

1. OBSOLETE REMOTE CALL FORWARDING (RCF) SERVICE

A. GENERAL

1. On local RCF, both the call forwarding location and the terminating premises equipment location must be within the same exchange, or between exchanges with identical local calling areas.
2. Eligible business customers who commit to a 2-year agreement to Remote Call Forwarding (RCF) service will receive the service for \$4.50 per line per month for the duration of the term. The monthly rate will be discounted for each local path and for each additional path. Usage charges will be applicable as tariffed.

Eligible customers are existing business customers who currently have RCF with the Company who call in to disconnect their service, then reconsider and keep the service. To qualify for this offer, the Call Forward Number of the Remote Call Forwarding service must terminate to a Company business access line.

The customer can add lines during the term period, however, this discounted rate is only applicable until the end of the originally contracted term period. At the end of the term period, the rates will revert to the then current month-to-month RCF guidebook rates.

Customers must maintain a minimum of one line equipped with RCF service on their account or they are subject to early termination fees (ETF's). If the customer does not maintain this minimum requirement they are subject to pay an ETF of \$2.25 times the number of months remaining on the term.

Customers may choose to terminate their existing service agreement before the end of the term period without paying termination charges provided they subscribe to a new 24-month RCF service term agreement.

This offer cannot be combined with any other RCF promotional offers or with any plans that do not allow RCF service to be on the account.
