E. Additions to Existing Systems

1. Additions can be made to an existing system at the customer's option, and the payment of rates and charges in the currently effective *guidebooks* for such service will be applied. (T)
2. At the customer's option, unless otherwise specified in the service *guidebook*, additions may be paid for over the remainder of the existing system's payment period, and be added onto the existing agreement, providing at least 30 days remain in the customer's existing payment period. The addition and installed system payment periods will then have a common expiration date. The charge(s) for the addition(s) will be the current filed rate(s) for the equipment for the same payment period as the installed system's existing payment period. If the installed system's payment period is not in the current *guidebook*, the rate charged for the addition will be that of the next shorter filed payment period. (T)

If less than 30 days remain in the current payment period, additions may only be placed on the one-month payment period at the current rates in effect for the one-month period.

3. For service added subsequently the customer may also select, from those currently available in the *guidebook*, a different payment period of equal or shorter length than the time remaining in the period selected for the existing installed service at the current rates for the selected period. The additions may then have a different expiration date than the existing installed service. (T)

When the addition and the existing installed service's expiration dates differ, the customer must select a new payment period for the addition (at the time of its expiration) according to the terms and conditions stated in *paragraph 2*, or in this section. (T)

4. Coterminous additions to upgraded service will be charged at the current rates for the payment period equal to the installed service's existing payment period, excluding any extension period. The charges will be applicable for the remainder of the existing payment period, including any extension period.

Additions to upgraded services may also be ordered for payment periods shorter than or equal to the payment period existing prior to the addition at the current rates for the selected period.

1. Allowable upgrades to services offered by the Company are specified in the individual *guidebooks* currently in effect for offerings under the Variable Term Payment Plan. (T)
2. A customer who elects to upgrade an installed service during the service's existing payment period will have that payment period extended by an amount of time related to the particular upgrade as specified in the service *guidebook*. The upgraded service will then have a new expiration date. (T)
3. Additions made at the time a service is upgraded may, at the customer's request be paid over the existing (including extension) payment period unless otherwise specified in service *guidebooks*. (T)
The rates for added service will be those for a time period equivalent to that of the payment period prior to the upgrade. If the payment period for the customer's current payment period has been discontinued at the time of the upgrade, the new service will be billed at rates applicable for the next shorter payment period in the current *guidebook*. The total rates charged for the upgraded service over the extended payment period will be the current rates for any new service plus the rates already being billed for service installed before the upgrade and continuing in service. (T)
4. When new service is not added to the existing (excluding extension) payment period, the customer must choose a currently available payment period of equal or shorter length than the time remaining in the current (excluding extension) payment period. Current rates would apply for the selected payment period for the new service, and rates already being billed prior to the upgrade would be charged for service previously installed and continuing in service. The new service may then have a different expiration date than the installed service. (T)
When the new service and the existing service's expiration dates differ, the customer must select a new payment period for the service added (at the time of expiration) in upgrading the system according to the terms and conditions stated in *paragraph 3*, or in this section.
5. A customer on the one-month payment period may elect to upgrade; however, the payment period will not be extended.

4. Termination charges will apply to all service removed prior to expiration of the selected payment period. Termination charges will not apply to any service remaining at the customer's premises for use with the new service provided the customer selects a new payment period equal to or longer than the time remaining under the former payment period.

Rates for the new service are those currently in effect for the original payment period (or, if the period is no longer available, for the next shorter one). The rates for service remaining at the customer's premises after the downgrade will not be affected. (T)
3. When a coterminous payment period is not chosen, the customer must select a payment period of equal or shorter length than the time remaining in the current payment period. Current rates apply for the equal or shorter payment period. Service remaining to the customer's premises will continue being billed at the rates in effect prior to the downgrade. The new service may then have a different expiration date from the service which remained after downgrading. When the expiration dates differ, the customer must select a new payment period for the service (at the time of expiration) added at the time when service was downgraded according to the terms and conditions in *paragraph 2*. (T)

