A125. OBSOLETE SERVICE OFFERINGS - LIGHTGATE DIGITAL SERVICE (T) (T) A125.1 LightGate Multiline Local Exchange Service¹ (Obsoleted April 16, 1990, Type D.) Obsolete Service Offering. Not available for new installations, additions, transfers of service to new location, or contract renewals. **A125.1.1** General A. LightGate service Local Exchange Service is a multiline fiber optic digital service to provide extended customer service (T) capability. The customer may lease a digital system with the capability to be activated. The customer may then choose channelization of all or part of a LightGate service package to activate voice grade and data facilities for interconnection with the exchange network, voice grade and data facilities for private line channels, multiline based facilities as well as other LightGate services. LightGate service is only provided from wire centers where Local Measured Service is available. B. The customer may also choose not to channelize all or part of a LightGate service package allowing direct connection to 1.544 Mb/s service as provided in the Private Line Guidebook or for connection to un-channelized portions of other LightGate services. LightGate service is provided in packages based on multiples of circuit equivalents where DS1 or 24 equivalent circuits is the basic increment. For the technical description of DS1 and equipment capability, reference BellSouth Services technical publication No. 73501. C. These packages are distance sensitive as specified in A125.1.3 and all of the circuits in a customer's package must originate at the same premises, therefore, a package cannot be split between premises. Lines may be activated for Exchange Network Access Service only on a Bulk Usage Measured Rate Service basis as specified in A125.1.2.B. This service provides local channels or equivalents for Exchange Network Access, off premises stations, Tie-lines, DDS, FX, (T) and data services at 2.4 Kb/s, 4.8 Kb/s, 9.6 Kb/s, 56 Kb/s and 1.544 Mb/s services. LightGate service circuit equivalents may be interconnected with services offered in other guidebook sections based on a LightGate service circuit serving as a local channel equivalent. The customer may activate any number or combination of circuits within a LightGate service package. Circuits may be (T) activated coincident with installation of the basic system or at any time subsequent to basic system installation. Once activated, a circuit is subject to thirty day minimum billing. G. The total number of equivalent circuits activated by the customer may not exceed the capacity of his basic system. A125.1.2 Application Of Rates The statewide monthly rates as specified in A125.1.3 apply for each LightGate service package according to the number of (T) circuit equivalent in each package and the airline distance between the served location and the serving wire center. These rates apply per package regardless of the number of circuit equivalents within each package that are activated by the customer. Exchange Network Access Service is provided for channels within LightGate service packages only on a Bulk Usage (T) Measured Rate Service basis at the statewide monthly recurring rates as specified in A125.1.3 and apply for each channel within a package that is activated for exchange network access. Note 1: Service was initially available 90 days following the effective day of this Guidebook. (T)

(Effective date was June 1, 1984.)

A125. OBSOLETE SERVICE OFFERINGS - LIGHTGATE DIGITAL SERVICE (T) (T) A125.1 LightGate Multiline Local Exchange Service¹ (Cont'd) A125.1.2 Application Of Rates (Cont'd) C. The rates specified in other *Guidebook* sections for services such as Grouping Service, Touch-Tone, Custom Calling Service, (T) etc., are in addition to the monthly rate per LightGate service package and other applicable rates as found in A125.1.3. Also, the rates for other services that may be interconnected or extended beyond the basic LightGate service, such as, OPX, Tie-Lines, Private Lines, DDS, FX, etc., are in addition to the rates specified in this *Guidebook*. The standard transmission provided by LightGate service is digital. As an option, LightGate service may be provided for (T) connection to the customer's premises equipment on an analog basis at the rates shown in A125.1.3. These rates are in addition to charges for the basic system. All usual and applicable Service Charges as appropriate indicated in other *guidebooks* apply to the activation, move or change (T) of lines within LightGate service packages as well as for installation of the basic system. Suspension of service as described in A2.3.16 is not applicable to the LightGate service. LightGate service Local Exchange service is available for rate periods of 36 months, 60 months or 84 months. (T) G. A Service Cancellation Fee (SCF) is applicable at the date of termination and is reduced by 1/36, 1/60 or 1/84 per month from (T) the date of installation, respective to the choice of rate periods. This fee will be equal to 36, 60, or 84 times the monthly rate of the appropriate Basic System and/or Basic Channelization without activation at the time service is established. This fee does not apply when the customer renegotiates a new contract converting to a MegaLink channel service or a LightGate 1 service or a LightGate 2 service system of equal or greater capacity, at the same location for a period of time greater than the time remaining on the existing contract. Nonrecurring charges for the new system will be determined on an individual case basis. Transfer of service responsibility between customers is permitted subject to a transfer charge. Transfer of Service Between Customers \$372.00 BLANK \$200.00 (a) Each NA

I. The LightGate service Local Exchange service rates for Basic System and/or Basic Channelization, in effect at the time the service is installed and when the Company is notified in writing of the subscriber's choice of payment period option, will be applicable for the duration of the payment period chosen by the subscriber. The other items in the LightGate service Local Exchange service are subject to rate changes. At the expiration date of the customers payment period option the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.

Note 1: Service was initially available 90 days following the effective day of this *Guidebook*. (Effective date was June 1, 1984.)
