1. INDEPENDENT PAYPHONE PROVIDER (IPP) SERVICE (Formerly Message Rate Service - Customer Owned Coin Operated Telephone - COCOTS) (Cont'd)

1/

Beginning June 1, 2021, new orders for these services will no longer be accepted. Current subscribers may keep their service at its existing location. These services will sunset on, or after, June 1, 2025.

(N)

(N)

Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

A. Description

Independent Payphone Provider (IPP) Service; service provided for use with customer-provided coin-operated or coinless telephones at locations accessible to the public, where desired and/or permitted by the owner or resident of the premises.

Basic Exchange Service - IPP; Network Access Lines, Local and Extended Community Calling (ECC) Local Messages furnished in accordance with the regulations and charges as set forth in Part 4 of the tariff. Service includes one white pages directory listing and Business Basic Exchange Service includes one white pages and one Yellow Pages directory listing.

Information - IPP; Customers obtain assistance in determining telephone numbers by calling an Information Operator.

Installation, Maintenance, and Change Charges - IPP; charges associated with the connection, move or change of service.

Message Telecommunications Service (MTS) - IPP; furnishing of facilities by means of wire, radio or a combination thereof for telecommunications between stations in different local service areas in accordance with the regulations and systems of charges specified in this Tariff furnished or made available by Wisconsin Bell, Inc. and its connecting companies over facilities wholly within or partly within and partly without the State of Wisconsin, between points, the rate centers of which are in the State of Wisconsin, and to Mobile Telephone Service under the provisions as set forth.

/1/

Service - Customer Owned Coin Operated Telephone - COCOTS) (Contd)

B. DEFINITIONS

Wisconsin Bell, Inc. hereinafter referred to as the Telephone Company

1. Installation, Maintenance, and Change Charges

Additional Premises Work Charge the charge for each additional 6-minute increment, or fraction thereof, of premises work performed in addition to the initial premises work increment.

Central Office Line Connection Charge a charge that applies for the connection and/or arranging of lines to provide service.

Central Office Work Charge charge that applies for work performed in the Central Office to change existing service.

Change a rearrangement of service or wiring, or adding additional features which does not involve a change in location of the service or addition of new lines.

Demarcation Point or Standard Network Interface; "The point of interconnection between telephone company communications facilities and terminal equipment, protective apparatus or wiring at a subscriber's premises. The network interface or demarcation point shall be located on the subscriber's side of the telephone company's protector, or equivalent thereof in cases where a protector is not employed, as provided under the local telephone company's reasonable and nondiscriminatory standard operating practices." (Part 68.3 of the FCC's Rules and Regulations).

Initial Premises Work Charge; the first 6-minute increment, or fraction thereof, of premises work.

1/

Service - Customer Owned Coin Operated Telephone - COCOTS) (Cont'd)

B. DEFINITIONS (Cont'd)

1. Installation, Maintenance, and Change Charges (Cont'd)

Installation Network Cable or Riser Cable; cable that extends outside plant distribution facilities from the location the cable enters the building to equipment rooms, cross connection points, or other distribution points in the building.

Minimum Point of Penetration (MPOP); the first point on a customer's premises that the network facilities are available.

Move; the transfer of telephone service from one location to another in the same building where there is no interruption of the service other than is incident to the work involved.

Premises Work Charges customer requested installations, moves, rearrangements and changes of the Telephone Company's network facility(s) on the customer's premises.

Service Charge; the nonrecurring charge or charges applying to the ordering, connecting, moving, changing, rearranging and furnishing of Telecommunications Service, miscellaneous and supplementary equipment and other telecommunications facilities.

Service Connection; the establishment of Telecommunications Service.

Service Ordering Charge charge that is made for each service order issued by the Company as required by customer requests for initial or supplementary services.

Standard Network Interface (SNI); a Telephone Company-provided jack located on the customer's premises in close proximity to and on the customer's side of the protector or other termination point. In multi-premises buildings, the SNI is located where the exchange service line enters the individual premises, as determined by the Company.

