A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General

(Obsoleted 8-14-2004, Type 4) Not available for new installations, additions or transfers of service.

- A. Wide Area Telecommunications Service⁴ (WATS) is the furnishing of facilities by the Company, its concurring Local Exchange Carriers and when applicable, an interLATA carrier for dial type telecommunications between a station associated with an exchange access line or a WATS access line and stations using the public switched network within the State of South Carolina in accordance with the terms, conditions and schedule of charges specified in this Guidebook and when applicable, the tariff of the interLATA carrier. The WATS charges set forth in this guidebook and the interLATA carrier's tariffs are in payment for the service furnished between the calling and called stations within South Carolina. Toll Free Dialing (TFD)⁴ is the term now used to describe the service formerly known as 800 Service⁴. Currently, Toll Free Dialing Service provides incoming service utilizing 800 and 888 numbers. This service will be expanded, as required, at a later date to include additional 8XX toll free dialing numbers, e.g., 877, 866, 855, etc. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS and intraLATA Only Outward WATS requires the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service¹ can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange access line purchased from the appropriate local exchange offering. See A119.5.20 following, for other applicable charges when terminating on an exchange access line. For the rules, regulations, and rates of the interLATA portion of these services, refer to the interLATA carrier's tariffs.
1. The rates and charges specified herein for WATS provide for a WATS access line. The WATS access line consists of all facilities, including outside plant facilities and premises wiring, from the Company serving central office equipment to the first Company provided jack or outlet of the WATS access line location on the customer's premises.
 2. The rates and charges specified herein for WATS access line extensions provide for a WATS extension station line within the same LATA as the WATS access line.²
 3. Charges for Company-provided jacks other than the standard network interface used in association with WATS are specified in Section A14.
- B. Dial type telecommunications, as specified in A. preceding, for Combined Outward WATS and intraLATA only Outward WATS must be dialed and completed from or to a WATS Access Line. For Option TFD Service and Open TFD Service, service can be completed to a WATS Access Line or an exchange access line. In all cases communications must be completed without the assistance of a Company operator³, except that a Company operator will:
1. Re-establish a call which has been interrupted after the called number has been reached.
- C. A WATS access line or exchange access line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company Central Office where access to the public switched network is obtained for the purpose of completing WATS calls. The WATS access line will be arranged at the subscriber's option for Outward WATS. Option TFD Service and Open TFD Service, at the direction of the customer, can be terminated on a WATS access line arranged for inward calling only or on an exchange access line. For service terminating on an exchange access line, only one toll free dialing number can be assigned to terminate on any one exchange access number. An exchange access number may include business line or trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Open TFD Service or Option TFD Service telephone number is prohibited. These services are subject to the provisions, terms and conditions outlined herein and in Section A2. A WATS access line may also be provided over an intraLATA High Capacity Channel Service equipped with Outward WATS or Toll Free Dialing Service functionality. See Private Line Guidebook, Section B7. for additional applicable charges. High Capacity Channel Services are available for use by resellers from Section E7. of the Access Service Tariff.

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

Note 2: Refer to the interLATA carrier tariff for rates and charges applicable to WATS access line extensions terminated in a LATA other than the WATS access line.

Note 3: Due to the technical limitations of certain interLATA carriers' services, operator assistance as specified in A119.1.B.1. cannot be provided with the Combined Outward WATS offered in conjunction with interLATA carriers having these technical limitations.

Note 4: Effective December 31, 2021, Wide Area Telecommunications Service (WATS), Toll Free Dialing (TFD), and 800 Service is withdrawn for residential customers.

