SECTION 3 - Service Level Agreement

SLA-4 SLA Exclusions

The SLA provisions, measurements, and eligibility for credit shall exclude conditions wherein service performance was adversely affected by any of the following conditions:

- Any cause beyond AT&T's reasonable control (force majeure events) including, but not limited to, acts of war, civil disturbances, acts of civil or military authorities or public enemies, earthquakes, hurricanes, floods, fires, storms, tornadoes, explosions, lightning, power surges or failures, fiber cuts, strikes or labor disputes;
- Failures of any structures, facilities or equipment provided by the Customer or its contractors, equipment vendors, or by any carrier or service provider other than AT&T;
- Interruptions caused by the negligence of the Customer or End User;
- Interruptions of a service during any period in which AT&T is not afforded access to the premises where the service is terminated;
- When AT&T and the Customer negotiate the release of the service for (1) maintenance purposes, (2) to make rearrangements or (3) to implement an order for a change in the service, a credit does not apply during the negotiated time of release;
- Periods when the Customer elects not to release the service for testing and/or repair and continues to use it on an impaired basis;
- Data loss during AT&T's scheduled maintenance windows;
- Data exceeding subscribed CIR; or
- Failures of any structures, facilities or equipment on the Customer's side of the demarcation point.

SLA-5 SLA Other Terms and Conditions

EVCs with Real Time CoS on ports served via Ethernet over Copper (EoCu) loop media are excluded from calculations that determine whether the intraLATA Latency SLA is met.

IntraLATA EVCs with Real Time CoS between ports that are connected with an inter-Central Office facilities path extending more than 200 miles or those with EVC CIRs in excess of 1000 Mbps and/or using a PPCoS serving arrangement with a package exceeding 1000 Mbps Real Time are not subject to the Real Time Latency SLA and are excluded from calculations that determine whether the intraLATA Latency SLA is met.

EVCs connecting Basic or PPCoS Ports to Broadband Ports are not subject to Class of Service SLAs and are excluded from calculations that determine whether the SLAs are met.

The total credit amount of any allowances for interruptions and SLA credits applicable in a given month shall not exceed 100 percent of the monthly recurring charge for the port and associated rate elements.

SECTION 4 - Pricing

Pricing (P)

P-1 Rate Elements

Except as set forth below, monthly recurring charges for AT&T Switched Ethernet Service Ports and associated Committed Information Rates are set forth in Section P-4 and vary by port type, CIR, CoS, and term.

P-2 Ethernet Payment Plan (EPP)

To subscribe to AT&T Switched Ethernet Service, the Customer must select one of the EPP options below. The service is not available to be subscribed to on a month-to-month basis.

Ethernet Payment Plan Options				
12 Months	24 Months	36 Months	48 months	60 months

- (1) Nonrecurring charges shown in Sections P-4.1.1, P-4.1.3, P-4.2.1, P-4.2.10, and P-4.3 (T) will be waived for Customers subscribing to new service under an EPP, and subject to Section P-2(3) and Section P-2(5) for Customers subscribing to a new EPP for an existing service. For moves of service and service reconfigurations, nonrecurring charges will apply as specified in Sections P-2(6) and (7).
- (2) During the Customer’s EPP term, AT&T initiated rate changes (i.e., rate increases or decreases) will be automatically applied to the Customer’s EPP rates for the months remaining in the Customer’s EPP term. However, at no time during the Customer’s EPP term will rates exceed the Customer’s initial EPP rates.
- (3) When an EPP term expires, the Customer may select a new EPP term from among any EPP options which are then available to new Customers under this Service Guide. EPP rates in effect at the time the new EPP term starts will apply. If the Customer orders such new EPP term at least 10 but not more than 90 days in advance of the existing EPP term expiration date, the new EPP term will begin immediately after the order is processed.

If the Customer selects such new EPP term, but does not do so at least 10 days in advance of the existing EPP term expiration date, the Term Extension Month-to-Month Rates may apply between the expiration of the existing EPP term and the date upon which AT&T implements the new EPP term in its billing system.

- (4) The Term Extension Month-to-Month (MTM) rates in Section P-4 will apply when a Customer’s EPP term expires. The Customer will be billed the MTM rates in effect from time to time until such time as the Customer selects a new EPP or the Service is disconnected.