1/

C. TERMS AND CONDITIONS

1. Independent Payphone Provider (IPP) Service

- a. Independent Payphone Provider (IPP) Service is the only service available for use with customer-provided coin-operated or coinless telephones at locations accessible to the public.
- b. Directory listings may be provided under the regulations governing the furnishing of listings for business and residence service.
- c. Directories will be available to subscribers to this service on the same basis as Business One Party Message Rate access lines.
- d. The minimum service period for IPP Service is one month. Temporary Suspension of Service and Temporary Service may be provided under the same provisions for Business One Party Message Rate access lines.
- e. The customer shall be responsible for payment of charges billed to the service for toll messages originating from or accepted at this type of service.
- f. The customer shall be responsible for:
 - the installation, operation and maintenance of the coin or coinless telephone and any associated equipment.
 - the payment of Premises Work Charges for visits by a Telephone Company employee to the customer's premises when a service difficulty or trouble report results from the use of customer-provided equipment
 - the reasonable availability of a local calling area telephone directory.

C. TERMS AND CONDITIONS (Cont'd)

1. Independent Payphone Provider (IPP) Service (Cont'd)

g. IPP sets must be registered in compliance with Part 68 of the FCC's Registration Program.

h. Customer-provided IPP sets used with IPP Service must:

- be coinless or prepay with full automatic control of the deposit and return coin/s for uncompleted calls through an escrow mechanism.
- comply with all applicable federal, state and local laws and regulations concerning the use of these telephones by disabled persons and the hearing impaired.
- allow the completion of both local, intraLATA and interLATA toll calls.
- prominently display on each IPP set the name of the owner of such instrument, the procedure for reporting service difficulties and obtaining customer refunds, the rate for a local call and any restrictions on inward service.
- be capable of accepting multiple denomination coins (coin-operated only).

/1/

/1/

C. TERMS AND CONDITIONS (Cont'd)

1. Independent Payphone Provider (IPP) Service (Cont'd)

- i. Customer-provided IPP sets used with IPP Service must, except for situations covered by the PSC's letter dated October 31, 1990, which granted a limited waiver of these guidebook provisions to Inpace Technologies of Wisconsin, Inc. for the provision of coinless, collect-only service in correctional facilities:
 - be able to access the Telephone Company operator, toll-free Wisconsin Bell service number (1-393-XXXX numbers), and 800 Service at no charge and without using a coin/s.
 - be able to access 911 Emergency Service, where available, at no charge, and without using a coin/s.
 - be able to provide reasonable access to all inter-exchange carriers serving the exchange but may be pre-subscribed.
 - not limit in any manner the duration of a local message.
- j. Where any IPP set is in violation of this guidebook, the Company will promptly notify the customer of the violation and will take immediate action, including the disconnection of services, as is necessary for the protection of users of the service, the telecommunications network and Telephone Company employees.
- k. The customer shall discontinue use of the IPP set or correct the violation and notify the Telephone Company in writing or by call the Centralized Operations Group (COG) within 15 days after receipt of such notice that the violation has been corrected.

/1/

/1/ Material formerly appeared in Part 13, Section 2.

Customer Owned Coin Operated Telephone - COCOTS) (Cont'd)

/1/

C. TERMS AND CONDITIONS (Cont'd)

1. Independent Payphone Provider (IPP) Service (Cont'd)

- l. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provisions of this guidebook.
- m. The subscriber to IPP Service is subject to information charges
- n. The subscriber to IPP Service may not charge users more for a local message than the Telephone Company is authorized to charge for the placement of a similar message through its Public Communications Service.
- o. The subscriber to IPP Service may not charge users more for an intrastate long-distance call than the appropriate Telephone Company rate for an operator-assisted intraLATA call or an operator-assisted AT&T Communications interLATA call.
- p. An IPP set may not be connected behind a PBX or Centrex Service.
- q. Any telephone extension/s with this service must be arranged to not interrupt or intercept an in-progress call.
- r. Subscribers to IPP Service are allowed to place a coin surcharge on 0+ dialed calls that require no operator assistance. The surcharge shall be less than or equal to the authorized rate for local coin calls. The total charges for the call, including the surcharge, may not exceed the ceiling IPP Service charges for toll calls.