(N)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.1 General (Cont'd)**

- D. WATS arranged for combined outward service provides for the origination of calls from a station associated with WATS for telecommunications with stations within this State by way of the WATS access line and the public switched network. WATS arranged for intraLATA only outward service provides for the origination of calls from a station associated with WATS for telecommunications within the same LATA and this same State by way of the WATS access line and the public switched network.
- E. WATS arranged for Open TFD Service provides for the termination of calls from stations within this State for telecommunications with a station associated with an Toll Free Dialing Service access line, or an exchange access line located within this State. WATS arranged for Option TFD Service provides for the termination of calls from stations within the same LATA and the same state, for telecommunications with a station associated with an Toll Free Dialing Service access line or exchange access line located within the same LATA and State.
- F. Service Group
 1. The term "Service Group" as used in connection with Outward WATS denotes one or more Outward WATS access lines for the same service area terminated in the same multiline terminating system at the same premises.
 2. The term "Service Group" as used in connection with Toll Free Dialing Service denotes the WATS access lines arranged in Central Office equipment furnished by the Company as part of a given hunting arrangement.
- G. WATS is furnished in the offices technically capable of providing the service only if the necessary facilities are available.
- H. Combined Outward WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities.
- I. Directory Assistance Service for customers of the Company requesting telephone numbers of subscribers who are located outside their local calling area, but within the same LATA, is furnished under the provisions of A18.7. Such calls will not be included in the determination of WATS usage charges. (T)
- J. For customers obtaining WATS or WATS-like service from interexchange carriers (ICs), "1+" and "0" intraLATA usage carried over WATS Access Lines, having both intra and interstate capability (multijurisdictional) and provided from the BellSouth Telecommunications, Inc. Tariff FCC No. 1 or other appropriate Local Exchange Carrier (LEC) interstate tariff, will be completed over LEC facilities at LEC intraLATA WATS rates and subject to *terms and conditions* applicable to LEC intraLATA WATS. The "1+" and "0" intraLATA usage will be billed to the customer (end user or IC) where the closed end of the Multijurisdictional WATS Access Line is terminated. Customer billing information must be provided to the Company at the time the Multijurisdictional WATS Access Line is ordered. (T)
- K. The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the *terms, conditions* and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs. (T)
- L. Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service.

EFFECTIVE: October 1, 2005

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.1 General (Cont'd)**

(O)(T)

- L.* Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service. (Cont'd) (O)(T)

1. Toll Free Dialing Number Assignment (O)

Toll Free Dialing Number Service provides for the assignment of a single ten digit TFD Number (i.e. 800+xxx+xxxx) to the customer which can be used on a statewide basis for Option TFD Service and Open TFD Service.¹ Toll Free Dialing Number Service provides the customer with one TFD number statewide for Option TFD Service or Open TFD Service. Toll Free Dialing Number Service, when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Area of Service is described in 2. following. The assigned TFD number can terminate to a WATS Access line provided in **A119.5.4** following or to an exchange access line. Subsection **A119.5.20** following provides the applicable charges for Toll Free Dialing services terminating to an exchange access line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening. (O)(T)

- Note 1:** Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States. (O)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.1 General (Cont'd)

- L. Option TFD Service and Open TFD Service are provided by the Company utilizing Toll Free Dialing Number Service. (Cont'd)
2. Area of Service

Area of Service for Option TFD Service is defined as the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange access line is required within each LATA specified by the Area of Service for termination of Toll Free Dialing Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3., following. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.¹
 3. Variable Call Destination

The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20, following.
- M. Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates, *terms and conditions* for Option TFD Service as specified in this *Guidebook* (USOC TGW. Bills usage only). (T)

A119.2 Use of the Service

- A. The service is furnished subject to the condition that all applicable *terms and conditions* stipulated in Section A2. will be adhered to and that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes: (T)
1. The placing or acceptance of a WATS call by a WATS subscriber, his agent, employee or representative, in response to an uncompleted long distance call, which was not completed in order to transmit or receive intelligence without payment of the applicable long distance charge.
 2. The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS by arranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- B. Resale or shared use of WATS is permitted. Exchange access to such resold or shared services will be provided via switched access service as set forth in E3.3 of the Access Service Tariff and will be billed as specified in E3.7 of the Access Service Tariff. All resold Toll Free Dialing Services, including Option TFD Service and Open TFD Service must terminate to a WATS access line.
- All facilities based interexchange carriers holding only an intrastate interLATA certificate may only resell intraLATA WATS only for the completion of intraLATA calls. Further, these carriers may not resell Combined IntraLATA/InterLATA WATS.
- C. Toll Free Dialing Service facilities are available for use with Public Announcement Services and are subject to the provisions, *terms and conditions* outlined herein and in Sections A2. and A13. (T)

