in order to transmit or receive intelligence without payment of the applicable long distance charge.
 2. The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS by arranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- B. Resale or shared use of WATS is permitted. Exchange access to such resold or shared services will be provided via switched access service as set forth in E3.3 of the Access Service Tariff and will be billed as specified in E3.7 of the Access Service Tariff. All resold Toll Free Dialing Services, including Option TFD Service and Open TFD Service must terminate to a WATS access line.
- All facilities based interexchange carriers holding only an intrastate interLATA certificate may only resell intraLATA WATS only for the completion of intraLATA calls. Further, these carriers may not resell Combined IntraLATA/InterLATA WATS.
- C. Toll Free Dialing Service facilities are available for use with Public Announcement Services and are subject to the provisions, *terms and conditions* outlined herein and in Sections A2. and A13. (T)

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.5 Rates (Cont'd)

A119.5.6 Fractional Periods

- A. The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days the service is provided.
- B. For the purpose of administering this *term and condition* with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days. (T)

A119.5.7 Installation Charges

Service Ordering Charge - The term Service Ordering Charge means the charge that applies for work performed by the Company in connection with the receiving, recording and processing of customer requests for service.

Access Line Connection Charge - The Access Line Connection Charge covers work associated with establishing or changing each WATS access line or access line extension connection. It may include work in the Central Office, the customer premises or intermediate locations.

Premises Visit Charge - The term Premises Visit Charge means the charge that applies for a visit to the customer's premises to perform work, other than disconnect work, requested by the customer.

Record Change Only Charge - The Record Change Only Charge covers work associated with a change of Company records at the customer's request, for a transfer of service as specified in A2.3.7, a change in the Toll Free Dialing Service National Directory Center listing, or a change in the number of Outward WATS access lines in a service group when none of the other nonrecurring charges apply. (T)

- A. For installation of WATS access lines, extensions or four-wire terminating arrangements
 - 1. Access Lines

		Nonrecurring Charges		
		Outward	TFD
