A1. DEFINITION OF TERMS

ACCESSORIES

Devices which are mechanically attached to, or used with, the facilities furnished by the Company and which are independent of, and not electrically connected to, the conductors in the communications path of the telecommunications system.

ADD-ON

A feature which permits a station user to add one other station to the conversation.

(DELETED)

(D)

ATM

The term "ATM", referring to Asynchronous Transfer Mode, denotes one of the general class of packet switching technologies that relay traffic via an address contained within the packet (referred to in ATM as cells). ATM is a switching method in which information does not occur periodically with respect to some reference such as a frame pattern.

AUTHORIZED PROTECTIVE CONNECTING MODULE

The term authorized protective connecting module denotes a protective unit designed by the Company and manufactured under the control of Company quality assurance procedures, which unit is to be incorporated in a conforming answering device.

AUXILIARY LINE

An additional individual line main station used for one-way (inward to the subscriber) service.

AUXILIARY STATION

A station connected to the central office by means of an auxiliary line.

BACK-UP LINE

An optional service which provides individual line business subscribers with an additional line which is available for inward and outward calling with usage charges applying for originating and terminating calls.

BASE RATE

The rate for primary classes of exchange service which does not include zone or extra exchange line mileage charges.

BASE RATE AREA (BRA)

A specific section of an exchange area including the continuous built-up portion of the community served within which primary classes of service are available without zone or extra exchange line mileage charges.

BASIC TERMINATION CHARGE

See "Termination Charge"

BELLSOUTH CHANNELIZED TRUNKS

Provides channelized DS1/1.544 Mbps circuits available for voice intraLATA communications services. Provides up to 24 DID, Outward Only or Combination/2-Way trunks.

A1. DEFINITION OF TERMS

TERMINATION CHARGE

A charge applying when a subscriber discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item. The basic termination charge is an amount established for an individual item of service or equipment from which the termination charge is computed.

(DELETED)

(D)

TIE-LINE MILEAGE

See "Mileage and Zone Charge"

TOLL MESSAGE (LONG DISTANCE MESSAGE)

See "Message".

TOLL SERVICE

See "Long Distance Message Telecommunications Service (MTS)".

TOUCH-TONE SERVICE

See "Exchange Service"

TROUBLE DETERMINATION

Trouble Determination is defined as dispatch work performed in connection with a service difficulty or trouble report when it is determined that the trouble originated from the customer's side of the demarcation point.

(DELETED)

(D)

USOC (UNIFORM SERVICE ORDER CODE)

A Company assigned code used on internal records for service identification purposes.

A2. GENERAL TERMS AND CONDITIONS

A2.18 TDM to IP Transition

A2.18.1 General

As a result of evolving network technology, the Company is able to offer new, advanced services. At the same time, certain older services will no longer be available in some geographic areas, as those services are no longer technically or economically feasible. The table below identifies services that have been withdrawn, by wire center and exchange, along with additional information related to these service withdrawals.

A2.20 Cost Assessment Charge (CAC)

A. A Cost Assessment Charge (CAC) is assessed on a per line or trunk basis as shown below for residential and business customers. The CAC is also assessed on a percentage basis against all billed revenue for business customers subscribing to transport services. The CAC is established to recover property taxes (from business customers) as well as ongoing costs associated with the administration of Local Number Portability (from line- and trunk-based services from residence and business customers). This charge is not a tax or fee that the government requires AT&T to collect from customers. The CAC does not apply to 911 Services, Coin Services, Lifeline, or any of the following account types: Federal, State, and Local Government accounts; Resale accounts; or accounts designated by the Company as Wholesale.

A. Channels Between Buildings on the Same Premises

(Obsoleted, 11/01/87, Type B: See Private Line Guidebook, Section B103, paragraph B103.2.2.A.3 for leasing of continuous property channels where spare capacity is available in existing cable facilities. Channel service will be discontinued when associated cable facilities can no longer be economically maintained.)

These channels are provided to extend exchange, Centrex or ESSX-1 Service terminated in a non-button telephone, to another building on the same premises or to extend communications systems such as PBX or Key Systems to other buildings on the same premises.

When the customer provides his own communications system, such as a PBX or Key System, the customer may provide the facilities required to extend the use of his system from one building to another on the same premises.

When all terminations are located on the same premises a mileage charge applies for the direct airline distance between buildings, determined in one-tenth mile increments (a fractional one-tenth mile being considered as a full one-tenth mile).