Note 1: Open TFD Service subscribers who choose to terminate the toll free dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.3 Limitation of Service**

- A. WATS does not include conference or other calls requiring operator handling except as provided in A119.1.B. preceding. (C)
- B. WATS is not represented as adapted for connection to other services of the Company. This service contemplates the provision of satisfactory transmission only between the WATS access line or exchange access line for Option TFD Service and Open TFD Service and the called or calling station.

Connection of WATS to other services is permitted on a switched basis only. No permanent connection between WATS and other services may be established. Satisfactory transmission cannot be assured when the WATS access line is connected to other Company services or to customer-provided equipment or services.

Extensions from WATS access lines are restricted to the use of the subscriber, his representatives and associates and are furnished only on the same or different premises of the same subscriber except that extensions on Toll Free Dialing Service may be located on other than the subscriber's premise for the purpose of answering calls at such times as the subscriber is not available at the main station.

WATS access lines and extensions will be terminated only at premises located within the State of South Carolina.

- C. Toll Free Dialing Service is furnished upon the condition that the subscriber contracts for an adequate number of WATS access lines or exchange access lines for Option TFD Service and Open TFD Service to permit the use of this service without injurious effects upon it or any other service rendered by the (Toll Free Dialing Service) Company. The Company may terminate or refuse to furnish Toll Free Dialing Service to any applicant, without incurring any liability, if the use of the service would interfere with or impair WATS or any other service rendered by the Company, provided that, in the case of a termination of service, at least five days have elapsed following written notification to the subscriber by mail or in person of the Company's intention to terminate the service for such cause.

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.5 Rates (M)

A119.5.1 Reserved for Future Use (M)

A119.5.2 Reserved for Future Use (M)

A119.5.3 Recurring Rate Structure (M)(T)

- A. The separate recurring usage rate structures of the local exchange carrier and the interLATA carrier providing Combined IntraLATA/InterLATA Outward WATS or Open TFD Service are based on separate identification of intraLATA and interLATA usage. (O)
- B. For Option TFD Service or Open TFD Service, Combined IntraLATA/InterLATA Outward WATS and IntraLATA Outward WATS, the intraLATA usage is applied to the schedule of monthly usage charges in **A119.5.4.C.** following. (O)(T)
- C. This schedule requires a separate monthly charge for each WATS access line in a service group or exchange access line for Option TFD Service and Open TFD Service in addition to the usage on that line or service group. (O)
- D. Monthly usage charges are computed on an average usage per WATS access line in a service group or the total hours of use per exchange access line utilized for Option TFD Service or Open TFD Service according to the schedule and methodology found in **A119.5.4.C.** and **A119.5.5,** following. WATS access lines and exchange access lines will not be mixed at any one customer location for termination of intraLATA only TFD traffic associated with a given toll free dialing number. (O)(T)

A119.5.4 Rate Tables (M)

(i) Greater than 1200 hours	4.92	3.96	.0820	.0660	NA	(O)
(j) Greater than 2500 hours	4.02	3.66	.0670	.0610	NA	(O)

A119.5.5 Method of Determining Usage Charges (O)(T)

A. For Combined IntraLATA/InterLATA Outward WATS or IntraLATA Outward WATS, apply the following to the intraLATA calls and usage. (O)

B. Determine the total chargeable hours for each account. This is the greater of 1. or 2. following, rounded to the nearest tenth (one decimal place). (O)

1. Determine the total number of completed calls for the account for each rate period. Determine the equivalent hours used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call x 30 seconds). (O)

2. Determine the total actual hours used for each rate period for each account. (O)

Note 1: This rate schedule is for IntraLATA only service and for the intraLATA portion of Combined IntraLATA/InterLATA Service. (O)

EFFECTIVE: October 1, 2005

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**A119.5 Rates (Cont'd)**

(O)(T)

