A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.11 Remote Call Forwarding Service (Cont'd)

A13.11.4 Minimum Contract Period

The minimum contract period for this service is one month.

A13.11.5 Rates And Charges

The following charges are for the Remote Call Forwarding feature only and are in addition to applicable charges for any service and equipment with which it is used.

Where customers have fifteen or more unique RCF features on a billing account, a credit of twenty-five percent (25%) will be applied per billing cycle to the monthly rate for each such unique service feature, including the first fifteen. For purposes of qualifying for such credit, a unique feature is defined by calling scope, jurisdiction and business/residence classification: e.g., Residence, Intrastate, IntraLATA; or, Business, Measured Local. Additional features (Calling Paths) also qualify as a unique feature. Unique features may not be combined to qualify for this credit; e.g., local features may not be combined with toll features.

(a) Business, Each	12.50	37.50	RCA	(1)
(b) Residence, Each	12.50	16.00	RCA	

B. Message Charges

The message charges applicable to remotely forwarded calls shall be comprised of two separate charges:

1. a charge for that portion of the call from the originating station to the call forwarding location, and
2. a charge for that portion of the call from the call forwarding location to the terminating station.

The respective charge for each such portion shall be as follows:

- a. Between the originating station and call forwarding location.

The charge for this portion of a remotely forwarded call shall be the charge specified in this or any other applicable service publication for the type of call involved.

- b. Between the call forwarding location and the terminating station.

The Remote Call Forwarding customer is responsible for the applicable toll charges. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

Where Remote Call Forwarding is utilized for forwarding of calls within the local calling area, the measured service rates effective for that local calling area are applicable for each call answered at the terminating station line.
