NETWORK COMPONENTS

28.1 High Capacity

Network Components provide Special Access Service to customers by individual rate elements.

Except as noted in Section 28.1.2(A) (Rate Regulations) following, all rules, regulations, terms and conditions set forth in Sections 2 (General Regulations), 5 (Ordering for Access Services), 7 (Special Access Service) and 13 (Additional Engineering, Additional Labor and Miscellaneous Services) apply to the following Network Component rate elements.

28.1.1 General

High Capacity Service as described in Section 7.3.10(A) (Basic Channel Description) is applicable under Network Components.

Central Office Multiplexing, Clear Channel Capability, Extended Superframe and Automatic Loop Transfer, as described in Section 7.3.10(E) (Optional Features and Functions), are available with Network Components. These rate elements must be ordered in conjunction with either a SWBT-provided channel termination ordered from Section 28.1.3(A) (Rates and Charges), or an Interconnection Cross Connect ordered from Section 25 (Expanded Interconnection).

Expanded interconnection is offered under protest. Its availability is subject in all respects to the Stipulation and Agreement entered into in Docket No. 12879.

28.8.1 General

Digital Link as described in Section 7.3.9(A) (Basic Channel Description) is applicable under Network Components.

Bridging and Secondary Channel Capability as described in Section 7.3.11(D) (Optional Features and Functions), is available with Wideband Data Network Components. This rate element must be ordered with and SWBT-provided Channel Termination ordered from Section 28.7.2 (Rates and Charges) or an Interconnection Cross Connect ordered from Section 25 (Expanded Interconnection).

Expanded interconnection is offered under protest. It's availability is subject in all respects to the Stipulation and Agreement entered into in Docket No. 13990.
