A3.7.4 Measured Rate Service¹

- A. Individual line measured rate service is available only in certain central offices of the exchanges shown herein. Measured rate service will not be offered where RegionServ is available with the exception of service provided to customer-provided public telephones (see A3.1.E.).

Measured rate service requires special equipment and arrangements and is furnished only when such equipment and arrangements are available.

The rates specified, with zone charges applicable to those services furnished outside the BRA of an exchange, entitle subscribers to a usage allowance for calls completed to stations in the local calling area, i.e., all stations bearing the designation of central offices of the serving exchange and additional exchanges as shown in A3.6, Local Calling Areas.

Charges for local usage in excess of the allowances are specified in A3.2.3, and are based on mechanized records kept of all calls originated on the line.
