A2. GENERAL TERMS AND CONDITIONS

A2.18 TDM to IP Transition

A2.18.1 General

As a result of evolving network technology, the Company is able to offer new, advanced services. At the same time, certain older services will no longer be available in some geographic areas, as those services are no longer technically or economically feasible. The table below identifies services that have been withdrawn, by wire center and exchange, along with additional information related to these service withdrawals.

A2.19 Reserved for Future Use

A2.20 Cost Assessment Charge (CAC)

A. A Cost Assessment Charge (CAC) is assessed on a per line or trunk basis or as shown below for residential and business customers. The CAC is also assessed on a percentage basis against all billed revenue for business customers subscribing to transport services. The CAC is established to recover property taxes (from business customers) as well as ongoing costs associated with the administration of Local Number Portability (from line- and trunk-based services from residence and business customers). This charge is not a tax or fee that the government requires AT&T to collect from customers. The CAC does not apply to 911 Services, Coin Services, Lifeline, or any of the following account types: Federal, State, and Local Government accounts; Resale accounts; or accounts designated by the Company as Wholesale.

	Monthly Rate	USOC	
1. Cost Assessment Charge (CAC)
