VOICE GRADE SERVICE – SERIES 300 AND 400 (cont'd)

E. Foreign Exchange and Foreign Exchange Centrex Station Service
(with switching equipment located on Company premises)

1. This service is furnished to a maximum of two exchanges (in addition to the exchange in which the exchange service is furnished). The exchange service connection is provided from one exchange only.
2. Service is furnished on the condition that additional costs to the Company may be necessary to provide a type of signaling suitable for operation with the exchange from which service is furnished, or to provide, at the customer's request, a type of signaling other than the type the Company would elect to furnish. In such cases, additional charges shall apply.
3. Customers, for the exchange portion of the service, are subject to exchange charges and regulations; and for the private line portion of the service, are subject to the private line charges and regulations in this guidebook.
4. Off-premises extensions are provided only where facilities and conditions permit.
5. The term "foreign exchange" refers to any telephone exchange other than the one from which the local customer is normally served. Foreign exchange service uses a private line circuit to connect the distant primary serving office (PSO) telephone number location to a PSO of another exchange where service is to be terminated at a customer location. Interexchange channel mileage and channel terminal charges as specified in C.7 and C.8 are applicable for this portion of the circuit. In addition, interexchange interoffice channel mileage and channel terminal charges as specified in C.2 and C.3 may be applicable. End user common line (EUCL) and TOUCH-TONE line charges are not applicable. No charge applies for a primary listing. A point of termination charge as specified in 6., following, is applicable. Local channel charges apply for all main and extension channels as specified in 6., following. Charges apply per minute of local exchange access use as specified in 6., following. Long distance message telecommunication service charges apply for telecommunications between station numbers in different local service areas.
6. Rates

Per minute of local exchange access use	\$0.021
---	---------

Where the minutes of actual use cannot be determined, monthly usage charges will apply based on the following assumed average minutes of use:^{/1}

PBX trunk	3,248
Business Line	1,040
Residence Line	706

	Monthly	Service
	USOC	Charge
Local channel, each ^{/2}	1LLAY	\$18,348.00 (I)
Point of termination in one foreign exchange	T22	1.30
Point of termination in two exchanges	T1S	0.00
		\$186.00
		174.60
		261.90

/1/ Applicable to FX "open-end" at non-Company end offices only.

/2/ When Foreign Exchange Service terminates in a SmartTrunk Interface, or in a channel port of Access Advantage Plus^{/3}, a Local Channel charge will not apply for that location. All other appropriate circuit charges specified in this guidebook will apply to the remainder of the circuit.

/3/ Access Advantage Plus is grandfathered effective November 1, 2016. See Part 20, Section 6.