/1/

C. TERMS AND CONDITIONS (Cont'd)

1. Independent Payphone Provider (IPP) Service (Cont'd)

s. A minimum of one coin-operated set must be available for use in locations where a coinless set is provided, except for situations covered by the PSC's letter dated October 31, 1990, which granted a limited waiver of these guidebook provisions to Impact Technologies of Wisconsin, Inc. for the provision of coinless, collect-only service in conectional facilities. The Telephone Company is not required to install a coin-operated telephone or continue the provision of coin-operated telephone service in a location where a IPP customer replaces a coinless set.

t. A primary listing is provided without charge for each IPP line. Listings must conform to the Telephone Company's specifications with respect to its directories as specified in Part 12, Section 1.

2. Basic Exchange Service - IPP

a. IPP Service is provided with standard transmission specifications as specified in Part 4 of this guidebook.

b. IPP Service is subject to Installation, Maintenance and Change Service Charges as set forth in this Part of the guidebook.

c. Rate groups for IPP Service are specified in Part 4, Section 2.

2. Basic Exchange Service - IPP (Cont'd)
- d. In addition to the above rates, end user access line charges as filed in American Telephone & Telegraph Operating Companies Tariff F.C.C. No 2 are applicable.
3. Directories - IPP
- a. A directory will be distributed without charge for each IPP Line. Additional directories will be furnished at the discretion of the Telephone Company at a reasonable charge.
- b. Directories distributed by the Telephone Company remain the property of the Telephone Company, shall not be mutilated, and shall be surrendered upon request. The Telephone Company reserves the right to make a charge for directories issued in replacement of those defaced or mutilated while in possession of customers.
4. Information
- a. Charges apply for information calls placed for numbers in the local calling area in which the customer receives Local Exchange Telecommunications Service and for numbers in all other exchanges within the Numbering Plan Area (NPA) in which the customer is located.
- b. A maximum of two requested telephone numbers is provided with each information call request.
- c. The Telephone Company shall not be liable for any errors or omissions, whether arising through negligence or otherwise, in the information furnished, and the customer shall indemnify and save the Telephone Company harmless against all claims, damages, or judgments (including costs and reasonable attorney's fees) that may arise from the use of such information.
- d. Information rates are in addition to all rates and charges applicable for service and equipment with which this service may be furnished.

C. TERMS AND CONDITIONS (Cont'd)

5. Installation, Maintenance, and Change Charges

- a. The charges specified in this section of the guidebook for the connection, move, or change of service contemplate work being performed by Company employees during normal working hours. Normal working hours are defined in the following paragraphs.

For service orders requiring a premises visit:

- Normal working hours for premises work are 8:00 a.m. to 5:00 p.m. Monday through Friday, except when the Company's business offices are closed in observance of holidays.
- Normal working hours for central office work and central office line connection work are between 7:00 a.m. and 10:00 p.m. Monday through Friday and between 8:00 a.m. and 4:30 p.m. on Saturday, except when the Company's business offices are closed in observance of holidays.

For service orders not requiring a premises visit:

- Normal working hours are between 7:30 a.m. and 6:00 p.m. Monday through Friday, except when the Company's business offices are closed in observance of holidays.
- b. If the customer requests that overtime labor be performed at hours of the day or days of the week other than normal working hours or days, or on Sundays or holidays, or requests a service date which does not permit completion during normal working hours, or interrupts work once begun, an additional charge based on the additional costs involved applies.

- C. TERMS AND CONDITIONS (Cont'd)
5. Installation, Maintenance, and Change Charges (Cont'd)
- c. Work scheduled to begin during normal working hours in accordance with an appointment made with the customer, which is not completed until after normal working hours, shall be considered as work performed during normal working hours.
 - d. Service charges are not applicable to remove lines or complete systems.
 - e. Service charges are not applicable to a bill name change made by the same customer, or by a different customer when assuming billing responsibility. A directory listing change may be made at the same time for no additional charge.
 - f. Any other additions, moves, or changes in the service ordered concurrent with the bill name change are subject to the appropriate Service Connection Charges.
 - g. Discontinuance of telephone service in one building and the reconnection in another building is not considered as a move but as a new connection and is subject to service charges and/or any installation charges as well as termination charges as applicable.
 - h. A single service order will be issued for all work or service ordered to be performed or provided at the same time on the same premises.
 - i. The Central Office Line Connection Charge also applies for making and changing connections to distribution facilities between the Central Office and the customer's premises including necessary cross connections and line and station transfers. /1/

