A. Access line service for customer-provided public telephone service when provided for exclusive use of inmates (hereafter called Customer-Provided Public Inmate Calling Service, or CPPICS) served within the confines of a penal, correctional or mental institution.

(M)

B. Generally, access lines to this service must be dedicated with one line for each station located within the inmate served area. The only permitted exception to this requirement is as follows:

When a station cannot be accessed by an end user, the access line which otherwise would have served that station may be used to serve a station which can be accessed by an end user. (M)

C. Charges to initiate public calls utilizing these access lines are not to exceed the amounts specified in A7.4.5.B for local messages, and long distance message charges specified in A18.

- 2. May be arranged to terminate calls after a certain amount of conversation time, or in cases of emergency in accordance with any *Terms and Conditions* of the TRA and upon notification to the Company of such an arrangement. The Company will not provide credit or equivalent service to the called or calling parties for such calls.
- 3. Shall be arranged to block Directory Assistance calls.