A119.5.5 Method of Determining Usage Charges (Cont'd)

(O)(T)

- C. Determine the total usage for the account by totaling the chargeable hours for each rate period in B. preceding. (O)
- D. Determine the hour band in C. preceding which corresponds to the total usage for the account (peak and off peak periods). The rates associated with this hour band will be used to rate all usage in the account for the appropriate rate periods. (O)
- E. Determine the usage charge per rate period by multiplying the per hour/per minute rate in the appropriate hour band specified in C. preceding by the number of hours /minutes used in each hour band and totaling these charges. (O)
- F. Determine the total usage charge in an account for both rate periods by adding the results from each rate period in E. preceding. (O)
- G. For Option TFD Service and Open TFD Service terminating on an Exchange Access Line, monthly usage charges are calculated separately for each LATA in which the service terminates on an exchange access line. The usage charge applies as follows: (O)
 - 1. For each exchange access line (telephone number) termination of a given toll free dialing number (maximum of one per LATA), the total chargeable minutes for each rate period for each termination is the greater of a. or b. following, rounded to the nearest tenth (one decimal place). (O)
 - a. Determine the total actual Option TFD Service or Open TFD Service minutes associated with a given toll free dialing number and exchange access line for each rate period, or (O)(T)
 - b. Determine the total "equivalent" minutes associated with a given toll free dialing number for the exchange access line termination used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call x 30 seconds). (O)
 - 2. Using the total chargeable minutes per rate period and the table of rates in *A119.5.4.C.*, preceding, multiply the per minute rate(s) in the appropriate rate period by the number of minutes per rate period used in each hour band. The total charge is the sum of all the usage charges. (O)(T)

A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

A119.5 Rates (Cont'd)

A119.5.6 Fractional Periods

- A. The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days the service is provided.
- B. For the purpose of administering this *term and condition* with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days. (T)

A119.5.7 Installation Charges

Service Ordering Charge - The term Service Ordering Charge means the charge that applies for work performed by the Company in connection with the receiving, recording and processing of customer requests for service.

Access Line Connection Charge - The Access Line Connection Charge covers work associated with establishing or changing each WATS access line or access line extension connection. It may include work in the Central Office, the customer premises or intermediate locations.

Premises Visit Charge - The term Premises Visit Charge means the charge that applies for a visit to the customer's premises to perform work, other than disconnect work, requested by the customer.

Record Change Only Charge - The Record Change Only Charge covers work associated with a change of Company records at the customer's request, for a transfer of service as specified in A2.3.7, a change in the Toll Free Dialing Service National Directory Center listing, or a change in the number of Outward WATS access lines in a service group when none of the other nonrecurring charges apply. (T)

- A. For installation of WATS access lines, extensions or four-wire terminating arrangements
 - 1. Access Lines

		Nonrecurring Charges

A119.5.14 Allowance for Interruptions

A. Allowance for interruptions applies to each WATS access line as set forth following:

1. When the WATS access line is interrupted for a period of less than two (2) hours no credit applies.
2. When the WATS access line is interrupted for a period of two (2) hours to twenty-four hours a per day credit applies.

	Credit	
	Amount	USOC
(a) Per access line	\$12.00	NA
3. When the WATS access line is interrupted for a period of more than twenty-four hours, a credit applies for each twenty-four hour period or any fraction thereof.		
(a) Per access line, per day	12.00	NA
4. The credit in 2. and 3. preceding includes all credit to be applied for an interruption.		
5. None of the preceding credit allowances will be made for:		
a. Non-completion of WATS messages due to busy network conditions.		
b. Interruption of service due to customer-provided equipment or systems.		
c. Interruption of service due to negligence of the customer.		
d. Interruption of service during any period in which the Company is not afforded access to the premises at which the WATS access line is terminated.		
e. Interruption of service during any period when the customer has released the WATS access line to the Company for maintenance purposes, or implementation of a customer order for a change in service arrangement.		
6. Long distance message telecommunications service furnished at a customer's request when his WATS is interrupted is charged at the long distance telecommunications rates contained in Section A18.		(T)