A2.4.10 Payment Plans And Options For Contract Services

A. General

1. The *terms and conditions* specified herein are applicable to specific services as indicated in each service's respective section of this *Guidebook*. (T)
2. Services furnished under the Payment Plans for Contract Services (PPCS) are subject to all general *terms and conditions* applicable to the provision of service by the Company as stated elsewhere in this *Guidebook* except as noted herein. (T)
3. The PPCS are payment plans which allow customers to pay fixed or variable rates for services provided over variable contractual payment periods. A specific monthly rate applies for the duration of each period. (T)
Payment periods for services provided under PPCS will be described in the services' specific *Guidebook* section. The following is an example of payment periods offered.
- a. Payment Plan A - payment periods may be selected from 24 months to 48 months in length.
- b. Payment Plan B - payment periods may be selected from 49 months to 72 months in length.
- c. Payment Plan C - payment periods may be selected from 73 months to 96 months in length.
4. When the customer extends service beyond the longest service period offered, then rates for the longest available service period will apply.
5. When the customer orders service to be provided under a PPCS arrangement, the customer must designate to the Company the payment plan and the service period desired, e.g. Payment Plan B and sixty months.

B. Application of Rates and Charges

1. Rates stabilized under a PPCS arrangement are exempt from Company-initiated increases, however decreases for any rate element will automatically flow through to the customer. Effective with this *Guidebook*, customers under a PPCS arrangement will be billed the lower of their existing PPCS rates or the current PPCS rates for their service arrangement. (T)
2. When customers renew or change the length of their payment period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the payment period. A service order charge will not be applicable for such renewals or changes to the payment period.
3. Recurring rates and installation, termination, service establishment, Service Connection and other nonrecurring charges apply according to the appropriate schedules for services offered as associated items to Contracted Services, and are filed elsewhere in this *Guidebook*. (T)
4. Customer requests for inside moves of service will not affect the contract period.

- B. Application of Rates and Charges (Cont'd)**
5. A change in jurisdiction will not constitute a disconnect of service provided the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A, or equals/exceeds the remaining service period, whichever is greater, and provided the new PPCS arrangement is for the same customer at the same location for the same capacity service.
- C. Termination Liability Charge**
1. In the event that all or any part of a service is disconnected at a customer's request prior to expiration of any selected payment period of greater than one month's duration, the customer will be required to pay a termination charge as stated in that service's section of this *Guidebook*. (T)
- D. Additions**
1. Additions of services or rate elements, e.g. ports, new local channels, interoffice channels, etc., must be under a new PPCS arrangement at rates and charges as specified in *paragraph B*. (T)
 2. Termination charges for premature disconnection of added contractual services will apply as set forth under Disconnects as stated in *paragraph E*. (T)
- E. Disconnects**
1. When a service or rate element, included under a PPCS arrangement, is terminated without cause prior to expiration of the term plan, a termination liability charge will apply. Unless the *guidebook* provisions governing a particular service provide otherwise, for term plans entered into on or after April 3, 2001, this termination liability charge will not exceed the lesser of: (T)
 - a. The sum of repayments of discounts received during the previous twelve (12) months of service, the repayment of the prorated amount of any discounted or waived non-recurring charges, and the prorated amount of any documented contract preparation, implementation or tracking charges; or
 - b. Six (6%) percent of the total term plan amount if the term plan is four (4) years or less; or twenty-four (24%) percent of the average annual revenues of the term plan if the term plan is longer than four (4) years. Term plan revenue is the total revenue billable under the term plan entered into by the customer. Average annual revenue is the aggregate revenue billable under the term plan divided by the number of years in the term plan. (T)
 2. Termination liability charges for an individual service may exceed the levels specified in this *Guidebook* if and when the unrecovered portion, if any, of the customer specific costs incurred to provide such service exceeds the levels specified in this *Guidebook*. (T)
 3. When a service under a PPCS arrangement is disconnected prior to the expiration of a selected service period as a result of a change of jurisdiction, Termination Liability Charges will not apply when: (T)
 - the completed service period is twelve months, or twenty-five percent of the length of the originally selected PPCS service period, whichever is greater, and
 - the service orders to install the new service and disconnect the old service are related together and there is no lapse in service between installation of the new service and disconnection of the existing service, and

