These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the guidebook use offering selected by the customer.
- B. Exchange access lines are subject to the nonrecurring charges specified in Section A4.
- C. Rates for basic local exchange service are related to the total number of exchange access lines and PBX trunks in the local calling area.
- D. Customers subscribing to a total of 1000 or more PBX trunks or Network Access Registers (NARs), aggregated on a statewide basis, will receive a ten percent discount on the monthly recurring rates for these services and on any billed local usage associated with these PBX trunks or NARs.