/1/

C. TERMS AND CONDITIONS (Cont'd)

5. Installation, Maintenance, and Change Charges (Cont'd)

- j. Premises Work Charge(s) and the appropriate Standard Network Interface (SNI) material charge are applicable for the installation, move, or rearrangement of the SNI on the customer's premises to establish or reestablish network access.
- k. Premises Work Charge(s) and the appropriate Standard Network Interface (SNI) material charge apply when a premises visit is made for the sole purpose of installing a customer requested SNI.
- l. Premises Work Charges are applicable when the customer establishes service and requests buried service in an area that is normally served by aerial service drop wire, a six pair cable or less, and the required trenching and backfill or conduit is not provided by the customer. Premises Work Charges are also applicable when the customer requests existing aerial service drop wire to be buried, moved, or changed.
- m. Premises Work Charges, material charges, and the appropriate Standard Network Interface (SNI) material charge apply for providing continuous property extensions that are served from the Telephone Company's network service terminal.
- n. Premises Work Charges are applicable when a customer requests Telephone Company personnel to be available at a customer premises on a stand-by basis to perform installation, maintenance, or repair of network services.

/1/

- C. TERMS AND CONDITIONS (Cont'd)
5. Installation, Maintenance, and Change Charges (Cont'd)
- o. Premises Work Charges are applicable, except as specified in Part 2, Section 5, of this guidebook for Special Types of Outside Construction and Special Types of Interior Construction, to establish or reestablish service beyond the Point of Minimum Penetration on a customer's premises for rearrangements of facilities associated with Intra-Building Network Cable, protectors, and distribution cable terminals that serve only one customer.
 - p. The non-recurring charge for a Standard Network Interface (SNI), and the appropriate Premises Work Charge(s), is applicable for maintenance and/or repair of SNIs located on a customer's premises, except for miniature interface (modular) SNIs.
 - q.. Premises Work Charges are applicable for each repair visit to a customer's premises in connection with a service difficulty when it is determined that the difficulty was due to customer-provided equipment.
 - r. The Premises Work Charge is comprised of the following two parts; The Initial Premises Work Charge is applicable for the first 6 minutes (or fraction thereof) for each premises visited by the Telephone Company Technician required to complete the customer requested work. All Telephone Company Technician time worked in excess of the initial premises period is billed at the Additional Premises Work Charge.
 - s. The Charge for a Standard Network Interface (SNI) is a non-recurring charge based on material costs for a Telephone Company provided SNI as specified in Part 3 of this guidebook.
 - t. The Telephone Company will provide a miniature interface (modular) Standard Network Interface (SNI) on the customer's premises, at no charge, to establish service when a premises visit is required or on repair or service activity when a premises visit is required - if time permits. /1/

C. TERMS AND CONDITIONS (Cont'd)

6. Message Telecommunications Service (MTS) - IPP

- a. Service is offered on a Dial Station or Operator Assisted basis. Charges for messages within these classes of service are based on the day of the week and the time of the day at which connection is established.
- b. Dial Station rates apply only to sent paid, Station-to-Station dial type telephone communications.
- c. The services of a Telephone Company operator will not be used in connection with completing a Dial Station call, or in furnishing any information or assistance relating to billing or charges for such call, except that a Telephone Company operator will
 - reestablish a call which has been interrupted after the called number has been reached or,
 - place a call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap or,
 - reach the called telephone number where facilities are not available for custom er dial completion.