H. Renewal Options

1. The customer has the following renewal options:
 - a. Prior to completion of the current payment period, any period available under the PPCS may be selected at the rates in effect for new customers at the time of the renewal. The customer will be charged the current rate for the newly selected payment period, commencing the day following completion of the prior payment period.
 - b. Service may be continued on a month-to-month basis at the current rate for the one-month payment period, unless otherwise specified in this *Guidebook*. The customer has no additional service commitment and, consequently, when service is terminated will not be subject to any termination charge. The one month service will be subject to Company-initiated rate adjustments. (T)
 - c. If the customer does not elect an additional payment period or does not request discontinuance of service, service will be continued at the monthly rate currently in effect for the month-to-month payment rate, under the terms specified in *paragraph b*. (T)
- (DELETED) (D)
2. Service connection charges are not applicable for services renewed under the PPCS. Any new rate elements added at the time of renewal will be subject to all appropriate service connection charges and other nonrecurring charges.
3. The Company may discontinue or change any or all renewal options.
4. When a customer renews a PPCS arrangement, the rates and charges in effect on the first day of service of the renewal will apply.
5. Recognition of previous service will be given to customers who renew an existing PPCS arrangement, for all associated rate elements at the same location(s), provided that the length of the new PPCS arrangement is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining service period of the original PPCS arrangement, whichever is greater.
6. Recognition of previous service will be given to month-to-month customers with a service date of January 1, 1994 or later who convert to a PPCS arrangement, provided the minimum service period has been met. For customers whose service date is January 1, 1994 or earlier, recognition will be given for the previous service back to January 1, 1994. For customers whose service date is later than January 1, 1994, recognition for the previous service will be given back to the actual service date.
7. To determine the appropriate PPCS for the renewed arrangement, recognition of service will consist of the sum of months in service of the completed service arrangement and the sum of the months of the proposed service period of the PPCS arrangement. For example, a PPCS arrangement for a thirty-six month service period under Payment Plan A is renewed for twenty-four months with no changes at the end of the thirty-six month period. The sum of months for the completed and proposed service periods would equal sixty months and would be billed under Payment Plan B. Another example is a Month-to-Month customer, in service for fifteen months, who wishes to convert to a sixty month PPCS arrangement with no changes. The combined service period of the Month-to-Month arrangement and the PPCS arrangement is equal to seventy-five months, which would be billed under Payment Plan C.

I. Transfer of Service

1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer as specified in this *Guidebook*. This does not constitute a disconnect of service or a discontinuance of an existing PPCS arrangement. The new customer will be subject to all provisions and equipment configurations currently in effect for the previous customer. *Terms and conditions* concerning transfer of service between subscribers as stated in other sections of this *Guidebook* also apply under PPCS. (T)

J. Deferred Payment

1. Payment of nonrecurring charges for services with contract payment plans which have been approved for deferred payments may be deferred over the length of the customer's payment period or a shorter period (in annual increments) subject to the conditions specified in the *Guidebook* for the contracted service as well as the conditions following: (T)
 - a. The charges to be deferred must be the Installation, Service Establishment and/or other nonrecurring charges (including the applicable interest). (T)
 - b. The payment period must be longer than one month.
 - c. The minimum amount deferrable shall be the minimum amount set forth in the specific *guidebook* for the contracted service. (T)
 - d. Interest on deferred amounts will be calculated at the rate set forth in the deferred payment agreement concurred in by both the customer and the Company. The interest rate shall be reviewed periodically by the Company. If the Company determines that the maximum interest rate allowed by law is insufficient to cover the costs of providing the deferred payment option, the Company will suspend the availability of said option until such time as the costs of providing said option can be recovered through the application of an allowed interest rate specified by law. Suspension of the deferred payment option will not affect customers with existing deferred payment agreements that were made prior to the effective date of such suspension.
 - e. The deferred charges (including interest) will be prorated on a monthly basis over the length of the selected deferral period.
 - f. All deferred charges must be paid in full when the customer:
 - (1) Disconnects service, for the system or service prior to expiration of the deferral period.
 - (2) Fails to pay a monthly amount within thirty days of its due date.
 - g. The customer may prepay only the total outstanding deferred charges at any time during the selected deferral period. The customer will be given a credit for the amount of unearned interest. The customer may not prepay less than the total of the outstanding deferred charges.

K. Prepayment

The prepayment of monthly rates in no way constitutes a purchase and the Company retains full ownership of all services covered by the prepayment. The following conditions apply:

1. Customers who prepay six months or more will have an allowance applied. The interest rate credit for prepayments shall be based on market interest rates that will change periodically, and will be calculated by the Company.
2. Monthly rates for all services covered by a single Letter of Election must be prepaid. Monthly rates must be prepaid for services added subsequently and placed on the same Letter of Election (i.e., customer-elected coterminous option) with a prepaid service.
3. Customers who change the length of a prepaid payment period will be credited any unused portion of the prepayment, subject to termination charges as specified preceding and/or in the *Guidebook* for the contracted service. (T)
4. Customers who prematurely disconnect will have termination or cancellation charges deducted from the prepaid amount and any balance credited to their account.

