MEGALINK III - WIDEBAND DIGITAL SERVICE 1.544 MBPS (cont'd)

E. Term Pricing Plan

1. The Term Pricing Plan (TPP) provides the customer with rate stabilization and discounted rates. The TPP provides for one^{/3/}, two^{/2/}, three^{/2/} or five^{/1/} year rate stabilization. Decreases in monthly recurring rates will be passed on to customers who participate in a TPP. The Company will notify customers participating in a TPP when monthly rates are decreased. (C)

Should the Company increase its rates during the TPP period, the customer would continue to pay the rates in effect at the time the customer elected to establish service under the TPP.

2. During a customer's TPP term, conversion may be made to a new TPP term or to a higher speed service, if the expiration date for the new service or TPP term is beyond the end of the original TPP term. The new TPP term becomes effective upon execution. No credit for months under the previous TPP may be transferred to the new TPP. The customer incurs no liability for the remaining months on the original TPP, since the change is not considered a termination of service. The prices applicable for the new term are those currently in effect for new customers.

During a TPP term, a customer may move one Local Distribution Channel (LDC) of a MegaLink III Service to another location in the same LATA and keep the TPP in force, provided no lapse in service occurs. Moves to a different serving office however may result in a change in the monthly charges. The customer must have met the minimum in-service period at the old location and be liable for a new minimum in-service period at the new location. Nonrecurring Charges, as appropriate, for the physical move will apply.

3. At the end of a TPP term, the customer may elect a new TPP term with the prices in effect at that time. If the customer elects not to renew the TPP, or does not notify the Company of the customer's intent to establish a new TPP, the service will automatically be billed under the monthly rates in effect at the time the TPP expires.
4. Any special construction charges incurred for services billed under a TPP will be applicable as provided for in Part 15, Section 1 (for Digital Link Services).

/1/ As of October 1, 2013, Term Pricing Plan terms greater than 36 months are no longer available for new or renewing subscribers.

/2/ As of January 15, 2021, 24 and 36 Month Term Pricing Plans are no longer available for new or renewing subscribers.

/3/ Effective August 29, 2025, customers may not elect a Term Payment Plan of any length, and existing Term Payment Plans of any length will not be renewed or extended. Upon expiration of any Term Payment Plan, month-to-month rates will apply subject to the Company's right to modify such rates upon notice to customer. (N)

5. Customers requesting the termination of a TPP prior to the expiration date, except as stated in E.2, will be charged a termination charge as indicated below. These charges shall become due and owing as of the effective date of the termination and are payable within 30 days of the bill date, subject to interest penalty on the unpaid balance.

The termination charge for all service terms will be calculated as follows:

For service terms that become effective on or after October 11, 2004:

- In addition to any unpaid Special Construction or Nonrecurring Charges (excluding any waived charges) customer termination liability for cancellation of MegaLink III shall be equal to fifty percent (50%) of all recurring charges for the remaining months of the customer's term

For service terms in effect prior to October 11, 2004:

The customer's termination charge shall be equal to:

- All waived and/or unpaid nonrecurring charges at currently effective prices, plus;
 - Forty percent (40%) of all recurring charges for the balance of the customer's term
6. Customers currently subscribing to MegaLink III Service on a month-to-month basis may convert their existing service to either a one^{/3/}, two^{/2/}, three^{/2/} or five^{/1/} year TPP. Nonrecurring charges will be waived at the time of conversion. (C)

/1/ As of October 1, 2013, Term Pricing Plan terms greater than 36 months are no longer available for new or renewing subscribers.

/2/ As of January 15, 2021, 24 and 36 Month Term Pricing Plans are no longer available for new or renewing subscribers.

/3/ Effective August 29, 2025, customers may not elect a Term Payment Plan of any length, and existing Term Payment Plans of any length will not be renewed or extended. Upon expiration of any Term Payment Plan, month-to-month rates will apply subject to the Company's right to modify such rates upon notice to customer.

DS3 SERVICE (cont'd)**F. Term Pricing Plan (TPP)**

The Term Pricing Plan provides the customer with rate stabilization and discounted rates. The Term Pricing Plan provides for one^{/4/}, two^{/3/}, three^{/3/}, or five^{/1/} year rate stabilization. Decreases in monthly recurring rates will be passed on to customers who participate in a Term Pricing Plan. The Company will notify customers participating in a Term Pricing Plan when monthly rates are decreased. (C)

Should the Company increase its rates during the Term Pricing Plan period, the customer would continue to pay the rates in effect at the time the customer elected to establish service under the Term Pricing Plan.

At the end of a TPP term, the customer may elect a new TPP term with the prices in effect at that time. If the customer elects not to renew the TPP, or does not notify the Company of the customer's intent to establish a new TPP, the service will automatically be billed under the monthly extension rates in effect at the time the TPP expires.

Any special construction charges incurred for services billed under a Term Pricing Plan will be applicable as provided for in Part 15, Section 1 (for Digital Link Services).

During a customer's TPP term, conversion may be made to a new TPP term or to a higher speed service, if the expiration date for the new service or TPP term is beyond the end of the original TPP term. The new TPP term becomes effective upon execution. No credit for months under the previous TPP may be transferred to the new TPP. The customer incurs no liability for the remaining months on the original TPP, since the change is not considered a termination of service. The prices applicable for the new term are those currently in effect for new customers.

During a TPP term a customer may move one Local Distribution Channel (LDC) of DS3 Service to another location in the same LATA and keep the TPP in force, provided no lapse in service occurs. The customer must have met a 12 month minimum in-service period at the old location and be liable for at least 12 months remaining at the new location. Nonrecurring Charges, as appropriate, will apply.

During a customer's TPP term, a customer may elect to include DS3 Service into the customer's Network Reconfiguration Service (NRS)^{/2/} database. The customer may opt to convert to a new TPP term of the same or different length or to continue the current TPP term to the original expiration date. If the expiration date for the new TPP term is beyond the end of the original TPP term, termination charges for the original term will not apply. Adding an existing service to the customer's NRS database requires that all nonrecurring charges applicable to the installation of the service apply.

/1/ As of October 1, 2013, Term Pricing Plan terms greater than 36 months are no longer available for new or renewing subscribers.

/2/ Effective October 30, 2018, Network Reconfiguration Service (NRS) will no longer be available for purchase by new or existing customers. See Part 20, Section 15.

/3/ As of January 15, 2021, 24 and 36 Month Term Pricing Plans are no longer available for new or renewing subscribers.

/4/ Effective August 29, 2025, customers may not elect a Term Payment Plan of any length, and existing Term Payment Plans of any length will not be renewed or extended. Upon expiration of any Term Payment Plan, month-to-month rates will apply subject to the Company's right to modify such rates upon notice to customer. (N)