C. TERMS AND CONDITIONS (Cont'd)

6. Message Telecommunications Service (MTS) - IPP (Cont'd)

- d. The time when connection is established as specified below determined in accordance with the time - standard or daylight saving - legally or commonly in use at the location of the rate center of the calling station, determines whether Day, Evening or Night rates apply. This rule applies irrespective of whether the call is sent paid or collect.
- e. In cases where a message begins in one rate period and ends in another, the charge for the message will be computed in two parts. The initial period any additional minutes beginning in the first-rate period will be charged for at the rates in effect in that period. Any additional minutes beginning in the second-rate period will be charged for at the rates in effect in the second-rate period.
- On station-to-station calls, chargeable time begins when the connection is established between the calling telephone and the called telephone, regulated Miscellaneous Common Carrier mobile radio system, or PBX System.
 - On person-to-person calls^{1/}, chargeable time begins when the connection is established between the calling person and the particular person or station specified or an agreed alternate.
 - Chargeable time does not include time lost because of failure or defects in the service.
 - Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

IPP COIN LINE

/2/

A. DESCRIPTION

The IPP Coin Line is an optional exchange access line for use with payphone service. The IPP Coin Line is provided with central office-based features and signaling functionality.

B. DEFINITIONS

Coin Rating

A rate obtained from a table entry built into the Traffic Operator Position Switch (TOPS) with which the coin line interfaces in the central office.

Coin Supervision

The capability of recognizing and monitoring coins deposited into the payphone

Coin Control

The capability of collecting or returning coins deposited into the payphone

Call Screening

A screening feature that is provided with the Coin Line. The feature prevents toll fraud by restricting originating non-sent paid operator assisted calls to collect or third-party billing.^{/1/}

Independent Payphone Provider ("IPP")

The customer of AT&T Wisconsin subscribing to the Coin Line.

End User

Consumer making a call from the payphone.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

/2/ Material formerly appeared in Part 13, Section 2.

3. IPP COIN LINE (Cont'd)

1/

C. TERMS AND CONDITIONS

1. Unless otherwise specified, regulations in this Guidebook are in addition to those set forth for IPP Service in Part 13, Section 2 of this guidebook.
2. The IPP Coin Line offers central office based signaling required to enable coin rating, coin control, and coin supervision. The Coin Line also offers certain call screening (see definition above) designed to prevent fraudulent calls from being placed from the customer's payphone.
3. With the exception of coin sent paid local calls, rates applicable to end users for calls on the IPP Coin Line will be the same as for Ameritech's Public and Semi-public Service as specified in Part 13, Section 1 of Ameritech Tariff No. 20. Coin sent paid local calls will be controlled by the IPP.
4. Coin sent paid IntraLATA calls from IPP Coin Lines will be carried by Ameritech. Rates applicable to end users for these types of calls are the same as those specified for Public and Semi-public Services as shown in Part 13, Section 1.
5. All IntraLATA operator assisted calls will be handled by Ameritech operator services unless another authorized IntraLATA carrier which has the necessary coin control circuitry is selected by the customer. When Ameritech is selected, Ameritech operator services rates, as well as Ameritech IntraLATA toll rates, as specified in Part 13, Section of this guidebook, will apply to end users.
6. Rates applicable to end users for directory assistance calls will be the same as those charged from Ameritech's public and semi-public service.
7. No adjustments to the usage rates charged pursuant to 8 following or any other refund will be made in the event of uncollected initial period or overtime coin charges applicable to end users.
8. The customer shall be responsible for payment of all charges originating from or accepted at this type of service.

3. IPP COIN LINE (Cont'd)

/1/

C. TERMS AND CONDITIONS (Cont'd)

- 9. Coin sent paid revenues collected at the customer's payphone are the property of the customer.
- 10. Coin sent paid interLATA calls from IPP Coin Lines may be routed to any Interexchange Carrier selected by the customer who has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) which are required to complete the call.
- 11. The IPP Coin Line is available only from appropriately equipped central offices.
- 12. The customer's terminating equipment must be suitably equipped in order to utilize IPP Coin Line features. Such equipment must meet the interface specifications in the Technical Reference following.
- 13. Except for the recurring access line rate following, all rates and charges applicable under IPP Service (i.e., intraLATA toll, local usage, directory assistance, service charges, etc.) will apply to the customer.

-

-

Outgoing Only Service is an optional service offered to the customer who wishes to maximize payphone usage, or reduce the ability of an end user to conduct business from that location that prohibits incoming calls. Callers will hear a recording stating that the phone is not in service for incoming calls. It is the Payphone service provider's responsibility to state this restriction on the instruction card of the phone