The customer must subscribe to a payment arrangement offered in the appropriate interstate *service publication* which is at least the minimum number of months allowable under Payment Plan A or equals/exceeds the remaining contract period, whichever is greater.

A2.4.11 Economic Waiver Exception to Termination Liability for Business Customers

The Company will waive early-termination liability charges associated with a Local Exchange Term Election Agreement plan, program, or promotion for business customers who voluntarily and in good faith file bankruptcy under Chapter 7 of the U.S. Bankruptcy Code, 11 U.S.C. 10. The Company owned inside wiring and/or jacks maintained by the customer remains the property of the Company.

B. Responsibility Of The Customer

1. In the event that the customer provides, maintains, or attempts to maintain inside wire and/or jacks, the customer assumes the risk of loss of service, damage to property or death to or injury of the customer or the customer's agent. The customer will save the Company harmless from any and all liability, claims, or damage suits arising out of the customer's wire provision or maintenance activity.
2. Where customer premises inside wire and/or jacks are maintained by the customer, the customer is responsible for correcting any service difficulty that is causing harm to the telecommunications network upon notice from the Company that such wire is causing the difficulty.
3. In those instances where the Company makes a visit to the customer's premises and the service difficulty or trouble results from customer-provided or maintained inside wire and/or jacks that are not installed in accordance with the technical standards for such inside wire and jacks, Other Residence or Business Service Customers will be subject to charges outlined in A4.8.

C. Incidence Of Harm

1. Should terminal equipment, inside wiring, plugs and jacks, or protective circuitry cause harm to the Company network, or, should the Company reasonably determine that such harm is imminent, the Company shall, where practicable, notify the customer that temporary discontinuance of service may be required; however, wherever prior notice is not practicable, the Company may temporarily discontinue service forthwith, if such action is reasonable under the circumstances.

When the Company in the reasonable exercise of the Company's discretion believes it appropriate, the Company may request proof of the authority of any party claiming to be the agent of the customer prior to acting upon such request. Failure of the Company to request such proof shall not, however, limit or otherwise affect the agent's responsibility or liability set forth herein, nor shall such a failure constitute a waiver of the Company's right to request such proof at any time in the future.

A2.16 Checks for Unauthorized Devices

A2.16.1 General

- A. At the subscriber's request, the Company shall check the subscriber's line for the presence of unauthorized listening or recording devices attached to the line for the purpose of listening to or recording the subscriber's communications without permission. This will involve testing the line for an electrical fault between the central office and the Network Interface. The absence of an electrical fault will not necessarily mean that there is no unauthorized device on the line. It is possible that advanced technological devices might not be detectable by the Company's test.
- B. Upon receipt of the subscriber's request, the Company will test the line between the central office and the Network Interface to determine if an electrical fault is present. If no electrical fault is detected, the Company shall notify the subscriber that no trouble was found.
- C. If an electrical fault is detected during the central office testing, the Company will dispatch a technician to the subscriber's premises, with the concurrence of the subscriber. During the visit, the technician will inspect only the Company's facilities from the serving terminal to the Network Interface for any unauthorized devices attached to the subscriber's line. No facilities on the subscriber's side of the Network Interface will be inspected during the visit.
- D. If no trouble is detected during the central office testing, and the subscriber requests that a technician be dispatched to the premises for further testing, a technician will be dispatched. During the visit, the technician will inspect only the Company's facilities from the serving terminal to the Network Interface for any unauthorized devices directly connected to the subscriber's line. No facilities on the subscriber's side of the Network Interface will be inspected during the visit.
- E. If no unauthorized device is found at the premises, the subscriber will be advised that no unauthorized device was found. If the line fault was caused by normal service hazards, the technician will clear the problem and the subscriber will be notified that the problem was cleared.
- F. If an unauthorized device is found on the subscriber's line, the technician will not disturb or remove the device unless it poses a hazard to the network. The matter will then be referred to the Company's Security Organization for further investigation.
